This Document is available at the Comptroller's website: www.magnet.state.ma.us/osc

"After eight consecutive sub-.500 seasons, including a second straight ninth-place finish in the American League in 1966, Red Sox general manager Dick O'Connell decided to place his faith in the young, brash, and confident Dick Williams, who had successfully managed his Triple-A affiliate in Toronto. After accepting the job, Williams was asked how he thought the team would do in the upcoming 1967 season. He predicted, "We'll win more than we lose."

Beating 100 to 1 odds to win the American League pennant with a team of young players and two budding superstars in Carl Yastrzemski, who won the MVP and the Triple Crown, and Jim Lonborg, who won the Cy Young Award, the team became known as the "Impossible Dream" Red Sox. Unfortunately they fell one game short of a World Series Championship, losing Game 7, 7-2, to the St. Louis Cardinals.

In a different era and a different sport, but part of the same starving-for-a-championship fan base, New England Patriots head coach Bill Belichick, off a 5-11 last-place season in the American Football Conference East division in 2000, said of his team's chances in 2001, "We'll be more competitive. We'll have more depth."

On the evening of February 3, 2002, at the Superdome in New Orleans in a suspended second or two, kicker Adam Vinatieri proceeded toward the ball with short, swift steps, driving it with the full force of his right leg, creating a perfect follow-through that sent the ball end-over-end 48 yards through the uprights and into all time. Vinatieri extended his arms in triumph.

The Patriots –the "Impossible Team" –had paid back St. Louis for an entire generation of frustrated Boston sports fans, beating the 14-point favorite St. Louis Rams in Super Bowl XXXVI, 20-17.

Hearts raced as the historic significance of the evening turned screams and cheers to tears. From the players to the coaches, from the owner to the fans watching at the Superdome, and from bars in Copley Square in Boston to the "End Zone" in Foxboro, people were watching—almost 1.3 million viewers, the most-watched program in Boston television history.

This sportswriter sat motionless in his seat in the press box at the Superdome in New Orleans, as the field area was a sky of confetti and players were leaping onto the field and into each other's arms.

Quickly, with an NFL type hovering over my shoulder, waiting for the ballot I was contemplating, I had to make the tough decision on who would be the game MVP. After all, what I had witnessed through 16 games and an equally improbable postseason was the epitome of the word team."

October 25, 2002

***To the Citizens of the Commonwealth of Massachusetts,
Governor Jane Swift, and Honorable Members of the General
Court***

I am pleased to present to you the Statutory Basis Financial Report of the Commonwealth for the fiscal year ended June 30, 2002 (FY02).

During the 1990's the Commonwealth enjoyed unprecedented growth. In FY02, the economy slowed. The traumatic events of September 11th and the nearly complete shutdown of economic activity for the remainder of September 2001 exacerbated an already slowing economy. These events were coupled with a related meltdown of corporate profits and confidence due to private sector disclosure scandals. The effect on the Commonwealth was a downturn in tax revenue that has been worse than forecast both in depth and length. The reduction in taxes was approximately \$2.4 billion or 15.2%, largely from income and corporate taxation. To put the reduction in perspective, \$2.4 billion was larger than the Commonwealth's *entire* tax revenue collected in 1975. Luckily, during the decade from 1993 through and including 2002, tax revenues grew at an average of 4.4% and total governmental revenues grew at an average of 6.1% annually.

During the same time period, budgeted spending in the Commonwealth's major programs, including direct local aid, medicaid and higher education, grew at an annual average of 6.3%. The largest growth in the budget was to these three major programs, with spending on direct local aid doubling in the last decade. Combined, these three major programs encompass \$11.5 billion, half of all of the budgetary programs of the Commonwealth.

With these fiscal challenges in mind, I must report that as of June 30, 2002, that the budget was balanced but only with significant use of reserves and the financial condition of the Commonwealth will continue to present challenges as we reduce the use of reserves and constrain spending within current revenues. As of August 30, 2002, the Federal Reserve Bank of Boston, in its monthly "New England Economic Indicators," reported that the number unemployed in our Commonwealth has increased to 174,000, or a rate of 5.2%. This rate is under the federal rate of 5.7%, but it has risen dramatically even from last year. The same report shows that the consumer confidence index of the present situation has slipped in the Commonwealth from a rate of 116 a year ago, to 68 today.

The largest component of the Commonwealth's reserves is the Stabilization Fund. The Stabilization Fund, funded primarily during the last decade, provides the Commonwealth with a strategic tool to assist the Commonwealth through this difficult time. The Stabilization Fund may be used in three circumstances. The first is to make up any

difference between the actual state revenues and the allowable state revenues in the case of a revenue shortfall. The second is to replace federal funds in the case of a shortfall. Finally, the fund may be used for any event that threatens the health, safety, welfare, or stability of the Commonwealth, including an economic downturn. A significant portion of this fund, along with other reserves, was used in FY02 to minimize the impact of the dramatic drop in revenues. As we go through FY03 and beyond, the challenge will be to use it wisely to help the Commonwealth transition to this new economic reality, not delay necessary changes that must be made. In previous years, year-end transfers of budget surpluses were made to the capital project funds to make strategic investments for the management of the Commonwealth's capital budget, to defease high interest debt that otherwise could not be refunded, and the continuation of reserves funding. These reserve transfers proved to be useful in FY02, as they helped fund operations.

Financial Highlights

To meet the fiscal challenges of FY02 and beyond, the Commonwealth took extraordinary measures to remain in fiscal balance. The table at the right shows significant balances used to close FY02 and those authorized for use in the FY03 General Appropriation Act.

***Prior Year Surpluses Used to Balance
Budgetary Funds:
(Amounts in Thousands)***

	<u>FY02</u>	<u>FY03 (projected)</u>
Stabilization Fund	\$ 1,030,000	\$ 550,000
Transitional Escrow Fund	422,000	-
Health Care Security Trust Fund	60,000	-
Caseload Mitigation Fund	56,000	75,000
Medical Security Trust Fund	35,000	-
Tax Reduction Fund	33,605	-
MBTA Infrastructure Renovation Fund	24,000	-
Massachusetts Clean Elections Fund	-	20,164
Ratepayer Parity Trust	-	31,793
Operating Surpluses Transferred from Capital Projects Funds	<u>176,174</u>	<u>-</u>
Total Completed and Estimated Budgetary Transfers	<u><u>\$ 1,836,779</u></u>	<u><u>\$ 676,957</u></u>

- The Commonwealth transferred over \$1 billion out of Stabilization during FY02 as well as \$422 million of FY01 surplus transferred to FY02. An additional \$550 million will be transferred from Stabilization in FY03.
- The split between what is to be spent from the Tobacco Settlement and what should be saved for future periods was adjusted from 30:70 to 50:50 and an additional \$60 million was transferred from previously received tobacco payments for general purposes. All of the tobacco settlement funds received in FY03 will be used for current operations.
- Over \$100 million was removed from capital projects funds initially funded from previous years' operational surpluses.

The Commonwealth also took similar measures operationally to achieve balance.

- 3,953 employees took advantage of an early-retirement program offered by the Commonwealth in the executive branch and higher education, saving the Commonwealth \$30.8 million in FY02 and \$165.8 million in FY03. Filling of vacancies in these positions will amount to \$1.4 million in FY02 and \$29 million in FY03. Additional staff reduction measures, including layoffs, have commenced.

- Taxes on cigarettes, capital gains, the elimination of the personal income tax charitable deduction, and decreases in personal income tax exemptions have been enacted increasing tax revenues by an estimated \$1.2 billion in FY03.
- In addition, the FY03 General Appropriations Act increased certain fees.
- During FY02 and FY03, the Governor used her powers under Massachusetts General Laws Chapter 29, Section 9C to reduce spending.
- The Legislature modified the Pension Funding Schedule by extending the terms by five year, thereby reducing FY02's contribution by \$134 million.
- Finally, the Commonwealth refunded \$1.4 billion in older, higher interest debt to take advantage of historically low interest rates to save on current debt service.

Overview of the Financial Statements

This report includes the reports on the activity and balances of the budgeted funds, non-budgeted special revenue funds, capital project funds, fiduciary funds and the non-appropriated funds of higher education.

The financial operations of these funds are maintained in the Massachusetts Management Accounting and Reporting System, (MMARS). The statewide accounting system is operated by the Commonwealth and contains detailed information summarized in this report.

The SBFR is intended to satisfy the requirements of state finance law, and to present fairly the results of FY02 activity in the Commonwealth's funds. The report contains computations required by state finance law, including the certification of the Stabilization Fund and Tax Reduction Fund.

Basis of Accounting

The statutory basis of accounting, defined in Massachusetts law, is typically used to budget and control fiscal operations. The statutory basis of accounting is not in conformity with accounting principles generally accepted in the United States of America, (GAAP) as defined for governments by the Government Accounting Standards Board (GASB). I will report the Commonwealth's financial position on a GAAP basis in December, in our Comprehensive Annual Financial

Report, (CAFR). As the Commonwealth is implementing GASB Statements 34, 35, 37 and 38 in FY02, there will be a major divergence between what is contained in the SBFR fund balance, revenues and expenditures and what will be presented in December under GAAP. The major differences will include presentation of the historical cost of infrastructure, the recording of depreciation expense, the presentation of all types of debt on the face of the financial statements and the presentation of those financial statements in an all – encompassing, net assets and net expense format.

In accordance with Massachusetts General Laws, the Office of the Comptroller transmits the Statutory Basis Financial Report (SBFR) on or before October 31st. The SBFR report for fiscal year ended June 30, 2002 herein is audited by Deloitte & Touche, Independent Certified Public Accountants, and represents the conclusion of financial activity and the closing of the Commonwealth's books on the statutory basis of accounting for the fiscal year. This audit is conducted in conjunction with the Office of the State Auditor, which provides knowledge, expertise and resources to close and audit the financial statements.

This report includes the budgeted funds, non-budgeted special revenue funds, capital project funds, fiduciary funds and the non-appropriated funds of higher education.

The financial operations of these funds are maintained in the Massachusetts Management Accounting and Reporting System, (MMARS). The statewide accounting system is operated by the Commonwealth and contains detailed information summarized in this report.

The Budgeted Funds

For FY02, uses of budgeted funds exceeded sources of budgeted funds, resulting in an operating deficit of over \$1.6 billion. This deficit is indicative of the aforementioned economic factors.

Any surplus or deficit has to be viewed in a trend. Generally accepted standards indicate that a structural balance is achieved when revenues exceed expenditures over a period of multiple years. Before one-time use of surpluses, the Commonwealth had over a decade-long record of operating gains. In FY02 and FY03 the budget balance relies on significant use of prior year surpluses. In FY04 and in future years the challenge will be to match spending to available revenues before the reserves are depleted.

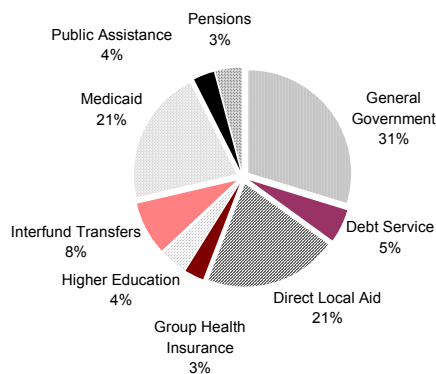

Budgeted Revenues and Other Sources

In FY02, budgeted revenues and other sources declined 7.4% from FY01 reflecting the unprecedented drop of the income and corporate taxes, offset by increased subsidies to the MBTA and other related financing sources being moved “off budget.” Budgeted tax revenue (adjusted for the change in funding related to the MBTA) decreased by 15.2% over FY01. The decline in income tax receipts is related to deterioration in corporate bonuses and profit sharing as well as an overall decrease in capital gains receipts. These items are estimated to account for over \$1.2 billion of the decline in tax receipts. This is compared to 12% gains in budgeted revenues and 2.5% gains in tax revenues during FY01 from FY00. From a multi-year perspective, the proportion of revenue sources by category to total budgeted revenues and other sources showed a drop in taxes as a proportion of the total budget compared to raises in non-tax categories from FY01 to FY02. Personal income and sales taxes continue to be the largest sources of tax revenue for the Commonwealth. However, for the first time in 50 years of recent tax history, motor fuel tax revenue surpassed corporate tax revenue. This is directly due to the drop in corporate tax revenue.

Further complicating the deficit, budgeted expenditures and other uses, including transfers, increased 7.0% from FY01 to FY02. This increase is due to the increased costs of medicaid (up 13.3%), group health insurance (up 11.9%) and the increasing costs of debt service after FY01’s \$600 million in one-time savings related to defeasance of high interest debt. The Budgeted Funds – Operations table on page 6 displays the FY02 summary of budgeted funds, compared to FY01. Financial statements for each of the 57 individual budgeted funds are included in the financial section of this report. The 2001 balances have been restated due to the transfer of the Mosquito and Greenhead Fly Fund from a budgeted to a non-budgeted fund status.

Budgeted Expenditures and Other Uses

In conducting the budget process, the Commonwealth excludes those “interfund” transactions within the budgeted funds that are included in this report because by their nature, have no impact on the combined fund balance of the budgeted funds. The table Budgeted Funds – Operations isolates this “interfund” activity from the budgeted sources and uses to align forecasts prepared during the budget process to actual amounts in this report. Transfers among the Budgeted Funds increased this year due to amounts transferred from stabilization to other funds to balance the budget for the year. A detailed list of these interfund transfers is included in note 3 to the general purpose financial statements.

The graph of Budgeted Funds – Fund Balance, on page 7, shows the combined fund balance in the budgeted funds for the past five years. This “bottom line” perspective demonstrates the accumulation of resources attributable to balanced budgets over this period. The FY02 ending balance of \$1.4 billion is composed of three items. The Stabilization Fund balance of \$882 million is the largest component. The other components include \$311 million undesignated surplus available for appropriation in FY03 and \$195 million reserved and designated for continuing appropriations and debt service. With the current state of the economy, we now realize the importance of the balance in the Stabilization Fund and its direct correlation to the financial condition of the Commonwealth.

***Budgeted Funds – Fund Balance
(Amounts in Thousands)***

State finance law, as amended during FY02, increased the maximum balance that may accumulate in the stabilization fund to a level of 10% of budgeted revenues and other sources. The law then directs that any amount in excess of this “cap” be transferred to the Tax Reduction Fund for future, one-time, personal income tax rebates. Due to the significant transfers out of stabilization this year, it will be a while before the “cap” will be reached. The details of these calculations can be found on pages 334 through 339 of this report.

***Stabilization Fund –
Fund Balance
(Amounts in Thousands)***

The graph, Stabilization Fund Balance portrays this “cap” and the balance of the fund over a five-year period. Despite the Commonwealth’s positive financial condition, a few cautionary notes are merited. There are certain problems with the definitions in the state finance law, enacted in 1986 and continued with slight modifications to the present. A balanced budget, defined as the “Consolidated Net Surplus,” is the combined undesignated fund balance of the General, Local Aid, and Highway Funds. According to this restricted definition, fiscal balance was achieved in FY02, but only after transfers from stabilization and the general capital project fund. This definition excludes 52 other budgeted funds with a combined undesignated fund balance of nearly \$1.2 billion including reserves for continuing appropriations (the largest being stabilization). The Commonwealth should adopt a more straightforward definition of fiscal balance. State finance law should be amended to rationalize the contributions to the Stabilization Fund to include the entire population of budgeted funds.

***“Consolidated Net Surplus”
Prior to Transfers
(Amounts in Thousands)***

Under current general laws, an amount equal to 0.5% of tax revenues is retained in the funds contributing to the calculation. Any amount in excess of this is available for transfer from the General and Local Aid funds to a Capital Projects Fund in lieu of bonds (the Open Space Acquisition Fund), leaving any balance to be transferred to the Stabilization Fund.

Further complicating this issue is the existence of a large number of “minor” budgeted funds. Over the past several years, dozens of new “minor” funds have been created. These funds split off revenues and expenditures previously accounted for as part of a major fund, such as the General Fund. A number of these funds have structural imbalances leading to chronic deficits. The trend to fragment the budget into such special interest funds should be addressed with a plan to either consolidate to a more reasonable number of funds or eliminate funds that are structurally in deficit.

The Non-Budgeted Funds

The Non-Budgeted Funds represent operations in which the government has imposed its sovereign authority, but has excluded these operations from the annual budget process. During FY02, the Commonwealth maintained 35 of these funds. The largest funds in activity include the Lottery, Federal Grants, Debt Defeasance, Health Care Security Trust (the recipient of tobacco settlement funds), Grant Anticipation, Sewer Rate Relief, the Medical Security Trust and the Uncompensated Care Funds. New funds were added this year including the State Racing Fund and the Division of Professional Licensure Fund. The Mosquito and Greenhead Fly Fund became a non-budgeted fund after formerly being a budgeted fund. This change necessitated a restatement of FY01 amounts to conform to current presentation. These funds are commonly referred to as special or dedicated revenue funds whose revenues are matched to related expenditures.

The table, Non-Budgeted Funds – Operations, includes a summary of the FY02 non-budgeted funds. Financial statements for each of the individual funds are included in the financial section of this report. Several of these funds are worth mentioning. At June 30, 2002, the Federal Grants Fund had a positive fund balance, but there is a deficiency in cash within the fund. This situation results in the Commonwealth drawing funds from the federal government a few days after applicable cash disbursements to assure an “interest neutral” timing of the federal – state cash exchange. These requirements were established by the Cash Management Improvement Act of 1990. Within the Lottery Funds, gross revenues continued to increase this fiscal year. The Lottery continues to be a strong source of cash flow for the Commonwealth.

Non-Budgeted Funds - Operations (Amounts in thousands)

	2001	2002

The Health Care Security Trust Fund receives all revenues from the Master Settlement Agreement (MSA) between the states and the tobacco industry to recover healthcare costs for tobacco related illnesses. The MSA estimates the Commonwealth revenues for the first 25 years of the settlement to be approximately \$7.6 billion. However, this estimate is prior to future adjustments, including adjustments for inflation and changes in the volume of domestic cigarette sales. In FY02, the Commonwealth received over \$304.5 million or 90.7% of the estimated amounts shown in the agreement. Of the \$304.5 million, over \$154 million was transferred to the Tobacco Settlement Fund, a budgeted fund. In addition, \$60 million was transferred out to the General Fund. The majority of expenditures from the fund this year were for Health and Human Services, Elder Affairs and Medicaid costs.

Beginning in FY01, a board of public and private sector investment experts, appointed by the Governor, the Attorney General and the Treasurer-Receiver-General, started managing the investment of funds in the trust. This board has broad discretion on investment choices to increase the assets in the fund. The board has chosen to use the Pension Reserves Investment Management Board (PRIM) to invest the assets, leveraging their investment managers' expertise and the economies of scale. The total return on investment in this fiscal year was negative tracking the stock market as whole. For FY02, 50% of payments into the fund and investment earnings thereon were transferred from the trust to the budgeted funds for appropriation by the Legislature, a rise from 30%. For FY03, the Legislature has mandated that 100% of the payments received will be used to balance the budget.

Federal Grant Anticipation Notes, (GANS) activity related to the Central Artery / Tunnel Project (CA/T) continued this year. During FY98, the Legislature authorized the issuance of up to \$1.5 billion in GANS to finance the current cash needs of the Project. As of June 30, 2002, all of the GANS have been issued. These GANS mature between 7 to 17 years from the date of issuance and are redeemed by pledged future federal reimbursements. The GANS are not considered general obligation debt of the Commonwealth. Activity related to issuance of GANS and the accumulation of pledged funds and the payment of debt service is accounted for in the Grant Anticipation Note Trust Fund. The \$113 million surplus in FY02 represents \$80 million held for payment of interest on the GANS and \$33 million in cash from the GANS issuance that will be expended on the construction of the CA/T.

***Non-Budgeted Funds –
Fund Balance
(Amounts in Thousands)***

The universal health care funds, including the Uncompensated Care, Labor Shortage and Medical Security Trust Funds, have increased their annual revenue to over \$1.2 billion. However, \$331 million was transferred out to fund operations this year due to the lagging economy. As of the end of FY02, they have a combined fund balance of over \$119 million.

The graph Non-Budgeted Funds Balance shows the combined fund balance in the Non-Budgeted funds for the past five years. In each year, the entire balance is designated for the specific purpose of the fund. The only component of overall growth in fund balance in these funds this fiscal year was due largely to deposits into the Health Care Security Trust and Community Preservation Trust Funds. As indicated in previous years, more consolidation and elimination is needed for these

funds. For example, the Government Land Bank Fund has a chronic structural fund deficit. The FY02 deficit balance of \$35 million remains an unbudgeted drain in cash flows in the General Fund. While steps have been taken to stop the growth in this deficit, the Fund should be abolished and the deficit transferred into the General Fund. An additional deficit exists in the Motor Vehicle Inspection Fund. However, the enabling statute to the Fund mandates that the Fund must be in balance by June 30, 2005. A periodic re-examination of all non-budgeted funds represents sound financial practice.

The Capital Projects Funds

The purpose of these funds is to construct or acquire capital assets for governmental use. The Governor may propose capital outlay budgets, which, upon enactment by a two-thirds vote of the Legislature and approval by the Governor, become capital outlay acts. Numerous acts may be combined for reporting in an individual Capital Project Fund, but each act is accounted for separately within the Capital Projects Fund. These accounts record authorizations for expenditures in itemized capital appropriation accounts and equivalent authorizations to issue bonds or notes in anticipation of federal reimbursements.

The structure of these funds is that each capital outlay authorization is in balance, creating authorization for inflows, which may be from sales of bonds, federal reimbursements or other revenues and authorization for expenditures. Imbalances due to timing differences develop when the expenditure precedes the inflow of funds from the sale of bonds or federal reimbursements. Because of federal tax arbitrage rules, it is more difficult to sell bonds in anticipation of expenditures. The sale of bonds in advance is not commonplace in the Commonwealth.

The Commonwealth issued nearly \$2.9 billion in debt proceeds this year. Of this amount, nearly \$1.2 billion was in the form of general obligation refunding bonds, taking advantage of low interest rates. These refundings generated approximately \$47.1 million in present value debt service savings. In June 2002, the Commonwealth issued another \$330.1 million of special obligation bonds, of which \$194.1 million was for a refunding. The escrow funded by the refunding bonds and related premium secured \$190.1 million in special obligation bonds maturing on June 1, 2003, 2004, 2006 and 2008. The interest on the newly issued refunding bonds is also paid from this escrow until the final redemption. This technique, which is normally referred to as a "crossover refunding," results in economic savings, but does not result in the defeased debt being removed from the Commonwealth's books until the call dates.

A significant portion of the Capital Projects activity continues to relate to the Central Artery / Tunnel Project (CA/T). The CA/T has been the target of an enormous amount of public scrutiny. As indicated in the notes to the Combined Financial Statements – Statutory Basis, the financial disclosure portion of the project is under review with various federal agencies. The Commonwealth has aggressively responded to these concerns regarding the integrity of the cost estimates. For the third year, an independent evaluation of the entire estimate for the project has been undertaken. The current cost estimate of the project

Central Artery / Tunnel Project
(Amounts in Billions)

Sources of Funds:	2001	2002
Federal Funds	\$7.049	\$7.049
GANS	1.500	1.500
Massachusetts Turnpike Authority	1.706	1.850
Massachusetts Port Authority	0.300	0.365
Other Commonwealth Debt	3.077	3.711
Commonwealth Operating Funds and Investment Earnings	0.843	0.150
Total Sources	\$14.475	\$14.625

Actual Costs through end of FY	\$10.425	\$11.655
Estimated Spending:		
FY02	1.472	-
FY03	1.122	1.254
FY04	0.985	0.907
FY05	0.336	0.588
FY06	0.135	0.221
Total Estimated Costs of Construction:	\$14.475	\$14.625

stands at \$14.625 billion. The federal government has capped its contribution to this project and the finance plan includes state sources to fund this increase. The project is over 83% complete as of June 30, 2002.

It is important to note that the change in cost is primarily due to the Federal Highway Administration retroactively changing the definition of project cost for prior fiscal years, as a result certain expenses and the associated revenues used to finance these expenses have been added to the project budget and the summary tables presented here.

During FY00, the Commonwealth put in place a new management team for the project that is committed to full, timely disclosure about schedules and costs. The bulk of the spending remaining on the Project will occur during FY02 and FY03. Completion is expected to be during FY06. The east-west portion (Interstate 90) is expected to open in December of 2002, with the northbound portion (Interstate 93) expected to open in January of 2003. The southbound portion (Interstate 93) is expected to partially open in January of 2004. Substantial completion is expected in February 2005, with "finish work" completed in FY06.

Pursuant to statute and agreements with the Massachusetts Turnpike Authority (the MTA) and the Massachusetts Port Authority (MassPort), the entities have committed to significant ongoing contributions to the Commonwealth as part of the financing for this project. These funds are in addition to funds from the Commonwealth and federal funds for the project.

The graph Capital Projects Funds – Fund Balance (Deficit) shows the combined fund balance in Capital Projects Funds for the past five years. The graph shows a surplus in the funds in FY02. However, the majority of these funds remain in deficit due to the timing differences between bonding and expenditure.

The Capital Projects Funds – Operations table on the next page, includes the FY02 Capital Projects Funds, summarized and compared to FY01. Financial statements for each of the individual funds are included in the financial section of this report.

Capital Projects Funds –
Fund Balance (Deficit)
(Amounts in Thousands)

The Administration has implemented a coordinated fiscal strategy for the management of Capital Projects Funds. This strategy includes a five-year capital budget linked to debt management and cash management. The focus of this strategy is to manage capital spending and outstanding debt to levels the Administration considers appropriate for the Commonwealth. An important part of the strategy is to control capital spending within an annual administrative "cap." As additional capital outlays have been enacted and significant projects such as the CA/T have been authorized, it becomes more challenging to restrain spending to such limits. Strategies to manage this situation, such as alternative financing for capital projects, should continue.

The Fiduciary Funds (Excluding Agency Funds)

The Fiduciary Funds record the Commonwealth's responsibility for assets it controls on behalf of other parties. Examples of such funds are the Unemployment Compensation and Pension Trust Funds. The table on the following page, which excludes assets held on a purely custodial capacity in so-called Agency Funds, summarizes the FY02 activity of the Fiduciary Funds. Over 92% of this Fiduciary Fund activity is related to the Commonwealth's Pension Fund detailed in fund statements found in this report.

The \$2.8 billion operating loss in this fund group is attributable to two factors:

- The loss in value of pension assets due to stock market declines, and
- Payment to the unemployed in the Commonwealth exceed employee contributions to the Unemployment Compensation Trust Fund by over \$850 million.

The Commonwealth is in the process of updating its pension valuation. The valuation is based on data as of January 1, 2002. Details of this valuation are outlined in note 10. While the value of pension assets has dropped since this valuation, the public retirement system remains strong at 81.1% funded. Due to market conditions after June 30, this percentage could be lower.

The Non-Appropriated Funds of Higher Education

The SBFR includes the financial operations of the non-appropriated funds of the 25 Institutions of Higher Education in the statistical section of this report. Over the past few years, significant efforts have been taken by our office and the institutions to improve the accuracy and timeliness of this Higher Education segment of the financial report. Each Institution of Higher Education is authorized and directed in its enabling statute to collect, retain and expend certain fees, rents, sales, donations, federal financial participation and other types of revenue through campus based systems. These financial resources are integral parts of the total financial activity of each campus. They also represent resources in addition to amounts made available from Commonwealth appropriations.

Non-Appropriated Funds of Higher Education – Fund Balance
(Amounts in Thousands)

The Non-Appropriated Funds for Higher Education – Operations table includes the FY02 funds, summarized and compared to FY01. Financial statements for each of the individual funds are included in the statistical section of this report. The graph Non-Appropriated Funds for Higher Education – Fund Balance shows the combined fund balance for the past five years. The combined balance represents \$641 million for the University of Massachusetts, \$93 million for the State College system and \$81 million for the Community Colleges. These balances are designated for specific purposes, such as restrictions on endowments or other specialized purposes specified by the funding contributions.

Conclusions And Recommendations

The Commonwealth has many accomplishments in FY02 of which it can be proud.

The Office of the Comptroller has undertaken a major effort to build a more collaborative working relationship among members of this office and Chief Fiscal Officers (CFO) of the Commonwealth in a program we call "PARTNERS in Financial Management". The second CFO conference brought together CFOs from across the Commonwealth for two days of meetings. PARTNERS stands for people, accountability, responsibility, trust, negotiation, efficiency, risk assessment and mitigation, and solutions. We have enhanced the mantra that all systems, big and small, depend on people who are integral to those systems. This recognizes that fiscal officers of the Commonwealth are all accountable for their actions, ensuring the uncompromising integrity of the financial statements of the Commonwealth. We must maintain this standard to maintain the public trust. The Office of the Comptroller continued to increase delegation this year to individual departments due to the level of trust that we have with them, based on prior results. We must continually strive to balance accountability with efficiency, especially in order to continually serve the Citizens of the Commonwealth, our customers. This balancing also targets controls to result in effective risk mitigation. Finally, we strive to find solutions to many of the Commonwealth's problems in conjunction with the rest of the CFOs, so that full input is heard.

This December when we release the Commonwealth's Comprehensive annual financial report, it will take on a new look and feel. With the implementation of GASB Statement 34 the Commonwealth's financial statements will include a more comprehensive view of the financial condition accruing all long-term assets and liabilities on the balance sheet including Commonwealth infrastructure. Underlying the change to this document was an extensive statewide project to:

- value Commonwealth infrastructure at historical cost;
- redesign underlying financial systems; and,
- work with the 25 institutions of Higher Education and 30 public authorities to make changes to their financial systems. This is so that their financial statements, which the Commonwealth must rely on, are also compliant with GASB Statement 34.

This was a huge undertaking. It was conducted with little or no additional funding and has been highly successful.

Last year, the Commonwealth started the process of consolidating its web sites to better serve the Citizens of the Commonwealth. With service to our customers as key, the Commonwealth's new web portal "Mass.Gov" promises to bring government closer to the people. Mass.Gov is customer-focused. It provides services according to the needs of citizens and businesses, not according to government structure. Citizens are able to quickly find the information and services they need without having to navigate the bureaucracy of government. Mass.Gov provides comprehensive, integrated, and seamless services that our

Citizens will be able to bring into their homes or businesses at their convenience, twenty-four hours a day, seven days a week. The Office of the Comptroller contributed to joint projects with ITD to build internet based shared services for use by all internet based applications. In addition we continued to roll out new technology with real benefits to state department and taxpayers. This year we released an internet based front end to the Billing and Accounts Receivable System allowing institutions of Higher Education to provide information regarding non performing receivables to the Comptroller for potential intercept against commonwealth payments or tax refunds. This technology was developed so that any government entity authorized in statute could take advantage of this tool. In addition we piloted new financial software simplifying the vendor registration process, reducing administrative workloads in departments and reducing the time from contract registration to completed vendor registration.

In May of 2002, the Legislature enacted Information Technology Bond III, authorizing \$300 million for the Commonwealth to upgrade its technology infrastructure. Included in this legislation is funding for the Commonwealth to upgrade the statewide financial system from 1980's, MMARS to a state of the art internet-based financial system. Last month, the Office of the Comptroller and the Information Technology Division entered into a joint project with American Management Systems, (AMS), of Fairfax Virginia, to upgrade this key financial system. The new system is slated to be completed in time for the opening of FY05. This project will focus on changing business practices in order to minimize customization to this product. This strategy will insure the Commonwealth can upgrade to current releases in the future at a reasonable cost. The goal is to keep current with technology in the future and at the same time control the total cost of system ownership. Benefits will accrue directly to the users of the financial system. In addition, this updated technology will allow for the future integration of Commonwealth internet-based applications into "back office" financial systems. The Comptroller, the Information Technology Division and AMS have assigned a highly motivated, highly dedicated team to this project to insure its success.

Building upon the observations of this letter, a detailed review of these financial statements suggests the need for action to further improve and strengthen state finance law and fiscal practice.

The Commonwealth must constantly monitor and update its systems and controls. Upon taking office in January of 1999, I began a multi-year effort to expand awareness of and the quality of internal controls throughout the Commonwealth. We have asked each department, at its highest levels, to assess its risks and target controls to manage those risks efficiently and effectively. Toward this end, the Office of the Comptroller, in conjunction with the Office of the State Auditor, has continued a multi-pronged effort to improve controls throughout the Commonwealth. This effort must continue.

The Commonwealth should adopt a more straightforward definition of fiscal balance including all of the budgeted funds. The idiosyncratic definition of fiscal balance that includes a portion of fund balance within three of the budgeted funds should be expanded to include all 54 funds.

The Commonwealth should reduce the number of funds and eliminate funds that have chronic deficits. The Commonwealth currently maintains over 122 individual funds to record its financial activity. This excessive number of funds fragments the Commonwealth's financial picture. Many of these funds have structural imbalances leading to chronic deficits. The effort to reduce the number of funds should continue. A fund should be a self balancing set of accounts where decision makers want to set aside a specific set of revenues to fund a specific set of activities. Nineteen of the 54 budgeted funds are in the environmental fund group. Thirteen of these nineteen funds contribute to accumulated deficits of \$104.4 million in this fund group. The revenues and expenditures in these funds should be brought into alignment either through increased fees and assessments or decreases in appropriation, otherwise we should acknowledge that these services are to be funded from general tax revenues and consolidate this activity into the general fund. The table, Minor Budgeted Funds with Deficits identifies funds with significant deficits that remained unfunded or continued to grow during FY02 or where no plan exists to bring them into balance. The structure of these funds should be changed to balance revenues with expenses or the funds should be eliminated and their activity consolidated into the General Fund.

The Commonwealth should continue to emphasize optimization of both tax and non-tax revenues. This statewide campaign has generated over \$253 million in revenues since FY96. The revenue optimization strategy should continue.

I again would like to express my thanks to the many dedicated people within the Office of the State Comptroller. We have had another successful year within the office. Our office has undertaken many tasks this year. We are embarking on the redesign of the state accounting system, MMARS. This will be a significant effort but will provide enduring benefits to the Commonwealth. I am proud to have all the employees of the Comptroller's Office on my team to help tackle these and other difficult issues of the future.

Respectfully submitted,

Martin J. Benison
Comptroller of the Commonwealth

INDEPENDENT AUDITORS' REPORT

Mr. Martin Benison, Comptroller
The Commonwealth of Massachusetts:

We have audited the accompanying combined financial statements – statutory basis of the Commonwealth of Massachusetts as of June 30, 2002, and for the year then ended, listed in the foregoing table of contents. These combined financial statements – statutory basis are the responsibility of the management of the Commonwealth of Massachusetts. Our responsibility is to express an opinion on these combined financial statements – statutory basis based on our audit. We did not audit the financial statements of the Pension Reserves Investment Trust, which is the investment vehicle of the Commonwealth of Massachusetts' Pension Trust Funds, the financial statements of which represent 86.1 percent of the assets and –90.2 percent of the revenues of the Fiduciary Fund Type, or the Health Care Security Trust, the financial statements of which represent 36.7 percent of the assets and 3.3 percent of the revenues of the Special Revenue Non-Budgeted Fund Type. Those financial statements were audited by another auditor whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for the Pension Reserve Investment Trust and the Health Care Security Trust, is based solely on the reports of the other auditor.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the combined financial statements – statutory basis are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the combined financial statements – statutory basis. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall combined financial statement – statutory basis presentation. We believe that our audit and the report of the other auditor provide a reasonable basis for our opinion.

As described in Note 2 to the combined financial statements – statutory basis, the Commonwealth of Massachusetts prepares its combined financial statements – statutory basis on a prescribed basis of accounting that demonstrates compliance with General Laws and budgetary principles and funds of the Commonwealth of Massachusetts which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

In our opinion, based on our audit and the report of another auditor, such combined financial statements – statutory basis referred to above present fairly, in all material respects, the financial position of the Commonwealth of Massachusetts, as of June 30, 2002, and the results of its operations for the year then ended, on the basis of accounting described in Note 2.

Our audit was conducted for the purpose of forming an opinion on the combined financial statements – statutory basis taken as a whole. The combining and individual fund statements – statutory basis and supplemental information listed in the foregoing table of contents, are

presented for the purpose of additional analysis and are not a required part of the combined financial statements – statutory basis of the Commonwealth of Massachusetts. These financial statements and schedules are also the responsibility of the management of the Commonwealth of Massachusetts. Such additional information has been subjected to the auditing procedures applied in our audit of the combined financial statements – statutory basis and, in our opinion, based on our audit and the report of the other auditor, is fairly stated in all material respects when considered in relation to the combined financial statements – statutory basis taken as a whole.

We did not audit the data included in the introductory and statistical sections of this report, and accordingly, we express no opinion on such data.

In accordance with *Government Auditing Standards*, we have also issued our report dated October 25, 2002, on our consideration of the Commonwealth of Massachusetts' internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

This report is intended solely for the use of elected and appointed officials of the Commonwealth of Massachusetts and is not intended to be and should not be used by anyone other than these specified parties.

1. FINANCIAL STATEMENT PRESENTATION

A. Introduction

The accompanying combined financial statements (Statutory Basis Financial Report) of the Commonwealth of Massachusetts (the Commonwealth) are presented in accordance with the requirements of Section 12 of Chapter 7A as amended by Section 4 of Chapter 88 of the Acts of 1997 of the Massachusetts General Laws. The Office of the Comptroller also publishes the Commonwealth's Comprehensive Annual Financial Report (CAFR) which is prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for governments. GAAP is prescribed by the Governmental Accounting Standards Board (GASB), the authoritative standard-setting body for establishing governmental accounting and financial reporting principles.

The Statutory Basis Financial Report (SBFR) includes all the budgeted and non-budgeted funds and account groups of the Commonwealth, as recorded by the Office of the Comptroller in compliance with Massachusetts General Laws and in accordance with the Commonwealth's budgetary principles.

The Statutory Basis Financial Report's General Purpose Financial Statements are not intended to include independent authorities, non-appropriated funds of higher education or other organizations included in the Commonwealth's reporting entity as it would be defined under GAAP.

B. Statutory Basis

The Commonwealth reports its statutory basis financial position and results of operations in funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a set of self-balancing accounts that comprise its assets, liabilities, fund balances, revenues and expenditures/expenses. Transactions between funds within a fund type, if any, have not been eliminated.

Account groups are accounting entities used to provide accountability for the Commonwealth's general fixed assets and long-term obligations. They are not considered funds because they do not report expendable available financial resources and related liabilities.

C. Governmental Fund Types

The Fund types and account groups are organized as follows:

Governmental Fund Types account for the general governmental activities of the Commonwealth.

Budgeted Funds – are the primary operating funds of the Commonwealth. They account for all budgeted governmental transactions. Major budgeted funds include the General, Highway and Local Aid funds which are identified by the Comptroller as the operating funds of the Commonwealth.

Non-Budgeted Special Revenue Funds – are established by law to account for specific revenue sources that have been segregated from the budgeted funds to support specific governmental activities such as federal grants, funds related to the tobacco settlement and the operations of the state lottery.

Capital Projects Funds – account for financial resources used to acquire or construct major capital assets and to finance local capital projects. These

resources are derived from proceeds of bonds and other obligations, which are generally received after related expenditures have incurred, operating transfers authorized by the Legislature and from federal reimbursements. Deficit balances in Capital Projects Funds represent amounts to be financed.

D. *Fiduciary Fund Types*

Fiduciary Funds account for assets held by the Commonwealth in a trustee capacity (Trust Funds), or as an agent (Agency Funds) for individuals, private organizations, other governmental units, and/or other funds.

Expendable Trust Funds – account for trusts whose principal and investment income may be expended for a designated purpose.

Nonexpendable Trust Funds – account for trusts whose principal cannot be spent.

Pension Trust Funds – account for the net assets available for plan benefits held in trust for the State Employees' and Teachers' Retirement Systems.

Agency Funds – account for assets the Commonwealth holds on behalf of others. Agency Funds are custodial in nature and do not involve measurement of operations.

E. *Account Groups*

Account Groups establish control and accountability over the Commonwealth's general fixed assets and long-term obligations.

General Fixed Assets Account Group – accounts for the general fixed assets of the Commonwealth and capital leases.

General Long-term Obligations Account Group – accounts for long-term bonds and notes issued by the Commonwealth and capital leases.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. *Statutory Basis of Accounting*

The Statutory Basis Financial Report is prepared from the Commonwealth's books and records and other official reports which are maintained on the basis of accounting used in the preparation of the Commonwealth's legally adopted annual budget (statutory basis). The statutory basis emphasizes accountability and budgetary control of appropriations. The Statutory Basis Financial Report is not intended to present the Commonwealth's financial condition and results of operations in conformity with GAAP. Under GAAP, the books are accounted for using a current financial resources measurement focus and the modified accrual basis of accounting.

Under the statutory basis of accounting, revenues are generally recognized when cash deposits are received by the Treasury. However, revenues receivable for federal grants and reimbursements are recognized when related expenditures are

incurred. Amounts due from political subdivisions of the Commonwealth are recognized when considered measurable and available. Deeds excise taxes are recognized at the time of collection by the counties and the Commonwealth. Under GAAP, revenues are recognized when they become both measurable and available.

Under the statutory basis of accounting, expenditures are generally recorded when the related cash disbursement occurs. At year-end, payroll is accrued and payables are recognized, to the extent of approved encumbrances, for goods or services received by June 30. Costs incurred under the federally-sponsored Medicaid program, amounts required to settle claims and judgments against the Commonwealth, and certain other liabilities are not recognized until they are encumbered or otherwise processed for payment. Under GAAP, expenditures are recorded in the period in which the related fund liability is incurred.

The Pension Trust Funds are reported using a flow of economic resources measurement focus and the accrual basis of accounting on both the statutory and GAAP basis. Under this method, additions are recorded when earned and deductions are recorded at the time liabilities are incurred. This measurement focus emphasizes the determination of net change in assets available for pension benefits.

The accounting policies followed in preparing the accompanying statutory basis financial report are described in the remainder of this section.

**B. Cash, Short-term
Investments and
Investments**

The Commonwealth follows the practice of pooling the cash and cash equivalents of its Governmental and Fiduciary Funds. Cash equivalents consist of short-term investments with an original maturity of three months or less and are stated at cost. Interest earned on pooled cash is allocated to the General Fund, Expendable Trust Funds and, when so directed by law, to certain Special Revenue and Capital Projects Funds.

The Commonwealth enters into interest rate swap agreements to modify interest rates on outstanding debt. Other than the net interest expenditures resulting from these agreements no amounts are recorded in the financial statements.

The Pension Trust Funds, with investments of approximately \$25,868,200,000 at fair value, are permitted to make investments in equity securities, fixed income securities, real estate and other alternative investments. For investments traded in an active market, the fair value of the investment will be its market price. The Pension Trust Funds include investments in real estate, venture capital funds, real estate funds, limited partnerships, futures pools, international hedge pools, commodities pools, balanced pools, leveraged buyouts, private placements and other alternative investments. The structure, risk profile, return potential and marketability differ from traditional equity and fixed income investments. Concentration of credit risk exists if a number of companies in which the fund has invested are engaged in similar activities and have similar economic characteristics that could cause their ability to meet contractual obligations to be similarly affected by changes in economic or other conditions. To mitigate the exposure to concentrations of risk, the Pension Trust Funds invest in a variety of industries located in diverse geographic areas. As of June 30, 2002, the estimated fair values, determined by management with input from the investment managers, of these real estate and alternative investments were \$3,500,739,000 of the Pension Trust Funds, representing 11% of the total assets of the Fiduciary Fund Type.

C. *Securities Lending Program*

The Pension Trust Funds participate in securities lending programs. Under these programs, the Trusts receive a fee for allowing brokerage firms to borrow certain securities for a predetermined period of time, securing such loans with cash or collateral typically equaling 102% to 105% of the fair value of the security borrowed. At June 30, 2002, the market value of the securities on loan from the Pension Reserve Investment Trust (PRIT) was approximately \$1,249,322,000. The value of the collateral held by PRIT amounted to \$1,352,713,000 at June 30, 2002. The PRIT securities on loan were collateralized at all times by U.S. Treasury securities of at least 100% of the value.

D. *Receivables*

Receivables are stated net of estimated allowances for uncollectible accounts. Reimbursements due to the Commonwealth for its expenditures on federally funded reimbursement and grant programs are reported as "Due from federal government."

E. *Due from Cities and Towns*

Represents reimbursement due to the Commonwealth for its expenditures on certain programs for the benefit of cities and towns.

F. *Dedicated Revenue*

As part of the General Appropriation Act of 2000 (Chapter 127 of the Acts of 1999,) the funding mechanism for the net cost of service and other costs of the Massachusetts Bay Transportation Authority (MBTA) was changed. This change became effective July 1, 2000. Under the new funding method (Forward Funding), the MBTA's costs are funded on a current basis, rather than 18 months in arrears as had been under previous practice. The method apportions a "dedicated sales tax" amounting to 1% of applicable sales in the Commonwealth directly to the MBTA. The MBTA will also continue to receive amounts assessed on the 175 cities and towns within the service area (assessments.) The assessments totaled \$142,848,000 and \$144,544,000 in FY02 and FY01, respectively. These assessments are projected to decrease yearly to approximately \$136,000,000 by FY06. After FY06, assessments will be adjusted annually by a maximum of 2.5%.

For FY02, the minimum amount due to the MBTA, or "base revenue," was \$664,350,000. In FY02 the dedicated sales tax revenue was less than the base revenue with deposits in the Massachusetts Bay Transportation Authority State and Local Contribution Fund totaling from said taxes approximately \$638,148,000. Pursuant to the enabling statute, quarterly transfers of sales tax revenue deposited into the general and local aid funds totaling \$26,202,000 were transferred to the fund to raise the dedicated sales tax revenue to base revenue. For FY03, the dedicated sales tax will be equal to the greater of the amount raised by the sales tax or the base revenue of \$684,281,000.

The total cost to establish the Forward Funding mechanism was \$948,290,000. Of that amount, \$325,000,000 was funded through the issuance of General Obligation Bonds during FY01 and \$10,540,000 was funded through operating transfers in FY01. During FY01, the Commonwealth appropriated \$27,500,000 to begin the amortization of \$612,750,000 of the remaining deficit in the Highway Capital Projects Fund. During FY02, the Commonwealth bonded for \$300,000,000 of the remaining \$585,250,000. The maximum authorization was also raised to \$585,250,000. For FY03 through FY21, the Commonwealth has the option of either appropriating a level amount annually to fund the remaining cost, or bonding the deficit, to a maximum remaining authorization of \$285,250,000.

G. Inventories

The costs of materials and supplies are recorded as expenditures in Governmental Funds when purchased. Such inventories are not material in total to the financial statements and therefore are not presented.

H. General Fixed Assets

General fixed asset acquisitions are recorded as expenditures in the acquiring fund and capitalized in the General Fixed Assets Account Group in the year purchased. General fixed assets are recorded at historical cost, or at estimated historical cost if actual historical cost is not available. Donated fixed assets are recorded at estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized. Improvements are capitalized.

The Commonwealth capitalizes all land except land associated with infrastructure. It capitalizes buildings and equipment, including computer software, with a cost in excess of \$100,000 and \$50,000 respectively at the date of acquisition and with an expected useful life greater than one year. For FY01 this threshold was \$15,000 for all fixed assets. Public domain general fixed assets and infrastructure (roads, bridges, tunnels, dams, water and sewer systems, etc.) are not capitalized. Interest incurred during construction is not material and is not capitalized. No depreciation is provided on general fixed assets for FY02.

I. Interfund/Intrafund Transactions

During the course of its operations, the Commonwealth records transactions between funds and/or between departments. On the statutory basis, transactions between Governmental and Fiduciary Fund Types are recorded as adjustments to the funds' cash accounts. As a result, a fund may report a deficiency in cash and short-term investments.

Transactions of a buyer/seller nature between departments within a fund are not eliminated.

Transfers in and out net to approximately \$4,827,000 due to higher education non-appropriated fund activity, which is not included in the combined statements – statutory basis.

J. Risk Management

The Commonwealth does not insure for state employees workers' compensation, casualty, theft, tort claims and other losses. Such liabilities are not recognized on the statutory basis until encumbered and/or processed for payment. For employees workers' compensation, the Commonwealth assumes the full risk of claims filed under a program managed by the Human Resources Division. For personal injury or property damages, Chapter 258 of the Massachusetts General Laws (General Laws) limits the risk assumed by the Commonwealth to \$100,000 per occurrence, in most circumstances. The Group Insurance Commission administers contributory health care and other insurance programs for the Commonwealth's employees and retirees.

The Commonwealth has entered into agreements for insurance for Central Artery/Tunnel Project workers' compensation and certain other claims that may arise in the course of the Project. This special arrangement has been approved by the Federal Highway Administration as a cost-effective method to fund current and potential future claims by contractors, workers, and other parties affected by the project. Pursuant to the agreement, the Commonwealth conveys

a sum of money to an agent each month. This amount includes both federal and state share. The agent manages and settles all claims. At the conclusion of the program, the balance remaining, if any, will be returned to the Commonwealth and the federal government. The monthly amount conveyed to an agent is accounted for (on the statutory basis of accounting) as an expenditure in the Federal Highway Capital Projects Fund.

K. *Encumbrances*

Encumbrance accounting is utilized in the Governmental Fund Types as a significant aspect of budgetary control. The full amounts of purchase orders, contracts and other commitments of appropriated resources are encumbered and recorded as deductions from appropriations prior to actual expenditure, ensuring that such commitments do not exceed appropriations. Encumbrances outstanding at year-end for goods or services received on or before June 30 are reported as expenditures and statutory basis liabilities as a component of accounts payable.

L. *Fringe Benefit Cost Recovery*

The Commonwealth appropriates and pays the fringe benefit costs of its employees and retirees through the General Fund. These fringe benefits include the costs of employees' health insurance, pensions, unemployment compensation, and other costs necessary to support the state work force. As directed by Chapter 29, Sections 5D and 6B(f) of the Massachusetts General Laws, these costs are assessed to other funds based on their payroll costs, net of credits for direct payments. Since these fringe benefit costs are not appropriated in the budget, the required assessment creates a variance between budget and actual expenditures at year-end. The fringe benefit cost recoveries of \$161,524,000 in the budgeted funds result from costs assessments of \$110,667,000 in the governmental fund types and the expendable trust funds. The remainder of \$50,857,000 is assessed to the higher education non-appropriated activity which is not included in the statutory basis financial report.

M. *School Construction Grants*

The Commonwealth, through legislation, is committed to reimburse certain cities, towns and regional school districts for a portion of their debt service costs for school construction and renovation. These costs are recorded as expenditures when paid.

N. *Compensated Absences*

Employees are granted vacation and sick leave in varying amounts based on collective bargaining agreements and state laws. Upon retirement, termination or death, certain employees are compensated for unused vacation and sick leave (subject to certain limitations) at their then-current rate of pay. Vacation and sick leave are recorded as expenditures when paid.

O. *Lottery Revenue and Prizes*

Ticket revenues are recognized when sold and prizes awarded by the Massachusetts Lottery Commission are recognized as drawings are held.

P. *Fund Balances*

The Commonwealth reports fund balances as reserved where legally restricted for a specific future use. Otherwise, these balances are considered unreserved.

Fund balance has been reserved as follows:

“Reserved for continuing appropriations” – are unexpended amounts in appropriations which the Legislature has specifically authorized to be carried into the next FY.

“Reserved for Commonwealth stabilization” – are amounts set aside in the Commonwealth Stabilization Fund in accordance with 5C of Chapter 29 of Massachusetts General Laws.

“Reserved for tax reduction” - are amounts set aside in the Tax Reduction Fund according to Section 6 of Chapter 29B of the Massachusetts General Laws.

“Reserved for transitional escrow” –for FY01, amounts were reserved until November 30, 2001 under Chapter 88, Section 36 of the Acts of 2001.

“Reserved for debt service” – are amounts held by fiscal agents or the Commonwealth to fund future debt service obligations.

“Reserved for employees’ pension benefits” – are the net assets of the Commonwealth’s public employee retirement systems which cannot be used for any other purpose.

“Reserved for unemployment benefits” – are amounts reserved for payment of unemployment compensation.

“Reserved for capital projects” - are amounts reserved for capital projects.

Unreserved fund balance is segregated into two components:

“Designated for specific purpose” – are all unreserved fund balances for which the Legislature or Executive Branch has evidenced an intention to restrict for a specific purpose.

“Undesignated” – consists of cumulative surpluses or deficits of the Governmental Fund Types not otherwise designated.

Q. *Reclassification*

Certain reclassifications have been made to the FY 2001 account balances to conform to the presentation used in FY02.

3. BUDGETARY CONTROL

State finance law requires that a balanced budget be approved by the Governor and the Legislature. The Governor presents an annual budget to the Legislature which includes estimates of revenues and other financing sources and recommended expenditures and other financing uses. The Legislature, which has full authority to amend the budget, adopts an expenditure budget by appropriating monies at the individual appropriation account level in an annual appropriations act.

Before signing the appropriations act, the Governor may veto or reduce any specific item, subject to legislative override. Further changes to the budget established in the annual appropriations act may be made via supplemental appropriations acts or other legislative acts. These must also be signed by the Governor and are subject to the line item veto.

In addition, Massachusetts General Laws authorize the Secretary of Administration and Finance, with the approval of the Governor, upon determination that available revenues will be insufficient to meet authorized expenditures, to withhold allotments of appropriated funds which effectively reduce the account’s expenditure budget.

The majority of the Commonwealth's appropriations are non-continuing accounts which lapse at the end of each fiscal year. Others are continuing accounts for which the Legislature has authorized that an unspent balance from the prior year be carried forward and made available for spending in the current fiscal year. In addition, the Legislature may direct that certain revenues be retained and made available for spending within an appropriation. Fringe benefits and other costs which are mandated by state finance law are not itemized in the appropriation process and are not separately budgeted.

The original FY02 appropriations act, Chapter 177, Acts of 2001, authorized \$21,238,263,000 in direct appropriations. In addition, the act contained \$975,257,000 in authorizations to retain and expend certain non-tax revenues of which \$970,218,000 were estimated to be collected and expended. The Act and supplemental appropriations also included \$135,158,675 in interagency chargebacks. Chapter 177 included estimates of \$14,929,954,500 in tax revenues and approximately \$6,860,600,000 in non-tax revenues. With these revenues (exclusive of chargebacks) projected to total approximately \$21,790,554,500 and with unreserved balances of approximately \$369,500,000 (exclusive of the Mosquito and Greenhead Fly Control Fund which became a non-budgeted fund in FY02) carried forward from the FY01, the budget as presented in this original appropriation act was considered to be in balance.

During FY02, the Legislature also passed and the Governor signed, with some modification through veto, Chapters 183 - 199, Chapters 203 and 220 of the Acts of 2001 and Chapter 118 of the Acts of 2002, which included numerous supplemental budgetary appropriations. These supplements added \$512,919,000 of indirect appropriations and \$111,856,660 in retained revenue authorizations.

Subsequent to June 30, 2002, the Legislature passed and the Governor signed Chapters 300 of the Acts of 2002, which included \$45,798,509 in additional supplemental appropriations and \$3,116,500 in additional retained revenue authorizations. The cumulative FY02 appropriations, retained revenues and interagency chargebacks totals \$23,068,792,000. Appropriations continued from FY01 totaled approximately \$290,029,000 and certain interfund transfers directed by statute totaled approximately \$1,674,382,000.

Because revenue budgets are not updated subsequent to the original appropriation act, the comparison of the initial revenue budget to the subsequent, and often modified, expenditure budget can be misleading. Also, these financial statements portray fund accounting with gross inflows and outflows, thus creating a discrepancy to separately published budget documents. In conducting the budget process, the Commonwealth excludes those interfund transactions that by their nature have no impact on the combined fund balance of the budgeted funds.

Generally, expenditures may not exceed the level of spending authorized for an appropriation account. However, the Commonwealth is statutorily required to pay debt service, regardless of whether such amounts are appropriated.

During FY02, the Commonwealth experienced a significant downturn in certain tax revenues. The revenue estimates, under the provisions of section 5D of Chapter 29 of the General Laws, were determined to be insufficient to meet all of the expenditures authorized to be made for FY02. Therefore, in accordance with section 9C of said Chapter 29, the Secretary for Administration and Finance notified the Governor and the House and Senate Committees on Ways

and Means of the amount of the probable deficiency of revenue. In accordance with her authority under said section 9C, the Governor reduced allotments under section 9B of said Chapter 29. The amount of this reduction was \$120,256,891.

The following table identifies this interfund activity from the budgeted sources and uses to reconcile forecasts prepared during the budget process to the detailed fund accounting of the Commonwealth's statutory financial statements (amounts in thousands):

	Revenues and Other Financing Sources	Expenditures and Other Financing Uses
Actual as presented in the combined budget and actual statement - statutory basis.....	\$ 23,049,348	\$ 24,674,686

Other	(100)	(100)
Actual as presented on budgetary documents.....	<u>\$ 21,174,917</u>	<u>\$ 22,800,255</u>

The section divider for the budgeted funds contains a list of budgeted funds grouped by categories.

The Office of the Comptroller has the responsibility to ensure that budgetary control is maintained on an individual appropriation account basis. Budgetary control is exercised through the state accounting system, Massachusetts Management Accounting and Reporting System (MMARS). Encumbrances and expenditures are not allowed to exceed the appropriation account's spending authorization.

4. DEPOSITS AND INVESTMENTS

The Commonwealth maintains a cash and short-term investment pool that is available for use by all funds. Each fund type's net equity in this pool is displayed on the combined balance sheet as either "Cash and short-term investments" or "Deficiency in cash and short-term investments." The investments of the Pension Trust Funds are held in a trust.

The Office of the Treasurer and Receiver-General (Treasury) manages the Commonwealth's short-term investment pool. Statutes authorize investment in obligations of the U.S. Treasury, authorized bonds of all states, banker's acceptances, certificates of deposit, commercial paper rated within the three highest classifications established by Standard & Poor's Corporation and Moody's Commercial Paper Record and repurchase agreements that any of these obligations secure. Such investments are carried at cost, which approximates fair value.

The pooled cash and short-term investments at June 30, 2002 are as follows (amounts in thousands):

	Carrying Value
Cash and Certificates of deposit.....	\$ 573,678
Short-term investments:	
Short-term investment pool.....	3,461,927
Repurchase agreements and other.....	3,745
Money market investments.....	902,907
Total.....	<u>\$ 4,942,257</u>

Pooled cash and short-term investments include the following:

Cash and short-term investments.....	\$ 6,659,568
Cash with fiscal agent.....	343,333
Deficiency in cash and short-term investments.....	<u>(2,060,644)</u>
Total.....	<u>\$ 4,942,257</u>

The Pension Trust Funds have invested a significant portion of their portfolios into a trust, which pools assets for investment purposes and allocates returns on these investments in proportion to each fund's share of the pool. The fund include money held on behalf of other governments.

The investments are carried at fair value. At June 30, 2002, they are as follows (amounts in thousands):

	Amount
Investments:	
Equity securities.....	\$ 10,174,847
International investments.....	6,005,485
U.S. government and government agency securities.....	4,482,760
Fixed income securities.....	2,671,427
Real estate.....	1,850,346
Alternative investments.....	1,650,393
Total.....	<u>\$ 26,835,258</u>

On behalf of the Health Care Security Trust Fund, the Pension Reserve Management Board has invested a significant portion of their portfolios into a trust, which pools assets for investment purposes and allocates returns on these investments in proportion to the fund's share of the pool.

The investments are carried at fair value. At June 30, 2002, they are as follows (amounts in thousands):

	Amount
Investments:	
Equity securities.....	\$ 240,277
U.S. government and government agency securities.....	93,953
International investments.....	77,978
Fixed income securities.....	58,421
Real estate.....	10,781
Total.....	<u>\$ 481,410</u>

**A. Financial Instruments
with Off-Balance Sheet
Risk**

Certain investments of the Commonwealth may involve a degree of risk not accounted for on the respective financial statements. A description of such "off-balance sheet risks" are as follows:

**B. Forward Currency
Contracts**

The Pension Trust Funds enter into forward currency contracts to hedge the exposure to change in foreign currency exchange rates on foreign portfolio holdings. The market value of the contract will fluctuate with changes in currency exchange rates. Risks may arise upon entering these contracts from the potential inability of counterparties to meet the terms of their contracts and from unanticipated movements in the value of a foreign currency relative to the U.S. dollar.

When the contract is closed, the Pension Trust Funds record a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed. Fluctuations in the value of forward currency contracts are recorded as unrealized gains or losses by the Pension Trust Funds.

C. Future Contracts

The Pension Trust Funds may purchase and sell financial futures contracts to hedge against changes in the values of securities the fund owns or expects to purchase. Upon entering such contracts, they must pledge to the broker an amount of cash or securities equal to a percentage of the contract amount.

The potential risk is that the change in the value of futures contracts primarily corresponds with the value of underlying instruments, which may correspond to the change in value of the hedged instruments. In addition, there is a risk that PRIT may not be able to close out its future positions due to a non-liquid secondary market. Risks may arise from the potential inability of a counterparty to meet the terms of a contract and from unanticipated movements in the value of a foreign currency relative to the U.S. dollar. The Pension Trust Funds may also invest in financial futures contracts for non-hedging purposes.

Payments are made or received by the Pension Trust Funds each day, depending on the daily fluctuations in the value of the underlying security and are recorded as unrealized gains or losses. When the contracts are closed, the Pension Trust Funds recognize a realized gain or loss.

D. Options

PRIT is also engaged in selling or “writing” options. The Pension Trust Funds, as writers of options, may have no control over whether the underlying securities may be sold (call) or purchased (put) and, as a result, bears the market risk of an unfavorable change in the price of the security underlying the written option. As of June 30, 2002, there were no material options outstanding.

5. SHORT-TERM FINANCING AND CREDIT AGREEMENTS

Massachusetts General Laws authorize the Treasurer to issue temporary notes in anticipation of revenue or bond financing. When this short-term debt does not meet long-term financing criteria, it is classified as a fund liability. Short-term debt may be issued on either a stand-alone basis or through a commercial paper program maintained by the Commonwealth.

A. General Fund

The balance of revenue anticipation notes (RANs) outstanding may fluctuate during a fiscal year, but must be reduced to zero at June 30. During FY02, the Commonwealth issued RANs through its commercial paper program on a periodic basis to meet cash flow needs. Up to \$683,000,000 of RANs were issued during the year. All RANs were retired before the end of May, 2002.

B. Capital Projects Funds

The Commonwealth may issue bond anticipation notes (BANs) to temporarily finance its capital projects. BANs may be issued either on a stand-alone basis or through the Commonwealth’s commercial paper program.

During FY02 the Commonwealth periodically issued BANs through the commercial paper program, beginning in August 2001. BANs were rolled over and paid down at various times during the fiscal year. No more than \$300,000,000 of BANs were outstanding under the commercial paper program at any time and all BANs were retired before the end of February, 2002.

During FY02, the Commonwealth also sold BANs on a stand-alone basis. On September 5, 2001, \$350,000,000 of General Obligation BANs were issued to finance costs associated with the development of Convention Centers in Boston, Worcester and Springfield, and to retire a portion of BANs issued prior to the sale. The BANs mature on September 1, 2003.

On March 28, 2002, \$180,000,000 of General Obligation BANs were issued. The BANs, issued to finance costs of the Central Artery / Tunnel Project, in advance of receiving certain contributions from the Massachusetts Port Authority (Massport), mature on April 25, 2003. The amount remaining to be paid by Massport totals approximately \$205 million, payable in three installments of approximately \$105 million, \$50 million and \$50 million on December 31, 2002, 2003 and 2004, respectively. Due to the events of

September 11, 2001, Massport has experienced significant reductions in revenues and operations, as well as increases in certain expenses. The duration of these circumstances cannot be known. Massport has advised the Commonwealth that it does not expect to issue bonds to meet its December 2002 obligation until the summer of 2003. The Commonwealth has agreed to reschedule the payment due from Massport. The FY03 general appropriation act has provisions for the Commonwealth to charge Massport interest costs related to this transaction due to the delay in payment.

C. Letter-of-Credit Facilities

During FY02, the Commonwealth maintained a letter-of-credit agreement with a bank in order to provide credit and liquidity support for its commercial paper program. The letter of credit was available to secure up to \$200,000,000 of Commonwealth commercial paper plus interest thereon. Advances were available, subject to certain limitations and bearing interest at the bank rate as defined, in anticipation of revenue or bond proceeds repayable by the following

June 30, subject to extension in certain circumstances at the Commonwealth's option. No such advances were drawn during the fiscal year ended June 30, 2002. The existing letter of credit facility expires on December 28, 2003. The cost of the facility is approximately 0.15% on both unutilized and utilized amounts.

D. Line-of-Credit Facilities

During FY02, the Commonwealth maintained line-of-credit facilities to provide liquidity support for commercial paper notes. The total of such facilities was increased from \$400,000,000 to \$800,000,000 during the course of the fiscal year. The Commonwealth has a total of four line-of-credit facilities to provide such liquidity support for each in the amount of \$200,000,000. These facilities expire in September and December of 2004, and March and September of 2005 respectively. The cost of these facilities ranges from 0.125% to 0.17%.

The following schedule details short – term financing and credit agreement activity for all funds for the fiscal year (amounts in thousands):

	Bonds Outstanding	Authorized and Unissued
Balance July 1, 2001	\$ 13,999,454	\$ 9,290,418
General and special obligation bonds:		
Principal, less discount and issuance costs	1,486,314	(1,486,314)
Principal issued for sinking fund	11,645	-
Net premium and issuance costs	(27,687)	-
General obligation refunding bonds:		
Principal on Refunding Bonds	1,176,990	-
Principal on Refunded Bonds	(1,168,626)	-
Retired discount on Refunded Bonds	(13,794)	-
Special obligation refunding bonds:		
Principal on Refunding Bonds	183,180	-
Principal on Refunded Bonds	-	-
Increase in bonds authorized	-	679,554
Bonds retired	(692,341)	-
Balance June 30, 2002	<u>\$ 14,955,135</u>	<u>\$ 8,483,658</u>

6. LONG-TERM DEBT

Under the Constitution of the Commonwealth of Massachusetts, the Commonwealth may borrow money (a) for defense, (b) in anticipation of receipts from taxes or other sources, any such loan to be paid out of the revenue of the year in which the loan is made, or (c) by a two-thirds vote of the members of each house of the Legislature present and voting thereon. The Constitution further provides that borrowed money shall not be expended for any other purpose than that for which it was borrowed or for the reduction or discharge of the principal of the loan. In addition, the Commonwealth may give, loan or pledge its credit by a two-thirds vote of the members of each house of the Legislature present and voting thereon, but such credit may not in any manner be given or loaned to or in aid of any individual, or of any private association, or of any corporation which is privately owned or managed.

The Commonwealth has waived its sovereign immunity and consented to be sued on contractual obligations, including bonds and notes issued by it and all claims with respect thereto. However, the property of the Commonwealth is not subject to attachment or levy to pay a judgment, and the satisfaction of any judgment generally requires legislative appropriation. Enforcement of a claim for the payment of principal or interest on bonds and notes of the Commonwealth may also be subject to the provisions of federal or Commonwealth statutes, if any, enacted to extend the time for payment or impose other constraints upon enforcement.

As of June 30, 2002, the Commonwealth had three types of long-term debt outstanding.

A. General Obligation Bonds

General Obligation Bonds are authorized and issued primarily to provide funds for Commonwealth-owned capital projects and local government improvements. They are backed by the full faith and credit of the Commonwealth and paid from the Governmental Funds, in which debt service principal and interest payments are appropriated. Massachusetts General Laws provide for the allocation of bond proceeds to these authorizations in arrears, as expenditures are made, unless the proceeds are allocated at the time of issuance.

i. College Opportunity Bonds

Some Commonwealth general obligation debt is issued as College Opportunity Bonds (COBs) as authorized by the Massachusetts General Laws. Such bonds were initially issued in fiscal year 1996, and have been issued in each subsequent fiscal year, including FY02, when approximately \$5,636,000 of such bonds were issued. Outstanding COBs have maturity dates ranging from 2002 through 2021. COBs have an accreting interest component payable at maturity. The annual accretion rate of each COB's maturity is a variable rate equal to the change in annual Consumer Price Index (CPI) plus 2.0%. Assuming the CPI averages 3.5% during the life of the outstanding COBs the payments due at maturities of the COBs will total approximately \$174,157,000. In addition, COBs pay current interest in the amount of 0.5% per year of the initial amount still outstanding. The full faith and credit of the Commonwealth back these bonds. These bonds are sold to fund the Commonwealth's "U. Plan" which is part of a college savings program administered by the Massachusetts Educational Financing Authority. These bonds are privately placed and are structured to meet the needs of investors in this plan.

ii. County Debt Assumed

Chapter 38 of the Acts of 1997 and Chapter 300 of the Acts of 1998 abolished governments of several Massachusetts counties on various effective dates. As

part of these provisions, the Commonwealth assumed the outstanding debt of Middlesex County on July 1, 1997, of Hampden and Worcester Counties on July 1, 1998, that of Essex County on July 1, 1999 and that of Berkshire County on July 1, 2000. The county debt assumed has become general obligation debt of the Commonwealth. As of June 30, 2002, \$1,115,000 of these obligations remains outstanding.

B. *Special Obligation Bonds*

The Commonwealth also issues special obligation revenue bonds as authorized by Massachusetts General Laws. Such bonds may be secured by all or a portion of revenues credited to the Highway Fund and are not general obligations of the Commonwealth. At June 30, 2002, the Commonwealth had outstanding \$837,910,000 of such special obligation bonds, of which \$772,812,000 is allocated to debt not subject to the Commonwealth's statutory debt limit. These bonds are secured by a pledge of 6.86 cents of the 21 cent motor fuel excise tax imposed on gasoline.

In June of 2002, the Commonwealth sold \$319,130,000 of special obligation revenue bonds, Series 2002A. Of this amount, \$183,180,000 was issued to refund prior special obligation bonds. The remainder was used to fund capital spending in the Commonwealth. The escrow funded by the refunding bonds and related premium will be used only to secure the principal related to \$190,075,000, exclusive of related call premium in previously issued special obligation bonds maturing on June 1, 2003, 2004, 2006 and 2008. The interest related to these maturities is not secured by this escrow. Rather, it will be paid from the existing stream of motor fuel excise taxes. Interest on a portion of the newly issued refunding bonds will be paid from the proceeds of the escrow until the aforementioned prior bonds are called for redemption. This technique, which is generally referred to as a "crossover refunding," results in economic savings to the Commonwealth similar to a normal refunding, but does not meet the accounting definition of defeasance of debt, in which case the defeased debt and the related escrow accounts would have been removed. Until such time as the escrow is used to repay the principal of the refunded bonds, such amounts will be reported in the Highway Capital Projects Fund.

C. *Federal Highway Grant Anticipation Notes (GANs)*

The Commonwealth also issues Federal Highway GANs to finance current cash flow for the Central Artery/Tunnel Project in anticipation of future federal reimbursements. Section 9 through 10D of Chapter 11 of the Acts of 1997, as amended by Chapter 121 of the Acts of 1998, authorizes the Commonwealth to sell up to \$1,500,000,000 in GANs. All Federal Highway Construction reimbursements and reimbursements from the federal highway construction trust funds are pledged to the repayment of the GANs. At June 30, 2002, the Commonwealth has \$1,499,325,000 of GANs outstanding, including accrued interest on capital appreciation bonds with maturity dates ranging from 2005 to 2015. These notes are secured by the pledge of Federal Highway Construction Reimbursements without a general obligation pledge. Under certain limited circumstances, a portion of the revenue from the Commonwealth's motor fuels excise tax may be used to pay debt service on the GANs.

D. *Variable Rate Demand Bonds*

Included in the long-term debt is \$1,542,600,000 of general obligation variable rate demand bonds (VRDBs) maturing from 2007 through 2030 in varying amounts. The redemption schedule for these bonds is included in the bond redemption schedule contained herein. The interest rate on the VRDBs is determined either weekly or daily based on the activity of the Commonwealth's remarketing agents, and interest is paid monthly. On any reset date holders of the VRDBs can require the Commonwealth (acting through its remarketing and tender agents) to repurchase the bonds (a "put"). The remarketing agent is

authorized to use its best efforts to resell any repurchased bonds by adjusting the interest rates offered. The Commonwealth pays an annual fee to the remarketing agents equal to 0.05% of the par amount of the bonds.

Under the provisions of stand-by bond-purchase agreements entered into by the Commonwealth with certain commercial banks, the remarketing and tender agents are entitled to draw amounts sufficient to pay the purchase price of any bonds that cannot be resold. During any such period the Commonwealth is required to pay the bank(s) at an interest rate based on their respective prime lending rates. If the remarketing agent is unable to resell any put bonds within six months of the put date, the stand-by bond-purchase agreements include provisions to convert any such bonds to installment loans payable over an extended period of time, with interest payable at a rate based on the bank(s) prime lending rate(s). The stand-by bond-purchase agreements expire on various dates between September of 2003 and February of 2006. The Commonwealth is required to renew or replace these agreements as long as the VRDBs remain outstanding. The Commonwealth currently pays an annual fee to maintain these agreements which ranges from 0.10% to 0.18% of the par amount of the bonds.

E. Interest Rate Swap Agreements

As of June 30, 2002, \$1,267,000,000 of the VRDBs have been issued as general obligation refunding bonds. In connection with the issuance of such refunding bonds, the Commonwealth has entered into interest rate exchange ("swap") agreements with certain counterparties. These agreements require the counterparties to pay the Commonwealth an amount equal to the variable rate payable on the bonds and in return the Commonwealth pays a specified fixed rate. Only the net difference in interest payments is exchanged with the counterparty. The potential risk is that the variable rate will fall below the fixed rate established under this agreement. The Commonwealth continues to pay interest to the bondholders at the applicable variable rates. Through these agreements the Commonwealth has effectively fixed its interest rate payment obligations on the relevant VRDBs at rates ranging from 4.15% to 4.659%, not including the cost of liquidity and remarketing. The Commonwealth will be exposed to a variable rate if the counterparties default or if the swap is terminated. A termination of the swap may also result in the Commonwealth making or receiving a termination payment.

F. Auction Rate Securities

Also included in the long-term debt is \$401,500,000 of general obligation Auction Rate Securities (ARS) maturing in varying amounts from 2020 through 2030. The interest rate payable on the bonds changes weekly as determined pursuant to specified auction procedures. Interest on the bonds is payable weekly. In the case of a failed auction (i.e., insufficient bids to clear the market) existing buyers may be required to hold their bonds with interest payable at rate equal to a percentage of an ARS industry index.

G. Outstanding Debt

For financial reporting purposes, long-term debt is carried at its face value, which includes discount and any issuance costs. The outstanding amount represents the total principal to be repaid. For capital appreciation bonds, the outstanding amount represents total principal and accreted interest to be repaid. When short-term debt has been refinanced on a long-term basis, it is reported as outstanding at its face amount.

The amount of long-term debt authorized but unissued is measured in accordance with the statutory basis of accounting. Only the net proceeds (exclusive of discount and costs of issuance) are deducted from the total authorized by the Legislature.

Long-term debt outstanding (including discount and issuance cost) and debt authorized and unissued at June 30, 2002 as follows (amounts in thousands):

<u>Purpose</u>	<u>Bonds Outstanding</u>	<u>Maturities</u>	<u>Authorized and Unissued</u>
G A N S.....	\$ 1,499,325	2005-2015	\$ -
Capital Projects:			
General.....	5,067,282	2002-2022	3,272,250
Highway.....	7,022,375	2002-2032	4,197,371
Local Aid.....	1,305,743	2002-2022	147,099
Other.....	60,410	2002-2022	866,938
	<u>13,455,810</u>		<u>8,483,658</u>
Total.....	<u>\$ 14,955,135</u>		<u>\$ 8,483,658</u>

Interest rates on the Commonwealth's debt outstanding at the end of FY02 ranged from 0.1% to 8.0%.

Changes in long-term debt outstanding (including discount and issuance cost) and bonds authorized - unissued for the year ended June 30, 2002 are as follows (amounts in thousands):

Fiscal Year Ended

<u>June 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2003.....	\$744,830	\$739,821	\$1,484,651
2004.....	757,020	700,456	1,457,476
2005.....	822,162	666,861	1,489,023
2006.....	944,752	625,151	1,569,903
2007.....	983,127	577,368	1,560,495
2008-2012.....	4,848,232	2,123,589	6,971,821
2013-2017.....	3,567,934	997,514	4,565,448
2018-2022.....	1,692,925	359,574	2,052,499
2023-2027.....	233,399	126,947	360,346
2028-2032.....	<u>360,755</u>	<u>35,532</u>	<u>396,287</u>
Total	<u>\$14,955,135</u>	<u>\$6,952,813</u>	<u>\$21,907,949</u>

At June 30, 2002, debt service requirements to maturity for principal (including discount, capital appreciation and issuance costs) and interest are as follows (amounts in thousands):

	<u>Capital Leases</u>		<u>Operating</u>	<u>Total</u>
	<u>Principal</u>	<u>Interest</u>	<u>Leases</u>	
2003.....	\$43,245	\$6,512	\$140,509	\$190,266
2004.....	37,731	5,550	112,605	155,886
2005.....	31,103	4,531	92,118	127,752
2006.....	24,281	3,574	51,331	79,186
2007.....	18,992	2,717	22,590	44,299
2008-2012.....	26,589	3,325	60,203	90,117
2013-2017.....	429	54	1,279	1,762
2018-2022.....	168	21	506	695
Total.....	<u>\$182,538</u>	<u>\$26,284</u>	<u>\$481,141</u>	<u>\$689,963</u>

The Commonwealth issued bonds and notes through both competitive and negotiated sales during FY02. The costs for legal counsel and underwriting fees (including estimated amounts related to competitive sales) for bond sales were \$593,000 and \$14,327,000 respectively. In addition, the Commonwealth paid \$186,000 for disclosure counsel services.

H. Bonds Defeased Through Refunding

As authorized by the Massachusetts General Laws, the Commonwealth advance refunded certain general obligation bonds through the issuance of \$1,176,990,000 of general obligation refunding bonds (exclusive of the aforementioned special obligation refunding bonds) during FY02. Net proceeds totaling approximately \$1,267,751,000 were used to purchase U.S. Government and U.S. Government Agency securities which were deposited in irrevocable trusts with an escrow agent to provide for all future debt service payments of the refunded bonds. As a result, the refunded bonds are considered to be defeased, and the liabilities therefore have been removed from the General Long-term Obligations Account Group. As a result of this refunding, the Commonwealth decreased current year debt service payments and has taken advantage of lower interest rates, and it has decreased its aggregate debt service payments by approximately \$55,013,000 over the next 20 years and will experience an economic gain (the difference between the present values of the debt service payments of the refunded and refunding bonds) of approximately \$47,141,000. At June 30, 2002, approximately \$1,090,330,000 of the bonds refunded remain outstanding and are defeased.

I. Prior Defeasance

In prior years, the Commonwealth defeased certain general and special obligation bonds by purchasing securities (from the proceeds of refunding bonds or from surplus operating funds) and placing them in irrevocable trusts to provide for all future debt service payments on the defeased bonds. Accordingly, the trust account assets and the liabilities for the defeased bonds are not included in the financial statements. At June 30, 2002, approximately \$2,286,432,000 of bonds outstanding from activities in prior fiscal years are considered defeased.

J. Statutory Debt Limit

The Massachusetts General Laws establish limits on the amount of direct debt outstanding. By statutorily limiting the Commonwealth's ability to issue direct debt, this limit provides a control on annual capital spending. The direct debt

limit for FY02 was approximately \$11,630,307,000. Outstanding debt subject to the limit at June 30, 2002 was approximately \$11,014,062,000. The limit increases 5% per year.

For purposes of determining compliance with the limit, outstanding direct debt is defined to include general obligation bonds and minibonds at the amount of their original net proceeds. It excludes BANs and discount and issuance costs, if any, financed by these bonds. It also excludes special obligation bonds, GANs, refunded bonds, certain refunding bonds, debt issued by counties, and debt issued in conjunction with the MBTA forward funding.

The amounts excluded from the debt limit are as follows (amounts in thousands):

	<u>Debt Outstanding</u>
Balance June 30, 2002.....	\$ 14,955,135
Less amounts excluded:	
Discount and issuance cost.....	(181,910)
Chapter 5 of the Acts of 1992 Refunding..	(22,043)
Special Obligation Principal.....	(772,812)
GANs Principal.....	(1,500,000)
County Debt Assumed.....	(1,115)
MBTA Forward Funding.....	(625,000)
Central Artery Tunnel.....	(838,193)
Outstanding Direct Debt.....	<u>\$ 11,014,062</u>

K. Subsequent Bond Issuances

Subsequent to year-end, the Commonwealth sold nearly \$2.5 billion in debt and priced an additional \$658 million in debt that will be delivered at various times from November 2002 to May of 2003. Of these amounts, \$820 million will be used to fund capital projects, while the remainder will fund refunding escrows, taking advantage of historically low interest rates. This refunding activity will lower the Commonwealth's aggregate debt service payments by approximately \$122.1 million over the next 19 years, resulting in a present value debt service savings of approximately \$95.2 million.

7. LEASES

In order to finance the acquisition of equipment the Commonwealth has entered into various lease/purchase agreements, including tax-exempt lease purchase (TELP) agreements, which are accounted for as capital leases. Lease agreements are for various terms and contain clauses indicating that their continuation is subject to appropriation by the Legislature. For the fiscal year ended June 30, 2002, capital lease/purchase expenditures totaled approximately \$43,080,000.

At June 30, 2002, the Commonwealth's aggregate outstanding liability under capital leases, the present value of the net minimum lease payments, totals approximately \$182,538,000. This liability is reported in the General Long-Term Obligations Account Group. Equipment acquired under capital leases and included in the General Fixed Assets Account Group totaled approximately \$182,281,000.

The Commonwealth has numerous operating lease agreements for real property and equipment with varying terms. These agreements contain provisions indicating that continuation is subject to appropriation by the Legislature.

Operating lease expenditures for the fiscal year ended June 30, 2002 were approximately \$204,211,000.

The following is a schedule of future minimum payments under non-cancelable leases as of June 30, 2002 (amounts in thousands):

Actuarial Valuation as of January 1	Actuarial Value of Plan Assets	Actuarial Accrued Liability	Unfunded Actuarial Liability (UAL)	Funded Ratio %	Annual Covered Payroll *	UAL as a % of Covered Payroll
State Employees' Retirement System

8. INDIVIDUAL FUND DEFICITS

In order to resolve the deficits in the budgeted funds, the Comptroller has recommended authorization of transfers from other budgeted funds with surplus balances or a plan of fund consolidation. If these changes are adopted by the Legislature, the deficiencies will be resolved. For the Non-Budgeted Special Revenue Funds, the Comptroller has recommended similar budgeted transfers to subsidize and resolve the deficits or their consolidation into budgeted funds. Such steps require legislative action.

The Capital Projects Fund deficit reported in the following table reflects the time lag between capital expenditures and the sale of related bonds. This amount includes \$285,250,000 of forward funding payments to the MBTA yet to be financed. To arrive at the combined capital projects fund balance, this individual fund deficit is offset by capital funds earmarked in the Central Artery Statewide Road and Bridge Infrastructure Fund of \$1,017,730,000, and \$18,749,000 in reserve for the other Capital Projects Funds.

The following Budgeted, Non-Budgeted Special Revenue and Capital Projects Funds are included in the combined totals and have individual fund deficits at June 30, 2002, as follows (amounts in thousands):

Budgeted Funds:	
Highway Fund.....	\$ 437,529
Local Aid Fund.....	1,119,125
Environmental Challenge Fund.....	797
Toxics Use Reduction Fund.....	8,416
Environmental Permitting and Compliance Assurance Fund.....	50,872
Underground Storage Tank Petroleum Product Cleanup Fund.....	19,360
Environmental Law Enforcement Fund.....	4,482
Public Access Fund.....	414
Harbors and Inland Waters Maintenance Fund.....	6,244
Marine Fisheries Fund.....	6,498
Watershed Management Fund.....	2,104
Low-Level Radioactive Waste Management Fund.....	433
Clean Air Act Compliance Fund.....	1,700
Second Century Fund.....	2,819
Child Support Penalty Fee Fund.....	498
Antitrust Enforcement Fund.....	2,901
Victim and Witness Assistance Fund.....	13,323
Intercity Bus Capital Assistance Fund.....	5,562
Leo J. Martin Recreational Fund.....	240
Children's and Seniors' Health Care Assistance Fund.....	60,784
Transitional Aid to Needy Families Fund.....	7,618
Social Services Program Fund.....	2,314
Local Consumer Inspection Fund.....	574
Total Budgeted Funds.....	<u>1,754,607</u>
Non-Budgeted Special Revenue:

Highway Capital Projects Fund.....	298,060
Local Capital Projects Fund.....	11,194
Total Capital Projects Funds.....	<u>1,006,181</u>
Total	<u>\$ 2,822,045</u>

9. MEDICAID COSTS

The Commonwealth provides medical care for low-income, elderly and other residents who qualify for such assistance under the federally-sponsored Medical Assistance Program (Medicaid). The Commonwealth pays the full cost of care and is reimbursed by the federal government for 50% of that cost. For the fiscal year ended June 30, 2002, the General Fund, Tobacco Settlement Fund and Children's and Seniors' Health Fund include \$5,259,275,000 in expenditures for Medicaid claims processed for payment.

The combined financial statements – statutory basis include Medicaid claims processed but unpaid at June 30, 2002, as accounts payable of approximately \$50,525,000. The Commonwealth estimates its total liability, as determined in accordance with GAAP, at \$718,500,000 including the amounts reported as accounts payable at June 30, 2002. This amount includes estimates of both the cost of care provided as of June 30, 2002, for which claims have not been processed and other costs. Of this amount, \$305,100,000 is expected to be reimbursed by the federal government.

10. RETIREMENT SYSTEMS

A. Primary Government

The Commonwealth is statutorily responsible for the pension benefits for Commonwealth employees (members of the State Employees' Retirement System) and for teachers of the cities, towns, regional school districts throughout the Commonwealth and Quincy College (members of the Teachers' Retirement System, except for teachers in the Boston public schools, who are members of the State-Boston Retirement System but whose pensions are also the responsibility of the Commonwealth). The members of the retirement systems do not participate in the Social Security System.

The Commonwealth has assumed responsibility for payment of cost-of-living adjustments (COLA) for the separate (non-teacher) retirement systems of its cities, towns and counties, granted in fiscal year 1997 and prior. The Commonwealth is statutorily required to have an actuarial valuation once every three years and every two years on a GAAP basis.

B. Plan Descriptions

The *State Employees' Retirement System* (SERS) is a single employer defined benefit public employee retirement system (PERS), covering substantially all employees of the Commonwealth and certain employees of the independent authorities and agencies, including the state police officers at the Massachusetts Port Authority and the Massachusetts Turnpike Authority. The SERS is administered by the Commonwealth and is part of the reporting entity and does not issue a stand alone financial report.

The *Teachers' Retirement System* (TRS) is an agent multiple employer defined benefit PERS. The Commonwealth is a non-employer contributor and is responsible for all contributions and future benefit requirements of the TRS. The TRS covers certified teachers in cities (except the City of Boston), towns, regional school districts and Quincy College. The TRS is administered by the Commonwealth and is part of the reporting entity and does not issue a stand-alone financial report.

Certain Commonwealth employees and current retirees employed prior to the establishment of the State Employees' Retirement System are covered on a "pay-as-you-go" basis. During the year ended June 30, 2002, the Commonwealth's pension expenditure included payments totaling \$17,374,000 to current retirees employed prior to the establishment of the current plans and the non-contributory plans.

The *State – Boston Retirement System* (SBRS) is a hybrid multiple employer defined benefit PERS. SBRS provides pension benefits to all full-time employees upon commencement of employment with any of the various government agencies covered by SBRS. The Commonwealth is a non-employer contributor and is only responsible for the actual cost of pension benefits for SBRS participants who serve in the City of Boston's School Department in a teaching capacity (BTRS). The cost of pension benefits of the other participants is the responsibility of the City of Boston. SBRS is not administered by the Commonwealth and is not part of the reporting entity and a stand-alone financial report is not available.

The policy for post-retirement benefit increases for all retirees of the SERS, TRS, BTRS and COLA of local governments is subject to legislative approval.

Membership – Membership in SERS, TRS and BTRS as of January 1, 2002, the date of the most recent valuation, is as follows:

	<u>SERS</u>	<u>TRS</u>	<u>BTRS</u>
Retirees and beneficiaries			
currently receiving benefits.....	44,313	34,970	2,593
Terminated employees entitled to			
benefits but not yet receiving them....	2,842	N/A	128
Subtotal.....	<u>47,155</u>	<u>34,970</u>	<u>2,721</u>
Current employees:			
Vested*.....	45,566	46,637	3,621
Non-vested*.....	42,952	42,790	2,656
Subtotal.....	<u>88,518</u>	<u>89,427</u>	<u>6,277</u>
Total.....	<u>135,673</u>	<u>124,397</u>	<u>8,998</u>

* Estimated

C. Benefit Provisions

Massachusetts General Laws established uniform benefit and contribution requirements for all contributory PERS. These requirements provide for retirement allowance benefits up to a maximum of 80% of a member's highest three-year average annual rate of regular compensation. Benefit payments are based upon a member's age, length of creditable service, and group creditable service, and group classification. The authority for amending these provisions is with the Legislature.

Members become vested after ten years of creditable service. A superannuation retirement allowance may be received upon the completion of twenty years of service or upon reaching the age of 55 with ten years of service. Normal retirement for most employees occurs at age 65; for certain hazardous duty and public safety positions, normal retirement is at age 55.

D. Funding Progress

During FY01, the Legislature passed Chapter 114 of the Acts of 2000, which modified Chapter 32 of the General Laws. This modification became effective on July 1, 2001. In Chapter 114, teachers who are members of the State Teachers Retirement System, or teachers who are members of the State – Boston Retirement System before 1975, who resigned or took an unpaid leave of absence because of maternity leave will be allowed to “buy back” into the fund up to a maximum of four years. The member must pay the amount determined by the Retirement Board by December 31, 2001 to qualify, as long as the member has worked longer than ten years. If the member completes ten years of service after December 31, 2001, payment can be made within 18 months of completion of ten years of service. In addition, the law creates a superannuation retirement benefit program for all teachers hired on or after July 1, 2001. This program has a contribution rate of 11 percent of regular compensation. To be eligible for the alternative benefit at retirement, the teacher must have completed thirty years of eligible service. All previous members may elect to participate in the program, as long as they participate with the equivalent of a minimum of five years of employee contributions at the new rate. If the member retires before five years, the teacher must pay into the system, the amount that would have been paid in one lump sum, or in installments as the Board may prescribe. The alternative benefit is calculated as the percentage of average compensation determined under the current formula increased by 2% of the average annual compensation for each full year of service in excess of 24 years. The election to participate is irrevocable.

The SERS, TRS and BTRS actuarial determined contributions were computed as part of the actuarial valuation as of January 1, 2001. These assumptions remained the same as of the January 1, 2002 valuation. The Commonwealth has revised actuarial assumptions used in the calculation of contribution requirements and Unfunded Actuarial Liability (UAL.) The revised actuarial assumptions are the result of an experience study commissioned by the Commonwealth for the period 1995 to 1999 concluded in FY01. The Commonwealth has fully phased-in its UAL from a market value of assets to an actuarial valuation of assets. The actuarial value of assets used to derive the UAL from January 1, 1990 to January 1, 1996 reflects the market value of plan assets. To reduce the potential volatility of the market value approach, in the January 1, 1998 actuarial valuation, the Commonwealth began implementing a method that averages realized and unrealized asset gains and losses over 5 years.

Therefore, gains and losses in a given year are recognized over a five-year period. On January 1, 1998, the Commonwealth began phasing in this methodology and used 97% of market value as the actuarial value of assets. This methodology was fully phased in as of January 1, 2001. The most significant assumptions for the actuarial valuation are investment return and rate of salary increase. The valuation as of January 1, 2002 assumes an investment return rate of 8.25% per year. The salary increase is based on years of service and it varies by age and service groups. Other assumptions include mortality, disability, turnover and retirement rates, along with cost of living increase.

The following table presents the schedule of funding progress as presented in the seven most recent actuarial valuations at the dates indicated (amounts in thousands):

Actuarial Valuation as of January 1	Annual Required Contribution (ARC)	Interest on NPO	Amortization of NPO	Pension Cost	Actual Contribution Made	Net Pension (Obligation) Asset (NPO)	% of ARC Contributed	% of Pension Cost Contributed

E. Pension Actuarial Valuation

The Commonwealth's pension actuarial valuation was performed as of January 1, 2002 pursuant to Chapter 32 of the General Laws of the Commonwealth of Massachusetts and based on the plan provisions at that time.

F. Contributions Required and Contributions Made

The Commonwealth was financially responsible for the COLA granted to participants in the 104 retirement systems of cities, towns and counties in fiscal year 1997 and prior fiscal years. Chapter 17 of the Acts of 1997 effective for fiscal year 1998 transferred the responsibility for funding COLAs for separate (non-teacher) retirement systems of cities and towns to the respective system. Any future COLA granted by the Legislature to employees of these plans will be the responsibility of the individual system. The individual employer governments are also responsible for the basic pension benefits. The retirement systems are not administered by the Commonwealth and are not part of the reporting entity. The actuarial accrued liability for COLA as of January 1, 2002 was \$730,000,000.

The retirement systems' funding policies have been established by Chapter 32 of the Massachusetts General Laws. The Legislature has the authority to amend these policies. The annuity portion of the SERS, TRS and BTRS retirement allowance is funded by employees, who contribute a percentage of their regular compensation – 5% for those hired before January 1, 1975, 7% for those hired from January 1, 1975, through December 31, 1983 and 8% for those hired on or after January 1, 1984, plus an additional 2% of compensation above \$30,000 per year for those hired on or after January 1, 1979. Regular employees and state police hired after June 30, 1996 are required to contribute 9% and 12% respectively of their regular compensation plus an additional 2% of compensation above \$30,000 per year. Costs of administering the plan are funded out of plan assets.

The Commonwealth's contribution for the pension benefit portion of the retirement allowance of SERS and TRS and required payments to cover BTRS and COLA contributions were originally established on a "pay-as-you-go" basis. As a result, amounts were appropriated each year to pay current benefits, without a systematic provision to fully fund future liabilities already incurred. Beginning in fiscal year 1988, the Commonwealth enacted the Pension Reform Act of 1987 and addressed the unfunded liability of SERS, TRS and its participation in SBRS and its COLA obligation. Chapter 32, Section 22C of General Laws enacted in 1998 calls for the payment of normal cost plus an amortization payment of UAL such that the UAL is reduced to zero by June 30, 2018.

This legislation also directs the Secretary of Administration and Finance to prepare a funding schedule to meet these requirements, and to update this funding schedule every three years on the basis of new actuarial valuation reports prepared under the Secretary's direction. Any such schedule is subject to legislative approval. If a schedule is not so approved, payments are to be made in accordance with the most recently approved schedule. The current legislatively approved funding schedule, a valuation as of January 1, 1999, was filed by the Secretary of Administration and Finance on March 1, 2000 has been deemed approved by the Legislature. Under the current schedule proposed on March 1, 2002, the amortization payments are designed to eliminate the unfunded liability by fiscal year 2023. Contributions by the Commonwealth of \$795,782,000 were made during the fiscal year ended June 30, 2002. Of this amount \$49,772,000 represents payments for COLA granted to participants in retirement systems of cities, towns and counties.

GAAP requires that pension expenditures (costs) be based on an acceptable actuarial cost method and that they be not less than:

- Normal cost plus amortization of net pension obligation cost
- Interest and amortization on any unfunded prior service costs

On May 17, 2002, the Governor signed into law a bill that extended the Commonwealth's pension funding schedule to 2023, and reduced the FY02 pension appropriation.

The funding schedule discussed above follows an acceptable actuarial funding methodology to compute normal cost and the unfunded accrued actuarial liability.

The following table presents the schedule of employer contributions (amounts in thousands):

Actuarial Valuation as of January 1	Annual Required Contribution (ARC)	Interest on NPO	Amortization of NPO	Pension Cost	Actual Contribution Made	Net Pension (Obligation) Asset (NPO)	% of ARC Contributed	% of Pension Cost Contributed

The total contributions required for SERS, TRS and SBRS are based on the entry age normal cost method using the same actuarial assumptions used to compute the net pension obligation.

F. *Post-retirement Health Care and Life Insurance Benefits*

In addition to providing pension benefits, under Chapter 32A of the Massachusetts General Laws, the Commonwealth is required to provide certain health care and life insurance benefits for retired employees of the Commonwealth, housing authorities, redevelopment authorities, and certain other governmental agencies. Substantially all of the Commonwealth's employees may become eligible for these benefits if they reach retirement age while working for the Commonwealth. Eligible retirees are required to contribute a specified percentage of the health care benefit costs which is comparable to contributions required from employees. The Commonwealth is reimbursed for the cost of benefits to retirees of the eligible authorities and non-state agencies. The Commonwealth recognizes its share of the costs of providing these benefits when paid. These payments totaled approximately \$236,041,000 for the fiscal year ended June 30, 2002. There are approximately 49,900 participants eligible to receive benefits at June 30, 2002.

11. COMMITMENTS

A. *Regional Transit Authorities*

Under Chapter 161B of the General Laws, the Commonwealth is obligated to provide annual subsidies to certain regional transit authorities for contract assistance, debt service assistance and their net cost of service deficiencies. The Commonwealth recovers a portion of these payments through assessments to the cities and towns served. During FY02, net expenditures were \$17,602,000. In addition, for FY02, the Commonwealth appropriated \$18,423,000 to the regional transit authorities to cover net costs of service for the calendar year ended December 31, 2001.

B. *MBTA and Other Authorities*

The Commonwealth continues to guarantee certain Massachusetts Bay Transportation Authority (MBTA) debt outstanding at June 30, 2002, totaling \$3,264,345,000. The amount represents the residual balance of Commonwealth guaranteed debt that existed prior to the forward funding.

The MBTA's forward funding legislation provides for the MBTA to issue general obligation, revenue or other debt secured by a pledge or conveyance of all or a portion of revenues, receipts or other assets or funds of the MBTA. This new debt is not backed by the full faith and credit of the Commonwealth. Finally, the MBTA will not receive any principal or interest subsidies from the Commonwealth for the repayment of either the prior debt or new debt of the MBTA beyond the pledged revenues.

In addition to the MBTA, the Commonwealth guarantees debt of a number of Public Authorities. At June 30, 2002, the aggregate outstanding debt for which the Commonwealth is obligated to provide contract assistance support totaled approximately \$169,312,000 long-term and \$96,856,000 short-term.

In addition, the Commonwealth guarantees the debt of certain local governments and public higher education building authorities but does not provide contract assistance. The guaranteed long-term debt outstanding at June 30, 2002 was approximately \$381,794,000.

At June 30, 2002, the Commonwealth had commitments of approximately \$1,657,409,000 related to ongoing construction projects. The majority relate to construction funding for the Central Artery/Tunnel Project. The Central Artery/Tunnel Project continues to anticipate federal participation and payments from the Massachusetts Turnpike Authority (MTA) and the Massachusetts Port Authority (MassPort).

On August 17, 2000, the Route 3 North Transportation Improvements Association issued Commonwealth of Massachusetts Lease Revenue Bonds, Series 2000, in the aggregate principal amount of \$394,305,000, payable from lease payments to be appropriated annually by the Commonwealth through fiscal 2033. On April 26, 2002, the Association sold \$18,700,000, followed a week later on May 2, 2002 by \$294,000,000 of Variable Rate Demand Bonds, both of which were used to refund a portion of the original Series 2000 bonds and to fund additional expenses of the project. The Commonwealth's cash flow commitment due to the refunding will be reduced by \$6.1 million for the life of the bonds plus any amount remaining due to cost savings at time of the completion of construction.

C. *Saltonstall Building*

On July 19, 2000, after reviewing proposals received from various development teams to redevelop the Saltonstall State Office Building, the Governor filed legislation that would authorize the Massachusetts Development Finance Agency (MDFA) to undertake the area's redevelopment. The provisions of the Governor's bill were added to the bond authorization legislation approved August 10, 2000 relating to preservation and management of the Commonwealth's real property assets. Under the provisions relating to the Saltonstall Building, the building is to be leased by the MDFA for a lease term of up to 50 years, with extension terms permitted for an aggregate of 30 more years). The MDFA will renovate the building and lease half of it back to the Commonwealth for office space and related parking (for a comparable lease term). The remainder of the building is to be redeveloped as private office space, as well as private housing units and retail establishments. Upon completion, the Commonwealth will be obligated for future lease payments for the space it rents.

D. *Central Artery / Tunnel Project*

The Central Artery / Tunnel Project is the largest single component of the Commonwealth's capital program according to the finance plan filed as of October 1, 2002. The current cost estimate is \$14.625 billion, an increase of \$150,000,000 from the October 1, 2001 plan. The largest components of the increase were related to the disposition of the project's headquarters. Both plans include a maximum obligation of \$8.549 billion from the federal government. Project milestones have been reviewed to include a nine-month extension to the I-90 opening and a four-month extension to the I-93 opening. The I-90 opening may be delayed further due to a major leak in the Fort Point Channel Tunnel discovered in October 2001. The finance plan is currently under review.

To make up for the \$150,000,000 increase, the Governor filed a bill to raise the bonding authority for the project in place under Chapter 87 of the Acts of 2000 from \$1.350 billion to \$1.500 billion. The increase, once bonded, will be reported within the Central Artery Statewide Road and Bridge Infrastructure Fund.

In connection with the Central Artery / Tunnel Project, on May 8, 2000, the State Treasurer's office was advised that the staff of the Securities and Exchange Commission (SEC) is conducting a formal investigation in the matter of

“Certain Municipal Securities/Massachusetts Central Artery (B-1610.)” This is pursuant to a formal order of private investigation issued by the SEC. At this time no information is available about the likelihood of the loss.

12. CONTINGENCIES

A number of lawsuits are pending or threatened against the Commonwealth, which arise from the ordinary course of operations. These include claims for property damage and personal injury, breaches of contract, condemnation proceedings and other alleged violations of law. For those cases in which it is probable that a loss will be incurred and the amount of the potential judgment can be reasonably estimated or a settlement or judgment has been reached but not paid, the Attorney General estimates the liability to be approximately \$41,500,000 to be paid during FY03. No accrual has been made for this amount in the combined financial statements – statutory basis.

Under the statutory basis of accounting, workers’ compensation costs are recognized when claims are presented and paid. The Commonwealth’s outstanding liability for such claims at June 30, 2002 is estimated to be \$267,600,000, of which approximately \$39,400,000 is expected to be paid during FY03. No accrual has been made for these amounts in the combined financial statements – statutory basis.

The Commonwealth receives significant financial assistance from the federal government. Entitlement to these resources is generally contingent upon compliance with terms and conditions of the grant or reimbursement agreements and with applicable federal regulations, including the expenditure of the resources for eligible purposes. Substantially all federal financial assistance is subject to financial and compliance audits. Any disallowances become liabilities of the fund which received the assistance. At June 30, 2002, the Commonwealth estimated that liabilities, if any, which may result from such audits are not material.

Chapter 200A of the Massachusetts General Laws, the Commonwealth’s Abandoned Property Law, requires deposit of certain unclaimed assets into a managed Fiduciary Fund. These unclaimed assets, less \$4,987,000, which is expected to be reclaimed and paid in fiscal year 2003, are to be remitted to the General Fund each June 30, where it is included as miscellaneous revenue. Amounts remitted during FY02 totaled approximately \$87,757,000. Since inception, approximately \$1,056,364,000 has been remitted. A portion of this amount represents a contingency, because claims for refunds can be made by the owners of the property.

A. Tobacco Settlement

A Master Settlement Agreement (MSA) was executed in November of 1998 between five tobacco companies and 46 states, including the Commonwealth. The MSA called for, among other things, annual payments to the states in perpetuity. These payments have been estimated to total more than \$200 billion over the first 25 years, subject to various offsets, reductions, and adjustments.

In FY02, the Commonwealth received approximately \$304,518,000 or 91% of the estimated amounts shown in the agreement. Of that amount approximately \$152,259,000 was transferred to the Tobacco Settlement Fund, a budgeted fund, plus an additional \$2,469,000 in interest earnings were transferred. The remainder was deposited into the Health Care Security Trust Fund, a non-budgeted fund. The amount transferred to the Tobacco Settlement Fund was

increased in FY02 to 50% of the settlements received during the year due to changes made as part of the FY02 General Appropriation Act. In addition, \$60,000,000 was transferred during the year from the funds received previously under the settlement to the General fund due to legislation passed in June 2002. However, the majority of expenditures from the fund this year were for Health and Human Services, Elder Affairs and Medicaid costs.

The amounts that might be payable, if any, by the Commonwealth for legal costs relating to the tobacco litigation cannot be determined at this time. The outside attorneys for the Commonwealth were awarded approximately \$775,000,000 in fees to be paid over time by the tobacco companies and, therefore, were not to be paid out of the Commonwealth's award. The outside attorneys have notified the Attorney General that they reserve their right to submit a claim to the Commonwealth for the difference between the \$775,000,000 and 25 percent of the Commonwealth's settlement payments.

13. NON-TAX REVENUE INITIATIVES

Chapter 653, Acts of 1989, amended Chapter 29 of the Massachusetts General Laws by adding Sections 29D and 29E, which authorize certain non-tax revenue initiatives and require reporting thereon, as follows.

A. Debt Collection

Pursuant to Massachusetts General Laws Chapter 29, Section 29D, Chapter 7A Section 8, allows private debt collection agencies to engage in debt collection for the Commonwealth. The fees paid are contingency based from the proceeds collected. Collections and fees paid during FY02 were:

<u>Department Collectors</u>	<u>Collections</u>	<u>Fees</u>
Allen Daniel Associates.....	\$ 367,763	\$ 67,321
Collection Company of America.....	1,049,036	250,541
Delta Management Associates, Inc.....	291,993	57,880
Glenn Associates, Inc.....	619,737	119,376
Gragil Associates, Inc.....	88,083	18,170
NCO Financial Systems, Inc.....	1,511	59
OSI Collection Services, Inc.....	912,376	187,350
Walker Associates Inc.....	441,279	62,023
Windham Professionals.....	1,404,053	323,410
Total.....	<u>\$ 5,175,831</u>	<u>\$ 1,086,130</u>

Under the same program, the following amounts were collected and fees paid for institutions of higher education:

<u>Department Collectors</u>	<u>Collections</u>	<u>Fees</u>
Allen Daniel Associates.....	\$ 344,710	\$ 62,800
Collection Company of America.....	762,446	188,264
Delta Management Associates, Inc....	283,842	56,260
Glenn Associates, Inc.....	619,737	119,376
Gragil Associates, Inc.....	506	126
NCO Financial Systems, Inc.....	1,511	59
OSI Collection Services, Inc.....	418,679	84,129
Windham Professionals.....	75,874	17,195
Total.....	<u>\$ 2,507,305</u>	<u>\$ 528,209</u>

B. Revenue Maximization

Pursuant to Massachusetts General Law Chapter 29 Section 29E, contractors were engaged on a contingent fee basis to assist several of the Commonwealth's departments in the identification and collection of federal and other revenues. During FY02, approximately \$171,715,000 was collected through such efforts. After contractor payments of \$35,044,000 the Commonwealth received \$136,671,000. Included in these Revenue Maximization numbers is \$26,583,000 for administrative services provided by the University of Massachusetts Medical School to support efficiencies associated with the Department of Medical Assistance.

C. Revenue Optimization

Pursuant to Chapter 159 Section 333 of the FY01 Budget, contractors were engaged on a contingent fee basis to assist several of the Commonwealth's departments in the identification and collection of federal and other non-tax revenues. This program differs from the Revenue Maximization Program in that it authorized departments to receive a department incentive distribution if they are successful in generating new revenue and additional fiscal program goals are met. During FY02, approximately \$7,567,000 was collected through such efforts. After contractor payments of \$405,000 and other expenses of approximately \$517,000, the Commonwealth reported a net revenue of approximately \$6,646,000 in the General Fund. Although the Revenue Optimization Campaign did exceed the department incentive allocation goals the FY02 department incentive appropriation was not funded.

D. Cost Avoidance

Pursuant to Chapter 159 of Section 360 of the FY01 Budget, the Office of the State Comptroller was authorized to engage private vendors for the purpose of identification and pursuit of cost saving/avoidance opportunities. In FY02, estimated total cost avoidance based on actuarial calculations was approximately \$66,529,000 and fees paid to consultants were approximately \$2,235,000. The Commonwealth had a total cost saving/avoidance of approximately \$64,295,000.

E. Intercept

Intercept is authorized by Massachusetts General Laws. Intercept is an automated process that offsets Commonwealth payments to delinquent receivables that have been approved by the Office of the State Comptroller. During FY02 the Intercept process was enhanced by using the web-based technology to accept debt files from institutions of higher education. In FY02, the Commonwealth collected approximately \$3,654,000 of which approximately \$798,000 was on behalf of institutions of higher education.

F. Utility Audits

Pursuant to Massachusetts General Law Chapter 29 §29E contractors were engaged on a contingent fee basis to provide telecommunication service audits to eligible entities of the Commonwealth. In FY02, approximately \$371,000 in overcharges were successfully identified and recouped, of which approximately \$125,000 was paid to contractors.

14. SUBSEQUENT EVENTS

On July 31, 2002, the FY03 General Appropriation Act was passed. The budget was based on a tax revenue estimate of \$14.0 billion net of the amounts due to the MBTA, plus \$1.2 billion in estimated tax increases. It also includes a tax amnesty program, which is expected to increase revenue collections by an estimated \$43 million. Appropriations total \$23 billion, exclusive of \$350 million of Medicaid related health care spending that was moved off-budget. After accounting for this spending, the FY03 General Appropriation Act increases spending by 2% over FY02 spending. The Act eliminates eligibility for 50,000 Medicaid patients as of April 1, 2003. It also uses 100% of the tobacco settlement payment to be received in FY03 for current operations.

FY03 budgeted tax revenues for the quarter ending September 30, 2002 are an estimated \$86 million behind the same quarter in FY02. On October 10, 2002, the Governor invoked her authority under Massachusetts General Laws, Chapter 29, Section 9c, cutting \$202 million from budgeted spending.

THIS PAGE LEFT INTENTIONALLY BLANK

Combining and Individual Fund Financial Statements - Statutory Basis

THIS PAGE LEFT INTENTIONALLY BLANK

Individual Budgeted Funds

MAJOR BUDGETED FUNDS:

The General Fund - The General Fund is the Commonwealth's primary Governmental Fund. All governmental activities not specifically directed to another fund are accounted for in the General Fund. As a result, most budgeted expenditures of the Executive secretariats, the Legislature, constitutional offices, Judiciary, institutions of higher education and independent commissions are paid for from the General Fund. It similarly receives a significant portion of sales, individual income and corporate taxes, and the full amount of most other governmental taxes.

Highway Fund – to account for highway user taxes including the gas tax and fees; used to finance highway maintenance and safety services, and provide matching funds for federally sponsored highway projects as required.

Infrastructure Fund (Subfund of Highway Fund) - details specific components of revenue and expenditure related to the Highway Fund segregated per instructions in Section 2 O of Chapter 29 of the General Laws.

Local Aid Fund - to account for revenue from sales, income, and other corporate taxes and lottery profits, which have been earmarked for distribution to cities and towns or are used to finance programs that benefit local communities.

The Commonwealth Stabilization Fund – to account for amounts calculated in accordance with state finance law and maintain a reserve to enhance the Commonwealth's fiscal stability.

Administrative Control Funds - account for the revenues generated by certain administrative functions of government, for which the Legislature has required that separate funds be established. These funds include:

Tax Reduction Fund – to account for the maintenance of a reserve, which shall be used only to reduce personal income taxes.

Intragovernmental Service Fund – to account for the charges of any state agency for services provided by another state agency, for example, charges levied by the public employee retirement administration for worker's compensation chargeback.

Revenue Maximization Fund - to account for increased collections as a result of special initiatives; these revenues become available for expenditure by the various state agencies.

Transitional Escrow Fund – to account for funds set aside to be held until December 31, 1999 per section 46 of Chapter 68 of the Acts of 1999, and subsequently until November 30, 2001 under Chapter 88, Section 36 of the Acts of 2001 as a reserve.

BUDGETED ENVIRONMENTAL FUNDS:

These funds account for a variety of revenues, which finance programs to preserve, protect and enhance the environment. These funds include:

Natural Heritage and Endangered Species Fund - to account for revenues from public and private sources and/or the federal government as reimbursements, grants, donations or other receipts; used to acquire by purchase, lease, easement or license land critical to nongame wildlife and endangered species for purposes of protecting and enhancing nongame wildlife.

Inland Fisheries and Game Fund - to account for revenues from license and permit fees for inland fishing, hunting, trapping, and sporting licenses and revenue producing stamps or the sales of land, rights and properties, gifts, interest, and federal grant reimbursements; used for developing, maintaining and operating the division of fisheries.

Environmental Challenge Fund – to account for inappropriate disposal of hazardous waste and other environmental infractions; used for cleanup, control or response actions for oil and hazardous materials, and to reduce the production of hazardous waste.

Toxics Use Reduction Fund – to account for the fees, penalties, and other financial charges collected by the Toxic Use Reduction Institute including grants or gifts collected. Appropriations are for the specific purpose of cleaning up and reducing toxic waste.

Clean Environment Fund - to account for programs for recycling compost, solid waste source reduction and other

environmental programs, which are financed through unclaimed bottle deposits escheated to the Commonwealth.

Environmental Permitting and Compliance Assurance Fund - to account for revenues from the issuance of permits for the removal of hazardous materials and certain other fees; used to fund the cost of monitoring, discharge sampling and analysis, inspection, technical assistance, and enforcement activities necessary to ensure compliance by persons holding permits.

Underground Storage Tank Petroleum Product Cleanup Fund – to account for fees, penalties, grants, gifts or other contributions used to provide reimbursements for cleanup and other expenditures incurred as a result of damage caused by underground storage tanks and systems.

Environmental Law Enforcement Fund - to account for revenues from certain gas taxes, grants, and revenue from law enforcement coverage details throughout the Commonwealth; used for operating the division of law enforcement.

Public Access Fund - to account for revenues from certain gas taxes and federal reimbursements used for the cost of acquisition, construction, maintenance operation and improvement of public access to state waterways.

Harbors and Inland Waters Maintenance Fund – to account for certain gas taxes, fines, permits and federal reimbursements used for maintenance, dredging and cleaning of harbors, inland waters and great ponds.

Marine Fisheries Fund – to account for revenues from certain gas taxes, licenses, and fees; used to manage the division of marine fisheries.

Watershed Management Fund - to account for revenues from the sale of wood products harvested on watershed lands, and assessments from the Massachusetts Water Resource Authority; used to maintain and operate the MDC Watershed Division.

Low Level Radioactive Waste Management Fund – to account for assessments on persons licensed or registered to receive, possess, use, transfer or acquire radioactive material; used for the expenses of the Low Level Radioactive Waste Management Board to carry out its duties.

Asbestos Cost Recovery Fund – to account for revenues from court judgments/settlements relative to the removal of asbestos; used for operations, maintenance, encapsulation and removal of asbestos.

Clean Air Act Compliance Fund - to account for revenues from permit applications and grants; used for the implementation, administration, monitoring and analysis of permitting compliance and enforcement of technical assistance programs.

Solid Waste Disposal Fund – to account for monies received relative to solid waste disposal including assessments from cities and towns to be appropriated for the purpose of management, maintenance and operation of solid waste disposal facilities.

Second Century Fund - to account for fees or charges for use of the Commonwealth's system of parks, forests or other natural resources subject to the oversight of the department of environmental management pursuant to section two of chapter twenty-one; and expenditure for the enhancement, improvement and maintenance of forest and parks systems.

Safe Drinking Water Fund - to account for drinking water assessments to end suppliers engaged in the distribution of water and used for the administration of monitoring federal safe drinking water act.

OTHER BUDGETED FUNDS:

These funds account for a variety of miscellaneous taxes, fees, fines and other revenues, which are restricted to the financing of specific Commonwealth programs.

Ratepayer Parity Trust Fund – to account for all personal and corporate tax revenues attributable to the sale of assets relative to electric companies and penalties and fees collected for the purpose of providing extraordinary assistance in achieving the required electricity rate reduction. For FY03, this fund has been closed and the remaining balance transferred to the General Fund.

Child Support Penalty Fee Fund - to account for penalties, fees or interest assessed by IV-D agency to establish the enforcement of child support authorized under Title IV of the Social Security Act.

Workforce Training Fund - to account for revenues from new unemployment surcharge of .075% of unemployment taxable wages on employers; to provide grants to employers and labor groups to provide education and training to new and existing employees.

Brownfields Revitalization Fund – to account for transfers from General Fund and related interest or investment earnings; amount appropriated for financial assistance to

project sites located within Federal Empowerment Zones or Enterprise communities.

Firearms Records Keeping Fund – to account for revenues from firearms registration fees for the purpose of implementing, enhancing and maintaining a state firearms information system.

Massachusetts Clean Elections Fund – to account for revenues from the voluntary tax return "check off" on personal tax returns for the purpose of payment to eligible candidates for public financing of campaigns for statewide elective office.

Tobacco Settlement Fund – to account for the transfer of all designated scheduled payments received by the Commonwealth pursuant to the Master Tobacco Settlement; amounts appropriated for funding health related services and programs intended to control or reduce the use of tobacco in the Commonwealth.

Antitrust Enforcement Fund – to account for fines, penalties received and expenses paid related to actions brought by the Attorney General in connection with antitrust actions.

Victim and Witness Assistance Fund - to account for assessments imposed on individuals convicted of crimes; used to make grants to District Attorney's Offices and the Parole Board for programs serving crime victims and witnesses.

Intercity Bus Capital Assistance Fund – to account for the acquisition of vehicles for inter-city transportation and the revenues and costs associated with their operation.

Motorcycle Safety Fund – to account for motorcycle registration fees collected to administer motorcycle safety programs.

Drug Analysis Fund – to account for certain revenues received by the courts resulting from fines; used for the cost of analysis of controlled substances.

Trust Fund for the Head Injury Treatment Services Fund - to account for revenues from a surcharge on fines resulting from 'driving under the influence' convictions; funds the Massachusetts Rehabilitation Commission's statewide head injury program to develop and maintain non-residential rehabilitation services for head injured persons.

Massachusetts Tourism Fund - to account for revenues received from hotel taxes; used to fund the Office of Travel

and Tourism promotions and the Massachusetts Convention Center Authority.

Ponkapoag Recreational Fund – to account for a portion of golf course revenues; used for the capital improvement, purchase of equipment, and maintenance of the golf course.

Leo J. Martin Recreational Fund – to account for a portion of golf course revenues; used for the capital improvement, purchase of equipment and maintenance of the golf course.

Division of Insurance Fund – to account for revenues collected from agent licenses used to fund the cost related to accreditation from the National Association of Insurance Commissioners.

Health Protection Fund – to account for a portion of the cigarette tax, penalties, forfeitures, interest, settlements of lawsuits and fines collected in connection with sales of cigarettes; used to supplement existing funding for school health education programs, workplace and community smoking prevention and cessation programs, public service advertising, and for support of community health centers and their programs of prenatal and maternal care.

State Building Management Fund – to account for revenue rentals and commissions, such as parking fees and expenditures for the maintenance and operation of the Massachusetts Information Technology Center, the Springfield State Office Building, the State Transportation Building and other facilities.

Reggie Lewis Track and Athletic Center Building Fund - to account for revenues from user fees, concession stand commissions and other fees used for equipment repair, maintenance and non - payroll operating expenses of the facility.

Assisted Living Administrative Fund – to account for certification fees; used for operating expenses associated with the regulation of Elder Affairs Assisted Living.

Commonwealth Cost Relief Fund – to account for transfers from other funds; used for subsidies and other assistance for water pollution abatement projects, mitigation of sewer rate increases, and for extraordinary expenditures of the Commonwealth.

Children's and Seniors' Health Care Assistance Fund – to account for a portion of the cigarette and smokeless tobacco tax, inventory tax and related investment income; to be appropriated for the provision of medical benefits to expansion beneficiaries and a five year pilot program of pharmacy assistance.

Diversity Awareness Education Trust Fund - to account for fines and related interest or investment earnings from the trial courts from assault and battery cases with the intent to intimidate based on race, color, religion, sexual orientation, nationality or disability; to be appropriated for the purpose of developing and maintaining diversity awareness educational programs and courses for persons convicted of such crimes.

Child Care Fund - to account for monies transferred from Transitional Aid to Needy Families Fund; used for the administration of childcare programs under the Office of Child Care Services.

Transitional Aid to Needy Families Fund - to account for all federal revenues and reimbursements received by the Commonwealth pursuant to the Personal Responsibility and Work Opportunity Reconciliation Act of 1996, effectively ending Aid to Families with Dependent Children (AFDC) and replacing it with Transitional Aid to Needy Families (TANF) block grants.

Social Services Program Fund – to account for monies transferred from Transitional Aid to Needy Families Fund, used for the operation of the Department of Social Services.

Local Consumer Inspection Fund – to account for all amounts generated from item pricing fines, appropriated to provide financial assistance to eligible local or regional agencies.

Caseload Increase Mitigation Fund – to account for revenues or other financing sources directed by budget to be appropriated for increased costs due to excessive welfare cases or to accommodate for fluctuations in federal funding for the Department of Transitional Assistance.

Convention and Exhibition Center Fund – to account for surcharges imposed on tourist tickets, such as cruise and for any land-based sightseeing located in the Commonwealth to finance the construction of a new Boston Convention Center along with centers in Worcester and Springfield.

Voting Equipment Loan Fund - to account for transfers from General Fund; loans to municipalities to replace punch card voting systems which shall be repaid to the Commonwealth no later than ten years after such loan is made. This fund was closed as of June 30, 2002.

The following funds have been enacted in legislation but are inactive for fiscal 2002:

Danvers State Hospital Reuse – to account for the first \$100,000 proceeds of sale, lease or other disposition of the Danvers State Hospital Disposition sites and is available for the needs of mental health clients formerly served by the Danvers State Hospital.

Adoption Affordability Assistance Fund – to account for state appropriations, federal reimbursements, grants and donations from public and private sources to provide funding for below market rate loans to families to adopt children. This program is managed by the Office of Child Care Services.

False Claims Prosecution Fund – to account for monies received by the Commonwealth related to actions brought by the Attorney General in connection with fraudulent claims for payment. Amounts to be expended for the investigation and prosecution of false claims action.

Collective Bargaining Reserve Fund - to account for transfers from the general fund, which may be used to fund negotiated contracts for state employees.

Non-Budgeted Funds

SPECIAL REVENUE FUNDS:

These funds account for the proceeds of specific revenue sources that are restricted to finance specific functions. Funds that are not subject to appropriation are considered Non-budgeted Special Revenue Funds.

Federal Grants Fund – to account for federal grants that are designated for specific programs, excluding federal highway construction grants, which are accounted for in the Federal Highway Construction Capital Projects Fund, and federal reimbursement programs, such as Medicaid, which are accounted for in the General Fund.

LOTTERY FUNDS:

The two lottery funds account for the operations of the State and Arts Lotteries.

State Lottery Fund – to account for revenue from sale of lottery tickets and for the payment of prizes, expenses of the State Lottery Commission and the distribution to municipalities and school districts. Transfers are made to the local aid fund.

Arts Lottery Fund - to account for revenues from sale of lottery tickets, for payment of prizes and the expenses of the State Lottery Commission, and for the administration of the Arts Lottery Council. Transfers are made to the Local Aid Fund.

UNIVERSAL HEALTH CARE FUND:

The three Universal Healthcare Funds account for assessments and other revenues that are dedicated to making health care and health insurance accessible and affordable to all Citizens of the Commonwealth.

Uncompensated Care Fund – to account for funds received from hospitals, transfers from budgeted funds and federal reimbursements; used for the purposes of the Uncompensated Care Pool.

Labor Shortage Fund – to account for assessments on each acute care hospital equal to one-tenth of one-percent of gross patient service revenues; used for training health care workers, career development within the health care profession, and establishment of day care programs at hospitals and other health care facilities.

Medical Security Trust Fund – to account for premiums, fees, and contributions; used for health insurance for workers receiving unemployment insurance.

OTHER FUNDS:

The other minor special revenue funds account for a variety of miscellaneous taxes, assessments, fees, fines and other revenues, which are restricted to the financing of specific Commonwealth programs.

Department of Telecommunication and Energy Trust Fund – to account for expenditures by the Department of Telecommunications and Energy for activities of the department related to the regulation of electric companies.

Liability Management and Reduction Fund - to account for charge backs assessed to departments as premiums for the provision of insurance coverage for state agencies to cover payment of judgements, settlements and litigation costs in tort claims.

Debt Defeasance Trust Fund – to account for transfers from General Fund and Highway Fund for purpose of defeasing debt pursuant to Chapter 55 of the Acts of 1999 section 6, 7 and 8, as amended, and Sections 13 and 17 of Chapter 87 of the Acts of 2000.

Health Care Security Trust Fund – to account for revenues received from tobacco companies under the tobacco settlement, interest income as well as expenditures to the Tobacco Settlement Fund for health related services and programs intended to control or reduce the use of tobacco in the Commonwealth.

Commonwealth of Massachusetts Civil Monetary Penalty (CMP) Fund – to account for civil monetary penalties paid by nursing homes participating in the medical program for the protection of health and property of residents in a nursing home if the facility is found deficient.

MBTA State and Local Contribution Fund – to account for the transfer of revenue and MBTA service area assessments from the Commonwealth to the MBTA as set forth in Massachusetts General Laws, Chapter 10, Section 35T.

Catastrophic Illness in Children Relief Fund – to account for receipts from a portion of an employer’s unemployment health insurance contribution and certain Federal financial participation. The assistance is for medical expenses of childhood catastrophic illnesses not covered by any other State and Federal program and subject to certain family income limits.

MBTA Infrastructure Renovation Fund – to account for supplemental appropriations beyond the MBTA State and Local Contribution Fund for certain MBTA infrastructure improvements. Funds are to be used for, but not limited to, compliance with the American with Disabilities Act, elevator and escalator improvements, waterproofing, fare gates, signage, lighting and structural improvements only. No rolling stock is to be acquired through the fund.

Community Preservation Trust Fund – to account for revenues received from surcharges on real estate property taxes, public and private sources as gifts, grants and donations, from damages, penalties costs from litigation settlements and surcharge on municipal liens imposed by the cities and towns who accept funds from the trust, to further community open – space preservation programs.

Health Insurance Portability and Accountability Act Fund – to account for revenues received from Federal reimbursements under the Social Security Act, other Federal reimbursements, grants, gifts or other contributions to meet the costs of compliance with the Federal Health Insurance Portability and Accountability Act of 1996 (HIPPA).

State Racing Fund – to record activity described in Section 9, Chapter 139, Acts of 2001 for improvements to the horse and greyhound racing industry in the Commonwealth. Revenues are from taxes, assessments and expenditures are for related programs.

Division of Professional Licensure Trust Fund – to support programs and administrative costs of the Division of Professional Licensure. Revenues are from professional registration fees and expenditures are for regulatory purpose. The fund is not allowed to incur deficit. Any year end balance in excess of 20% of prior year’s expenditures is to revert to the General Fund.

Victims of Drunk Driving Trust Fund – to account for fines collected from convicted individuals of driving under the influence of various substances defined by the law. Expenditures are for grants to community based programs to provide counseling and support services to victims of accidents.

Government Land Bank Fund – to account for proceeds from disposition, conversion and redevelopment of land used for payments of principal and interest on bonds and notes of the Massachusetts Development Finance Agency.

Mosquito and Greenhead Fly Control Fund –to account for assessments to cities and towns of various mosquito control districts; appropriated to support activities designed to control mosquitoes and /or “greenhead” flies.

Federally-Assisted Housing Fund – to account for Federal housing financial assistance; used for payments of principal and interest on bond debt.

Oil Overcharge Fund – to account for the fines and penalties collected under federal litigation from certain oil companies; used to provide fuel assistance and home insulation for low-income residents.

Environmental Trust Fund – to account for fines, gifts and grants used for restoration, protection and improvement of the quality of Boston Harbor, Lynn Harbor, Massachusetts Bay, Buzzard’s Bay and Cape Cod Bay.

Children’s Trust Fund – to account for gifts, grants, interest, and donations to the Child Abuse Prevention Board and certain appropriations designated to be transferred to the fund; used for support programs to raise awareness of child abuse and prevention programs.

Child Support Enforcement Fund – to account for Federal grants used for activities associated with the collection of child support.

Department of Industrial Accidents Special Fund – to account for assessments to employers and cities and towns for worker’s compensation insurance premiums and penalties assessed against employers who fail to insure for the worker’s compensation; used to reimburse the general fund for the operating account of the Department of Industrial Accidents and for administrative overhead.

County Correction Fund – to account for approximately seven and one half percent of the deeds excise tax distributed to counties for the operation of county correctional facilities.

Massachusetts AIDS Fund – to account for gifts, grants, and donations; used for research, treatment, and education related to acquired immune deficiency syndrome.

Board of Registration in Medicine Fund – to account for certain revenues and expenditures of the Board.

Water Pollution Abatement Projects Administration Fund – to account for transfers from the Water Pollution Abatement Trust and general obligation bond proceeds; used for the administration of the Department of Environmental Protection to fund water pollution abatement projects.

Commonwealth Sewer Rate Relief Fund – to account for transfers of amounts from the General Fund or other funds; used for the purpose of mitigating sewer rate increases and making sewer rate relief grants to municipalities.

Motor Vehicle Safety Inspection Trust Fund – to account for vehicle inspection fees for administration and operation of safety inspection programs by the Registry of Motor Vehicles.

Child Care Quality Fund – to account for expenditures by the commissioner of the Office for Children for providing grants for not-for-profit childcare organizations for the purpose of improving childcare services.

Grant Anticipation Note Trust Fund - to account for proceeds to cover grant anticipation note expenditures and pay the related debt service of the proceeds.

The following fund has been enacted in legislation but is inactive for fiscal year 2002:

Energy Technology Development Fund – to account for revenues received from miscellaneous trusts, gifts and donations to be administered and expended by the commissioner of the Division of Energy Resources to promote energy efficiency and the research development and commercialization of new energy technologies.

Capital Projects Funds

The Capital Projects Funds are used to account for the financial resources used to acquire or construct major capital assets of the Commonwealth and to finance local governmental capital projects.

General Capital Projects Fund - to account for proceeds of bonds sold to fund the construction or acquisition of capital assets for general Commonwealth purposes, excluding highway construction and projects targeted for specific localities or purposes.

Capital Investment Trust Fund – to account for a transfer from the General Fund to finance appropriated items of a capital nature pursuant to sections 2E and 107 of Chapter 88 of the Acts of 1997.

Convention and Exhibition Center Capital Fund -to account for proceeds of bonds to finance the construction of a convention center in Boston.

Capital Improvements and Investment Trust Fund - to account for the Commonwealth's reimbursement to cities and towns for expenses incurred for projects for construction and reconstruction of town and county ways.

Capital Expenditure Reserve Fund - to account for amounts paid by the Massachusetts Turnpike Authority as payment toward the acquisition cost of the Third Harbor Tunnel and Federal financial participation money related to expenditure amounts paid by Massachusetts Port Authority as determined by a feasibility study; used to pay principal and interest on certain bonds, related notes or direct capital expenditures.

Highway Capital Projects Fund – to account for the proceeds of bonds sold to finance construction of state highways and to fund the Commonwealth's share of Federally sponsored highway construction.

Federal Highway Construction Program Capital Projects Fund - to account for federal highway construction grants which, with the Commonwealth's required share of matching funds, finance interstate highways and similar projects within Massachusetts to promote a nationwide highway system.

Central Artery Statewide Road and Bridge Infrastructure Fund - to account for bond proceeds, certain revenues from Registry of Motor Vehicle fees, (net of debt service expenditures) and payments from authorities. The purpose of expenditures of the fund is to meet the estimated additional costs associated with the Central Artery/Ted Williams Tunnel Project and for costs of the statewide road and bridge program. As promulgated in Chapters 87 and 125 (sections 7 through 10) of the Acts of 2000, this fund also receives and expends interest revenue and receives and expends savings from the defeasance of debt that occurred during FY01.

Capital Needs Investment Trust Fund – to account for the activities promulgated in Chapter 159 of the Acts of 2000 (the General Appropriation Act,) Section 357. The fund accounts for certain transferred portions of tax revenues during FY01 through FY05 to the following funds and purposes: to the Affordable Housing Trust Fund, to the Department of Education for virtual education space, for its information management system and for technological purposes and curriculum development and finally, for the rehabilitation and reuse of mental health, mental retardation facilities and other capital needs of the Commonwealth. The fund expires as of June 30, 2005 with any remaining balance transferred to the Stabilization Fund.

LOCAL AID FUNDS:

The Comptroller in Fiscal Year 2000 eliminated six capital projects funds set up by the Comptroller under Chapter 7A of the General Laws. The activity in these funds has become immaterial and has been consolidated into one fund. The former six funds are the Lockup Facilities Improvements, County Correctional Facilities, State Recreational Areas, Metropolitan Parks, Suffolk County Jail Facility and Local Infrastructure Capital Projects Funds. In addition, the Water Pollution Control Capital Projects Fund is consolidated for FY01.

Local Capital Projects Fund - to account for the proceeds of bonds sold to finance the construction of correctional facilities, water pollution abatement projects and other local projects in specific localities of the Commonwealth. The fund accounts for the proceeds of bonds to finance improvements to lockup facilities, state police lockup facilities and to finance improvements to County Correctional Facilities, and other monies received by Department of Environmental Management pertaining to state parks, reservations and recreation areas outside the metropolitan parks district; used for purposes of state parks, reservations and recreation areas outside the metropolitan parks district.

OTHER FUNDS:

These funds account for the proceeds of bonds used to to finance land and transportation equipment for economic development.

Government Land Bank Capital Projects Fund - to account for proceeds of bonds used to finance the acquisition, holding, protection, maintenance, repair or use of lands and for personnel and the administrative costs of the Massachusetts Development Finance Agency.

Intercity Bus Capital Assistance Capital Projects Fund - to account for proceeds of bonds used for the acquisition and leasing of inter-city coaches and for planning and other relevant costs.

Fiduciary Fund Types

The Fiduciary Funds are used to account for assets held by the Commonwealth in a trustee capacity or as an agent for individuals, private organizations or other governments. The funds include Expendable and Non – Expendable Trust Funds, Pension Funds, as well as Agency Funds.

EXPENDABLE TRUST FUNDS:

Expendable Trust Fund – to account for various gifts, bequests or contributions held by the Commonwealth of which both principal and interest may be expended for purposes designated by the donor.

Revolving Loan Fund – to account for Federal grants, investment and interest income to be expended for loans to non-profit private entities to establish housing for individuals recovering from alcohol or drug abuse and for loans to local housing authorities.

Teacher, Principal, Superintendent Quality Endowment Fund – to account for funds to be paid to an incoming school employee signing bonus program to be administered by the Department of Education for the purpose of encouraging the best and brightest candidates to serve in public schools.

Unemployment Compensation Fund – to account for unemployment taxes collected from employers, held by the United States Treasury in the Federal Unemployment Trust Fund, from which funds are drawn for the payment of benefits to the unemployed.

NONEXPENDABLE TRUST FUNDS:

Nonexpendable Trust Fund – to account for various gifts and bequests held by the Commonwealth, of which only the income may be expended for purposes specified by the donor.

PENSION TRUST FUNDS:

Pension Trust Funds – to account for the assets, liabilities and fund balances held in trust by the State Employees', State Teachers' Retirement Systems and the State – Boston Retirement System for the payment of retirement, disability and death benefits to members of these retirement systems.

AGENCY FUNDS:

Agency Funds – to account for cash, investments held or managed by the Commonwealth on behalf of others. These include the investments made by cities, towns and local authorities in the Municipal Depository Trust, employees' contributions to the deferred compensation plan, annuity contracts held for lottery prize winners, local option taxes collected but not yet remitted, assets held in escrow accounts by the Commonwealth's court system and human service departments, child support payments collected or receivable and not yet remitted to custodial parents, and deposits required from insurance companies and similar organizations.

Supplemental Information

Calculation of Transfers – Stabilization and Tax Reduction Funds

Calculation Of Transfers: Stabilization Fund

June 30, 2002
(Amounts in thousands)

This statement is prepared on the statutory basis of accounting pursuant to General Laws Chapter 29, Section 5c, as amended most recently by Chapter 300 of the Acts of 2002. It presents information contained in the official books and accounting records of the Commonwealth. Financial statements supporting this calculation are presented in the Financial Section of this report.

Part 1: Undesignated fund balance (deficit) in the Operating Funds:

	Balances before final transfers	Transfer from Capital Projects Ch. 118 s.24	Transfer from Stabilization Fund Ch. 300 s.60	Total
General Fund.....	\$ 1,454,632	\$ 51,369	\$ 180,000	\$ 1,686,001
Highway Fund.....	(466,885)	-	-	(466,885)
Local Aid Fund.....	(1,147,409)	-	-	(1,147,409)
Consolidated Undesignated fund balance / (deficit).....	\$ (159,662)	\$ 51,369	\$ 180,000	\$ 71,707
Available to carry forward to subsequent fiscal year (per Schedule A).....				\$ 71,707
Net Consolidated net surplus / (deficit).....				-

Part 2: Calculation of transfers to the One-Time Capital Projects Improvement Fund:

Transfer from General Fund to the One-Time Capital Projects Improvement Fund (5%).....	-
Transfer from General Fund to the Open Space Acquisition Fund (15%).....	-
Consolidated net surplus after transfers.....	\$ -

Part 3: Calculation of transfers to Capital Projects Fund:

Transfer from General Fund to Capital Project Fund - (per Schedule B)	-
Net Consolidated surplus available for Stabilization Fund.....	\$ -

Part 4: Calculation of transfers to Stabilization Fund:

From the General Fund, @ 60%.....	\$ -
From the Local Aid Fund, @ 40%.....	-
Total Transfers.....	\$ -

Part 5: Status of Consolidated Net Surplus after Stabilization Fund transfers:

Undesignated fund balance / (deficit):	
General Fund.....	\$ 1,686,001
Highway Fund.....	(466,885)
Local Aid Fund	(1,147,409)
Consolidated Net Surplus.....	\$ 71,707

Plus: FY2002 Calculated Transfers to Stabilization Fund (per Part 5)	-
Reserved for Stabilization after the transfers.....	\$ 881,771

Part 7: Amounts reserved for Capital Projects:

Reserved for Capital Projects - Balance as of June 30, 2002 after the transfer (Part 3).....	\$ 39,674
--	-----------

Calculation Of Transfers: Tax Reduction Fund

June 30, 2002
(Amounts in thousands)

This statement is prepared pursuant to Chapters 29 of the Massachusetts General Laws, as amended. It is prepared on the statutory basis of accounting and presents information contained in the official books and accounting records of the Commonwealth. Supporting information is presented in individual schedules, as indicated, and in the Financial Section of this report.

The computation is as follows:

Part 1: Comparison of Stabilization Fund, after current fiscal year transfers,
to 10% of Budgeted Revenues and Other Financial Resources:

Undesignated Fund Balance in the Stabilization Fund.....	\$ 881,771
Allowable Stabilization Balance (per Schedule C).....	<u>2,117,492</u>
Stabilization Fund Excess, if any, transferable to Tax Reduction Fund.....	<u>\$ -</u>

Part 2: Status of Stabilization Fund after transfers:

Stabilization Fund Balance.....	\$ 881,771
Transfer to Tax Reduction Fund.....	<u>-</u>
Stabilization Fund Balance after transfer to Tax Reduction Fund.....	<u>\$ 881,771</u>

Part 3: Status of Tax Reduction Fund after transfers:

Tax Reduction Fund Balance.....	\$ -
Transfers from Stabilization Fund.....	<u>-</u>
Tax Reduction Fund Balance after transfers.....	<u>\$ -</u>

UI Surcharge.....		22,198
FY 2002 State Tax Revenue.....		14,341,331
0.5% of Total Tax Revenue.....		71,707
Allowable Consolidated Net Surplus	\$	71,707

This schedule is prepared on the statutory basis of accounting. It presents tax revenues as reported in the governmental funds of the Commonwealth. It differs from the schedule of tax collections prepared by the Comptroller, Commissioner of Revenue and State Auditor for calculations in accordance with Chapter 62F, of the General Laws as amended.

Schedule B

Calculation of Capital Project Fund Transfer

June 30, 2002
(Amounts in thousands)

Maximum Allowable Transfer Amount:

A: Consolidated Net Surplus available for transfer.....	\$	-
	X	20%
B: Maximum based on 20% of Consolidated Net Surplus.....	\$	-
C: Fund Deficits - Capital Project Funds.....	\$	994,987
Lower of the 40% of the Consolidated Net Surplus or sum of fund deficits in the Capital Project Funds at year end.....	\$	-
Amount Transferred by the Comptroller.....	\$	-

Schedule C

Calculation of Cap on Stabilization Fund

June 30, 2002
(Amounts in thousands)

Total Budgeted Revenues and Other Financial Resources pertaining to the Budgeted funds.....	\$ 23,049,348
Elimination of budgetary interfund activity (per Schedule D).....	<u>(1,874,431)</u>
Budgeted Revenues and Other Financial Resources pertaining to the Budgeted funds.....	<u>\$ 21,174,917</u>
Allowable Stabilization Fund - Balance, 10% of Budgeted Revenue.....	<u>\$ 2,117,492</u>

Calculation of Stabilization Fund Transfers as defined by Mass General Laws Chapter 29 section 5c as most recently amended by Chapter 300 of the Acts of 2002.

Schedule D

Detail of Elimination of Budgetary Inter Fund Activity

June 30, 2002
(Amounts in thousands)

Adjustments to Revenues:

Transfers to Intragovernmental Services Fund.....	\$	(115,226)
---	----	-----------

Adjustments to Other Financing Sources and Uses:

Transfer from Transitional Escrow Fund.....		(579,215)
Fringe Assessed to Budgeted Funds.....		(53,267)
Stabilization Transfers		(1,030,000)
Transfer from Revenue Maximization Fund to General Fund.....		(6,602)
Transfer from General Fund to Children's and Seniors' Health Fund.....		(36,952)
Transfer from Voting Equipment Loan Fund to General Fund.....		(1,397)
Transfer from Intragovernmental Services Fund to General Fund.....		(1,112)
License Plates.....		(1,735)
MWRA Debt Service Reimbursement.....		(10,342)
Transfer from General Fund and Transitional Aid for Needy Families Fund to Caseload Increase Mitigation Fund.....		(4,878)
Transfer from Tax Reduction Fund to General Fund		(33,605)
Miscellaneous		(100)

Elimination of Budgetary Interfund Activity	\$	(1,874,431)
---	----	-------------

HIGHER EDUCATION NON- APPROPRIATED ACTIVITY

The Commonwealth's Public Institutions of Higher Education are allowed, by their enabling statutes, to collect, retain, and expend certain fees, rents, donations and other types of revenue. These financial resources are important elements to the overall financial operations of the respective institutions, and are in addition to amounts made available from appropriations. The Public Institutions of Higher Education include:

University of Massachusetts System – The University system includes the campuses at Amherst, Worcester, Boston, Lowell, Dartmouth and certain institutes and programs operated by the Office of the University President.

State College System – The State College System includes the nine state colleges, which provide four-year post-secondary education programs. These colleges include:

Bridgewater State College
Framingham State College
Fitchburg State College
Massachusetts College of Art
Massachusetts Maritime Academy
Massachusetts College of Liberal Arts
Salem State College
Worcester State College
Westfield State College

Community College System - The Community College System includes the fifteen community colleges, which provide two-year post secondary education programs.

Berkshire Community College
Bunker Hill Community College
Bristol Community College
Cape Cod Community College
Greenfield Community College
Holyoke Community College
Massasoit Community College
Massachusetts Bay Community College
Middlesex Community College
Mount Wachusett Community College
Northern Essex Community College
North Shore Community College
Quinsigamond Community College
Roxbury Community College
Springfield Technical Community College
