"Hail to the Sunrise" Charlemont, Massachusetts Sculpture by Joseph P. Polia, 1932

Located on the famous Mohawk Trail, facing East overlooking the Deerfield river at the site of the old Indian fordway, Hail to the Sunrise depicts a Mohawk Indian beckoning with uplifted arms in supplication to the Great Spirit the new-born day of hope and peace for America.

It is a monument to the Five Indian Nations of the Mohawk Trail. The inscription on the arrowhead tablet at the statue's base reads: "Hail to the Sunrise - In Memory of the Mohawk Indian." This eight foot statue is a 900 pound bronze casting erected on a nine-ton boulder. The memorial includes a pool with 100 inscribed stones from various tribes and councils from throughout the United States.

After years of fundraising, it was erected by the Improved Order of the Red Men and their women's auxiliary, the Allied Councils of Pocahontas of the Old Deerfield conference.

Impressive unveiling ceremonies were held on October 1, 1932, with the surrounding hills ablaze with foliage of highly-painted Indian colors. Joe Mitchell Chapple in his address at the unveiling said; "Hail to the Sunrise symbolizes the hopefulness of humanity though the ages. This is an occasion when we commemorate the Red Man – not only the organization that has kept alive the great fundamental traditions of Freedom, Friendship, and Charity, but the race of Red Men from whom we have taken and inherited the boundless territory of this great republic."

The Improved Order of Red Men and Degree of Pocahontas was consolidated in 1834 from the St. Tamina Society, the Sons of Liberty and the Society of Red Men. Washington, Hancock and Adams were early promoters and organizers of this Order.

It is the United States oldest benevolent society of distinctively American origin.

Congress granted them a Charter "To Inspire Fraternity and Greater Love of the Principals of American Liberty."

Martin J. Benison, Comptroller One Ashburton Place Boston, MA 02108

To the Citizens of the Commonwealth of Massachusetts, Governor Jane Swift, and Honorable Members of the General Court

I am pleased to report that as of June 30, 2001, the financial condition of the Commonwealth remains sound, however the picture is changing. Since FY94 this office has reported that the fiscal health of the Commonwealth is strong. The Commonwealth has enjoyed over seven years of prosperity and growth. The Commonwealth's unemployment level shrunk during the time period by 42% from 205,000 citizens unemployed in 1994 to 86,000 in 2000. At some point the economy had to slow down. As of June 30, 2001, the Federal Reserve Bank of Boston, in its monthly "New England Economic Indicators," reports that the number unemployed in our Commonwealth has increased to 113,000, or a rate of 3.4%. This rate is under the "full employment" threshold of 5%, but it is rising. The same report shows that the consumer confidence index has slipped in our Commonwealth from a rate of 156 a year ago, to 108 today, with future expectations lower. This softening economy is reflected in tax receipts for the first quarter of FY02. Tax revenues are \$202 million below amounts assumed in the Governor's budget recommendation and reflect a real decline from the same period last year.

Fortunately, prudent planning throughout the 1990s has left the Commonwealth well positioned for this economic slow down. The Commonwealth ends FY01 with a \$3 billion surplus in its budgeted funds. Since FY91, the Commonwealth's Stabilization Fund, sometimes called the "rainy day fund," has grown from a balance of \$59 million to over \$1.7 billion, its maximum. In addition, in the final set of appropriation acts for the fiscal year, the Commonwealth set aside over \$579 million in FY01 surpluses to be appropriated no later than November 30, 2001.

The Stabilization Fund is a strategic tool at decision makers' disposal to assist the Commonwealth through this difficult time. It may be used in three circumstances. The first is to make up any difference between the actual state revenues and the allowable state revenues in the case of a revenue shortfall. The second is to replace federal funds in the case of a shortfall. Finally, the fund may be used for any event that threatens the health, safety, welfare, or stability of the Commonwealth, including an economic downturn. The challenge is to use it wisely to help the Commonwealth transition to this new economic reality, not delay necessary changes that must be made.

In previous years, year-end transfers of budget surpluses were made to the capital project funds to make strategic investments for the management of the Commonwealth's capital budget, to defease high

interest debt that otherwise could not be refunded, and continue to increasing reserves.

In accordance with Massachusetts General Laws, the Office of the Comptroller transmits the Statutory Basis Financial Report (SBFR) on or before October 31st. The SBFR report for fiscal year ended June 30, 2001 (FY01) herein is audited by Deloitte & Touche, Independent Certified Public Accountants, and represents the conclusion of financial activity and the closing of the Commonwealth's books on the statutory basis of accounting for the fiscal year. This audit is conducted in conjunction with the Office of the State Auditor, which provides knowledge, expertise and resources to close and audit the financial statements.

This report includes the budgeted funds, non-budgeted special revenue funds, capital project funds, fiduciary funds and the non-appropriated funds of higher education.

The financial operations of these funds are maintained in the Massachusetts Management Accounting and Reporting System, (MMARS). The statewide accounting system is operated by the Commonwealth and contains detailed information summarized in this report.

The SBFR is intended to satisfy the requirements of state finance law, and to present fairly the results of FY01 activity in the Commonwealth's funds. The report contains computations required by state finance law, including the certification of the Stabilization Fund and Tax Reduction Fund. The statutory basis of accounting, defined in Massachusetts law, is typically used to budget and control fiscal operations. The statutory basis of accounting is not in conformity with accounting principles generally accepted in the United States of America, (GAAP) as defined for governments by the Government Accounting Standards Board (GASB.) I will report the Commonwealth's financial position on a GAAP basis in December, in our Comprehensive Annual Financial Report, (CAFR.)

Budgeted Revenues and Other Sources

Budgeted Funds

For fiscal 2001, sources of budgeted funds exceeded uses of budgeted funds, resulting in an operating surplus of \$726 million. This surplus is net of \$34 million transferred to fund future capital projects.

More importantly, any surplus or deficit has to be viewed in a trend. Generally accepted standards indicate that a structural balance is achieved when revenues exceed expenditures over a period of multiple years. Before one-time uses of surpluses, the Commonwealth has over a decade-long record of operating gains. The \$34 million transferred for capital outlays allow the Commonwealth to issue fewer bonds in the future to pay for capital costs. The \$624 million transferred for defeasance allows the Commonwealth to pay less in the future for capital costs already bonded. This is sound fiscal policy.

Budgeted Expenditures and Other Uses

In FY01, budgeted revenues and other sources grew 1.2% over FY00 reflecting a "leveling off" economy, the phase-in of the reduction of the income tax, and subsidies to the MBTA along with related financing sources being moved "off budget." Budgeted tax revenue (adjusted for the change in funding related to the MBTA) increased by 6.6% over FY00. These are compared to 12% gains in budgeted revenues and 9.8% gains in tax revenues during FY00 from FY99. From a multi-year perspective, the proportion of revenue sources by category to total budgeted revenues and other sources did not materially change from FY00 to FY01. Personal income, sales and corporate taxes continue to be the three largest sources of tax revenue for the Commonwealth.

Budgeted expenditures and other uses, including transfers, decreased 1.2% from FY00 to FY01. This decrease is the result of subsidies to the MBTA that were moved off budget, \$600 million in one time savings related to defeasance of high interest debt and the deficit elimination within the Highway and Local Aid Funds performed only in FY00. The Budgeted Funds – Operations table on page 4 displays the FY01 summary of budgeted funds, compared to FY00. Financial statements for each of the 57 individual budgeted funds are included in the financial section of this report.

In conducting the budget process, the Commonwealth excludes those "interfund" transactions within the budgeted funds that, by their nature, have no impact on the combined fund balance of the budgeted funds. The table isolates this "interfund" activity from the budgeted sources and uses to align forecasts prepared during the budget process to actual amounts in this report. For example, the <u>Budgeted Funds – Operations</u> table on the following page, in previous years isolated the assessments on municipalities collected by the Commonwealth and paid to the MBTA and regional transit authorities. The effect of Forward Funding the MBTA and other measures reduced these transfers by nearly \$3 billion this year. A detailed list of these interfund transfers is included in note 3 to the general purpose financial statements.

The graph of <u>Budgeted Funds – Fund Balance</u>, on page 5, shows the combined fund balance in the budgeted funds for the past five years. This "bottom line" perspective demonstrates the accumulation of resources attributable to balanced budgets over this period. The FY01 ending balance of \$3 billion is composed of three items. The aforementioned Stabilization Fund balance of \$1.7 billion is the largest component. The other components include \$367 million undesignated.

Budgeted Funds - Operations (Amounts in thousands)

	2000	2001
Beginning fund balances:

Budgeted Funds – Fund Balance (Amounts in Thousands)

Stabilization Fund Fund Balance (Amounts in Thousands)

"Consolidated Net Surplus"
Prior to Transfers
(Amounts in Thousands)

surplus available for appropriation in FY01 and \$895 million reserved and designated for continuing appropriations, transitional escrow and debt service. With the current state of the economy, we now realize the importance of the balance in the Stabilization Fund and its direct correlation to the positive financial condition of the Commonwealth. State finance law, as amended during FY98, increased the maximum balance that may accumulate in the fund to a level of 7.5% of budgeted revenues and other sources. The law then directs that any amount in excess of this "cap" be transferred to the Tax Reduction Fund for future, one-time, personal income tax rebates. In FY01 with a deposit of \$51 million this cap of \$1.7 billion has been reached. \$30 million in excess of the cap has been deposited in the Tax Reduction Fund. The details of these calculations can be found on page 318 of this report.

The graph, Stabilization Fund Balance portrays this "cap" and the balance of the fund over a five-year period. Despite the Commonwealth's positive financial condition, a few cautionary notes are merited. There are certain problems with the definitions in the state finance law, enacted in 1986 and continued with slight modifications to the present. A balanced budget, defined as the "Consolidated Net Surplus," is the combined undesignated fund balance of the General, Local Aid, and Highway Funds. According to this restricted definition, fiscal balance was achieved in FY01 in the amount of \$170 million. However this definition excludes 52 other budgeted funds with combined undesignated fund balances of over \$283 million plus reserves for continuing appropriations. The Commonwealth should adopt a more straightforward definition of fiscal balance. State finance law should be amended to rationalize the contributions to the Stabilization Fund to include the entire population of budgeted funds.

Under current general laws, an amount equal to 0.5% of tax revenues is retained in the funds contributing to the calculation. Any amount in excess of this is available for transfer from the General and Local Aid funds to the Capital Projects Fund in lieu of bonds, and the balance is transferred to the Stabilization Fund. In FY01, \$34 million was transferred for capital projects with the remaining balance transferred to the Stabilization Fund.

Further complicating this issue is the existence of a large number of "minor" budgeted funds. Over the past several years, dozens of new "minor" funds have been created. These funds split off revenues and expenditures previously accounted for as part of a major fund, such as the General Fund. A number of these funds have structural imbalances leading to chronic deficits. The trend to fragment the budget into such special interest funds should be addressed with a plan to either consolidate to a more reasonable number of funds or eliminate funds that are structurally in deficit.

Non-Budgeted Funds

The Non-Budgeted Funds represent operations in which the government has imposed its sovereign authority, but has excluded these operations from the annual budget process. During FY01, the Commonwealth maintained 31 of these funds. The largest funds in activity include the Lottery, Federal Grants, Debt Defeasance, Health Care Security Trust (the recipient of tobacco settlement funds), Grant Anticipation, Sewer Rate Relief, the Medical Security Trust and the Uncompensated Care Funds. These funds are commonly referred to as special or dedicated revenue funds whose revenues are matched to related expenditures.

The table, Non-Budgeted Funds — Operations, includes a summary of the FY01 non-budgeted funds. Financial statements for each of the individual funds are included in the financial section of this report. Several of these funds are worth mentioning. At June 30, 2001, the Federal Grants Fund had a positive fund balance, but there is a deficiency in cash within the fund. This situation results in the Commonwealth drawing funds from the federal government a few days after applicable cash disbursements to assure an "interest neutral" timing of the federal — state cash exchange. These requirements were established by the Cash Management Improvement Act of 1990. Within the Lottery Funds, gross revenues continued to increase this fiscal year. However, due to legislation passed advancing Cities and Towns an extra payment during the fiscal year, to be netted out of the December 2001 quarterly payment, the State Lottery Fund has a deficit of nearly \$12 million.

2000

and other uses.		186,413		(204,149)
Ending fund balance	\$	1,089,430	\$	885,281

The Health Care Security Trust Fund receives all revenues from the Master Settlement Agreement (MSA) between the states and the tobacco industry to recover healthcare costs for tobacco related illnesses. The MSA estimates the Commonwealth revenues for the first 25 years of the settlement to be approximately \$7.6 billion. However, this estimate is prior to future adjustments including adjustments for inflation and changes in the volume of domestic cigarette sales. In FY01, the Commonwealth received over \$242 million or 87% of the estimated amounts shown in the agreement. Of the \$242 million, nearly \$82 million was transferred to the Tobacco Settlement Fund, a budgeted fund. The majority of expenditures from the fund this year were for Health and Human Services, Elder Affairs and Medicaid costs.

Beginning in FY01, a board of public and private sector investment experts, appointed by the Governor, the Attorney General and the Treasurer-Receiver-General, will manage the investment of funds in the trust. This board has broad discretion on investment choices to increase the assets in the fund. Annually, 30% of payments into the fund and investment earnings thereon will be transferred from the trust to the budgeted funds for appropriation by the Legislature. This board has decided to leverage the experience and the economies of scale of the Pension Reserves Investment Trust while actively managing the asset allocation.

Federal Grant Anticipation Notes, (GANS) activity related to the Central Artery / Tunnel Project (CA/T) continued this year. During FY98, the Legislature authorized the issuance of up to \$1.5 billion in GANS to finance the current cash needs of the Project. As of June 30, 2001, all of the GANS have been issued. These GANS mature between 7 to 17 years from the date of issuance and are redeemed by pledged future federal reimbursements. The GANS are not considered general obligation debt of the Commonwealth. Activity related to issuance of GANS and the accumulation of pledged funds and the payment of debt service is accounted for in the Grant Anticipation Note Trust Fund. The \$124 million surplus in FY01 represents \$83 million held for payment of interest on the GANS and \$41 million in cash from the GANS issuance that will be expended on the construction of the CA/T.

The universal health care funds, including the Uncompensated Care, Labor Shortage and Medical Security Trust Funds, have increased their annual revenue to over \$1.1 billion. They also have a combined fund balance of over \$241 million.

The graph Non-Budgeted Funds Balance shows the combined fund balance in the Non-Budgeted funds for the past five years. In each year, the entire balance is designated for the specific purpose of the fund. The overall growth in fund balance in these funds this fiscal year is due largely to deposits into the Debt Defeasance and Health Care Security Trust Funds. The GANS fund had a net deficit balance in FY01 due to timing. As indicated in previous years, more consolidation and elimination is needed for these funds. For example, the Government Land Bank Fund has a chronic structural fund deficit.

Non-Budgeted Funds – Fund Balance (Amounts in Thousands)

The FY01 deficit balance of \$35 million represents an unbudgeted drain in cash flows in the General Fund. While steps have been taken to stop the growth in this deficit, the Fund should be abolished and the deficit transferred into the General Fund. An additional deficit exists in the Motor Vehicle Inspection Fund. However, the enabling statute to the Fund mandates that the Fund must be in balance by June 30, 2005. A periodic re-examination of all non-budgeted funds represents sound financial practice.

Capital Projects Funds

The purpose of these funds is to construct or acquire capital assets for governmental use. The Governor may propose capital outlay budgets, which, upon enactment by a two-thirds vote of the Legislature and approval by the Governor, become capital outlay acts. Numerous acts may be combined for reporting in an individual Capital Project Fund, but each act is accounted for separately within the Capital Projects Fund. These accounts record authorizations for expenditures in itemized capital appropriation accounts and equivalent authorizations to issue bonds or notes in anticipation of federal reimbursements.

The structure of these funds is that each capital outlay authorization is in balance, creating authorization for inflows, which may be from sales of bonds, federal reimbursements or other revenues and authorization for expenditures. Imbalances due to timing differences develop when the expenditure precedes the inflow of funds from the sale of bonds or federal reimbursements. Because of federal tax arbitrage rules, it is more difficult to sell bonds in anticipation of expenditures. The sale of bonds in advance is not commonplace in the Commonwealth.

However, six series of bonds were sold this year in advance, both funding the CA/T. The Commonwealth sold variable rate demand bonds and auction rate securities in these transactions totaling approximately \$677 million. In addition, \$400 million of notes were also sold in advance to help finance the Convention Center Project in South Boston.

The variable rate demand bonds and auction rate securities funded a significant portion of the Capital Projects activity relating to the CA/T. The CA/T has been the target of an enormous amount of public scrutiny. As indicated in the footnotes to the General Purpose Financial Statements, the financial disclosure portion of the project is under review with various federal agencies. The Commonwealth has aggressively responded to these concerns regarding the integrity of the cost estimates. For the second year, an independent evaluation of the entire estimate for the project has been undertaken. In the proposed finance plan released August 31, 2001, the cost of the project has risen \$400 million to \$14.475 billion. It is important to note that the federal government has capped its contribution to this project and the finance plan includes state sources to fund this increase. The plan also reported that the project is over 69% complete.

Central Artery / Tunnel Project (Amounts in Billions)

Sources of Funds:	2000		2001

FY05		0.240		0.336
FY06	_			0.135
Total Estimated Costs of Construction:	s	14 075	s	14 475

During FY00, the Commonwealth put in place a new management team for the project that is committed to full, timely disclosure about schedules and costs. The bulk of the spending remaining on the Project and will occur during FY02 and FY03. Completion is expected to be during FY06. However, a leak has developed in the tunnel sections of Interstate 90 under the Fort Point Channel in Boston. As of October 1, 2001, the estimate of the opening of this phase of the project has been pushed back at least two months, from September 2002 to November of 2002, at the earliest.

Pursuant to statute and agreements with the Massachusetts Turnpike Authority (the MTA) and the Massachusetts Port Authority (MassPort), the entities have committed to significant ongoing contributions to the Commonwealth as part of the financing for this project. These funds are in addition to funds from the Commonwealth and federal funds for the project.

Finally, the Highway Capital Projects Funds will continue to show a deficit for the foreseeable future. That fund's deficit will be amortized through FY20 to pay for the MBTA Forward Funding, unless otherwise bonded for.

The graph <u>Capital Projects Funds – Fund Balance (Deficit)</u> shows the combined fund balance in Capital Projects Funds for the past five years. The graph shows a surplus in the funds in FY01 due to the bonding in advance for the CA/T completed this year.

The <u>Capital Projects Funds</u> – <u>Operations</u> table on the next page, includes the FY01 Capital Projects Funds, summarized and compared to FY00. Financial statements for each of the individual funds are included in the financial section of this report.

The Administration has implemented a coordinated fiscal strategy for the management of Capital Projects Funds. This strategy includes a five-year capital budget linked to debt management and cash management. The focus of this strategy is to manage capital spending and outstanding debt to levels the Administration considers appropriate for the Commonwealth. An important part of the strategy is to control capital spending within an annual administrative "cap." As additional capital outlays have been enacted and significant projects such as the CA/T have been authorized, it becomes more challenging to restrain spending to such limits. Strategies to manage this situation, such as alternative financing for capital projects, are needed. The MTA and Massport's participation in the CA/T and the judicious use of operating surpluses should continue.

Capital Projects Funds – Fund Balance (Deficit) (Amounts in Thousands)

Capital Projects Funds - Operations (Amounts in thousands)

	2000	2001
Beginning fund balance (deficit)	\$ 166,813	\$ (485,558)
Revenues and other sources:		
Federal grants and reimbursements	2,529	1,035

Total expenditures and other uses	4,563,421	4,393,281
Excess (deficiency) of revenues and		
other sources over expenditures and uses	(652,371)	1,132,009
Ending fund balance (deficit)	\$ (485,558)	\$ 646,451

The reductions in debt service from budgeted fund balance transfers for defeasance will be used, in part, to fund an initiative from FY02 through FY06 to rehabilitate the Commonwealth's road and bridge infrastructure. According to Massachusetts Highway Department statistics, during the last eight years, road and bridge construction projects statewide totaled over \$5 billion in spending, exclusive of the CA/T. Also, according to the Highway Department, road and bridge construction statewide was \$577 million in FY01, compared to an average of \$395 million in spending per year from FY89 to FY93. The financing plan increases this average, exclusive of the CA/T, for the next five years.

The Commonwealth also completed during August 2000, the financing of lease revenue bonds in connection with the Route 3 North Project, a long — neglected, narrow and congested highway from the New Hampshire border to Route 128 / 95 in Burlington. This financing is the first of its kind in the Commonwealth. A nonprofit corporation has been created to accept lease payments from the Commonwealth and award a singular contract to a development team to design, build, and potentially maintain the highway. When the project is completed in late FY04, estimated travel times are expected to be reduced in a 12-mile stretch of the road from 40 minutes to 15 minutes.

Fiduciary Funds (Excluding Agency Funds)

The Fiduciary Funds record the Commonwealth's responsibility for assets it controls on behalf of other parties. Examples of such funds are the Unemployment Compensation and Pension Trust Funds. The table on the following page, which excludes assets held on a purely custodial capacity in so-called Agency Funds, summarizes the FY01 activity of the Fiduciary Funds. Over 92% of this Fiduciary Fund activity is related to the Commonwealth's Pension Fund detailed in fund statements found in this report.

On September 19, 2001, the Commonwealth updated its pension valuation. The valuation was based on data as of January 1, 2001. Details of this valuation are outlined in note 10. While the value of pension assets has dropped 2.7% since this valuation, the public retirement system remains strong at 82.7% funded.

Fiduciary Fund - Operations (Excluding Non-Expendable Trusts)
(Amounts in thousands)

	2000	2001
Beginning fund balance	\$ 28,387,447	\$ 32,860,778
Revenues and other sources:

Federal reimbursements	31,481	41,253
Departmental and other revenues	1,551,987	1,701,987
Interfund transfers and other sources	21,587	24,649
Unrealized and realized investment earnings / (losses)	4,480,252	(1,819,686)
Total revenues and sources	6,947,150	842,364
Expenditures and other uses:		
Expenditures	2,407,771	2,653,885
Interfund transfers.	66,048	91,693
Total expenditures and uses	2,473,819	2,745,578
Excess (deficiency) of revenues and sources over expenditures and uses	4,473,331	(1,903,214)
Ending fund balance	\$ 32,860,778	\$ 30,957,564

Non-Appropriated Funds of Higher Education

The SBFR includes the financial operations of the non-appropriated funds of the 25 Institutions of Higher Education in the statistical section of this report. Over the past few years, significant efforts have been taken by our office and the institutions to improve the accuracy and timeliness of this Higher Education segment of the financial report. Each Institution of Higher Education is authorized and directed in its enabling statute to collect, retain and expend certain fees, rents, sales, donations, federal financial participation and other types of revenue through campus based systems. These financial resources are integral parts of the total financial activity of each campus. They also represent resources in addition to amounts made available from Commonwealth appropriations.

Non-Appropriated Funds Of Higher Education - Operations (Amounts in thousands)

Non-Appropriated Funds of Higher Education – Fund Balance (Amounts in Thousands)

The Non-Appropriated Funds for Higher Education – Operations table includes the FY01 funds, summarized and compared to FY00. Financial statements for each of the individual funds are included in the statistical section of this report. The graph Non-Appropriated Funds for Higher Education – Fund Balance shows the combined fund balance for the past five years. The combined balance represents \$643 million for the University of Massachusetts, \$80 million for the State College system and \$67 million for the Community Colleges. These balances are designated for specific purposes, such as restrictions on endowments or other specialized purposes specified by the funding contributions.

Conclusions And Recommendations

The Commonwealth has many accomplishments in FY01 of which it can be proud.

The Office of the Comptroller has undertaken a major effort to build a more collaborative working relationship among members of this office and Chief Fiscal Officers (CFO) of the Commonwealth. For the first time, the Commonwealth held a CFO conference bringing together CFOs from across the Commonwealth for two days of meetings. There, I introduced the concept of PARTNERS as way to communicate, solidifying our Office's relationship with the rest of the Commonwealth's CFOs. PARTNERS stands for accountability, responsibility, trust, negotiation, efficiency, risk assessment and mitigation, and solutions. We have enhanced the mantra that all systems, big and small, depend on people who are integral to those systems. As fiscal officers of the Commonwealth, we are all accountable for our actions, ensuring the uncompromising integrity of the financial statements of the Commonwealth. We must maintain this standard to maintain the public trust. We have introduced more delegation this year to individual departments due to the level of trust that we have between them, based on prior results. delegation, was the result of intense negotiation between our Office, other central service offices, and the CFO's. We must continually strive to balance accountability with efficiency, especially in order to continually serve the Citizens of the Commonwealth, our customers. This balancing also targets controls to result in effective risk mitigation. Finally, we strive to find solutions to many of the Commonwealth's problems in conjunction with the rest of the CFOs, so that full input is heard.

This year, the Commonwealth has started the process of consolidating its web sites to better serve the Citizens of the Commonwealth. With service to our customers as key, the Commonwealth's new web portal "Mass.Gov" promises to bring government closer to the people. Mass.Gov will be customer-focused. It will provide services according to the needs of citizens and businesses, not according to government structure. Citizens will be able to quickly find the information and services they need without having to navigate the bureaucracy of government. Mass.Gov will provide comprehensive, integrated, and seamless services that our Citizens will be able to bring into their homes or businesses at their convenience, twenty-four hours a day, seven days a week. An element of Mass.Gov is the successful massfinance.com web site that our Office hosts. Vendors of the Commonwealth can view at a moment's notice what is being paid to them, from what agency and when. Furthermore, our electronic funds transfer (EFT) campaign is in full swing. Every EFT generated by the Commonwealth saves the Commonwealth 45¢ in processing costs, saving millions of dollars a year. We are also migrating to "web" distributed pay advices for our employees, saving thousands a year in production and transportation costs.

All of this falls under the concept raised in the question "what can we do better, more efficiently, at lower cost?" The Management for Results Initiative, (MRI,) is the process of examining every facet of Commonwealth government, with the goal of better serving the needs

of our Citizens without additional funds, without a decrease in level of service.

Building upon the observations of this letter, a detailed review of these financial statements suggests the need for action to further improve and strengthen state finance law and fiscal practice.

The Commonwealth must define the term "Chief Fiscal Officer" in law. Central to our partnership with CFO's is ensuring they are empowered to do the job we ask of them. Too often, a department's chief fiscal officer is not directly accountable to the chief executive officer of the department. Too often, the CFO does not have the proper functions reporting to them, enhancing internal controls. We will work to pass legislation strengthening the CFO's role.

The Commonwealth must constantly monitor and update its systems and controls. Upon taking office 30 months ago, I began a multi-year effort to expand awareness of and the quality of internal controls throughout the Commonwealth. We have asked each department, at its highest levels, to assess its risks and target controls to manage those risks efficiently and effectively. Toward this end, the Office of the Comptroller has continued a multi-pronged effort to improve controls throughout the Commonwealth. This effort must continue.

The Commonwealth must ensure that its bills are paid on time. A solid reputation of timely bill payments benefits both our business partners and the taxpayers. During FY00, this office began a campaign with the Chief Fiscal Officers in the 154 state departments to improve the percentage of bills paid within 30 days. The timing and focus on bill paying improved the Commonwealth's bill payment track record this year to 84% of all bills paid within 30 days. This effort will continue until we have reached and maintained a 95% level.

The Commonwealth should adopt a more straightforward definition of fiscal balance including all of the budgeted funds. The idiosyncratic definition of fiscal balance that includes a portion of fund balance within three of the 57 budgeted funds should be expanded to include all 57 funds.

The Commonwealth should reduce the number of funds and eliminate funds that have chronic deficits. The Commonwealth currently maintains over 122 individual funds to record its financial activity. This excessive number of funds fragments the Commonwealth's financial picture. Many of these funds have structural imbalances leading to chronic deficits. The effort to reduce the number of funds should continue. A fund should be a self balancing set of accounts where decision makers want to set aside a specific set of revenues to fund a specific set of activities. Nineteen of the 57 budgeted funds are in the environmental fund group. Fifteen of these nineteen funds contribute to accumulated deficits of \$96.7 million in this fund group. The revenues and expenditures in these funds should be brought into alignment either through increased fees and assessments or decreases in appropriation, otherwise we should acknowledge that these services are to be funded from general tax revenues and consolidate this activity into the general fund. The table, Minor

•			
Subtotal Budgeted Other		_	(44,138)
Total Minor Budgeted Funds with Deficits		\$	(140.856)

Budgeted Funds with Deficits, identifies funds with significant deficits that remained unfunded or continued to grow during FY01 or where no plan exists to bring them into balance. It is important to note that the funds to finance these deficits are parked in surpluses in other funds and cannot be used without first identifying a financing source for these deficits. The structure of these funds should be changed to balance revenues with expenses or the funds should be eliminated and their activity consolidated into the General Fund.

The management of the spending to the administratively capped debt limit should continue. The Commonwealth has committed to an extensive capital projects agenda and great discipline will be needed to assure spending on these projects is matched with financing from bonds, federal reimbursement, transfer of budgetary surplus and financial participation from component units. Assuring proper balance between outflows and inflows, and limiting the segment funded by bonds to the administratively imposed limit, will be a major challenge.

The Commonwealth should adopt a more streamlined approach to capital budgeting and spending. Like the debt limit cap, the Commonwealth has a capital-spending cap, currently at \$1.15 billion per year. The transactions involved with capital budgeting and spending are interpretation as to which category of spending is actually going on. The Fiscal Affairs Division, the Secretary for Administration and Finance and various capital-intensive departments to come up with a more straightforward capital spending methodology.

The Commonwealth should continue to emphasize optimization of both tax and non-tax revenues. This statewide campaign has generated nearly \$244 million in revenues since FY96. The revenue optimization strategy should continue.

I again would like to express my thanks to the many dedicated people within the Office of the State Comptroller. We have had another successful year within the office. Our office has undertaken many tasks this year. As we go forth into FY02, we are embarking on the redesign of our separate Comprehensive Annual Financial Report due to GASB Statements 34, 35, 37 and 38. We are also investigating a potential upgrade to MMARS. I am proud to have all the 115 employees of the Comptroller's Office on my team to help tackle these and other difficult issues of the future.

Respectfully submitted,

Martin J. Benison Comptroller of the Commonwealth

Deloitte & Touche

INDEPENDENT AUDITORS' REPORT

Mr. Martin Benison, Comptroller The Commonwealth of Massachusetts:

We have audited the accompanying combined financial statements – statutory basis of the Commonwealth of Massachusetts as of June 30, 2001, and for the year then ended, listed in the foregoing table of contents. These combined financial statements – statutory basis are the responsibility of the management of the Commonwealth of Massachusetts. Our responsibility is to express an opinion on these combined financial statements – statutory basis based on our audit. We did not audit the financial statements of the Pension Reserves Investment Trust, which is the investment vehicle of the Commonwealth of Massachusetts' Pension Trust Funds, the financial statements of which represent 86.0 percent of the assets and -177.2 percent of the revenues of the Fiduciary Fund Type. Those financial statements were audited by another auditor whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Pension Reserve Investment Trust, is based solely on the report of the other auditor.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the combined financial statements – statutory basis are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the combined financial statements – statutory basis. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall combined financial statement – statutory basis presentation. We believe that our audit and the report of the other auditor provide a reasonable basis for our opinion.

As described in Note 2 to the combined financial statements – statutory basis, the Commonwealth of Massachusetts prepares its combined financial statements – statutory basis on a prescribed basis of accounting that demonstrates compliance with General Laws and budgetary principles and funds of the Commonwealth of Massachusetts which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

In our opinion, based on our audit and the report of another auditor, such combined financial statements – statutory basis referred to above present fairly, in all material respects, the financial position of the Commonwealth of Massachusetts, as of June 30, 2001, and the results of its operations for the year then ended, on the basis of accounting described in Note 2.

Our audit was conducted for the purpose of forming an opinion on the combined financial statements – statutory basis taken as a whole. The combining and individual fund statements – statutory basis and supplemental information listed in the foregoing table of contents, are

Deloitte Touche Tohmatsu presented for the purpose of additional analysis and are not a required part of the combined financial statements – statutory basis of the Commonwealth of Massachusetts. These financial statements and schedules are also the responsibility of the management of the Commonwealth of Massachusetts. Such additional information has been subjected to the auditing procedures applied in our audit of the combined financial statements – statutory basis and, in our opinion, based on our audit and the report of the other auditor, is fairly stated in all material respects when considered in relation to the combined financial statements – statutory basis taken as a whole.

We did not audit the data included in the introductory and statistical sections of this report, and accordingly, we express no opinion on such data.

In accordance with Government Auditing Standards, we have also issued our report dated October 24, 2001, on our consideration of the Commonwealth of Massachusetts' internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. This report is an integral part of an audit performed in accordance with Government Auditing Standards and should be read in conjunction with this report in considering the results of our audit.

This report is intended solely for the use of elected and appointed officials of the Commonwealth of Massachusetts and is not intended to be and should not be used by anyone other than these specified parties.

1. FINANCIAL STATEMENT PRESENTATION

Introduction – The accompanying combined financial statements – (Statutory Basis Financial Report) of the Commonwealth of Massachusetts (the Commonwealth) are presented in accordance with the requirements of Section 12 of Chapter 7A as amended by Section 4 of Chapter 88 of the Acts of 1997 of the Massachusetts General Laws. The Office of the Comptroller also publishes the Commonwealth's Comprehensive Annual Financial Report (CAFR) which is prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for governments. GAAP is prescribed by the Governmental Accounting Standards Board (GASB,) the authoritative standard-setting body for establishing governmental accounting and financial reporting principles.

The Statutory Basis Financial Report (SBFR) – includes all the budgeted and non-budgeted funds and account groups of the Commonwealth, as recorded by the Office of the Comptroller in compliance with Massachusetts General Laws and in accordance with the Commonwealth's budgetary principles.

The Statutory Basis Financial Report's General Purpose Financial Statements are not intended to include independent authorities, non-appropriated funds of higher education or other organizations included in the Commonwealth's reporting entity as it would be defined under GAAP.

Statutory Basis – The Commonwealth reports its statutory basis financial position and results of operations in funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a set of self-balancing accounts that comprise its assets, liabilities, fund balances, revenues and expenditures/expenses. Transactions between funds within a fund type, if any, have not been eliminated.

Account groups are accounting entities used to provide accountability for the Commonwealth's general fixed assets and long-term obligations. They are not considered funds because they do not report expendable available financial resources and related liabilities.

The Fund types and account groups are organized as follows:

Governmental Fund Types:

Governmental Fund Types account for the general governmental activities of the Commonwealth.

Budgeted Funds – are the primary operating funds of the Commonwealth. They account for all budgeted governmental transactions. Major budgeted funds include the General, Highway and Local Aid funds which are identified by the Comptroller as the operating funds of the Commonwealth.

Non-Budgeted Special Revenue Funds — are established by law to account for specific revenue sources that have been segregated from the budgeted funds to support specific governmental activities such as federal grants, funds related to the tobacco settlement and the operations of the state lottery.

Capital Projects Funds – account for financial resources used to acquire or construct major capital assets and to finance local capital projects as well as a one time fiscal year 2000 transfer to forward fund the Massachusetts Bay Transit Authority (MBTA). These resources are derived from proceeds of bonds and other obligations, which are generally received after related expenditures have incurred, operating transfers authorized by the Legislature and from federal reimbursements. Deficit balances in Capital Projects Funds represent amounts to be financed.

Fiduciary Fund Types:

Fiduciary Funds account for assets held by the Commonwealth in a trustee capacity (Trust Funds), or as an agent (Agency Funds) for individuals, private organizations, other governmental units, and/or other funds.

Expendable Trust Funds – account for trusts whose principal and investment income may be expended for a designated purpose.

Nonexpendable Trust Funds – account for trusts whose principal cannot be spent.

Pension Trust Funds – account for the net assets available for plan benefits held in trust for the State Employees' and Teachers' Retirement Systems.

Agency Funds – account for assets the Commonwealth holds on behalf of others. Agency Funds are custodial in nature and do not involve measurement of operations.

Account Groups:

Account Groups establish control and accountability over the Commonwealth's general fixed assets and long-term obligations.

General Fixed Assets Account Group – accounts for the general fixed assets of the Commonwealth and capital leases.

General Long-term Obligations Account Group – accounts for long-term bonds and notes issued by the Commonwealth and capital leases.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Statutory Basis of Accounting – The Statutory Basis Financial Report is prepared from the Commonwealth's books and records and other official reports which are maintained on the basis of accounting used in the preparation of the Commonwealth's legally adopted annual budget (statutory basis). The statutory basis emphasizes accountability and budgetary control of appropriations. The Statutory Basis Financial Report is not intended to present the Commonwealth's financial condition and results of operations in conformity with GAAP. Under GAAP, the books are accounted for using a current financial resources measurement focus and the modified accrual basis of accounting.

Under the statutory basis of accounting, revenues are generally recognized when cash deposits are received by the Treasury. However, revenues receivable for federal grants and reimbursements are recognized when related expenditures are incurred. Amounts due from political subdivisions of the Commonwealth are recognized when considered measurable and available. Deeds excise taxes are recognized at the time of collection by the counties and the Commonwealth. Under GAAP, revenues are recognized when they become both measurable and available.

Under the statutory basis of accounting, expenditures are generally recorded when the related cash disbursement occurs. At year-end, payroll is accrued and payables are recognized, to the extent of approved encumbrances, for goods or services received by June 30. Costs incurred under the federally-sponsored Medicaid program, amounts required to settle claims and judgments against the Commonwealth, and certain other liabilities are not recognized until they are encumbered or otherwise processed for payment. Under GAAP, expenditures are recorded in the period in which the related fund liability is incurred.

The Pension Trust Funds are reported using a flow of economic resources measurement focus and the accrual basis of accounting on both the statutory and GAAP basis. Under this method, additions are recorded when earned and deductions are recorded at the time liabilities are incurred. This measurement focus emphasizes the determination of net change in assets available for pension benefits.

The accounting policies followed in preparing the accompanying statutory basis financial report are described in the remainder of this section.

Cash, Short-term Investments and Investments – The Commonwealth follows the practice of pooling the cash and cash equivalents of its Governmental and Fiduciary Funds. Cash equivalents consist of short-term investments with an original maturity of three months or less and are stated at cost. Interest earned on pooled cash is allocated to the General Fund, Expendable Trust Funds and, when so directed by law, to certain Special Revenue and Capital Projects Funds.

The Commonwealth enters into interest rate swap agreements to modify interest rates on outstanding debt. Other than the net interest expenditures resulting from these agreements no amounts are recorded in the financial statements.

Trust Funds, with investments of The Pension \$29,279,535,000 at fair value, are approximately permitted to make investments in equity securities, fixed income securities, real estate and other alternative investments. For investments traded in an active market, the fair value of the investment will be its market price. The Pension Trust Funds include investments in real estate, venture capital funds, real estate funds, limited partnerships, futures pools, international hedge pools, commodities pools, balanced pools, leveraged buyouts, private placements and other alternative investments. The structure, risk profile, return potential and marketability differ from traditional equity and fixed income Concentration of credit risk exists if a investments. number of companies in which the fund has invested are engaged in similar activities and have similar economic characteristics that could cause their ability to meet contractual obligations to be similarly affected by changes in economic or other conditions. To mitigate the exposure to concentrations of risk, the Pension Trust Funds invest in a variety of industries located in diverse geographic areas. As of June 30, 2001, the estimated fair values, determined by management with input from the investment managers, of these real estate and alternative investments were \$3,423,332,000 of the Pension Trust

Funds, representing 9% of the total assets of the Fiduciary Fund Type.

Securities Lending Program - The Pension Trust Funds participate in securities lending programs. Under these programs, the Trusts receive a fee for allowing brokerage firms to borrow certain securities for a predetermined period of time, securing such loans with cash or collateral typically equaling 102% to 105% of the fair value of the security borrowed. At June 30, 2001, the market value of the securities on loan from the Pension Reserve Investment Trust (PRIT) was approximately \$1,014,000,000. The value of the collateral held by PRIT amounted to \$1,078,000,000 at June 30, 2001. The PRIT securities on loan were collateralized at all times by U.S. Treasury securities of at least 100% of the value.

Receivables – Receivables are stated net of estimated allowances for uncollectible accounts. Reimbursements due to the Commonwealth for its expenditures on federally funded reimbursement and grant programs are reported as "Due from federal government."

Due from Cities and Towns – Represents reimbursement due to the Commonwealth for its expenditures on certain programs for the benefit of cities and towns.

Dedicated Revenue - As part of the General Appropriation Act of 2000 (Chapter 127 of the Acts of 1999.) the funding mechanism for the net cost of service and other costs of the Massachusetts Bay Transportation Authority (MBTA) was changed. This change became effective July 1, 2000. Under the new funding method (Forward Funding), the MBTA's costs are funded on a current basis, rather than 18 months in arrears as had been under previous practice. The method apportions a "dedicated sales tax" amounting to 1% of applicable sales in the Commonwealth directly to the MBTA. The MBTA will also continue to receive amounts assessed on the 175 cities and towns within the service area (assessments.) The assessments totaled \$144,554,000 and \$144,579,000 in FY01 and FY00, respectively. These assessments are projected to decrease yearly to approximately \$136,000,000 by FY06. After FY06, assessments will be adjusted annually by a maximum of 2.5%.

For FY01, the minimum amount due to the MBTA, or "base revenue," was \$645,000,000. In FY01 the dedicated sales tax revenue was greater than the base revenue with deposits in the Massachusetts Bay Transportation Authority State and Local Contribution Fund total approximately \$654,591,000. For FY02, the dedicated sales tax will be equal to the greater of the

amount raised by the sales tax or the base revenue of \$664,350,000.

The total cost to establish the Forward Funding mechanism was \$948,290,000. Of that amount, \$325,000,000 was funded through the issuance of General Obligation Bonds and \$10,540,000 was funded through operating transfers in FY00. During FY01, the Commonwealth appropriated \$27,500,000 to begin the amortization of \$612,750,000 of the remaining deficit in the Highway Capital Projects Fund. For FY02 through FY20, the Commonwealth has the option of either appropriating a level amount annually to fund the remaining cost, or bonding the deficit, to a maximum remaining authorization of \$475,000,000.

Inventories – The costs of materials and supplies are recorded as expenditures in Governmental Funds when purchased. Such inventories are not material in total to the financial statements and therefore are not recorded.

General Fixed Assets – General fixed asset acquisitions are recorded as expenditures in the acquiring fund and capitalized in the General Fixed Assets Account Group in the year purchased. General fixed assets are recorded at historical cost, or at estimated historical cost if actual historical cost is not available. Donated fixed assets are recorded at estimated fair market value at the date of donation

The cost of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized. Improvements are capitalized.

The Commonwealth capitalizes all land except land associated with infrastructure. It capitalizes buildings and equipment, including computer software, with a cost in excess of \$15,000 at the date of acquisition and with an expected useful life greater than one year. Public domain general fixed assets and infrastructure (roads, bridges, tunnels, dams, water and sewer systems, etc.) are not capitalized. Interest incurred during construction is not material and is not capitalized. No depreciation is provided on general fixed assets for FY01.

Interfund/Intrafund Transactions – During the course of its operations, the Commonwealth records transactions between funds and/or between departments. On the statutory basis, transactions between Governmental and Fiduciary Fund Types are recorded as adjustments to the

funds' cash accounts. As a result, a fund may report a deficiency in cash and short-term investments.

Transactions of a buyer/seller nature between departments within a fund are not eliminated.

Transfers in and out net to approximately \$1,815,000 due to higher education non-appropriated fund activity, which is not included in the combined statements – statutory basis.

Risk Management – The Commonwealth does not insure for state employees workers' compensation, casualty, theft, tort claims and other losses. Such liabilities are not recognized on the statutory basis until encumbered and/or processed for payment. For employees workers' compensation, the Commonwealth assumes the full risk of claims filed under a program managed by the Human Resources Division. For personal injury or property damages, Chapter 258 of the Massachusetts General Laws (General Laws) limits the risk assumed by the Commonwealth to \$100,000 per occurrence, in most The Group Insurance Commission circumstances. administers contributory health care and other insurance programs for the Commonwealth's employees and retirees.

The Commonwealth has entered into agreements for insurance for Central Artery/Tunnel Project workers' compensation and certain other claims that may arise in the course of the Project. This special arrangement has been approved by the Federal Highway Administration as a cost-effective method to fund current and potential future claims by contractors, workers, and other parties affected by the project. Pursuant to the agreement, the Commonwealth conveys a sum of money to an agent each month. This amount includes both federal and state share. The agent manages and settles all claims. conclusion of the program, the balance remaining, if any, will be returned to the Commonwealth and the federal government. The monthly amount conveyed to an agent is accounted for (on the statutory basis of accounting) as an expenditure in the Federal Highway Capital Projects Fund.

Encumbrances – Encumbrance accounting is utilized in the Governmental Fund Types as a significant aspect of budgetary control. The full amounts of purchase orders, contracts and other commitments of appropriated resources are encumbered and recorded as deductions from appropriations prior to actual expenditure, ensuring that such commitments do not exceed appropriations. Encumbrances outstanding at year-end for goods or services received on or before June 30 are reported as

expenditures and statutory basis liabilities as a component of accounts payable.

Fringe Benefit Cost Recovery - The Commonwealth appropriates and pays the fringe benefit costs of its employees and retirees through the General Fund. These fringe benefits include the costs of employees' health insurance, pensions, unemployment compensation, and other costs necessary to support the state work force. As directed by Chapter 29, Sections 5D and 6B(f) of the Massachusetts General Laws, these costs are assessed to other funds based on their payroll costs, net of credits for direct payments. Since these fringe benefit costs are not appropriated in the budget, the required assessment creates a variance between budget and actual expenditures The fringe benefit cost recoveries of at vear-end. \$196,238,000 in the budgeted funds result from costs assessments of \$139,862,000 in the governmental fund types and the expendable trust funds. The remainder of \$56,376,000 is assessed to the higher education nonappropriated activity which is not included in the statutory basis financial report.

School Construction Grants - The Commonwealth, through legislation, is committed to reimburse certain cities, towns and regional school districts for a portion of their debt service costs for school construction and renovation. These costs are recorded as expenditures when paid.

Compensated Absences – Employees are granted vacation and sick leave in varying amounts based on collective bargaining agreements and state laws. Upon retirement, termination or death, certain employees are compensated for unused vacation and sick leave (subject to certain limitations) at their then-current rate of pay. Vacation and sick leave are recorded as expenditures when paid.

Lottery Revenue and Prizes – Ticket revenues are recognized when sold and prizes awarded by the Massachusetts Lottery Commission are recognized as drawings are held.

Fund Balances – The Commonwealth reports fund balances as reserved where legally restricted for a specific future use. Otherwise, these balances are considered unreserved.

Fund balance has been reserved as follows:

"Reserved for continuing appropriations" – are unexpended amounts in appropriations which the Legislature has specifically authorized to be carried into the next fiscal year.

"Reserved for Commonwealth stabilization" – are amounts set aside in the Commonwealth Stabilization Fund in accordance with 5C of Chapter 29 of Massachusetts General Laws, as amended by Chapter 88 of the Acts of 1997, Chapter 175 of the Acts of 1998 and Chapter 87 and 236, Section 79 of the Acts of 2000.

"Reserved for tax reduction" - are amounts set aside in the Tax Reduction Fund according to Section 6 of Chapter 29B of the Massachusetts General Laws.

"Reserved for transitional escrow" – for FY00 reserves are set aside under Section 46 of Chapter 68, Acts of 1999. For FY01, amounts are reserved until November 30, 2001 under Chapter 88, Section 36 of the Acts of 2001.

"Reserved for debt service" – are amounts held by fiscal agents or the Commonwealth to fund future debt service obligations.

"Reserved for employees' pension benefits" – are the net assets of the Commonwealth's public employee retirement systems which cannot be used for any other purpose.

"Reserved for unemployment benefits" – are amounts reserved for payment of unemployment compensation.

"Reserved for capital projects" - are amounts reserved for capital projects.

Unreserved fund balance is segregated into two components:

"Designated for specific purpose" – are all unreserved fund balances for which the Legislature or Executive Branch has evidenced an intention to restrict for a specific purpose.

"Undesignated" – consists of cumulative surpluses or deficits of the Governmental Fund Types not otherwise designated.

Reclassification – Certain reclassifications have been made to the fiscal year 2000 account balances to conform to the presentation used in fiscal year 2001.

3. BUDGETARY CONTROL

State finance law requires that a balanced budget be approved by the Governor and the Legislature. The Governor presents an annual budget to the Legislature which includes estimates of revenues and other financing sources and recommended expenditures and other financing uses. The Legislature, which has full authority to amend the budget, adopts an expenditure budget by appropriating monies at the individual appropriation account level in an annual appropriations act.

Before signing the appropriations act, the Governor may veto or reduce any specific item, subject to legislative override. Further changes to the budget established in the annual appropriations act may be made via supplemental appropriations acts or other legislative acts. These must also be signed by the Governor and are subject to the line item veto.

In addition, Massachusetts General Laws authorize the Secretary of Administration and Finance, with the approval of the Governor, upon determination that available revenues will be insufficient to meet authorized expenditures, to withhold allotments of appropriated funds which effectively reduce the account's expenditure budget.

The majority of the Commonwealth's appropriations are non-continuing accounts which lapse at the end of each fiscal year. Others are continuing accounts for which the Legislature has authorized that an unspent balance from the prior year be carried forward and made available for spending in the current fiscal year. In addition, the Legislature may direct that certain revenues be retained and made available for spending within an appropriation. Fringe benefits and other costs which are mandated by state finance law are not itemized in the appropriation process and are not separately budgeted.

The original fiscal year 2001 appropriations act, Chapter 159, Acts of 2000, authorized \$20,523,689,000 in direct appropriations. In addition, the act contained \$955,049,000 in authorizations to retain and expend certain non-tax revenues of which \$938,804,000 were estimated to be collected and expended. The Act also included \$121,074,000 in interagency chargebacks. Chapter 159 included estimates of \$15,203,800,000 in tax revenues and approximately \$6,383,045,000 in non-tax revenues. With these revenues (exclusive of chargebacks)

projected to total approximately \$21,586,845,000 and with unreserved balances of approximately \$391,328,000 carried forward from the fiscal year 2000, the budget as presented in this original appropriation act was considered to be in balance.

Section 3 of Chapter 236, of the Acts of 2000, which was a supplemental budget for 2000, also authorized any excess funds from the final 2000 reconciliation of lottery revenues be carried forward and distributed to cities and towns. This amount totaled approximately \$955,000.

During fiscal year 2001, the Legislature also passed and the Governor signed, with some modification through veto, Chapters 196, 236, 311, 316, 354, 378, 384 and 410 of the Acts of 2000 and Chapters 3, 7, 8, 15 and 24 of the Acts of 2001, which included numerous supplemental budgetary appropriations. These supplements added \$606,273,000 of indirect appropriations and \$55,022,000 in retained revenue authorizations.

Subsequent to June 30, 2001, the Legislature passed and the Governor signed Chapters 88 of the Acts of 2001, which included \$164,150,000 in additional supplemental appropriations and \$1,337,000 in additional retained revenue authorizations. The cumulative fiscal year 2001 appropriations, retained revenues and interagency chargebacks totals \$22,427,549,000. Appropriations continued from fiscal year 2000 totaled approximately \$252,466,000 and certain interfund transfers directed by statute totaled approximately \$760,545,000.

Because revenue budgets are not updated subsequent to the original appropriation act, the comparison of the initial revenue budget to the subsequent, and often modified, expenditure budget can be misleading. Also, these financial statements portray fund accounting with gross inflows and outflows, thus creating a discrepancy to separately published budget documents. In conducting the budget process, the Commonwealth excludes those interfund transactions that by their nature have no impact on the combined fund balance of the budgeted funds.

Generally, expenditures may not exceed the level of spending authorized for an appropriation account. However, the Commonwealth is statutorily required to pay debt service, regardless of whether such amounts are appropriated. In addition, certain interfund assessments to allocate fringe benefits and other costs which are mandated by state finance law are not itemized in the appropriation process or separately budgeted.

The following table identifies this interfund activity from the budgeted sources and uses to align more clearly forecasts prepared during the budget process to the detailed fund accounting of the Commonwealth's statutory financial statements (amounts in thousands):

	Revenues and Other Financing Sources	Expenditures and Other Financing Uses
Actual as presented in the combined budget and actual statement - statutory basis	\$ 23,797,541	\$ 23,071,965
Service Fund Revenues	(108,527)	(108,527)
Adjustments to other financing sources and uses: Fringe benefit cost assessments Transfer from the Intragovernmental	(72,496)	(72,496)
Service Fund to the General Fund	(2,924)	(2,924)
Transfer from the Revenue Maximization		
Fund to the General Fund	(38,351)	(38,351)
RMV License Plates	(2,814)	(2,814)
Stabilization transfers	(51,693)	(51,693)
Transfer to Transitional Escrow Fund	(579,215)	(579,215)
Transfer to Tax Reduction Fund	(25,930)	(25,930)
Transfer to Clean Election Fund	(10,000)	(10,000)
Transfer to Children's and Senior's		
Health Fund	(36,952)	(36,952)
Transfer to Inland Fisheries and Game Fund	(90)	(90)
Transfer to Caseload Mitigation Fund	(2,021)	(2,021)
Actual as presented on budgetary documents	\$ 22,866,528	\$ 22,140,952

The section divider for the budgeted funds contains a list of budgeted funds grouped by categories.

The Office of the Comptroller has the responsibility to ensure that budgetary control is maintained on an individual appropriation account basis. Budgetary control is exercised through the state accounting system, Massachusetts Management Accounting and Reporting System (MMARS). Encumbrances and expenditures are not allowed to exceed the appropriation account's spending authorization.

4. DEPOSITS AND INVESTMENTS

The Commonwealth maintains a cash and short-term investment pool that is available for use by all funds. Each fund type's net equity in this pool is displayed on the combined balance sheet as either "Cash and short-term investments" or "Deficiency in cash and short-term investments." The investments of the Pension Trust Funds are held in a trust.

The Office of the Treasurer and Receiver-General (Treasury) manages the Commonwealth's short-term investment pool. Statutes authorize investment in

obligations of the U.S. Treasury, authorized bonds of all states, banker's acceptances, certificates of deposit, commercial paper rated within the three highest classifications established by Standard & Poor's Corporation and Moody's Commercial Paper Record and repurchase agreements that any of these obligations secure. Such investments are carried at cost, which approximates fair value.

The pooled cash and short-term investments at June 30, 2001 are as follows (amounts in thousands):

	Carrying Value
Cash and Certificates of deposit	\$ 253,758
Short-term investments:	
Commercial paper	1,303,535
Short-term investment pool	4,079,577
Repurchase agreements	760,219
Money market investments	854,170
Total	\$ 7,251,259

Pooled cash and short-term investments include the following:

Cash and short-term investments	\$ 8,315,052
Cash with fiscal agent	109,313
Deficiency in cash and short-term investments	(1,173,106)
Total	\$ 7,251,259

The Pension Trust Funds have invested a significant portion of their portfolios into a trust, which pools assets for investment purposes and allocates returns on these investments in proportion to each fund's share of the pool.

The investments are carried at fair value. At June 30, 2001, they are as follows (amounts in thousands):

	Amount
Investments:	
Equity securities	\$ 11,958,151
International investments	6,398,896
U.S. government and government agency securities	4,574,846
Fixed income securities.	2,924,310
Real estate	1,732,125
Alternative investments	1,691,207
Total	\$ 29,279,535

Financial Instruments with Off-Balance Sheet Risk - Certain investments of the Commonwealth may involve a degree of risk not accounted for on the respective financial statements. A description of such "off-balance sheet risks" are as follows:

Forward Currency Contracts - The Pension Trust Funds enter into forward currency contracts to hedge the exposure to change in foreign currency exchange rates on foreign portfolio holdings. The market value of the contract will fluctuate with changes in currency exchange rates. Risks may arise upon entering these contracts from the potential inability of counterparties to meet the terms of their contracts and from unanticipated movements in the value of a foreign currency relative to the U.S. dollar.

When the contract is closed, the Pension Trust Funds record a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed. Fluctuations in the value of forward currency contracts are recorded as unrealized gains or losses by the Pension Trust Funds.

Future Contracts - The Pension Trust Funds may purchase and sell financial futures contracts to hedge against changes in the values of securities the fund owes or expects to purchase. Upon entering such contracts, they must pledge to the broker an amount of cash or securities equal to a percentage of the contract amount.

The potential risk is that the change in the value of futures contracts primarily corresponds with the value of underlying instruments which may correspond to the change in value of the hedged instruments. In addition, there is a risk that PRIT may not be able to close out its future positions due to a non-liquid secondary market. Risks may arise from the potential inability of a counterparty to meet the terms of a contract and from unanticipated movements in the value of a foreign currency relative to the U.S. dollar. The Pension Trust Funds may also invest in financial futures contracts for non-hedging purposes.

Payments are made or received by the Pension Trust Funds each day, depending on the daily fluctuations in the value of the underlying security and are recorded as unrealized gains or losses. When the contracts are closed, the Pension Trust Funds recognize a realized gain or loss.

Options - PRIT is also engaged in selling or "writing" options. The Pension Trust Funds, as writers of options, may have no control over whether the underlying securities may be sold (call) or purchased (put) and, as a result, bears the market risk of an unfavorable change in the price of the security underlying the written option. As of June 30, 2001, there were no material options outstanding.

5. SHORT-TERM FINANCING AND CREDIT AGREEMENTS

Massachusetts General Laws authorizes the Treasurer to issue temporary notes in anticipation of revenue or bond financing. When this short-term debt does not meet long-term financing criteria, it is classified as a fund liability. Short-term debt may be issued on either a stand-alone basis or through a commercial paper program maintained by the Commonwealth.

General Fund — Through June 30, 2000 the Commonwealth was authorized by Massachusetts General Laws to issue short-term notes to finance working capital advances to the MBTA. As a result of the Forward Funding of the MBTA, the Commonwealth is no longer authorized to provide working capital advances to the MBTA or to finance such advances by issuing short-term notes. Therefore, no such notes were outstanding on June 30, 2001.

The balance of revenue anticipation notes (RANs) outstanding may fluctuate during a fiscal year, but must be reduced to zero at June 30. During fiscal year 2001, no RANs were issued or were outstanding.

Capital Projects Funds – The Commonwealth may issue bond anticipation notes (BANs) to temporarily finance its capital projects.

In September 2000, December 2000, and March of 2001 through its commercial paper program, Commonwealth issued BANs of \$220,000,000, \$250,000,000 and \$250,000,000, respectively. BANs were rolled over and paid down at various times during the fiscal year. No more than \$250,000,000 of commercial paper of obligations were outstanding at any time. On June 30, 2001, \$100,000,000 of BANs were outstanding through the commercial paper program, all of which were retired on or before July 12, 2001.

In September and October, 2001 the Commonwealth issued a combined total of \$250,000,000 of additional BANs through the commercial paper program to temporarily finance capital projects.

Letter-of-Credit Agreements – During fiscal year 2001, the Commonwealth maintained a letter-of-credit agreement with a bank in order to provide credit and liquidity support for its commercial paper program. The letter of credit was available to secure up to \$200,000,000 of Commonwealth commercial paper plus interest thereon. Advances were available, subject to certain limitations and bearing interest at the bank rate as defined, in anticipation of revenue or bond proceeds and payable by the following June 30, subject to extension in certain circumstances, at the Commonwealth's option. No such advances were drawn during the fiscal year ended June 30, 2001. The existing letter of credit agreement expires on December 28, 2003. The cost of the facility is approximately 0.15% on both unutilized and utilized amounts.

Line-of-Credit Agreement – During fiscal year 2001, the Commonwealth maintained line-of-credit agreements to provide liquidity support for commercial paper notes. On September 28, 1999, the Commonwealth entered into line-of-credit agreements with two banks to provide a total of \$400,000,000 in liquidity support for the Commonwealth's commercial paper program. These agreements expire in September of 2002 and 2004, respectively. The cost of these facilities is approximately 0.11% on both unutilized and utilized amounts.

Bonds Anticipation Notes – On September 7, 2000, the Commonwealth sold \$400,000,000 of General Obligation Bond Anticipation Notes, on a stand-alone basis, with an interest rate of 5.0%. The notes matured on September 6, 2001. The notes were issued to finance costs associated with the development of convention centers in Boston and Worcester, although the Commonwealth reserved the right to use the note proceeds to pay other capital costs of the Commonwealth. The notes were retired on September 6, 2001, from a combination of the proceeds of long-term bonds and additional notes.

On September 5, 2001, the Commonwealth sold \$350,000,000 of General Obligation Bond Anticipation Notes, on a stand-alone basis, with an interest rate of 4.0%. The notes mature on September 1, 2003. The notes were issued to partially refinance the notes issued in the prior year and to provide additional funding for costs associated with the development of convention centers in Boston and Worcester.

6. LONG-TERM DEBT

Under the Constitution of the Commonwealth of Massachusetts, the Commonwealth may borrow money (a) for defense, (b) in anticipation of receipts from taxes or other sources, any such loan to be paid out of the revenue of the year in which the loan is made, or (c) by a twothirds vote of the members of each house of the Legislature present and voting thereon. The Constitution further provides that borrowed money shall not be expended for any other purpose than that for which it was borrowed or for the reduction or discharge of the principal of the loan. In addition, the Commonwealth may give, loan or pledge its credit by a two-thirds vote of the members of each house of the Legislature present and voting thereon, but such credit may not in any manner be given or loaned to or in aid of any individual, or of any private association, or of any corporation which is privately owned or managed.

The Commonwealth has waived its sovereign immunity and consented to be sued on contractual obligations, including bonds and notes issued by it and all claims with respect thereto. However, the property of the Commonwealth is not subject to attachment or levy to pay a judgment, and the satisfaction of any judgment generally requires legislative appropriation. Enforcement of a claim for the payment of principal or interest on bonds and notes of the Commonwealth may also be subject to the provisions of federal or Commonwealth statutes, if any, enacted to extend the time for payment or impose other constraints upon enforcement.

As of June 30, 2001, the Commonwealth had three types of long-term debt outstanding: general obligation bonds, special obligation bonds and grant anticipation notes.

General Obligation Bonds - are authorized and issued primarily to provide funds for Commonwealth-owned capital projects and local government improvements. They are backed by the full faith and credit of the Commonwealth and paid from the Governmental Funds, in which debt service principal and interest payments are appropriated. Massachusetts General Laws provide for the allocation of bond proceeds to these authorizations in arrears, as expenditures are made, unless the proceeds are allocated at the time of issuance.

College Opportunity Bonds - Some Commonwealth general obligation debt is issued as College Opportunity Bonds (COBs) as authorized by the Massachusetts General Laws. Such bonds were initially issued in fiscal year 1996, and have been issued in each subsequent fiscal year including fiscal year 2001 when approximately \$6,626,000 of such bonds were issued. Outstanding COBs had maturity dates ranging from 2001 through 2020. COBs have an accreting interest component payable at

maturity. The annual accretion rate of each COB's maturity is a variable rate equal to the change in annual Consumer Price Index (CPI) plus 2.0%. Assuming the CPI averages 3.5% during the life of the outstanding COBs the payments due at maturities of the COBs will total approximately \$172,177,000. In addition, COBs pay current interest in the amount of 0.5% per year of the initial amount still outstanding. The full faith and credit of the Commonwealth back these bonds. These bonds are sold to fund the Commonwealth's "U. Plan" which is part of a college savings program administered by the Massachusetts Educational Financing Authority. These bonds are privately placed and are structured to meet the needs of investors in this plan.

On August 1, 2001, the Commonwealth issued approximately \$5,636,000 of additional College Opportunity Bonds, with maturities from 2006 to 2021. The terms and conditions of these bonds are the same as those issued in fiscal years 1996 through 2001.

County Debt Assumed - Chapter 38 of the Acts of 1997 and Chapter 300 of the Acts of 1998 abolished several Massachusetts counties on various effective dates. As part of these provisions, the Commonwealth assumed the outstanding debt of Middlesex County on July 1, 1997, of Hampden and Worcester Counties on July 1, 1998 and that of Essex County on July 1, 1999 and that of Berkshire County on July 1, 2000. The county debt assumed has become general obligation debt of the Commonwealth. As of June 30, 2001, \$1,375,000 of these obligations remains outstanding.

Special Obligation Bonds - The Commonwealth also issues special obligation revenue bonds as authorized by Massachusetts General Laws. Such bonds may be secured by all or a portion of revenues credited to the Highway Fund and are not general obligations of the Commonwealth. At June 30, 2001, the Commonwealth had outstanding \$542,195,000 of such special obligation bonds, secured by a pledge of 6.86 cents of the 21.00 cent motor fuel excise tax imposed on gasoline. No new special obligation bonds were issued during the fiscal year.

Federal Highway Grant Anticipation Notes (GANS) - The Commonwealth also issues Federal Highway GANS to finance current cash flow for the Central Artery/Tunnel Project in anticipation of future federal reimbursements. Section 9 through 10D of Chapter 11 of the Acts of 1997, as amended by Chapter 121 of the Acts of 1998, authorizes the Commonwealth to sell up to \$1,500,000,000 in GANS. All Federal Highway Construction reimbursements and reimbursements from the federal highway construction trust funds are pledged

to the repayment of the GANS. At June 30, 2001, the Commonwealth has \$1,499,325,000 of GANS outstanding, including accrued interest on capital appreciation bonds with maturity dates ranging from 2005 to 2015. These notes are secured by the pledge of Federal Highway Construction Reimbursements without a general obligation pledge. Under certain limited circumstances, a portion of the revenue from the Commonwealth's motor fuels excise tax may be used to pay debt service on the GANs.

Variable Rate Demand Bonds - Included in the longterm debt is \$1,542,600,000 of general obligation variable rate demand bonds (VRDBs) maturing from 2007 through 2030 in varying amounts. The redemption schedule for these bonds is included in the bond redemption schedule contained herein. The interest rate on the VRDBs is determined either weekly or daily based on the activity of the Commonwealth's remarketing agents, and interest is paid monthly. On any reset date holders of the VRDBs can require the Commonwealth (acting through its remarketing and tender agents) to repurchase the bonds (a "put"). The remarketing agent is authorized to use its best efforts to resell any repurchased bonds by adjusting the interest rates offered. The Commonwealth pays an annual fee to the remarketing agents equal to 0.05% of the par amount of the bonds.

Under the provisions of stand-by bond-purchase agreements entered into by the Commonwealth with certain commercial banks, the remarketing and tender agents are entitled to draw amounts sufficient to pay the purchase price of any bonds that cannot be resold. During any such period the Commonwealth is required to pay the bank(s) at an interest rate based on their respective prime lending rates. If the remarketing agent is unable to resell any put bonds within six months of the put date, the stand-by bond-purchase agreements include provisions to convert any such bonds to installment loans payable over an extended period of time, with interest payable at a rate based on the bank(s) prime lending rate(s). The stand-by bond-purchase agreements expire on various dates between September of 2003 and February of 2006. The Commonwealth is required to renew or replace these agreements as long as the VRDBs remain outstanding. The Commonwealth currently pays an annual fee to maintain these agreements which averages 0.124% of the par amount of the bonds.

As of June 30, 2001, \$1,267,000,000 of the VRDBs have been issued as general obligation refunding bonds. In connection with the issuance of such refunding bonds, the Commonwealth has entered into interest rate exchange ("swap") agreements with certain counterparties. These agreements require the counterparties to pay the

Commonwealth an amount equal to the variable rate payable on the bonds and in return the Commonwealth pays a specified fix rate. Only the net difference in interest payments is exchanged with the counterparty. The Commonwealth continues to pay interest to the bondholders at the applicable variable rates. Through these agreements the Commonwealth has effectively fixed its interest rate payment obligations on the relevant VRDBs at rates ranging from 4.15% to 4.659%, not including the cost of liquidity and remarketing. The Commonwealth will be exposed to a variable rate if the counterparties default or if the swap is terminated. A termination of the swap may also result in the Commonwealth making or receiving a termination payment.

Auction Rate Securities – Also included in the long-term debt is \$401,500,000 of general obligation Auction Rate Securities (ARS) maturing in varying amounts from 2020 through 2030. The interest rate payable on the bonds changes weekly as determined pursuant to specified auction procedures. Interest on the bonds is payable weekly. In the case of a failed auction (i.e., insufficient bids to clear the market) existing buyers may be required to hold their bonds with interest payable at rate equal to a percentage of an ARS industry index.

For financial reporting purposes, long-term debt is carried at its face value, which includes discount and any issuance costs. The outstanding amount represents the total principal to be repaid. For capital appreciation bonds, the outstanding amount represents total principal and accreted interest to be repaid. When short-term debt has been refinanced on a long-term basis, it is reported as outstanding at its face amount.

The amount of long-term debt authorized but unissued is measured in accordance with the statutory basis of accounting. Only the net proceeds (exclusive of discount and costs of issuance) are deducted from the total authorized by the Legislature.

Long-term debt outstanding (including discount and issuance cost) and debt authorized and unissued at June 30, 2001 as follows (amounts in thousands):

<u>Purpose</u>	Bonds Outstanding	M aturities	Authorized and Unissued
G A N S	\$ 1,499,325	2005-2015	s -
Capital Projects	:		
General	4,808,198	2001-2025	3,518,937
H ighw ay	6,239,921	2001-2031	4,852,312
Local Aid	1,366,201	2001-2021	161,704
O ther	85,809	2001-2021	757,465
	12,500,129	•	9,290,418
T o ta1	\$ 13,999,454	:	\$ 9,290,418

Interest rates on the Commonwealth's debt outstanding at the end of fiscal year 2001 ranged from 0.1% to 8.0%.

Changes in long-term debt outstanding (including discount and issuance cost) and bonds authorized - unissued for the year ended June 30, 2001 are as follows (amounts in thousands):

	Bonds Outstanding	Authorized and Unissued
Balance July 1, 2000	\$ 12,383,101	\$ 11,585,706
General and special obligation bonds:		
Principal, less discount and issuance costs	1,768,815	(1,768,815)
Net premium and issuance costs	(16,617)	-
Grant Anticipation Notes:		
Principal, less discount and issuance costs	600,009	(600,009)
Premium and issuance costs	(22,404)	
Defeased Debt:		
Principal on Defeased Debt	(611,493)	-
Retired discount on Defeased Debt	(27,360)	-
General obligation refunding bonds:		
Principal on Refunding Bonds	964,645	
Principal on Refunded Bonds	(907,661)	
Retired discount on Refunded Bonds	(3,609)	
Increase in bonds authorized	-	282,345
Contributions in lieu of bonds	-	41
Bonds retired	(127,972)	-
Deauthorized	-	(136,778)
Reversions		(72,072)
Balance June 30, 2001	\$ 13,999,454	\$ 9,290,418

At June 30, 2001, debt service requirements to maturity for principal (including discount, capital appreciation and issuance costs) and interest are as follows (amounts in thousands):

Fiscal year ending June 30,	Principal	Interest	Total	
2002	\$ 699,441	\$ 691,869	\$ 1,391,310	
2003	751,941	653,439	1,405,380	
2004	734,485	620,897	1,355,382	
2005	796,597	588,028	1,384,625	
2006	903,532	547,136	1,450,668	
2007 and thereafter	10,113,458	3,440,054	13,553,512	
Total	\$ 13,999,454	\$6,541,423	\$ 20,540,877	

The Commonwealth issued bonds and notes through both competitive and negotiated sales during fiscal year 2001. The costs for legal counsel and underwriting fees (including estimated amounts related to competitive sales) for bond sales were \$739,569 and \$11,261,499 respectively. In addition, the Commonwealth paid \$80,000 for disclosure counsel services.

Bonds Defeased Through Refunding – As authorized by the Massachusetts General Laws, the Commonwealth advance refunded certain general obligation bonds through the issuance of \$964,645,000 of general obligation refunding bonds during fiscal year 2001. Net proceeds totaling approximately \$994,347,000 were used to purchase U. S. Government securities which were deposited in irrevocable trusts with an escrow agent to provide for all future debt service payments of the refunded bonds. As a result, the refunded bonds are considered to be defeased, and the liabilities therefore have been removed from the General Long-term Obligations Account Group. As a result of this refunding, the Commonwealth decreased current year debt service payments and has taken advantage of lower interest rates, and it has decreased its aggregate debt service payments by approximately \$39,640,000 over the next 20 years and will experience an economic gain (the difference between the present values of the debt service payments of the refunded and refunding bonds) of approximately At June 30, 2001, approximately \$41.875.000. \$911,270,000 of the bonds refunded remain outstanding and are defeased.

In August 2001, the Commonwealth refunded additional general obligation bonds through the issuance of \$596,745,000 of general obligation refunding bonds. Net proceeds totaling approximately \$629,240,000 were used to purchase U. S. Government securities which were deposited in irrevocable trusts with an escrow agent to provide for all future debt service payments of the refunded bonds. As a result, the refunded bonds are considered to be defeased as of the date of the refunding and the liabilities therefore will be removed from the General Long-term Obligations Account Group in fiscal

year 2002. As a result of this refunding, the Commonwealth decreased current year debt service payments and has taken advantage of lower interest rates, and it has decreased its aggregate debt service payments by approximately \$30,145,000 over the next 12 years and will experience an economic gain (the difference between the present values of the debt service payments of the refunded and refunding bonds) of approximately \$23,932,000.

Bonds Defeased Through Operating Surplus - At the end of fiscal year 2000, pursuant to the provisions of Chapter 87 of the Acts of 2000, the Commonwealth set aside \$650,000,000 of surplus funds in the debt defeasance fund to defease additional debt of the Commonwealth. \$500,000,000 of the funds were attributable to fiscal year 2000 and \$150,000,000 were from prior fiscal years. In July, August and December of 2000, the State Treasurer expended a combined total of \$650,037,000 from the Debt Defeasance Trust Fund to purchase securities and establish a sinking fund to provide for the payment of certain Commonwealth general obligation bonds maturing on August 1, 2000 through and including July 1, 2001. The securities purchased consisted of U.S. Government securities and certain obligations issued by federal agencies, all of which are being held by a third-party trustee in an irrevocable trust. The approximate principal amount of Commonwealth general obligation bonds defeased pursuant to these transactions is \$638,853,000, including \$32,810,000 of bonds maturing on July 1, 2001. The amount that would have been expended for debt service on such bonds in fiscal 2001 (approximately \$624,589,000) was deposited in the Central Artery and Statewide Road and Bridge Infrastructure Fund, pursuant to the provisions of the act. An additional \$34,589,000, related to the defeased bonds maturing on July 1, 2001 was deposited in this fund on that date.

Prior Defeasance - In prior years, the Commonwealth defeased certain general and special obligation bonds by purchasing securities (from the proceeds of refunding bonds or from surplus operating funds) and placing them in irrevocable trusts to provide for all future debt service payments on the defeased bonds. Accordingly, the trust account assets and the liabilities for the defeased bonds are not included in the financial statements. At June 30, 2001, approximately \$2,128,782,000 of bonds outstanding from activities in prior fiscal years are considered defeased.

Statutory Debt Limit – The Massachusetts General Laws establish limits on the amount of direct debt outstanding. By statutorily limiting the Commonwealth's ability to

issue direct debt, this limit provides a control on annual capital spending. The direct debt limit for fiscal year 2001 was approximately \$11,076,483,000. Outstanding debt subject to the limit at June 30, 2001 was approximately \$10,279,959,000. The limit increases 5% per year.

For purposes of determining compliance with the limit, outstanding direct debt is defined to include general obligation bonds and minibonds at the amount of their original net proceeds. It excludes BANs and discount and issuance costs, if any, financed by these bonds. It also excludes special obligation bonds, GANs, refunded bonds, certain refunding bonds, debt issued by counties, and debt issued in conjunction with the MBTA forward funding.

The amounts excluded from the debt limit are as follows (amounts in thousands):

	Deb	ot Outstanding
Balance June 30, 2001	\$	13,999,454
Less amounts excluded:		
Discount and issuance cost		(282,829)
Chapter 5 of the Acts of 1992 Refunding		(71,054)
Special Obligation Principal		(539,242)
GANs Principal		(1,500,000)
County Debt Assumed		(1,375)
MBTA Forward Funding		(325,000)
Central Artery Tunnel		(999,995)
Outstanding Direct Debt	\$	10,279,959

7. LEASES

In order to finance the acquisition of equipment, the Commonwealth has entered into various lease/purchase agreements, including tax-exempt lease purchase (TELP) agreements, which are accounted for as capital leases. Lease agreements are for various terms and contain clauses indicating that their continuation is subject to appropriation by the Legislature. For the fiscal year ended June 30, 2001, capital lease/purchase expenditures totaled approximately \$41,817,000. At June 30, 2001, the Commonwealth's aggregate outstanding liability under capital leases, the present value of the net minimum lease payments, totals approximately \$174,936,000. liability is reported in the General Long-Term Obligations Account Group. Equipment acquired under capital leases and included in the General Fixed Assets Account Group totaled approximately \$225,914,000.

The Commonwealth has numerous operating lease agreements for real property and equipment with varying

terms. These agreements contain provisions indicating that continuation is subject to appropriation by the Legislature. Operating lease expenditures for the fiscal year ended June 30, 2001 was approximately \$172,529,000.

The following is a schedule of future minimum payments under non-cancelable leases as of June 30,2001 (amounts in thousands):

Fiscal Year Ending June 30,	Capital Leases	Operating Leases
2002\$	43,760	\$ 134,647
2003	37,238	109,566
2004	31,151	80,028
2005	25,719	55,567
2006	21,122	25,924
2007 and thereafter	41,207	80,063
Total	200,197	485,795
Less interest	(25,261)	
Present value\$	174,936	\$ 485,795

8. INDIVIDUAL FUND DEFICITS

Certain Budgeted, Non-Budgeted Special Revenue and Capital Projects Funds included in the combined totals have individual fund deficits at June 30, 2001, as follows (amounts in thousands):

Budgeted Funds:	
Highway Fund	\$ 278,514
Natural Heritage and Endangered Species Fund	9
Mosquito and Greenhead Fly Control Fund	2,305
Environmental Challenge Fund	2,794
Toxic Use Reduction Fund	7,686
Environmental Permitting and	7,000
Compliance Assurance Fund	43,155
Underground Storage Tank Petroleum	43,133
Product Cleanup Fund	13,920
Environmental Law Enforcement Fund	3,875
Public Access Fund	296
Harbors and Inland Waters Maintenance Fund	
Marine Fisheries Fund	7,599
	5,330
Watershed Management Fund	
Low-Level Radioactive Waste Management Fund	505
Clean Air Act Compliance Fund	1,048
Second Century Fund	3,594
Child Support Penalty Fee Fund	87
Anti-trust Law Enforcement Fund	2,765
Victim and Witness Assistance Fund	10,335
Intercity Bus Capital Assistance Fund	6,070
Ponkapoag Recreational Fund.	5
Leo J. Martin Recreation Fund	179
Children's and Seniors' Health Care Assistance Fund	13,197
Transitional Aid to Needy Families Fund.	
Local Consumer Inspection Fund	574
Total Budgeted Funds	419,370
Non-Budgeted Special Revenue:	
Lotteries:	
State Lottery Fund	11,908
Other:	
Government Land Bank Fund	35,097
Motor Vehicle Safety Inspection Trust Fund	15,455
Total Non - Budgeted Funds	62,460
Capital Projects:	
General Capital Projects Fund	104,274
Boston Convention and Exhibition Center Fund	151,970
Capital Expenditure Reserve Fund.	143,427
Highway Capital Projects Fund	705,364
Federal Highway Construction Program	703,304
Capital Projects Fund	257
Government Land Bank Fund	6,300
Intercity Bus Fund	3,531
Local Capital Project Fund.	3,800
Total Capital Projects Funds.	1,118,923 \$ 1,600,753
Total	N 1.600 753

In order to resolve the deficits in the budgeted funds, the Comptroller has recommended authorization of transfers from other budgeted funds with surplus balances or a plan of fund consolidation. If these changes are adopted by the Legislature, the deficiencies will be resolved. For the Non-Budgeted Special Revenue Funds, the Comptroller has recommended similar budgeted transfers to subsidize and resolve the deficits or their consolidation into budgeted funds. Such steps require legislative action.

Pursuant to Chapter 7, Section 24 of the Acts of 2001, the Commonwealth provided an additional \$51,562,000 in revenues from the State Lottery Fund to cities and towns. This distribution resulted in the deficit noted above in the State Lottery Fund. The law stipulates that the second quarterly payment to cities and towns for fiscal 2002 will be adjusted for this deficit, through the lottery distribution formula.

The Capital Projects Fund deficit reflects the time lag between capital expenditures and the receipt allocation of proceeds from the sale of related bonds. Also, \$585,250,000 of this deficit is due to the unamortized cost related to forward funding of the MBTA completed during fiscal 2000. This amount is to be amortized ratably for a period not in excess of 20 years. The first amortization occurred during fiscal 2001 in the amount of \$27,500,000. The Treasurer has the opportunity to bond up to \$475,000,000 of this deficit. To arrive at the combined capital projects fund balance, this individual fund deficit is offset by capital funds earmarked in the Central Artery Statewide Road and Bridge Infrastructure Fund of \$1,637,372,000, and \$128,002,000 in reserve for three Capital Investment Trusts.

9. MEDICAID COSTS

The Commonwealth provides medical care for low-income, elderly and other residents who qualify for such assistance under the federally-sponsored Medical Assistance Program (Medicaid). The Commonwealth pays the full cost of care and is reimbursed by the federal government for 50% of that cost. For the fiscal year ended June 30, 2001, the General Fund and Children's and Seniors' Health Fund include \$4,642,342,000 in expenditures for Medicaid claims processed for payment.

The combined financial statements – statutory basis include Medicaid claims processed but unpaid at June 30, 2001, as accounts payable of approximately \$26,072,000. The Commonwealth estimates its total liability, as determined in accordance with GAAP, at \$789,400,000 including the amounts reported as accounts payable at June 30, 2001. This amount includes estimates of both the cost of care provided as of June 30, 2001, for which claims have not been processed and other costs. Of this amount, \$408,800,000 is expected to be reimbursed by the federal government.

10. RETIREMENT SYSTEMS

Primary Government – The Commonwealth is statutorily responsible for the pension benefits for Commonwealth

employees (members of the State Employees' Retirement System) and for teachers of the cities, towns, regional school districts throughout the Commonwealth and Quincy College (members of the Teachers' Retirement System, except for teachers in the Boston public schools, who are members of the State-Boston Retirement System but whose pensions are also the responsibility of the Commonwealth). The members of the retirement systems do not participate in the Social Security System.

The Commonwealth has assumed responsibility for payment of cost-of-living adjustments (COLA) for the separate (non-teacher) retirement systems of its cities, towns and counties, granted in fiscal year 1997 and prior. The Commonwealth is statutorily required to have an actuarial valuation once every three years and every two years on a GAAP basis.

Certain Commonwealth employees and current retirees employed prior to the establishment of the State Employees' Retirement System are covered on a "pay-as-you-go" basis. During the year ended June 30, 2001, the Commonwealth's pension expenditure included payments totaling \$18,072,000 to current retirees employed prior to the establishment of the current plans and the non-contributory plans.

Plan Descriptions -

State Employees' Retirement System (SERS) is a single employer defined benefit public employee retirement system (PERS), covering substantially all employees of the Commonwealth and certain employees of the independent authorities and agencies, including the state police officers at the Massachusetts Port Authority and the Massachusetts Turnpike Authority. The SERS is administered by the Commonwealth and is part of the reporting entity and does not issue a stand alone financial report.

Teachers' Retirement System (TRS) is an agent multiple employer defined benefit PERS. The Commonwealth is a non-employer contributor and is responsible for all contributions and future benefit requirements of the TRS. The TRS covers certified teachers in cities (except the City of Boston), towns, regional school districts and Quincy College. The TRS is administered by the Commonwealth and is part of the reporting entity and does not issue a stand-alone financial report.

State – Boston Retirement System (SBRS) is hybrid multiple employer defined benefit PERS. SBRS provides pension benefits to all full-time employees upon commencement of employment with any of the various government agencies covered by SBRS. The

Commonwealth is a non-employer contributor and is only responsible for the actual cost of pension benefits for SBRS participants who serve in the City of Boston's School Department in a teaching capacity. The cost of pension benefits of the other participants is the responsibility of the City of Boston. SBRS is not administered by the Commonwealth and is not part of the reporting entity and a stand-alone financial report is not available.

The policy for postretirement benefit increases for all retirees of the SERS, TRS, SBRS and COLA of local governments is subject to legislative approval.

Membership – Membership in SERS, TRS and SBRS as of January 1, 2001, the date of the most recent valuation, is as follows:

	SERS	TRS	SBRS
Retirees and beneficiaries currently receiving benefits Terminated employees entitled to	44,027	32,631	2,426
benefits but not yet receiving them	2,775	_	115
Subtotal	46,802	32,631	2,541
Current employees:			
Vested	41,250	37,868	1,586
Non-vested	45,868	48,930	3,985
Subtotal	87,118	86,798	5,571
Total	133,920	119,429	8,112

Benefit Provisions — Massachusetts General Laws established uniform benefit and contribution requirements for all contributory PERS. These requirements provide for retirement allowance benefits up to a maximum of 80% of a member's highest three-year average annual rate of regular compensation. Benefit payments are based upon a member's age, length of creditable service, and group classification. The authority for amending these provisions is with the Legislature.

Members become vested after ten years of creditable service. A superannuation retirement allowance may be received upon the completion of twenty years of service or upon reaching the age of 55 with ten years of service. Normal retirement for most employees occurs at age 65; for certain hazardous duty and public safety positions, normal retirement is at age 55.

During FY01, the legislature passed Chapter 114 of the Acts of 2000, which modified Chapter 32 of the General Laws. This modification became effective on July 1, 2001. In Chapter 114, teachers who are members of the State Teachers Retirement System, or teachers who are members of the State – Boston retirement system before

1975, who resigned or took an unpaid leave of absence because of maternity leave will be allowed to "buy back" into the fund up to a maximum of four years. The member must pay the amount determined by the retirement board by December 31, 2001 to qualify, as long as the member has worked longer than ten years. If the member completes ten years of service after December 31, 2001, payment can be made within 18 months of completion of ten years of service. In addition, the law creates a superannuation retirement benefit program for all teachers hired on or after July 1, 2001. This program has a contribution rate of 11 percent of regular compensation. To be eligible for the alternative benefit at retirement, the teacher must have completed thirty years of eligible service. All previous members may elect to participate in the program, as long as they participate with the equivalent of a minimum of five years of employee contributions at the new rate. If the member retires before five years, the teacher must pay into the system, the amount that would have been paid in one lump sum, or in installments as the Board may prescribe. The alternative benefit is calculated as the percentage of average compensation determined under the current formula increased by 2% of the average annual compensation for each full year of service in excess of 24 years. The election to participate is irrevocable.

Funding Progress - The SERS, TRS and SBRS actuarial determined contributions were computed as part of the actuarial valuation as of January 1, 2001. The Commonwealth has revised actuarial assumptions used in the calculation of contribution requirements and Unfunded Actuarial Liability (UAL.) The revised actuarial assumptions are the result of an experience study commissioned by the Commonwealth for the period 1996 to 1999 concluded in FY01. The Commonwealth has fully phased-in its UAL from a market value of assets to an actuarial valuation of assets. In the third year of transition as of January 1, 2001 the calculated actuarial value of assets was 97% of the market value compared to 91% in the 2000 valuation and 97% in the 1998 valuation.

A significant change in assumption as of the January 1, 2001 valuation, that resulted from the experience study, was to modify projected salary increase percentage to reflect different groups of employees and years of service. The applicable annual rate in the current valuation range from 4.75% to 12% compared to the prior actuarial assumption of a single rate of 6%.

Other significant assumptions include (a) cost of living (inflation rate) increases of 3% per year on the first \$12,000 of the retirees total allowance, and (b) interest rate credited to the annuity savings fund of 4.5% per year.

These calculations use a level dollar amortization method

over 20-years closed period.

The following table presents the schedule of funding progress as presented in the seven most recent actuarial valuations at the dates indicated (amounts in thousands):

Actuarial Valuation as of January 1	Actuarial Value of Plan Assets	Actuarial Accrued	Unfunded Actuarial Liability (UAL)	Funded Ratio %	Annual Covered Payroll *	UAL as a % of Covered Pavroll
State Employees'	Retirement System

st - The covered payroll amounts approximate the employer payroll.

Pension Actuarial Valuation – The Commonwealth's pension actuarial valuation was performed as of January 1, 2001 pursuant to Chapter 32 of the General Laws of the Commonwealth of Massachusetts and based on the plan provisions at that time.

The Commonwealth was financially responsible for the COLA granted to participants in the 104 retirement systems of cities, towns and counties in fiscal year 1997 and prior fiscal years. Chapter 17 of the Acts of 1997 effective for fiscal year 1998 transferred the responsibility for funding COLAs for separate (non-teacher) retirement systems of cities and towns to the respective system. Any future COLA granted by the Legislature to employees of these plans will be the responsibility of the individual

system. The individual employer governments are also responsible for the basic pension benefits. The retirement systems are not administered by the Commonwealth and are not part of the reporting entity. The actuarial accrued liability for COLA as of January 1, 2001 was \$764,000,000.

Contributions Required and Contributions Made – The retirement systems' funding policies have been established by Chapter 32 of the Massachusetts General Laws. The Legislature has the authority to amend these policies. The annuity portion of the SERS, TRS and SBRS retirement allowance is funded by employees, who contribute a percentage of their regular compensation – 5% for those

hired before January 1, 1975, 7% for those hired from January 1, 1975, through December 31, 1983 and 8% for those hired on or after January 1, 1984, plus an additional 2% of compensation above \$30,000 per year for those hired on or after January 1, 1979. Regular employees and state police hired after June 30, 1996 are required to contribute 9% and 12% respectively of their regular compensation plus an additional 2% of compensation above \$30,000 per year. Costs of administering the plan are funded out of plan assets.

The Commonwealth's contribution for the pension benefit portion of the retirement allowance of SERS and TRS and required payments to cover SBRS and COLA contributions were originally established on a "pay-as-you-go" basis. As a result, amounts were appropriated each year to pay current benefits, without a systematic provision to fully fund future liabilities already incurred. Beginning in fiscal year 1988, the Commonwealth enacted the Pension Reform Act of 1987 and addressed the unfunded liability of SERS, TRS and its participation in SBRS and its COLA obligation. Chapter 32, Section 22C of General Laws enacted in 1998 calls for the payment of normal cost plus an amortization payment of UAL such that the UAL is reduced to zero by June 30, 2018.

This legislation also directs the Secretary of Administration and Finance to prepare a funding schedule to meet these requirements, and to update this funding schedule every three years on the basis of new actuarial

valuation reports prepared under the Secretary's direction. Any such schedule is subject to legislative approval. If a schedule is not so approved, payments are to be made in accordance with the most recently approved schedule. The current legislatively approved funding schedule, a valuation as of January 1, 1999, was filed by the Secretary of Administration and Finance on March 1, 2000 has been deemed approved by the Legislature. Under the current schedule the amortization payments are designed to eliminate the unfunded liability by fiscal year 2018. Based on the previous funding schedule required contributions by the Commonwealth of \$1,022,050,000 were made during the fiscal year ended June 30, 2001. Of this amount \$43,048,000 represents payments for COLA granted to participants in retirement systems of cities, towns and counties.

GAAP requires that pension expenditures (costs) be based on an acceptable actuarial cost method and that they be not less than:

- Normal cost plus amortization of net pension obligation cost
- Interest and amortization on any unfunded prior service costs

The funding schedule discussed above follows an acceptable actuarial funding methodology to compute normal cost and the unfunded accrued actuarial liability.

The following table presents the schedule of employer contributions (amounts in thousands):

Actuarial Valuation as of January 1	Annual Required Contribution (ARC)	Interest on NPO	Amortization of NPO	Pension Cost	Actual Contribution Made	Net Pension (Obligation) Asset (NPO)	% of ARC Contributed	% of Pension Cost Contributed

The total contributions required for SERS, TRS and SBRS are based on the entry age normal cost method using the same actuarial assumptions used to compute the net pension obligation.

Post-retirement Health Care and Life Insurance Benefits - In addition to providing pension benefits, under Chapter 32A of the Massachusetts General Laws, the Commonwealth is required to provide certain health care and life insurance benefits for retired employees of the Commonwealth, housing authorities, redevelopment authorities, and certain other governmental agencies. Substantially all of the Commonwealth's employees may become eligible for these benefits if they reach retirement age while working for the Commonwealth. Eligible retirees are required to contribute a specified percentage of the health care benefit costs which is comparable to contributions required from employees. Commonwealth is reimbursed for the cost of benefits to retirees of the eligible authorities and non-state agencies. The Commonwealth recognizes its share of the costs of providing these benefits when paid. These payments totaled approximately \$209,643,000 for the fiscal year ended June 30, 2001. There are approximately 46,000 participants eligible to receive benefits at June 30, 2001.

11. COMMITMENTS

Regional Transit Authorities - Under Chapter 161B of the General Laws, the Commonwealth is obligated to provide annual subsidies to certain regional transit authorities for contract assistance, debt service assistance and their net cost of service deficiencies. The Commonwealth recovers a portion of these payments through assessments to the cities and towns served. During fiscal year 2001, net expenditures were \$16,417,000. In addition, for FY01, the Commonwealth appropriated \$17,232,000 to the regional transit authorities to cover net costs of service for the calendar year ended December 31, 2000.

MBTA and Other Authorities - The Commonwealth continues to guarantee MBTA debt outstanding at June 30, 2001, which totaled \$4,095,450,000, but as a result of forward funding, no longer provides contract assistance.

The MBTA's forward funding legislation provides for the MBTA to issue general obligation, revenue or other debt secured by a pledge or conveyance of all or a portion of revenues, receipts or other assets or funds of the MBTA. This new debt is not backed by the full faith and credit of the Commonwealth. Finally, the MBTA will not receive any principal or interest subsidies from the

Commonwealth for the repayment of either the prior debt or new debt of the MBTA beyond the pledged revenues.

In addition to the MBTA, the Commonwealth guarantees debt of a number of Public Authorities. At June 30, 2001, the aggregate outstanding debt for which the Commonwealth is obligated to provide contract assistance support totaled approximately \$196,641,000 long-term and \$86,266,000 short-term.

In addition, the Commonwealth guarantees the debt of certain local governments and public higher education building authorities but does not provide contract assistance. The guaranteed long-term debt outstanding at June 30, 2001 was approximately \$395,302,000.

On June 1, 2000 the Town of Foxborough, acting by and through the Foxborough Industrial Development Financing Authority, issued \$68,505,000 of its Foxboro Stadium Infrastructure Improvement Bonds payable from Commonwealth contract assistance. The bonds are Commonwealth supported debt.

At June 30, 2001, the Commonwealth had commitments of approximately \$1,707,745,000 related to ongoing construction projects. The majority relate to construction funding for the Central Artery/Tunnel Project. The Central Artery/Tunnel Project continues to anticipate federal participation and payments from the Massachusetts Turnpike Authority (MTA) and the Massachusetts Port Authority (MassPort).

On August 17, 2000, the Route 3 North Transportation Improvements Association issued its Commonwealth of Massachusetts Lease Revenue Bonds, Series 2000, in the aggregate principal amount of \$394,305,000, payable from lease payments to be appropriated annually by the Commonwealth through fiscal 2033. The bonds are an indirect obligation of the Commonwealth.

Saltonstall Building - On July 19, 2000, after reviewing proposals received from various development teams to redevelop the Saltonstall State Office Building, the Governor filed legislation that would authorize the Massachusetts Development Finance Agency (MDFA) to undertake the redevelopment. The provisions of the Governor's bill were added to the bond authorization legislation approved August 10, 2000 relating to preservation and management of the Commonwealth's real property assets. Under the provisions relating to the Saltonstall Building, the building is to be leased by the MDFA for a lease term of up to 50 years, with extension terms permitted for an aggregate of 30 more years). The MDFA will renovate the building and lease half of it back

Statutory Basis Financial Report

to the Commonwealth for office space and related parking (for a comparable lease term). The remainder of the building is to be redeveloped as private office space, as well as private housing units and retail establishments.

Central Artery / Tunnel Project - The Central Artery / Tunnel Project is the largest single component of the Commonwealth's capital program according to the finance plan filed as of October 1, 2001. The current cost estimate is \$14.475 billion, an increase of \$400 million from the October 1, 2000 plan. The largest components of the increase were added costs of construction and the addition of a project contingency budget. Both plans include a maximum obligation of \$8.549 billion from the Project milestones have been federal government. reviewed to include a nine-month extension to the I-90 opening and a four-month extension to the I-93 opening. The I-90 opening may be delayed further due to a major leak in the Fort Point Channel Tunnel discovered in October 2001. The finance plan is currently under review.

To make up for the \$400,000,000 in needed funds, the Governor immediately filed a bill to raise the bonding authority for the project in place under Chapter 87 of the Acts of 2000 from \$1.350 billion to \$1.5 billion. An additional \$175,000,000 is expected to come from \$50,000,000 in interest earnings and \$125,000,000 in bond capacity generated from higher than expected license and registration renewal fees. Both of these amounts will be reported within the Central Artery Statewide Road and Bridge Infrastructure Fund.

In connection with the Central Artery / Tunnel Project, on May 8, 2000, the State Treasurer's office was advised that the staff of the Securities and Exchange Commission (SEC) is conducting a formal investigation in the matter of "Certain Municipal Securities/Massachusetts Central Artery (B-1610.)" This is pursuant to a formal order of private investigation issued by the SEC. The attorneys on behalf of the Commonwealth believe that the likelihood of loss by the Commonwealth is remote.

During fiscal year 2001, the Commonwealth received payments from MTA and MassPort pursuant to three separate memoranda of understandings dated September 12, 1997 and August 13, 1998 and February 19, 1999 respectively. The MTA and MassPort made payments to the Commonwealth to finance portion of the Central Artery/Tunnel Project in the amount of \$200,000,000 and \$65,000,000 respectively. An additional \$4,000,000 is being held in escrow, pending an eminent domain settlement.

All payments pursuant to the agreements have been made from the MTA, except for the \$4,000,000 noted above. MassPort is due to make payments for the project under the agreements from fiscal 2003 through 2005 in the amounts of \$104,000,000, \$50,000,000 and \$51,000,000 in those respective fiscal years.

12. CONTINGENCIES

A number of lawsuits are pending or threatened against the Commonwealth, which arise from the ordinary course of operations. These include claims for property damage and personal injury, breaches of contract, condemnation proceedings and other alleged violations of law. For those cases in which it is probable that a loss will be incurred and the amount of the potential judgment can be reasonably estimated or a settlement or judgment has been reached but not paid, the Attorney General estimates the liability to be approximately \$75,000,000 to be paid during FY02. No accrual has been made for this amount in the combined financial statements – statutory basis.

Under the statutory basis of accounting, workers' compensation costs are recognized when claims are presented and paid. The Commonwealth's outstanding liability for such claims at June 30, 2001 is estimated to be \$262,300,000, of which approximately \$35,800,000 is expected to be paid during fiscal year 2002. No accrual has been made for these amounts in the combined financial statements – statutory basis.

The Commonwealth receives significant financial assistance from the federal government. Entitlement to these resources is generally contingent upon compliance with terms and conditions of the grant or reimbursement agreements and with applicable federal regulations, including the expenditure of the resources for eligible purposes. Substantially all federal financial assistance is subject to financial and compliance audits. Any disallowances become liabilities of the fund which received the assistance. At June 30, 2001, the Commonwealth estimated that liabilities, if any, which may result from such audits are not material.

Chapter 200A of the Massachusetts General Laws, the Commonwealth's Abandoned Property Law, requires deposit of certain unclaimed assets into a managed Fiduciary Fund. These unclaimed assets, less \$4,925,000, which is expected to be reclaimed and paid in fiscal year 2002, are to be remitted to the General Fund each June 30, where it is included as miscellaneous revenue. Amounts remitted during fiscal year 2001 totaled approximately \$86,585,000. Since inception,

approximately \$968,607,000 has been remitted. A portion of this amount represents a contingency, because claims for refunds can be made by the owners of the property.

Tobacco Settlement - A Master Settlement Agreement (MSA) was executed in November of 1998 between five tobacco companies and 46 states, including the Commonwealth. The MSA called for, among other things, annual payments to the states in perpetuity. These payments have been estimated to total more than \$200 billion over the first 25 years, subject to various offsets, reductions, and adjustments. In FY01, the Commonwealth received approximately \$242,470,000 or 87% of the estimated amounts shown in the agreement. Of that amount approximately \$81,506,000 was transferred to the Tobacco Settlement Fund, a budgeted fund. The majority of expenditures from the fund this vear were for Health and Human Services, Elder Affairs and Medicaid costs.

The amounts that might be payable, if any, by the Commonwealth for legal costs relating to the tobacco litigation cannot be determined at this time. The outside attorneys for the Commonwealth were awarded approximately \$775,000,000 in fees to be paid over time by the tobacco companies and, therefore, were not to be paid out of the Commonwealth's award. The outside attorneys have notified the Attorney General that they reserve their right to submit a claim to the Commonwealth for the difference between the \$775,000,000 and 25 percent of the Commonwealth's settlement payments.

During fiscal 2000, the Legislature enacted two laws to provide for the disposition of tobacco settlement payments. Tobacco settlement payments under the MSA to the Commonwealth are deposited into the Health Care Security Trust Fund. Prescribed amounts are transferred annually to the Tobacco Settlement Fund for expenditure, subject to appropriation, to supplement existing levels of funding for health related services and programs.

13. NON-TAX REVENUE INITIATIVES

Chapter 653, Acts of 1989, amended Chapter 29 of the Massachusetts General Laws by adding Sections 29D and 29E, which authorize certain non-tax revenue initiatives and require reporting thereon, as follows.

Debt Collection Pursuant to Massachusetts General Laws Chapter 29, Section 29D, Chapter 7A Section 8, allows private debt collection agencies to engage in debt collection for the Commonwealth. The fees paid are

contingency based from the proceeds collected. Collections and fees paid during fiscal year 2001 were:

Department Collectors	Collections	Fees
Allen Daniel Associates	\$ 104,723	\$ 19,161
Collection Company of America	210,175	48,257
Gragil Associates, Inc	76,294	16,431
OSI	460,953	113,226
Walker Associates Inc	1,995,932	295,062
Windham Professionals	1,027,181	260,625
Total	\$ 3,875,258	\$752,762

Under the same program, the following amounts were collected and fees paid for institutions of higher education:

Department Collectors	Collections	Fees
Allen Daniel Associates	\$ 592,573	\$ 101,492
Collection Company of America	1,318,293	403,232
Glenn Associates, Inc	530,824	104,186
Gragil Associates, Inc	11,466	2,868
NCO	2,905	355
OSI	707,094	169,685
Walker Associates Inc	9,727	1,604
Windham Professionals	278,929	76,729
Total	\$3,451,811	\$ 860,151

Revenue Maximization – Pursuant to Massachusetts General Law Chapter 29 Section 29E, contractors were engaged on a contingent fee basis to assist several of the Commonwealth's departments in the identification and collection of federal and other revenues. During fiscal year 2001, approximately \$203,083,000 was collected through such efforts. After contractor programs and fees of \$27,761,000 were paid on a contingent basis, the Commonwealth received approximately \$175,322,000.

Revenue Optimization – Pursuant to Chapter 159 Section 333 of the fiscal year 2001 Budget, contractors were engaged on a contingent fee basis to assist several of the Commonwealth's departments in the identification and collection of federal and other revenues. During fiscal year 2001, approximately \$41,460,000 was collected through such efforts. After contractor payments of \$1,574,000 department incentives of \$3,000,000 and fund splits of \$610,000, the Commonwealth had a net revenue of \$36,276,000 to the General Fund.

Cost Avoidance – Pursuant to Chapter 159 of Section 360 of the fiscal year 2001 Budget, the Comptroller's Office is authorized to engage vendors for the purpose of identification and pursuit of cost savings/avoidance opportunities. In fiscal year 2001, estimated total cost avoidance based on actuarial calculations was approximately \$60,111,000 and fees paid to outside consultants were \$1,803,000. The Commonwealth had a total cost avoidance savings of \$58,308,000.

Intercept— Intercept is authorized by M.G.L. Chapter.7A §3 and 815 CMR 9.06. Intercept is a process that offsets Commonwealth vendor payments and other types of payments (such as tax refunds) against various Commonwealth delinquent debts. The Comptroller's Office is enhancing the intercept program to allow institutions of higher education and non-Commonwealth entities to participate. In fiscal year 2001, the Commonwealth collected \$4,577,000 in intercepts.

Utility Audits – Massachusetts General Law, Chapter 20 Section 29G, authorizes the Department of Procurement and General Services to solicit services and enter into contingent contracts on behalf of governmental entities for the potential of recoupment of overcharges associated with utility expenses. During fiscal year 2001, no funds

were recouped, paid or payable to the Utility Management Group, resulting in no net benefit to the Commonwealth. However, as of June 30, 2001, there were five reviews for municipalities that have taken advantage of the master service agreement negotiated by Procurement and General Services.

14. SUBSEQUENT EVENTS

In August 2001, the Commonwealth issued \$935,530,000 of Consolidated General Obligation Bonds. Of the \$935,530,000, \$596,745,000 were general obligation refunding bonds. The remaining \$338,785,000 were issued to finance various capital projects of the Commonwealth. The Bonds have maturities from fiscal year 2002 through 2022.

Prior to the events of September 11, 2001, the national and local economies had been weakening, reflecting lower business investment, increased unemployment and, recently, a decline in consumer confidence. Reduced economic activity is expected to lower corporate profits, increase job losses and reduce consumer spending, which would result in reduced personal income and sales tax receipts and other tax revenues for the Commonwealth. The events of September 11 increased the risk of a possible recession and a delay in recovery.

Combining and Individual Fund Financial Statements - Statutory Basis

Commonwealth of Massachusetts

THIS PAGE LEFT INTENTIONALLY BLANK

Individual Budgeted Funds

MAJOR BUDGETED FUNDS:

The General Fund - The General Fund is the Commonwealth's primary Governmental Fund. All governmental activities not specifically directed to another fund are accounted for in the General Fund. As a result, most budgeted expenditures of the Executive secretariats, the Legislature, constitutional offices, Judiciary, institutions of higher education and independent commissions are paid for from the General Fund. It similarly receives a significant portion of sales, individual income and corporate taxes, and the full amount of most other governmental taxes.

Highway Fund – to account for highway user taxes including the gas tax and fees; used to finance highway maintenance and safety services, and provide matching funds for federally sponsored highway projects as required.

Infrastructure Fund (Subfund of Highway Fund) - details specific components of revenue and expenditure related to the Highway Fund segregated per instructions in Section 2 O of Chapter 29 of the General Laws.

Local Aid Fund - to account for revenue from sales, income, and other corporate taxes and lottery profits, which have been earmarked for distribution to cities and towns or are used to finance programs that benefit local communities.

The Commonwealth Stabilization Fund – to account for amounts calculated in accordance with state finance law and maintain a reserve to enhance the Commonwealth's fiscal stability.

Administrative Control Funds - account for the revenues generated by certain administrative

functions of government, for which the Legislature has required that separate funds be established. These funds include:

Tax Reduction Fund – to account for the maintenance of a reserve, which shall be used only to reduce personal income taxes.

Intragovernmental Service Fund – to account for the charges of any state agency for services provided by another state agency, for example, charges levied by the public employee retirement administration for worker's compensation chargeback.

Revenue Maximization Fund - to account for increased collections as a result of special initiatives; these revenues become available for expenditure by the various state agencies.

Collective Bargaining Reserve Fund - to account for transfers from the general fund, which may be used to fund negotiated contracts for state employees.

Transitional Escrow Fund – to account for funds set aside to be held until December 31, 1999 per section 46 of Chapter 68 of the Acts of 1999, and subsequently until November 30, 2001 under Chapter 88, Section 36 of the Acts of 2001 as a reserve.

BUDGETED ENVIRONMENTAL FUNDS:

These funds account for a variety of revenues, which finance programs to preserve, protect and enhance the environment. These funds include:

Natural Heritage and Endangered Species Fund - to account for revenues from public and private sources and/or the federal government as reimbursements, grants, donations or other receipts; used to acquire by purchase, lease, easement or license land critical to nongame wildlife and endangered species for purposes of protecting and enhancing nongame wildlife.

Mosquito and Greenhead Fly Control Fund - to account for assessments to cities and towns of various mosquito control districts; appropriated to support activities designed to control mosquitoes and /or "greenhead" flies.

Inland Fisheries and Game Fund - to account for revenues from license and permit fees for inland fishing, hunting, trapping, and sporting licenses and revenue producing stamps or the sales of land, rights and properties, gifts, interest, and federal grant reimbursements; used for

developing, maintaining and operating the division of fisheries

Environmental Challenge Fund – to account for inappropriate disposal of hazardous waste and other environmental infractions; used for cleanup, control or response actions for oil and hazardous materials, and to reduce the production of hazardous waste.

Toxic Use Reduction Fund – to account for the fees, penalties, and other financial charges collected by the Toxic Use Reduction Institute including grants or gifts collected. Appropriations are for the specific purpose of cleaning up and reducing toxic waste.

Clean Environment Fund - to account for programs for recycling compost, solid waste source reduction and other environmental programs, which are financed through unclaimed bottle deposits escheated to the Commonwealth.

Environmental Permitting and Compliance Assurance Fund - to account for revenues from the issuance of permits for the removal of hazardous materials and certain other fees; used to fund the cost of monitoring, discharge sampling and analysis, inspection, technical assistance, and enforcement activities necessary to ensure compliance by persons holding permits.

Underground Storage Tank Petroleum Product Cleanup Fund – to account for fees, penalties, grants, gifts or other contributions used to provide reimbursements for cleanup and other expenditures incurred as a result of damage caused by underground storage tanks and systems.

Environmental Law Enforcement Fund - to account for revenues from certain gas taxes, grants, and revenue from law enforcement coverage details throughout the Commonwealth; used for operating the division of law enforcement.

Public Access Fund - to account for revenues from certain gas taxes and federal reimbursements used for the cost of acquisition, construction, maintenance operation and improvement of public access to state waterways.

Harbors and Inland Waters Maintenance Fund – to account for certain gas taxes, fines, permits and federal reimbursements used for maintenance, dredging and cleaning of harbors, inland waters and great ponds.

Marine Fisheries Fund – to account for revenues from certain gas taxes, licenses, and fees; used to manage the division of marine fisheries.

Watershed Management Fund - to account for revenues from the sale of wood products harvested on watershed lands, and assessments from the Massachusetts Water Resource Authority; used to maintain and operate the MDC Watershed Division.

Low Level Radioactive Waste Management Fund – to account for assessments on persons licensed or registered to receive, possess, use, transfer or acquire radioactive material; used for the expenses of the Low Level Radioactive Waste Management Board to carry out its duties.

Asbestos Cost Recovery Fund – to account for revenues from court judgments/settlements relative to the removal of asbestos; used for operations, maintenance, encapsulation and removal of asbestos.

Clean Air Act Compliance Fund - to account for revenues from permit applications and grants; used for the implementation, administration, monitoring and analysis of permitting compliance and enforcement of technical assistance programs.

Solid Waste Disposal Fund – to account for monies received relative to solid waste disposal including assessments from cities and towns to be appropriated for the purpose of management, maintenance and operation of solid waste disposal facilities.

Second Century Fund - to account for fees or charges for use of the Commonwealth's system of parks, forests or other natural resources subject to the oversight of the department of environmental management pursuant to section two of chapter twenty-one; and expenditure for the enhancement, improvement and maintenance of forest and parks systems.

Safe Drinking Water Fund - to account for drinking water assessments to end suppliers engaged in the distribution of water and used for the administration of monitoring federal safe drinking water act.

OTHER BUDGETED FUNDS:

These funds account for a variety of miscellaneous taxes, fees, fines and other revenues, which are restricted to the financing of specific Commonwealth programs.

Rate Payer Parity Trust Fund – to account for all personal and corporate tax revenues attributable to the sale of assets relative to electric companies and penalties and fees collected for the purpose of providing extraordinary assistance in achieving the required electricity rate reduction.

Child Support Penalty Fee Fund - to account for penalties, fees or interest assessed by IV-D agency to establish the enforcement of child support authorized under Title IV of the Social Security Act.

Workforce Training Fund - to account for revenues from new unemployment surcharge of .075% of unemployment taxable wages on employers; to provide grants to employers and labor groups to provide education and training to new and existing employees.

Brownfields Revitalization Fund – to account for transfers from General Fund and related interest or investment earnings; amount appropriated for financial assistance to project sites located within Federal Empowerment Zones or Enterprise communities.

Firearms Records Keeping Fund – to account for revenues from firearms registration fees for the purpose of implementing, enhancing and maintaining a state firearms information system.

Clean Election Fund – to account for revenues from the voluntary tax return "check off" on personal tax returns for the purpose of payment to eligible candidates for public financing of campaigns for statewide elective office.

Tobacco Settlement Fund – to account for the transfer of all designated scheduled payments received by the Commonwealth pursuant to the Master Tobacco Settlement; amounts appropriated for funding health related services and programs intended to control or reduce the use of tobacco in the Commonwealth.

Antitrust Law Enforcement Fund – to account for fines, penalties received and expenses paid related to actions brought by the Attorney General in connection with antitrust actions.

Victim and Witness Assistance Fund - to account for assessments imposed on individuals convicted of crimes; used to make grants to District Attorney's Offices and the Parole Board for programs serving crime victims and witnesses.

Intercity Bus Capital Assistance Fund – to account for the acquisition of vehicles for inter-city transportation and the revenues and costs associated with their operation.

Motorcycle Safety Fund – to account for motorcycle registration fees collected to administer motorcycle safety programs.

Drug Analysis Fund – to account for certain revenues received by the courts resulting from fines; used for the cost of analysis of controlled substances.

Trust Fund for the Head Injury Treatment Services Fund - to account for revenues from a surcharge on fines resulting from 'driving under the influence' convictions; funds the Massachusetts Rehabilitation Commission's statewide head injury program to develop and maintain non-residential rehabilitation services for head injured persons.

Massachusetts Tourism Fund - to account for revenues received from hotel taxes; used to fund the Office of Travel and Tourism promotions and the Massachusetts Convention Center Authority.

Ponkapoag Recreational Fund – to account for a portion of golf course revenues; used for the capital improvement, purchase of equipment, and maintenance of the golf course.

Leo J. Martin Recreation Fund – to account for a portion of golf course revenues; used for the capital improvement, purchase of equipment and maintenance of the golf course.

Division of Insurance Fund – to account for revenues collected from agent licenses used to fund the cost related to accreditation from the National Association of Insurance Commissioners.

Health Protection Fund – to account for a portion of the cigarette tax, penalties, forfeitures, interest, settlements of lawsuits and fines collected in connection with sales of cigarettes; used to supplement existing funding for school health education programs, workplace and community smoking prevention and cessation programs, public service advertising, and for support of community health centers and their programs of prenatal and maternal care.

State Building Management Fund — to account for revenue rentals and commissions, such as parking fees and expenditures for the maintenance and operation of the Massachusetts Information Technology Center, the Springfield State Office Building, the State Transportation Building and other facilities.

Reggie Lewis Track and Athletic Center Fund - to account for revenues from user fees, concession stand commissions and other fees used for equipment repair, maintenance and non - payroll operating expenses.

Assisted Living Administration Fund – to account for certification fees; used for operating expenses associated with the regulation of Elder Affairs Assisted Living.

Commonwealth Cost Relief Fund – to account for transfers from other funds; used for subsidies and other assistance for water pollution abatement projects, mitigation of sewer rate increases, and for extraordinary expenditures of the Commonwealth.

Children's and Senior's Health Care Assistance Fund – to account for a portion of the cigarette and smokeless tobacco tax, inventory tax and related investment income; to be appropriated for the provision of medical benefits to expansion beneficiaries and a five year pilot program of pharmacy assistance.

Diversity Awareness Education Trust Fund - to account for fines and related interest or investment earnings from the trial courts from assault and battery cases with the intent to intimidate based on race, color, religion, sexual orientation, nationality or disability; to be appropriated for the purpose of developing and maintaining diversity awareness educational programs and courses for persons convicted of such crimes.

Child Care Fund - to account for monies transferred from Transitional Aid to Needy Families Fund; used for the administration of childcare programs under the Office of Child Care Services.

Transitional Aid to Needy Families Fund - to account for all federal revenues and reimbursements received by the Commonwealth pursuant to the Personal Responsibility and Work Opportunity Reconciliation Act of 1996, effectively ending Aid to Families with Dependent Children (AFDC) and replacing it with Transitional Aid to Needy Families (TANF) block grants.

Social Services Program Fund – to account for monies transferred from Transitional Aid to Needy Families Fund, used for the operation of the Department of Social Services.

Local Consumer Inspection Fund – to account for all amounts generated from item pricing fines, appropriated to provide financial assistance to eligible local or regional agencies.

Caseload Increase Mitigation Fund – to account for revenues or other financing sources directed by budget to be appropriated for increased costs due to excessive welfare cases or to accommodate for fluctuations in federal funding for the Department of Transitional Assistance.

Convention and Exhibition Center Fund – to account for surcharges imposed on tourist tickets, such as cruise and for any land-based sightseeing located in the Commonwealth to finance the construction of a new Boston Convention Center.

Voting Equipment Loan Fund - to account for transfers from General Fund; loans to municipalities to replace punch card voting systems which shall be repaid to the Commonwealth no later than ten years after such loan is made.

The following funds have been enacted in legislation but are inactive for fiscal 2001:

Danvers State Hospital Reuse – to account for the first \$100,000 proceeds of sale, lease or other disposition of the Danvers State Hospital Disposition sites and is available for the needs of mental health clients formerly served by the Danvers State Hospital.

Adoption Affordability Assistance Fund – to account for state appropriations, federal reimbursements, grants and donations from public and private sources to provide funding for below market rate loans to families to adopt children. This program is managed by the Office of Child Care Services.

False Claims Prosecution Fund – to account for monies received by the Commonwealth related to actions brought by the Attorney General in connection with fraudulent claims for payment. Amounts to be expended for the investigation and prosecution of false claims action.

University of Massachusetts Lowell Wannalancit Complex Building Management Fund — to account for revenues from leasing, operation, granting of concession or other use of the Wannalancit Complex; used to meet obligations related to operation and ownership of the complex.

Non-Budgeted Funds

SPECIAL REVENUE FUNDS:

These funds account for the proceeds of specific revenue sources that are restricted to finance specific functions. Funds that are not subject to appropriation are considered Non-budgeted Special Revenue Funds.

Federal Grants Fund – to account for federal grants that are designated for specific programs, excluding federal highway construction grants, which are accounted for in the Federal Highway Construction Capital Projects Fund, and federal reimbursement programs, such as Medicaid, which are accounted for in the General Fund.

LOTTERY FUNDS:

The two lottery funds account for the operations of the State and Arts Lotteries.

State Lottery Fund – to account for revenue from sale of lottery tickets and for the payment of prizes, expenses of the State Lottery Commission and the distribution to municipalities and school districts. Transfers are made to the local aid fund.

Arts Lottery Fund - to account for revenues from sale of lottery tickets, for payment of prizes and the expenses of the State Lottery Commission, and for the administration of the Arts Lottery Council. Transfers are made to the Local Aid Fund.

UNIVERSAL HEALTH CARE FUND:

The three Universal Healthcare Funds account for assessments and other revenues that are dedicated to making health care and health insurance accessible and affordable to all Citizens of the Commonwealth.

Uncompensated Care Fund – to account for funds received from hospitals, transfers from budgeted

funds and federal reimbursements; used for the purposes of the Uncompensated Care Pool.

Labor Shortage Fund – to account for assessments on each acute care hospital equal to one-tenth of one-percent of gross patient service revenues; used for training health care workers, career development within the health care profession, and establishment of day care programs at hospitals and other health care facilities.

Medical Security Trust Fund – to account for premiums, fees, and contributions; used for health insurance for workers receiving unemployment insurance.

OTHER FUNDS:

The other minor special revenue funds account for a variety of miscellaneous taxes, assessments, fees, fines and other revenues, which are restricted to the financing of specific Commonwealth programs.

Department of Telecommunication and Energy Trust Fund – to account for expenditures by the Department of Telecommunications and Energy for activities of the department related to the regulation of electric companies.

Liability Management and Reduction Fund - to account for charge backs assessed to departments as premiums for the provision of insurance coverage for state agencies to cover payment of judgements, settlements and litigation costs in tort claims.

Debt Defeasance Trust Fund – to account for transfers from General Fund and Highway Fund for purpose of defeasing debt pursuant to Chapter 55 of the Acts of 1999 section 6, 7 and 8, as amended, and Sections 13 and 17 of Chapter 87 of the Acts of 2000.

Health Care Security Trust Fund – to account for revenues received from tobacco companies under the tobacco settlement, interest income as well as expenditures to the Tobacco Settlement Fund for health related services and programs intended to control or reduce the use of tobacco in the Commonwealth.

Civil Monetary Penalty Fund – to account for civil monetary penalties paid by nursing homes participating in the medical program for the protection of health and property of residents in a nursing home if the facility is found deficient.

MBTA State and Local Contribution Fund – to account for the transfer of revenue and MBTA service area assessments from the Commonwealth to the MBTA as set forth in Massachusetts General Laws, Chapter 10, Section 35T.

Catastrophic Illness in Children Relief Fund – to account for receipts from a portion of an employer's unemployment health insurance contribution and certain Federal financial participation. The assistance is for medical expenses of childhood catastrophic illnesses not covered by any other State and Federal program and subject to certain family income limits.

MBTA Infrastructure Renovation Fund – to account for supplemental appropriations beyond the MBTA State and Local Contribution Fund for certain MBTA infrastructure improvements. Funds are to be used for, but not limited to, compliance with the American with Disabilities Act, elevator and escalator improvements, waterproofing, fare gates, signage, lighting and structural improvements only. No rolling stock is to be acquired through the fund.

Community Preservation Trust Fund – to account for revenues received from surcharges on real estate property taxes, public and private sources as gifts, grants and donations, from damages, penalties costs from litigation settlements and surcharge on municipal liens imposed by the cities and towns who accept funds from the trust, to further community open – space preservation programs.

Health Insurance Portability and Accountability Act Fund – to account for revenues received from Federal reimbursements under the Social Security Act, other Federal reimbursements, grants, gifts or other contributions to meet the costs of compliance with the Federal Health Insurance Portability and Accountability Act of 1996 (HIPPA).

Government Land Bank Fund – to account for proceeds from disposition, conversion and redevelopment of land used for payments of principal and interest on bonds and notes of the Massachusetts Development Finance Agency.

Federally-Assisted Housing Fund – to account for Federal housing financial assistance; used for payments of principal and interest on bond debt.

Oil Overcharge Fund – to account for the fines and penalties collected under federal litigation from certain oil companies; used to provide fuel assistance and home insulation for low-income residents.

Environmental Trust Fund – to account for fines, gifts and grants used for restoration, protection and improvement of the quality of Boston Harbor, Lynn Harbor, Massachusetts Bay, Buzzard's Bay and Cape Cod Bay.

Children's Trust Fund – to account for gifts, grants, interest, and donations to the Child Abuse Prevention Board and certain appropriations designated to be transferred to the fund; used for support programs to raise awareness of child abuse and prevention programs.

Child Support Enforcement Fund – to account for Federal grants used for activities associated with the collection of child support.

Department of Industrial Accidents Special Fund – to account for assessments to employers and cities and towns for worker's compensation insurance premiums and penalties assessed against employers who fail to insure for the worker's compensation; used to reimburse the general fund for the operating account of the Department of Industrial Accidents and for administrative overhead.

County Correction Fund – to account for approximately seven and one half percent of the deeds excise tax distributed to counties for the operation of county correctional facilities.

Massachusetts AIDS Fund – to account for gifts, grants, and donations; used for research, treatment, and education related to acquired immune deficiency syndrome.

Board of Registration in Medicine Fund – to account for certain revenues and expenditures of the Board.

Water Pollution Abatement Projects Administration Fund – to account for transfers from the Water Pollution Abatement Trust and general obligation bond proceeds; used for the administration of the Department of Environmental Protection to fund water pollution abatement projects.

Commonwealth Sewer Rate Relief Fund – to account for transfers of amounts from the General Fund or other funds; used for the purpose of mitigating sewer rate increases and making sewer rate relief grants to municipalities.

Motor Vehicle Safety Inspection Trust Fund – to account for vehicle inspection fees for administration and operation of safety inspection programs by the Registry of Motor Vehicles.

Child Care Quality Fund – to account for expenditures by the commissioner of the Office for Children for providing grants for not-for-profit childcare organizations for the purpose of improving childcare services.

Grant Anticipation Note Trust Fund - to account for proceeds to cover grant anticipation note expenditures and pay the related debt service of the proceeds.

The following fund has been enacted in legislation but is inactive for fiscal year 2001:

Energy Technology Development Fund – to account for revenues received from miscellaneous trusts, gifts and donations to be administered and expended by the commissioner of the Division of Energy Resources to promote energy efficiency and the research development and commercialization of new energy technologies.

Capital Projects Funds

The Capital Projects Funds are used to account for the financial resources used to acquire or construct major capital assets of the Commonwealth and to finance local governmental capital projects.

General Capital Projects Fund - to account for proceeds of bonds sold to fund the construction or acquisition of capital assets for general Commonwealth purposes, excluding highway construction and projects targeted for specific localities or purposes.

Capital Investment Trust Fund – to account for a transfer from the General Fund to finance appropriated items of a capital nature pursuant to sections 2E and 107 of Chapter 88 of the Acts of 1997.

Convention and Exhibition Center Capital Fund -to account for proceeds of bonds to finance the construction of a convention center in Boston.

Capital Improvements and Investment Trust Fund - to account for the Commonwealth's reimbursement to cities and towns for expenses incurred for projects for construction and reconstruction of town and county ways.

Capital Expenditure Reserve Fund - to account for amounts paid by the Massachusetts Turnpike Authority as payment toward the acquisition cost of the Third Harbor Tunnel and Federal financial participation money related to expenditure amounts paid by Massachusetts Port Authority as determined by a feasibility study; used to pay principal and interest on certain bonds, related notes or direct capital expenditures.

Highway Capital Projects Fund – to account for the proceeds of bonds sold to finance construction of state highways and to fund the Commonwealth's share of Federally sponsored highway construction.

Federal Highway Construction Program Capital Projects Fund - to account for federal highway construction grants which, with the Commonwealth's required share of matching funds, finance interstate highways and similar projects within Massachusetts to promote a nationwide highway system.

Central Artery and Statewide Road and Bridge Infrastructure Fund - to account for bond proceeds, certain revenues from Registry of Motor Vehicle fees, (net of debt service expenditures) and payments from authorities. The purpose of expenditures of the fund is to meet the estimated additional costs associated with the Central Artery/Ted Williams Tunnel Project and for costs of the statewide road and bridge program. As promulgated in Chapters 87 and 125 (sections 7 through 10) of the Acts of 2000, this fund also receives and expends interest revenue and receives and expends savings from the defeasance of debt that occurred during FY01.

Capital Needs Investment Trust Fund — to account for the activities promulgated in Chapter 159 of the Acts of 2000 (the General Appropriation Act,) Section 357. The fund accounts for certain transferred portions of tax revenues during FY01 through FY05 to the following funds and purposes: to the Affordable Housing Trust Fund, to the Department of Education for virtual education space, for its information management system and for technological purposes and curriculum development and finally, for the rehabilitation and reuse of mental health, mental retardation facilities and other capital needs of the Commonwealth. The fund expires as of June 30, 2005 with any remaining balance transferred to the Stabilization Fund.

LOCAL AID FUNDS:

The Comptroller in Fiscal Year 2000 eliminated six capital projects funds set up by the Comptroller under Chapter 7A of the General Laws. The activity in these funds has become immaterial and has been consolidated into one fund. The former six funds are the Lockup Facilities Improvements, County Correctional Facilities, State Recreational Areas, Metropolitan Parks, Suffolk County Jail Facility and Local Infrastructure Capital Projects Funds. In addition, the Water Pollution Control Capital Projects Fund is consolidated for FY01.

Local Capital Project Fund - to account for the proceeds of bonds sold to finance the construction of correctional facilities, water pollution abatement projects and other local projects in specific localities of the Commonwealth. The fund accounts for the proceeds of bonds to finance

improvements to lockup facilities, state police lockup facilities and to finance improvements to County Correctional Facilities, and other monies received by Department of Environmental Management pertaining to state parks, reservations and recreation areas outside the metropolitan parks district; used for purposes of state parks, reservations and recreation areas outside the metropolitan parks district.

OTHER FUNDS:

These funds account for the proceeds of bonds used to to finance land and transportation equipment for economic development.

Government Land Bank Capital Projects Fund - to account for proceeds of bonds used to finance the acquisition, holding, protection, maintenance, repair or use of lands and for personnel and the administrative costs of the Massachusetts Development Finance Agency.

Intercity Bus Capital Assistance Capital Projects Fund - to account for proceeds of bonds used for the acquisition and leasing of inter-city coaches and for planning and other relevant costs.

Fiduciary Fund Types

The Fiduciary Funds are used to account for assets held by the Commonwealth in a trustee capacity or as an agent for individuals, private organizations or other governments. The funds include Expendable and Non – Expendable Trust Funds, Pension Funds, as well as Agency Funds.

EXPENDABLE TRUST FUNDS:

Expendable Trust Fund – to account for various gifts, bequests or contributions held by the Commonwealth of which both principal and interest may be expended for purposes designated by the donor.

Revolving Loan Fund – to account for Federal grants, investment and interest income to be expended for loans to non-profit private entities to establish housing for individuals recovering from alcohol or drug abuse and for loans to local housing authorities.

Teacher, Principal, Superintendent Quality Endowment Fund – to account for funds to be paid to an incoming school employee signing bonus program to be administered by the Department of Education for the purpose of encouraging the best and brightest candidates to serve in public schools.

Unemployment Compensation Fund – to account for unemployment taxes collected from employers, held by the United States Treasury in the Federal Unemployment Trust Fund, from which funds are drawn for the payment of benefits to the unemployed.

NONEXPENDABLE TRUST FUNDS:

Nonexpendable Trust Fund – to account for various gifts and bequests held by the Commonwealth, of which only the income may be expended for purposes specified by the donor.

PENSION TRUST FUNDS:

Pension Trust Funds – to account for the assets, liabilities and fund balances held in trust by the State Employees', State Teachers' Retirement Systems and the State – Boston Retirement System for the payment of retirement, disability and death benefits to members of these retirement systems.

AGENCY FUNDS:

Agency Funds – to account for cash, investments held or managed by the Commonwealth on behalf of others. These include the investments made by cities, towns and local authorities in the Municipal Depository Trust, employees' contributions to the deferred compensation plan, annuity contracts held for lottery prize winners, local option taxes collected but not yet remitted, assets held in escrow accounts by the Commonwealth's court system and human service departments, child support payments collected or receivable and not yet remitted to custodial parents, and deposits required from insurance companies and similar organizations.

Balance available	\$	34,462

Calculation Of Transfers: Tax Reduction Fund

June 30, 2001 (Amounts in thousands)

This statement is prepared pursuant to Chapters 29 and 29B of the Massachusetts General Laws. It is prepared on the statutory basis of accounting and presents information contained in the official books and accounting records of the Commonwealth. Supporting information is presented in individual schedules, as indicated, and in the Financial Section of this report.

The computation is as follows:

Part 1: Comparison of Stabilization Fund, after current fiscal year transfers, to 7.5% of Budgeted Revenues and Other Financial Resources:		
Undesignated Fund Balance in the Stabilization Fund.	. \$	1,740,920
Allowable Stabilization Balance (per Schedule C)		1,714,990
Stabilization Fund Excess, if any, transferable to Tax Reduction Fund	\$	25,930
Part 2: Status of Stabilization Fund after transfers:		
Stabilization Fund Balance Transfer to Tax Reduction Fund	. \$ ·	1,740,920 25,930
Stabilization Fund Balance after transfer to Tax Reduction Fund	\$	1,714,990
Part 3: Status of Tax Reduction Fund after transfers:		
Tax Reduction Fund Balance Transfers from Stabilization Fund		7,635 25,930
Tax Reduction Fund Balance after transfers	\$	33,565

Schedule A FY2001 Tax Revenues By Revenue Class and Calculation of Allowable Net Surplus

June 30, 2001 (Amounts in thousands)

Alcoholic Beverages	\$ 64,168
Banks: Commercial and Savings	179,605
Cigarette	270,512
Corporations	945,253
Deeds	135,205
Estate and Inheritance.	203,381
Income	9,902,677
Insurance	322,551
Motor and Special Fuels	659,873
Public Utilities	86,726
Room Occupancy	149,617
Sales and Use	3,755,838
Club Alcoholic Beverages	625
Motor Vehicle Excise.	105
Convention Center Surcharges.	13,235
Community Preservation.	15,989
State Racing	7,542
Beano	5,034
Raffles and Bazaars	881
DOI Excess and Surplus Lines	10,348
Boxing	23
UI Surcharge	23,674
FY 2001 State Tax Revenue	16,752,860
0.5% of Total Tax Revenue	83,764
Allowable Consolidated Net Surplus	\$ 83,764

This schedule is prepared on the statutory basis of accounting. It presents tax revenues as reported in the governmental funds of the Commonwealth. It differs from the schedule of tax collections prepared by the Comptroller, Commissioner of Revenue and State Auditor for calculations in accordance with Chapter 62F, as established by Chapter 555 of the Acts of 1986.

Schedule B Calculation of Capital Project Fund Transfer

June 30, 2001 (Amounts in thousands)

Maximum Allowable Transfer Amount:

A: Consolidated Net Surplus available for transfer	\$ 86,155 X 40%
B: Maximum based on 40% of Consolidated Net Surplus	\$ 34,462
C: Fund Deficits - Capital Project Funds	\$ 1,118,922
Lower of the 40% of the Consolidated Net Surplus or sum of fund deficits in the Capital Project Funds at year end	\$ 34,462
Amount Transferred by the Comptroller	\$ 34,462

Schedule C Calculation of Cap on Stabilization Fund

June 30, 2001 (Amounts in thousands)

Total Budgeted Revenues and Other Financial Resources pertaining to the Budgeted funds	\$ 23,797,541
Elimination of budgetary interfund activity (per Schedule D)	 (931,013)
Budgeted Revenues and Other Financial Resources pertaining to the Budgeted funds	\$ 22,866,528
Allowable Stabilization Fund - Balance, 7.5% of Budgeted Revenue	\$ 1,714,990

Calculation of Stabilization Fund Transfers as defined by Mass General Law Chapter 29 section 5c and as recently amended by Chapter 88 of Acts of 1997 and Chapter 175 of the Acts of 1998.

Schedule D Detail of Elimination of Budgetary Inter Fund Activity

June 30, 2001 (Amounts in thousands)

Adjustments to Revenues:	
Transfers to Intragovernmental Services Fund.	(108,527)
Adjustments to Other Financing Sources and Uses:	
Transfer from General Fund to Transitional Escrow Fund.	(579,215)
Fringe Assessed to Budgeted Funds	(72,496)
Stabilization Transfers - Year end	(51,693)
Transfer from Revenue Maximization Fund to General Fund	(38,351)
Transfer from General Fund to Children and Senior's Health Care Assistance Fund	(36,952)
Transfer from Stabilization Fund to the Tax Reduction Fund.	(25,930)
Transfer from General Fund to Clean Election Fund	(10,000)
Transfer from Intragovernmental Services Fund to General Fund.	(2,924)
License Plates.	(2,814)
Transfer to Caseload Increase Mitigation Fund	(2,021)
Miscellaneous	(90)
Elimination of Budgetary Interfund Activity	\$ (931,013)

HIGHER EDUCATION NONAPPROPRIATED ACTIVITY

The Commonwealth's Public Institutions of Higher Education are allowed, by their enabling statutes, to collect, retain, and expend certain fees, rents, donations and other types of revenue. These financial resources are important elements to the overall financial operations of the respective institutions, and are in addition to amounts made available from appropriations. The Public Institutions of Higher Education include:

University of Massachusetts System — The University system includes the campuses at Amherst, Worcester, Boston, Lowell, Dartmouth and certain institutes and programs operated by the Office of the University President.

State College System – The State College System includes the nine state colleges, which provide four-year post-secondary education programs. These colleges include:

Bridgewater State College
Framingham State College
Fitchburg State College
Massachusetts College of Art
Massachusetts Maritime Academy
Massachusetts College of Liberal Arts
Salem State College
Worcester State College
Westfield State College

Community College System - The Community College System includes the fifteen community colleges, which provide two-year post secondary education programs.

Berkshire Community College
Bunker Hill Community College
Bristol Community College
Cape Cod Community College
Greenfield Community College
Holyoke Community College
Massasoit Community College
Massachusetts Bay Community College
Middlesex Community College
Mount Wachusett Community College
Northern Essex Community College
North Shore Community College
Quinsigamond Community College
Roxbury Community College
Springfield Technical Community College
