Re: Earnings Code Processing during Accounts Payable Pay Periods

Comptroller Memo FY#2023-22

Executive Summary

The purpose of this memo is to inform departments of the methodology for distributing and recording HR/CMS payroll charges in LCM and MMARS during the accounts payable pay periods. To accommodate multi-year payroll processing, certain earnings codes will only charge to FY 2023. This memo provides payroll directors with detailed guidelines on how to charge FY 2023 during the accounts payable pay periods. Note that, in accordance with state finance law requirements, departments must account for expenditures in the fiscal year during which the obligation was incurred. Payroll Holds are needed for all prior fiscal year charges during the accounts payable periods.

Accounts payable payrolls began on July 2, 2023, and include the pay periods ending on July 15, July 29, and August 12, 2023. During Accounts Payable, all prior fiscal year payments must have a related FY 2023 Payroll Hold (PH) encumbrance for funding.

Departments may not use FY 2023 funds to pre-pay for FY 2024 obligations and, conversely, may not pay for obligations incurred in FY 2023 with FY 2024 funds without prior year deficiency or other legislative authorization. Use of payroll codes are subject to audit; therefore, payroll directors should ensure that appropriate codes are selected with special attention to the fiscal year of the obligation.

HR/CMS Posting for Accounts Payable

There are only two ways to charge FY 2023 in HR/CMS:

- Use an Accounts Payable Earnings Code – Enter an Accounts Payable Earnings Code in Additional Pay for one of the accounts payable pay periods. See the list of Accounts Payable Earnings Codes below.

- In Timesheet, enter a Prior Period Adjustment for a date before June 17, 2023 – Note that any implied exceptions will post to the same date.

LCM Setup for Prior Fiscal Year Distribution

LCM uses the distribution in effect for an employee on the Pay Event Begin date to distribute labor charges.

Prior Period Adjustments for an employee will have the same Pay Event Begin and End dates as the pay period posted in Timesheet or the specific date used in Timesheet if a Combo Code is used to specify labor distribution for that employee.

Example: REG reported on June 12, 2023, will charge to FY 2023. LCM will use the distribution in effect on June 4, 2023, in most cases. If a Combo Code is used for that posting or any other charges for that employee, LCM will use the distribution in effect on June 12, 2023. To override the default distribution (DEPTE) for the charge, the department can create an EPPA for the pay period beginning on June 4, 2023 and ending on June 17, 2023.

In summary, 5 hours of REG are entered with a Combo code on June 12 and 3 hours of REG without a Combo Code in the Timesheet for June 12, 2023. The system will charge 5 hours to the account as per Combo code and 3 hours to the account set up in LCM for Pay Period ending on June 17, 2023.

All Accounts Payable Codes will have a Pay Event Begin and End Date of June 30, 2023, in LCM Labor History.

Example: ABN will charge to FY 2023. LCM will use the distribution in effect on June 30, 2023. To override the default distribution (DEPTE) for the charge, the department can create an EPPA for the pay period beginning on June 18, 2023 and ending on July 1, 2023.

Payroll Hold Transactions

Payroll Holds are needed for all prior fiscal year charges during accounts payable. ANF issues Encumbrance guidance; June 10, 2023, is the Payroll Hold Deadline. On June 30, 2023, Payroll Holds will be added to the Deadline for Late Encumbrances. Payroll Holds must be set up for each Appropriation and Object Code where expenses – including net \$0 adjustments – will be incurred.

Each accounting line of a Payroll Hold must contain the following fields:

- Fund
- Sub Fund
- Department
- Unit – Required for Expense Budgets only.
- Appropriation
- Object
- Program – Required for Federal Grants only.

There should only be one accounting line defined for each distinct combination of Fund, Sub Fund, Department, Appropriation, and Object.

Departments that do not use Departmental Expense budgets should leave the Unit blank.

Departments that use expense budgets must enter a value for Unit. Departments should choose the Unit that rolls up to the Division with the Expense Budget against which the Payroll Hold can encumber funds.

When the Payroll Hold is liquidated, the Unit on the actual payroll charge will be used to post the charges in LCM and MMARS.

Similarly, departments should leave the Program blank unless the Appropriation is a Federal Grant. Program is then required. Departments must choose one and only one Program to assign to a combination of Fund, Sub Fund, Department, Appropriation, and Object. When the Payroll

Hold is liquidated, the Program on the actual payroll charge will be used to post the charges in LCM and MMARS.
