Comptroller's Letter of Transmittal Constitutional, Legislative and Judicial Officers Acknowledgements Organization Chart of State Government Advisory Board to the Comptroller

Martin J. Benison, Comptroller One Ashburton Place Boston, MA 02108

October 28, 2005

To the Citizens of the Commonwealth of Massachusetts, Governor Mitt Romney, and Honorable Members of the General Court

I am pleased to present to you the Statutory Basis Financial Report (SBFR) of the Commonwealth for the fiscal year ended June 30, 2005 (FY05).

FY05 is the initial year of reporting for the Commonwealth's new web – based accounting system. This system was the most significant system upgrade for the Commonwealth in almost two decades. Through countless hours and teamwork involving all departments and our vendor, CGI-AMS of Fairfax, Virginia, we are proud to say that the system has most of its success factors. We have paid vendors since the day we turned the system on. Payroll was paid on a timely basis and revenue was collected. All of us who were used to our legacy system have had to learn to think differently and in some cases adjust business practices without compromising internal controls. I thank all of my staff and the many departments' staffs that work on the system on a daily basis for working with us to make this report happen. In FY06 (FY06) and beyond the challenge is to fully implement the functionality to fully achieve our return on investment.

The Commonwealth has continued to recover economically from the downturn of FY2002 (FY02) through FY2003 (FY03). Tax revenues from all sources continued to increase, rising by 8.9% after increasing by smaller percentages in FY03 and FY04. Unemployment continues to be slightly better than the nation, beginning the fiscal year at 5.3% and ending the year at 4.7%. Inflation in the Commonwealth however has risen to a non-seasonally adjusted 3.97% from July 2004 to July 2005. Fuel and utility prices (measured before the oil price shock related to Hurricane Katrina) rose nearly at nearly 15.7% over the same period. Fuel and utility prices will assuredly have a negative effect on the Commonwealth's economy as we continue into FY06. The Commonwealth continued to make difficult decisions to meet these challenges that lie ahead:

• In a reform of the nearly sixty year old school building assistance program, a The Massachusetts School Building Authority was created to finance school construction on a goforward basis. In doing so, the Commonwealth has controlled the rate of spending and increased oversight and accountability of the program.

1

- In July 2004, the Governor signed into law an act that centralizes transportation planning and oversight. Transportation authorities such as the Turnpike and the Port Authority will remain legally separate. However, the Secretary of Transportation will serve as either chairperson or as a board member of those authorities beginning in FY08.
- To limit spending during the year, the Commonwealth continued to temporarily hold aside tax revenues that represent growth in excess of inflation. Beginning with this fiscal year, a portion of tax revenues also was directly deposited into the Stabilization Fund at fiscal year end to protect against the next economic downturn that is sure to come.
- Transfers from Stabilization Fund were used primarily to fund a final supplemental budget, funding Medicaid and other health

 related spending, additional local aid, capital projects and other items.

Additional challenges lie ahead. Pension funding costs in FY05 were nearly double FY04, due to the actuarial phase-in of market losses in previous years, and the delay of the transfer of the Hynes Convention Center to the Commonwealth Retirement System to fund pension costs and early retirement. In future years, such costs are estimated to grow at approximately 4.8% per year.

The City of Springfield has come under fiscal oversight of the Commonwealth. The Commonwealth has appointed a fiscal control board and authorized up to \$52 million in loans to help the city. The board's ability to loan funds to the City expires on June 30, 2007. Repayments are due from the City without interest charges on or before June 30, 2012.

The Commonwealth finished the year ended June 30, 2005 with a budgetary gain (excess of revenues and sources over expenditures and uses) of approximately \$594 million increasing budgeted fund balances to \$2.5 billion. Of this balance, \$1.7 billion is sequestered in the Stabilization Fund. This balance represents 26 days of the total budgeted expenditures and other uses of FY05. An additional \$305 million is reserved in a Transitional Escrow Fund. This fund will supplement appropriations for FY06. In spite of the overall improvements in the economy, and in the financial condition of the Commonwealth, the challenges detailed above mean that our financial picture will remain cautious for the near future.

Financial Highlights

In the current fiscal year, the Commonwealth continued to take measures to maintain fiscal balance. Examples are as follows:

• \$343 million was transferred from the Stabilization Fund to pay for current expenditures. However, at the close of the

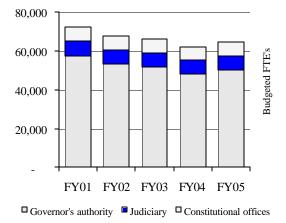

fiscal year, \$136 million was redeposited into the fund from tax revenues held aside during FY05. An additional \$691 million was transferred to the fund from operations, prior to the annual surplus calculation. Approximately \$4 million was deposited from tax revenues of certain lottery winners who sold their stream of future winnings in exchange for current payments. Also, nearly \$90,000 was recovered from Central Artery Project Costs. Finally, in FY05, an additional 0.5% of current year net tax revenues was deposited into the Stabilization Fund, amounting to \$85.9 million.

- Tobacco settlement proceeds for the year were \$257.4 million.
 The entire amount was used in support of current operations.
 The Commonwealth continues to refrain from issuing tobacco settlement bonds or pension obligation bonds, which many of our peer states have either considered or sold.
- To fund a cash flow deficit in the Unemployment Compensation Fund due to higher payments to recipients than receipts, the Commonwealth received interest-free loans from the federal government between March and April 2005, incurring a net total liability of \$208.5 million. All of these borrowings were paid back in May 2005. The balance of the fund has grown though to nearly \$415 million, or 24.7% of FY05 benefits paid.

The Commonwealth also took measures operationally to achieve balance and better fiscal management:

- The budgeted full time equivalent workforce including higher education, dropped from 66,024 as of June 2003 to 62,019 as of June 2004, but increased to 64,513 as of June 30, 2005. The graphic to the left details the changes over the last five years.
- Continuing in FY05, the employee's share of group health insurance premiums was 20% of the cost of the insurance for those who earn more than \$35,000. All new employees hired after June 30, 2003 contribute 25% of the cost of the insurance, regardless of salary. However, this figure reverts to the pre-2004 figure of 15% on January 1, 2006 for all employees.
 - Tax decreases put in place earlier than FY02 remain frozen. The income tax rate remains at 5.3%. The graduated capital gains tax portion was challenged before the Supreme Judicial Court for Suffolk County in FY04. The FY05 General Appropriation Act attempted to fix the date of the latest change in capital gains rates to January 1, 2002 and offered a remediation for taxpayers who incurred capital gains from January 1, 2002 to April 30, 2002. However, the Supreme Judicial Court found these acts unconstitutional, effectively setting the capital gains transition date back to January 1, 2002 unless the Legislature takes further action. The Governor filed legislation reinstating the former graduated capital gains tax rates in effect in early 2002 as legal and enforceable and

Budgeted Full Time Equivalent
Workforce
Including Budgeted Higher Education
June 2001 – June 2005

extending these rates for all of 2002. Should this action become law, refunds may be due to taxpayers.

Overview of the Financial Statements

This report includes the reports on the activity and balances of the budgeted funds, non-budgeted special revenue funds, capital project funds, fiduciary funds and the non-appropriated funds of higher education.

The financial operations of these funds are maintained in the Massachusetts Management Accounting and Reporting System, (MMARS). The statewide accounting system is operated by the Commonwealth and contains detailed information summarized in this report.

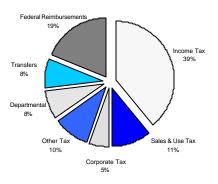

The SBFR is intended to satisfy the requirements of state finance law, and to present fairly the results of FY05 activity in the Commonwealth's funds. The report contains computations required by state finance law, including the certification of transfers to and balances in the Stabilization Fund and Tax Reduction Fund.

Basis of Accounting

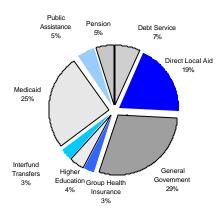

The statutory basis of accounting, defined in Massachusetts law, is used to budget and control fiscal operations. The statutory basis of accounting is not in conformity with accounting principles generally accepted in the United States of America, (GAAP) as defined for governments by the Government Accounting Standards Board (GASB). This report's purpose is to document compliance with Massachusetts state finance law. I will report the Commonwealth's financial position on a GAAP basis in December, in our Comprehensive Annual Financial Report, (CAFR). This report, which will be prepared in accordance with GAAP, provides a basis for comparison with other governments. There are significant differences between what is contained in the SBFR fund balance, revenues and expenditures and what will be presented in December under GAAP. The major differences include presentation of the historical cost of infrastructure (roads and bridges,) the recording of depreciation expense, the presentation of all types of debt on the face of the financial statements and the presentation of those financial statements in an all – encompassing, net assets and net expense format.

In accordance with Massachusetts General Laws, the Office of the Comptroller transmits the SBFR on or before October 31st. The SBFR report for fiscal year ended June 30, 2005 herein is audited by Deloitte & Touche, Independent Certified Public Accountants, and represents the conclusion of financial activity and the closing of the Commonwealth's books on the statutory basis of accounting for the fiscal year. This audit is conducted in conjunction with the Office of the State Auditor, which provides knowledge, expertise and resources to audit the financial statements.

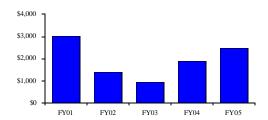

Budgeted Revenues and Other Sources

Budgeted Expenditures and Other Uses

Budgeted Funds – Fund Balance (Amounts in Millions)

The Budgeted Funds

In FY05, revenues and other sources continued to outpace expenditures and other uses of budgeted funds, resulting in an operating surplus of over \$594 million. This surplus is primarily a result of a rise in budgeted revenues and other sources of nearly \$385 million led by over \$718 million in increased budgeted tax revenues and over \$101 million in increased departmental revenues. Budgeted expenditures and other uses were up by more than 4.0% for FY05 largely isolated to increased pension funding, debt service increases and interfund transfers.

Any assessment surplus or deficit should be viewed in a trend. In that assessment, generally accepted standards indicate that a structural balance is achieved when revenues exceed expenditures over a period of multiple years. After operating deficits in FY02 and FY03, reliance on the significant use of prior year surpluses slowed in FY04 and continued to slow in FY05. As a result of FY05 operations, the Commonwealth was able to deposit \$691 million plus an additional 0.5% of tax revenues (nearly \$86 million) to the Stabilization Fund. In FY06 and in future years, the challenge will be to continue to match spending to available revenues.

In FY05, budgeted revenues and other sources increased 1.6% from FY04, primarily a result of tax revenue growth, departmental revenues and transfers from non-budgeted funds. Federal reimbursements declined approximately 7.9%. However, federal revenues in non-budgeted funds rose by 2.4%. From a multi-year perspective, the proportion of revenue sources demonstrate that tax revenues from all sources increased slightly with offsetting proportional drops in transfers and federal reimbursements.

Budgeted expenditures and other uses, including transfers to non-budgeted funds increased by 4.0%, primarily due to a \$515 million increase in pension funding mandated by the legislature and a \$161 million increase in debt service. Program services spending only increased by 2.2%, or \$448 million, primarily in Medicaid and other health and human services costs. The Budgeted Funds — Operations table on page 6 displays the FY05 summary of budgeted funds, compared to FY04. The FY05 financial statements for each of the 12 individual budgeted funds are included in the financial section of this report.

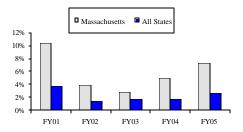

In conducting the budget process, the Commonwealth excludes those "interfund" transactions within the budgeted funds that are included in this report because by their nature, they have no impact on the combined fund balance of the budgeted funds. The table <u>Budgeted Funds – Operations</u> isolates this "interfund" activity from the budgeted sources and uses to align forecasts prepared during the budget process to actual amounts in this report. Transfers among the Budgeted Funds increased as a result of funds provided from Stabilization Fund to other funds to balance the budget for the year as well as year-end transfers back into the Stabilization Fund. A detailed list of these interfund transfers is included in Note 3 of this report.

The graph of <u>Budgeted Funds – Fund Balance</u>, on page 5, portrays the combined fund balance in the budgeted funds for the past five years. This "bottom line" perspective demonstrates the accumulation of resources attributable to balanced budgets through FY01 and the reliance on these resources through FY03 as spending was adjusted to align with the lower revenue base. As part of the General Appropriation Act of FY04, the Convention and Exhibition Center

Fund, a large contributor to budgeted fund balance was redefined as non-budgeted, resulting in a beginning balance restatement for FY04. Fifty other budgeted funds were either reclassified to non-budgeted, trust funds or closed as part of the General Appropriation Act, all of which are reflected as a restatement of beginning fund balance, leaving a clearer definition of budgetary activity. In FY05, the ending balance is comprised of the statutory fund balance of the General Fund, the Stabilization Fund, the Workforce Training Fund, the Massachusetts Tourism Fund and the Transitional Escrow Fund, offset by deficits in the Highway and Children's and Senior's Health Care Assistance Funds. A solution needs to be found to address the chronic deficit in the Children's and Senior's Fund. Due to designations within these fund balances, \$660 million of the total budgeted fund balance, exclusive of stabilization, is either reserved or is available for appropriation in FY06. The remainder is undesignated.

The Stabilization Fund

With the rapid depletion of the accumulated balances over the last three years, the importance of the balance in the Stabilization Fund and its direct correlation to the financial condition of the Commonwealth is clear. The National Governor's Association, along with the National Association of State Budget Officers in their annual "The Fiscal Survey of States" ranked the Commonwealth in FY04, third in the nation in terms of the balance of stabilization. Nine states had no stabilization balance at the end of FY04. Even more impressive, of states with over \$10 billion in General Fund expenditures in FY04, the Commonwealth's stabilization balance, as a percentage of expenditures, was first in the nation with Florida and California following. As the graphic at the left portrays, the Commonwealth has continued to outpace the rest of the nation in this key element of fiscal condition.

State finance law, a amended during FY03, increased the maximum balance that may accumulate in the Stabilization Fund to a level equal to 10% of budgeted revenues and other sources. This ceiling increased to 15% in FY04. The law then directs that any amount in excess of this "cap" be transferred to the Tax Reduction Fund for future, one-time, personal income tax rebates. Due to the significant transfers out of Stabilization over the last three years, it will be a while before the "cap" will be reached. The details of these calculations can be found on pages 278 through 283 of this report.

The graph, <u>Stabilization Fund - Fund Balance</u> portrays this "cap" and the balance of the fund over a five-year period. A balanced budget or "<u>Consolidated Net Surplus</u>," was redefined for FY04 to include all undesignated fund balances in the budgeted funds except for the Inland Fisheries and Game Fund. Starting this year, an additional 0.5% of current year tax revenues was deposited into the Stabilization Fund before the year-end surplus is determined.

The trend to fragment the budget into such special interest funds was addressed with consolidation and closure of the majority of budgeted funds activity in FY03. In the future, we must be very careful in only adding budgeted funds when absolutely necessary.

The Non-Budgeted Funds

The Non-Budgeted Funds represent operations in which the government has imposed its sovereign authority, but has excluded these operations from the annual budget process. During FY05, the Commonwealth maintained 51 of these funds, including certain funds that had previously been reported as budgeted. The largest non-budgeted funds in terms of revenues include the Lottery, Federal Grants, Health Care Security Trust (designated to receive tobacco settlement funds before transfer to the General Fund), Grant Anticipation, MBTA State and Local Contribution Fund, the Medical Security Trust, the Health Care Quality Improvement Fund, the new School Modernization and Reconstruction Trust (SMART) Fund and the Uncompensated Care Funds. These funds are commonly referred to as special or dedicated revenue funds whose revenues are matched to related expenditures.

The table, Non-Budgeted Funds – Operations, includes a summary of the FY05 non-budgeted funds. Financial statements for each of the individual funds are included in the financial section of this report. Several of these funds are worth mentioning.

At June 30, 2005, the Federal Grants Fund had a positive fund balance, but there is a deficiency in cash within the fund. This cash deficiency results from the Commonwealth drawing funds from the federal government a few days after applicable cash disbursements had been made to ensure an "interest neutral" timing of the federal – state cash exchange. These requirements were established by the Cash Management Improvement Act of 1990. Within the Lottery Funds, gross revenues continued to increase this fiscal year. The Lottery continues to be a strong source of cash flow for the Commonwealth.

The Health Care Security Trust Fund (HST) reports all revenues received from the Master Settlement Agreement (MSA) between the states and the tobacco industry to recover healthcare costs for tobacco related illnesses. The MSA estimates the Commonwealth revenues for the first 25 years of the settlement to be approximately \$7.6 billion. However, this estimate is prior to possible future adjustments, including adjustments for inflation and changes in the volume of domestic cigarette sales. In FY05, the Commonwealth received over \$257 million or 91.0% of the estimated amounts shown in the MSA. All HST proceeds received in FY05 were transferred to the General Fund. The Fund was also used as a cash flow mechanism for the new Health Care Quality Improvement Fund. The HST also returned \$43.9 million in FY04 investment earnings to the General Fund during FY05 pursuant to Massachusetts General Laws.

During FY98, the Legislature authorized the issuance of up to \$1.5 billion in Federal Grant Anticipation Notes, (GANS) to finance the current cash needs of the Project. All of the GANS have been issued. The GANS are not considered general obligation debt of the Commonwealth. These proceeds of the GANS are being used to pay for federally eligible expenditures. GANS activity related to the Central Artery / Tunnel Project (CA/T) continued this year, though only for debt service and for previous expenses that became reimbursable by the federal government. From this year through 2015, these eligible expenses will be reimbursed by the federal government and the reimbursement will be used to payoff the GANS. Activity related to issuance of GANS and the accumulation of pledged funds and the payment of debt service is accounted for in the Grant Anticipation Note Trust Fund. In July 2003, the Commonwealth completed a cross-over refunding of the GANS. \$388.1 million in GANS issued in 1998 and 2000 at coupons ranging from 5.125% to 5.75% that will mature on December 15, 2008 and 2010, respectively, were partially refinanced with \$408.0 million of refunding notes with yields of 2.51% to 3.39%. The interest on the newly issued refunding notes is paid from an escrow until final redemption. This technique results in economic savings, but does not result in the legal defeasance of the notes. The result is the original as well as the refunding notes are reported on Commonwealth's books until the maturity dates. The \$649 million surplus in the fund for FY05 represents \$542 million held for payment of interest on the GANS inclusive of an escrow for payment of GANS involved with the aforementioned crossover refunding. The fund also started to accumulate grant draws to pay principal amounts coming due in FY06 during FY05.

The Universal Health Care funds, including the Uncompensated Care and Medical Security Trust Funds, have reported revenue and other financing source increases of over \$633 million. However, \$345 million was transferred out to fund operations this year due to the ontinued high cost of health care. As of the end of FY05, these funds have a combined fund balance of over \$202 million.

Non-Budgeted Funds – Fund Balance (Amounts in Millions)

The graph Non-Budgeted Funds - Fund Balance shows the combined fund balance in the Non-Budgeted funds for the past five years. In each year, the entire balance is designated for the specific purpose of the fund. The overall growth in fund balance in these funds this fiscal year was primarily due to deposits into the Community Preservation Trust Fund. As indicated in previous years, more consolidation and elimination is needed for these funds. For example, the Government Land Bank Fund has a chronic structural fund deficit. The FY05 deficit balance of \$35 million remains an unbudgeted drain in cash flows in the General Fund. While steps have been taken to stop the growth in this deficit, the Fund should be abolished and the deficit transferred into the General Fund. An additional \$21 million deficit exists in the Motor Vehicle Inspection Fund. Amendments to the enabling statute to the Fund mandate that the Fund must be in balance by June 30, 2009.

The Capital Projects Funds

The purpose of these funds is to account for the construction or acquisition of capital assets. The Governor may propose capital outlay budgets, which, upon enactment by the Legislature and approval by the Governor, become capital outlay acts. Capital outlay acts financed through the sale of debt require a two-thirds vote of the Legislature. Numerous acts may be combined for reporting in an individual Capital Project Fund, but each act is accounted for separately within the Capital Projects Fund. These accounts record authorizations for expenditures in itemized capital appropriation accounts and equivalent authorizations to issue bonds or notes in anticipation of federal reimbursements.

The structure of these funds is such that each capital outlay authorization is in balance, creating authorization for inflows, which may be from sales of bonds, federal reimbursements or other revenues and authorization for expenditures. Imbalances due to timing differences develop when the expenditure precedes the inflow of funds from the sale of bonds or federal reimbursements. Because of federal tax arbitrage rules, it is more difficult to sell bonds in anticipation of expenditures. The sale of bonds in advance is not commonplace in the Commonwealth.

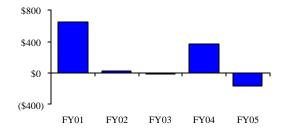

The Commonwealth issued over \$2.7 billion in debt this year. Of this amount, \$1.4 billion, inclusive of premiums, was used to fund ongoing projects, including \$500 million to fund school construction as part of the restructuring of the school building assistance program and nearly \$1.3 billion was issued in the form of general and special obligation refunding bonds, taking advantage of low interest rates.

A significant portion of the Capital Projects activity continues to relate to the Central Artery / Tunnel Project (CA/T). The CA/T has been the target of an enormous amount of public scrutiny. The Commonwealth has aggressively responded to these concerns regarding the integrity of the cost estimates. For the third year, an independent evaluation of the entire estimate for the project has been undertaken. The current cost of the project still stands at \$14.625 billion. The federal government has capped its contribution to this project at \$8.5 billion or 59% of the budget. The finance plan also includes Commonwealth sources to fund

Central Artery / Tunnel Project (Amounts in Billions)

Sources of Funds:	2004	2005
Federal Funds GANS	\$ 7.049 1.500	\$ 7.049 1.500

Total Estimated Costs of Construction:	\$ 14.625	\$ 14.625

Capital Projects Funds – Fund Balance (Deficit) (Amounts in Millions)

a large portion of the project. The project is over 97% complete as of the latest Project Management Monthly report released in September 2005

The major elements of the project are open to traffic. In addition, completion of various ramps, surface reconstruction projects and other features is required for substantial completion of the CA/T Project as a whole. The date of substantial completion of the CA/T Project is projected for the late fall of 2005, except for construction of one ramp and of the downtown surface street system, which is scheduled for completion before the end of 2005. Final surfacing of the surface roadways is likely to occur in the Spring of 2006.

Pursuant to statute and agreements with the Massachusetts Turnpike Authority (MTA) and the Massachusetts Port Authority (MassPort), the entities have committed to significant ongoing contributions to the Commonwealth as part of the financing for this project. These funds are in addition to funds from the Commonwealth and federal funds for the project. In August 2005, MassPort remitted to the Commonwealth \$50 million as part of this commitment. The funds were used to retire bond anticipation notes.

The graph <u>Capital Projects Funds</u> – <u>Fund Balance (Deficit)</u> shows the combined fund balance in Capital Projects Funds for the past five years. The graph shows a deficit in the funds in FY05 due to the timing of bond sales. A bond sale in August 2005 erased this deficit. The majority of the individual funds remain in deficit due to the timing differences between bonding and expenditures offset by surpluses in three funds. These three funds include a fund for central artery and statewide roads and bridge construction, a fund for the Commonwealth's Convention Centers and a fund for the federal highway construction program. These funds contain designated reserves or escrows where the Commonwealth is able to legally arbitrage revenues consistent with the provisions of the existing tax code.

The <u>Capital Projects Funds – Operations</u> table on the next page, includes the FY05 Capital Projects Funds, summarized and compared to FY04. Financial statements for each of the individual funds are included in the financial section of this report.

The Administration has implemented a coordinated fiscal strategy for the management of Capital Projects Funds. This strategy includes a five-year capital budget linked to debt management and cash management. The focus of this strategy is to manage capital spending and outstanding debt to levels the Administration considers appropriate for the Commonwealth. An important part of the strategy is to control capital spending within an annual administrative "cap."

Capital Projects Funds - Operations (Amounts in thousands)

	2004	2005
Beginning fund balance (deficit)	\$ (9,994)	\$ 364,849
Revenues and other sources:		
Federal grants and reimbursements	3,408	11,626

Ending fund balance (deficit)	\$ 364,849	\$ (160,900)

The Fiduciary Funds (Excluding Agency Funds)

The Fiduciary Funds record the Commonwealth's responsibility for assets it controls on behalf of other parties. Examples of such funds are the Unemployment Compensation and Pension Trust Funds. The table on the following page, which excludes assets held on a purely custodial capacity in so-called Agency Funds, summarizes the FY05 activity of the Fiduciary Funds. Nearly 98% of the Fiduciary Fund assets are related to the Commonwealth's Pension Fund detailed in fund statements found in this report.

The \$3.8 billion operating gain in this fund group is primarily the result of the net of two significant events:

- The net change in value of pension assets increased by over \$4.0 billion.
- Payments to the unemployed in the Commonwealth were exceeded employer contributions to the Unemployment Compensation Trust Fund by nearly \$293 million. Expenditures from the Fund reduced during the year, reflecting an improving economy.

The pension valuation is based on data as of January 1, 2005. Details of this valuation are outlined in Note 10. The value of pension assets of the public retirement system decreased from FY04 to FY05 from 73.9% funded to 72.3% funded. This was due to the continued phase in of realized and unrealized losses from 2002 to 2004. However, within the systems, the Teachers' Retirement System and the State — Boston Retirement System are funded at 67.6% and 48.8% respectively. A long term solution is needed to address these funding concerns.

Fiduciary Fund - Operations (Excluding Non-Expendable Trusts) (Amounts in thousands)

	2004	2005
Beginning fund balance	\$ 27,673,480	\$ 31,721,983

Total expenditures and uses	5,274,384	4,727,769
Deficiency of revenues and sources over expenditures and uses	4,048,503	3,826,140
Ending fund balance	\$ 31,721,983	\$ 35,548,123

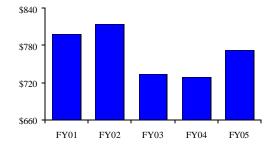

The Non-Appropriated Funds of Higher Education

The SBFR includes the financial operations of the non-appropriated funds of the 25 institutions of higher education in the statistical section of this report. Each institution of higher education is authorized and directed in its enabling statute to collect, retain and expend certain fees, rents, sales, donations, federal financial participation and other types of revenue through campus based systems. These financial resources are integral parts of the total financial activity of each campus. They also represent resources in addition to amounts made available from Commonwealth appropriations. Over the past few years, significant efforts have been taken by our office and the institutions to improve the accuracy and timeliness of the higher education segment of the financial report.

Non-Appropriated Funds Of Higher Education - Operations (Amounts in thousands)

	2004	2005
Beginning fund balance	\$ 733,274	\$ 729,079
Revenues and other sources:		
Federal Grants and reimbursements	339,160	348,340
Departmental and miscellaneous	1,550,644	1,056,087
Transfers and other sources	150,694	999,404
Total revenues and other sources.	2,040,498	2,403,831
Expenditures and other uses:		
Programs and services	2,044,693	2,359,664
Total expenditures and uses	2,044,693	2,359,664
Excess (deficiency) of revenues and other sources over expenditures and other uses	(4,195)	44,167
Ending fund balance	\$ 729,079	\$ 773,246

Non-Appropriated Funds of Higher Education – Fund Balance (Amounts in Millions)

The Non-Appropriated Funds of Higher Education – Operations table includes the FY05 funds, summarized and compared to FY04. Financial statements for each of the individual funds are included in the statistical section of this report. The graph Non-Appropriated Funds of Higher Education – Fund Balance shows the combined fund balance for the past five years. The combined balance represents \$518 million for the University of Massachusetts, \$149 million for the State College system and \$107 million for the Community Colleges. These balances are designated for specific purposes, such as restrictions on endowments or other specialized purposes specified by the funding contributions.

Financial System

In September of 2002 the Commonwealth undertook a two-year project to upgrade it statewide accounting system to a web based software with minimal customizations.

The issuance of this report marks the completion of the first full year of implementation. The system is on track, meeting the major success factors outlined at the initiation of the project, including:

- The system went live on schedule at the opening of FY05.
- The project came in under budget returning \$2 million of the project contingency fund.
- The system was available to users 96% of its scheduled up time, 9:00 AM until 6:00 PM Monday through Friday. The system is usually available for additional time in the morning outside these planned hours.
- 100% of critical payments were issued on schedule. The system issued a payment file to the Treasurer each day

- with the exception of two. On these two days the problem was corrected within 24 hours.
- 1.3 million payments, totaling \$31.5 Billion, have been issued by the system.
- Billings over \$1.9 million to the federal government were executed.
- The financial statements contained herein were prepared using the system and issued on schedule with an unqualified opinion included on pages 23 and 24. No material weaknesses were identified.

Some issues and challenges remain:

- The nightly cycle still frequently requires manual intervention to complete on schedule.
- On line response time occasionally slows down preventing users from working effectively in the system.
- Users still request additional training and assistance in some of the more complicated areas of the application.

While these areas result in frustration they are not serious enough to impede the Commonwealth functions. The Chief Information Officer of the Commonwealth, CGI-AMS and I have an aggressive action plan monitored on a weekly basis to address these remaining issues.

Conclusion

The Commonwealth has many accomplishments in FY05 of which it can be proud.

As stated at the outset of this introduction, the Commonwealth has successfully implemented the updated MMARS system. We couldn't have presented this report without the PARTNERS effort with departments begun four years ago. The fourth Chief Fiscal Officers (CFO) conference brought together CFOs from across the Commonwealth for meetings. PARTNERS stands for people, accountability, responsibility, trust, negotiation, efficiency, risk assessment and mitigation, and solutions. We have emphasized that systems depend on people who are integral to those systems. This recognizes that fiscal officers of the Commonwealth are being given increased authority and at the same time being held accountable for their actions, ensuring a balance of efficiency and integrity of the financial operations of the Commonwealth. We strike this balance between efficiency and integrity of operations through constant risk assessment and effective risk mitigation. As part of this effort, our office has started a Quality Assurance Bureau, that is tasked to not only improve the integrity of the financial operations of the Commonwealth in a collaborative manner with departments, but also to do the same for our internal operations, similar to entities found within nongovernmental entities. We will continue to strive to find solutions to many of the Commonwealth's problems in conjunction with the rest of the CFOs, so that full input is heard. To this end, we have commenced a departmental advisory group to provide to us continuous feedback on MMARs and other financial operations.

Part of the strategy of the MMARS upgrade was to ensure that the Commonwealth can upgrade to current releases in the future at a reasonable cost. The goal is to keep current with technology in the future and at the same time control the total cost of system ownership. Benefits will accrue directly to the users of the financial system. In addition, this updated technology will allow for the future integration of Commonwealth internet-based applications into "back office" financial systems. We will use this same strategy as we begin the process of upgrading the Commonwealth's Human Resource Compensation Management System (HRCMS,) beginning in FY06.

Departments had many challenges during FY05 as part of the implementation of MMARs. Business practices had to be reassessed and in some cases, personnel had to be redeployed to meet these challenges. Throughout it all though, we maintained the high standards of internal controls because we were all conscious of the risk environment that we do business in. The challenge of maintaining effective controls is greater than ever. We continue to ask each department, at its highest levels, to assess its risks and target controls to manage those risks efficiently and effectively. To this end, the Office of the Comptroller, in conjunction with the Office of the State Auditor, has continued a multi-pronged effort to improve controls throughout the Commonwealth.

I again would like to express my thanks to the many dedicated employees within the Office of the State Comptroller. We have had another successful year within the office, though filled with many long hours for all of us to get to this day. I am proud to have all the employees of the Comptroller's Office on my team to help tackle these and other difficult issues of the future.

Respectfully submitted,

Martin J. Benison Comptroller of the Commonwealth

INDEPENDENT AUDITORS' REPORT

Mr. Martin Benison, Comptroller
The Commonwealth of Massachusetts

We have audited the accompanying combined financial statements – statutory basis of the Commonwealth of Massachusetts as of and for the year ended June 30, 2005, as listed in the table of contents. These combined financial statements – statutory basis are the responsibility of the management of the Commonwealth of Massachusetts. Our responsibility is to express an opinion on these combined financial statements – statutory basis based on our audit. We did not audit the financial statements of the Pension Reserves Investment Trust for the year ended June 30, 2005, which is the investment vehicle of the Commonwealth of Massachusetts' Pension Trust Funds, the financial statements of which represent 92.2 percent of the assets and 71.7 percent of the revenues of the Fiduciary Fund Type, or the Health Care Security Trust for the year ended June 30, 2005, the financial statements of which represent 21.9 percent of the assets and 5.1 percent of the revenues of the Special Revenue Non-Budgeted Fund Type. Those financial statements were audited by another auditor whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for the Pension Reserve Investment Trust and the Health Care Security Trust, is based solely on the reports of the other auditor.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the combined financial statements – statutory basis are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Commonwealth of Massachusetts' internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the combined financial statements – statutory basis, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall combined financial statement – statutory basis presentation. We believe that our audit and the reports of the other auditor provide a reasonable basis for our opinion.

As discussed in Note 2 to the combined financial statements – statutory basis, the Commonwealth of Massachusetts prepares its combined financial statements - statutory basis on a prescribed basis of accounting that demonstrates compliance with General Laws and budgetary principles and funds of the Commonwealth of Massachusetts, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

In our opinion, based on our audit and the reports of another auditor, such combined financial statements – statutory basis referred to above present fairly, in all material respects, the financial position of the Commonwealth of Massachusetts, as of June 30, 2005, and the results of its operations for the year then ended, on the basis of accounting described in Note 2.

Our audit was conducted for the purpose of forming an opinion on the combined financial statements – statutory basis, taken as a whole. The combining and individual fund statements – statutory basis and supplemental information listed in the foregoing table of contents, are presented for the purpose of additional analysis and are not a required part of the combined financial statements – statutory basis of the Commonwealth of Massachusetts. These financial statements and schedules are also the responsibility of the management of the Commonwealth of Massachusetts. Such additional information has been subjected to the auditing procedures applied in our audit of the combined financial statements – statutory basis and, in our opinion, based on our audit of the combined financial statements – statutory basis, is fairly stated in all material respects when considered in relation to the combined financial statements – statutory basis taken as a whole.

We did not audit the data included in the introductory and statistical sections of this report, and accordingly, we express no opinion on such data.

In accordance with Government Auditing Standards, we have also issued our report dated October 28, 2005, on our consideration of the Commonwealth of Massachusetts' internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grants. This report is an integral part of an audit performed in accordance with Government Auditing Standards and should be read in conjunction with this report in considering the results of our audit.

This report is intended solely for the use of elected and appointed officials of the Commonwealth of Massachusetts and is not intended to be and should not be used by anyone other than these specified parties.

1. FINANCIAL STATEMENT PRESENTATION

A. Introduction

The accompanying combined financial statements (Statutory Basis Financial Report) of the Commonwealth of Massachusetts (the Commonwealth) are presented in accordance with the requirements of Section 12 of Chapter 7A as amended by Section 4 of Chapter 88 of the Acts of 1997 of the Massachusetts General Laws. The Office of the Comptroller also publishes the Commonwealth's Comprehensive Annual Financial Report (CAFR) which is prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for governments. GAAP is prescribed by the Governmental Accounting Standards Board (GASB), the authoritative standard-setting body for establishing governmental accounting and financial reporting principles.

The Statutory Basis Financial Report (SBFR) includes all the budgeted and non-budgeted funds and account groups of the Commonwealth, as recorded by the Office of the Comptroller in compliance with Massachusetts General Laws and in accordance with the Commonwealth's budgetary principles.

The Statutory Basis Financial Report's Financial Statements are not intended to include independent authorities, non-appropriated funds of higher education or other organizations included in the Commonwealth's reporting entity as it would be defined under GAAP.

B. Statutory Basis

The Commonwealth reports its statutory basis financial position and results of operations in funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a set of self-balancing accounts that comprise its assets, liabilities, fund balances, revenues and expenditures/expenses. Transactions between funds within a fund type, if any, have not been eliminated.

Account groups are accounting entities used to provide accountability for the Commonwealth's general fixed assets and long-term obligations. They are not considered funds because they do not report expendable available financial resources and related liabilities.

C. Governmental Fund Types

The Fund types and account groups are organized as follows:

Governmental Fund Types account for the general governmental activities of the Commonwealth.

Budgeted Funds – are the primary operating funds of the Commonwealth. They account for all budgeted governmental transactions. Major budgeted funds include the General and Highway funds, which are identified by the Comptroller as the operating funds of the Commonwealth.

Non-Budgeted Special Revenue Funds – are established by law to account for specific revenue sources that have been segregated from the budgeted funds to support specific governmental activities such as federal grants, funds related to the tobacco settlement and the operations of the state lottery.

Capital Projects Funds – account for financial resources used to acquire or construct major capital assets and to finance local capital projects. These

resources are derived from proceeds of bonds and other obligations, which are generally received after related expenditures have been incurred, operating transfers authorized by the Legislature and from federal reimbursements. Deficit balances in Capital Projects Funds represent amounts to be financed.

D. Fiduciary Fund Types

Fiduciary Funds account for assets held by the Commonwealth in a trustee capacity (Trust Funds), or as an agent (Agency Funds) for individuals, private organizations, other governmental units, and/or other funds.

Expendable Trust Funds – account for trusts whose principal and investment income may be expended for a designated purpose.

Nonexpendable Trust Funds – account for trusts whose principal cannot be spent.

Pension Trust Funds – account for the net assets available for plan benefits held in trust for the State Employees' and Teachers' Retirement Systems.

Agency Funds – account for assets the Commonwealth holds on behalf of others. Agency Funds are custodial in nature and do not involve measurement of operations.

E. Account Groups

Account Groups establish control and accountability over the Commonwealth's general fixed assets and long-term obligations.

General Fixed Assets Account Group – accounts for the general fixed assets of the Commonwealth and capital leases.

General Long-term Obligations Account Group – accounts for long-term bonds and notes issued by the Commonwealth and capital leases.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Statutory Basis of Accounting

The SBFR is prepared from the Commonwealth's books and records and other official reports which are maintained on the basis of accounting used in the preparation of the Commonwealth's legally adopted annual budget (statutory basis). The statutory basis emphasizes accountability and budgetary control of appropriations. The SBFR is not intended to present the Commonwealth's financial condition and results of operations in conformity with GAAP. Under GAAP, the books are accounted for using a current financial resources measurement focus and the modified accrual basis of accounting.

Under the statutory basis of accounting, revenues are generally recognized when cash deposits are received by the Treasury. However, revenues receivable for federal grants and reimbursements are recognized when related expenditures are incurred. Amounts due from political subdivisions of the Commonwealth are recognized when considered measurable and available. Deeds excise taxes are recognized at the time of collection by the counties and the Commonwealth.

Under the statutory basis of accounting, expenditures are generally recorded when the related cash disbursement occurs. At year-end, payroll is accrued and payables are recognized, to the extent of approved encumbrances, for goods or services received by June 30. Costs incurred under the federally-sponsored Medicaid program, amounts required to settle claims and judgments against the Commonwealth, and certain other liabilities are not recognized until they are encumbered or otherwise processed for payment. Under GAAP, expenditures are recorded in the period in which the related fund liability is incurred.

The Pension Trust Funds are reported using a flow of economic resources measurement focus and the accrual basis of accounting on both the statutory and GAAP basis. Under this method, additions are recorded when earned and deductions are recorded at the time liabilities are incurred. This measurement focus emphasizes the determination of net change in assets available for pension benefits.

The accounting policies followed in preparing the accompanying statutory basis financial report are described in the remainder of this section.

The Commonwealth follows the practice of pooling the cash and cash equivalents of its Governmental and Fiduciary Funds. Cash equivalents consist of short-term investments with an original maturity of three months or less and are stated at cost. Interest earned on pooled cash is allocated to the General Fund, Expendable Trust Funds and, when so directed by law, to certain Special Revenue and Capital Projects Funds.

The Office of the Treasurer and Receiver-General (Treasury) manages the Commonwealth's short-term investment pool. Statutes authorize investment in obligations of the U. S. Treasury, authorized bonds of all states, banker's acceptances, certificates of deposit, commercial paper rated within the three highest classifications established by Standard & Poor's Corporation and Moody's Commercial Paper Record and repurchase agreements that any of these obligations secure. Such investments are carried at cost, which approximates fair value.

The Pension Trust Funds, with investments of approximately \$37,702,829,000 at fair value and the Health Care Security Trust Account investments of approximately \$156,655,000 at fair value, are permitted to make investments in equity securities, fixed income securities, real estate, timber and other alternative investments. For investments traded in an active market, the fair value of the investment will be its market price. The Pension Trust Funds include investments in real estate, venture capital funds, real estate funds, limited partnerships, futures pools, international hedge pools, commodities pools, balanced pools, leveraged buyouts, private placements and other The structure, risk profile, return potential and alternative investments. marketability differ from traditional equity and fixed income investments. Concentration of credit risk exists if a number of companies in which the fund has invested are engaged in similar activities and have similar economic characteristics that could cause their ability to meet contractual obligations to be similarly affected by changes in economic or other conditions. To mitigate the exposure to concentrations of risk, the Pension Trust Funds invest in a variety of industries located in diverse geographic areas. As of June 30, 2005, the estimated fair values, determined by management with input from the investment managers, of these real estate and alternative investments were \$7,505,233,000 of the Pension Trust Funds, representing 18.8% of the total assets of the Fiduciary Fund Type.

B. Cash, Short-term Investments and Investments Other investments, mainly in escrows, the Pension Trust Funds and the Health Care Security Trust Fund (HST) are reported as fair value in the financial statements. The investments of the Pension Trust Funds are held separately from those of other Commonwealth funds, with the exception of their investments in the Massachusetts Municipal Depository Trust (MMDT). The Pension Trust Funds and the HST are permitted to make investments in equity securities, fixed income securities, real estate and other alternative investments.

C. Securities Lending Program

The Pension Trust Funds participate in securities lending programs. Under these programs, the Trusts receive a fee for allowing brokerage firms to borrow certain securities for a predetermined period of time, securing such loans with cash or collateral typically equaling 102% to 105% of the fair value of the security borrowed. The collateral securities cannot be pledged or sold by the Pension Reserve Investment Trust (PRIT) unless the lending agents default. The lending agents are required to indemnify PRIT in the event that they fail to return the securities on loan (and if the collateral is inadequate to replace the securities on loan) or if the lending agents fail to perform their obligations as stipulated in the agreements. There were no losses resulting from default of the lending agents during the years ending June 30, 2005 and 2004. At June 30, 2005, the fair value of the securities on loan from PRIT was approximately \$1,877,595,000. The fair value of the collateral held by PRIT amounted to \$1,953,412,000 at June 30, 2005, of which \$1,101,100,000 was cash.

D. Receivables

Receivables are stated net of estimated allowances for uncollectible accounts. Reimbursements due to the Commonwealth for its expenditures on federally funded reimbursement and grant programs are reported as "Due from Ederal government."

E. Due from Cities and Towns Represents reimbursement due to the Commonwealth for its expenditures on certain programs for the benefit of cities and towns.

On July 9, 2004, the Governor signed Chapter 169 of the Acts of 2004, related to the financial ability of the City of Springfield. Section 2 of the Act provides for \$52,000,000 in zero interest loans to be drawn from time to time by a finance control board established by the act. This activity is recorded in the Springfield Fiscal Recovery Trust Fund, a non-budgeted fund. The loans are to be paid back to the Commonwealth no later than June 30, 2012. During FY2005, \$100,000,000 in cash flow was issued to the City from the Trust Fund. Of this amount, \$78,000,000 was repaid to the Commonwealth before June 30, 2005 and the remaining \$22,000,000 is reflected as "Due from Cities and Towns." It is anticipated that this revolving activity will continue for the foreseeable future. The Act provides for no forgiveness of the loans and failure to repay the full value of loans disbursed from the fund to the city shall result in an equally commensurate reduction in local aid payments made by the Commonwealth to the City in FY2013.

F. Dedicated Revenue

The Commonwealth has various streams of dedicated revenues reflected in non-budgeted fund activity. Approximately \$2.0 billion in revenues from federal grants passed through the Federal Grants Fund represents the greatest source of dedicated revenues. The largest pledge of tax revenues apportions a "dedicated sales tax" amounting to 1% of applicable sales in the Commonwealth directly to the Massachusetts Bay Transportation Authority (MBTA). Total dedicated sales tax revenue directed to the MBTA in FY05 was approximately \$704,809,000.

In FY05, the legislature began phasing in a dedication of sales tax revenues

amounting to 1% of applicable sales. \$395,700,000 of dedicated sales tax revenue was pledged to fund school construction via a transfer to the Massachusetts School Building Authority. This amount rises to a minimum of \$488,700,000 or 70% of dedicated sales taxes, whichever is larger in FY2006. In future years these amounts rise further per statute until 1% of applicable sales is pledged in FY2011.

Other major dedicated tax revenue streams include surcharges from areas contiguous to convention centers to support such centers' operations, motor fuels taxes to support highway construction, repairs and maintenance and cigarette taxation to support health and human service costs.

The costs of materials and supplies are recorded as expenditures in Governmental Funds when purchased. Such inventories are not material in total to the financial statements and therefore are not presented.

General fixed asset acquisitions are recorded as expenditures in the acquiring fund and capitalized in the General Fixed Assets Account Group in the year purchased. General fixed assets are recorded at historical cost, or at estimated historical cost if actual historical cost is not available. Donated fixed assets are recorded at estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized. Improvements are capitalized.

The Commonwealth capitalizes all land except land associated with infrastructure. It capitalizes buildings and equipment, including computer software, with a cost in excess of \$100,000 and \$50,000 respectively at the date of acquisition and with an expected useful life greater than one year. Public domain general fixed assets and infrastructure (roads, bridges, tunnels, dams, water and sewer systems, etc.) are not capitalized. Interest incurred during construction is not material and is not capitalized. Under the statutory basis of accounting, no depreciation is taken on general fixed assets.

During the course of its operations, the Commonwealth records transactions between funds and / or between departments. On the statutory basis, transactions between Governmental and Fiduciary Fund Types are recorded as adjustments to the funds' cash accounts. As a result, a fund may report a deficiency in cash and short-term investments.

Transactions of a buyer/seller nature between departments within a fund are not eliminated.

Transfers in and out net to approximately \$4,638,000 due to higher education non-appropriated fund activity, which is not included in the combined statements – statutory basis.

The Commonwealth does not insure for state employees workers' compensation, casualty, theft, tort claims and other losses. Such liabilities are not recognized on the statutory basis until encumbered and / or processed for payment. For employees workers' compensation, the Commonwealth assumes the full risk of claims filed under a program managed by the Human Resources Division. For personal injury or property damages, Chapter 258 of the Massachusetts General Laws (General Laws) limits the risk assumed by the Commonwealth to

G. Inventories

H. General Fixed Assets

I. Interfund / Intrafund Transactions

J. Risk Management

\$100,000 per occurrence, in most circumstances. The Group Insurance Commission administers contributory health care and other insurance programs for the Commonwealth's employees and retirees.

K. Encumbrances

Encumbrance accounting is utilized in the Governmental Fund Types as a significant aspect of budgetary control. The full amounts of purchase orders, contracts and other commitments of appropriated resources are encumbered and recorded as deductions from appropriations prior to actual expenditure, ensuring that such commitments do not exceed appropriations. Encumbrances outstanding at year-end for goods or services received on or before June 30 are reported as expenditures and statutory basis liabilities as a component of accounts payable.

L. Fringe Benefit Cost Recovery

The Commonwealth appropriates and pays the fringe benefit costs of its employees and retirees through the General Fund. These fringe benefits include the costs of employees' health insurance, pensions, unemployment compensation, and other costs necessary to support the state work force. As directed by Chapter 29, Sections 5D and 6B(f) of the Massachusetts General Laws, these costs are assessed to other funds based on their payroll costs, net of credits for direct payments. Since these fringe benefit costs and pensions are not appropriated in the budget, the required assessment creates a variance between budget and actual expenditures at year-end. The fringe benefit cost recoveries of \$215,338,000 in the budgeted funds result from costs assessments of \$140,800,000 in the governmental fund types and the expendable trust funds. The remainder of \$74,538,000 is assessed to the higher education non-appropriated activity, which is not included in the statutory basis financial report.

M. Lottery Revenue and Prizes

Ticket revenues are recognized when sold and prizes awarded by the Massachusetts Lottery Commission are recognized as drawings are held.

N. Fund Balances

The Commonwealth reports fund balances as reserved where legally restricted for a specific future use. Otherwise, these balances are considered unreserved.

Fund balance has been reserved as follows:

"Reserved for continuing appropriations" – are unexpended amounts in appropriations, which the Legislature has specifically authorized to be carried into the next FY.

"Reserved for Commonwealth stabilization" – are amounts set aside in the Commonwealth Stabilization Fund in accordance with 5C of Chapter 29 of the Massachusetts General Laws.

"Reserved for transitional escrow" – are funds set aside by Section 16 of Chapter 106, Acts of 2005 for expenditure subject to appropriation by June 30, 2006 with any unexpended balance returned to the Commonwealth Stabilization Fund.

"Reserved for debt service" – are amounts held by fiscal agents or the Commonwealth to fund future debt service obligations.

"Reserved for employees' pension benefits" – are the net assets of the Commonwealth's public employee retirement systems which cannot be used for any other purpose.

"Reserved for unemployment benefits" – are amounts reserved for payment of unemployment compensation.

"Reserved for capital projects" - are amounts reserved for capital projects.

Unreserved fund balance is segregated into two components:

"Designated for specific purpose" – are all unreserved fund balances for which the Legislature or Executive Branch has evidenced an intention to restrict for a specific purpose.

"Undesignated" – consists of cumulative surpluses or deficits of the Governmental Fund Types not otherwise designated.

O. Reclassification

Certain reclassifications have been made to the FY2004 account balances to conform to the presentation in FY2005.

3. BUDGETARY CONTROL

State finance law requires that a balanced budget be approved by the Governor and the Legislature. The Governor presents an annual budget to the Legislature, which includes estimates of revenues and other financing sources and recommended expenditures and other financing uses. The Legislature, which has full authority to amend the budget, adopts an expenditure budget by appropriating monies at the individual appropriation account level in an annual appropriations act.

Before signing the appropriations act, the Governor may veto or reduce any specific item, subject to legislative override. Further changes to the budget established in the annual appropriations act may be made via supplemental appropriation acts or other legislative acts. These must also be signed by the Governor and are subject to the line item veto.

In addition, Massachusetts General Laws authorize the Secretary of Administration and Finance, with the approval of the Governor, upon determination that available revenues will be insufficient to meet authorized expenditures, to withhold allotments of appropriated funds which effectively reduce the account's expenditure budget.

The majority of the Commonwealth's appropriations are non-continuing accounts which lapse at the end of each fiscal year. Others are continuing accounts for which the Legislature has authorized that an unspent balance from the prior year be carried forward and made available for spending in the current fiscal year. In addition, the Legislation may direct that certain revenues be retained and made available for spending within an appropriation. Fringe benefits, pension costs, and certain other costs which are mandated by state finance law are not itemized in the appropriation process and are not separately budgeted.

Because revenue budgets are not updated subsequent to the original appropriation act, the comparison of the initial revenue budget to the subsequent, and often modified, expenditure budget can be misleading. Also, these financial statements portray fund accounting with gross inflows and outflows, thus creating a difference to separately published budget documents. In conducting the budget process, the Commonwealth excludes those interfund transactions that by their nature have no impact on the combined fund balance of the budgeted funds. An example of this is the lack of a budget for pension costs.

Generally, expenditures may not exceed the level of spending authorized for an appropriation account. However, the Commonwealth is statutorily required to pay debt service, regardless of whether such amounts are appropriated.

The FY04 General Appropriation Act (Chapter 26, Section 167 of the Acts of 2003), amended section 9C, directing the Governor to notify the Legislature in writing as to the reasons for and the effect of any reductions in spending. Alternatively, the Governor may propose specific additional revenues to fund the deficiency. The Governor may also propose to transfer funds from the Stabilization Fund to cure the deficiency. This proposal must be delivered to the Legislature 15 days before any reductions take effect.

The following table summarizes budgetary activity for FY05 (amounts in thousands):

	 Revenues		xpenditures	
General Appropriation Act, Chapter 149 of the Acts of 2004: Direct appropriations	\$ 22,548,599	\$	21,281,758	
retained revenue appropriations, interagency chargebacks and appropriations carried forward from FY2004	1,438,101		1,818,140	
Total original budget	23,986,700		23,099,898	
Supplemental Acts of 2004:				
* Chapter 352 Chapter 462 Chapter 502	- - -		(750) 350 3,271	
Supplemental Acts of 2005: Chapter 65. Chapter 35. Chapter 81.	 - - -		118,544 79,568 25,000	
Total before June 30. 2005	23,986,700		23,325,881	
Supplemental Acts of 2005, passed after June 30: Chapter 106	 <u> </u>		129,447	
Total budgeted revenues and expenditures per Legislative action	23,986,700		23,455,328	
Plus: Transfers of revenues and expenditures (including rounding)	 		1,986,736	
Budgeted revenues and expenditures as reported	\$ 23,986,700	\$	25,442,064	

^{*} The negative supplemental appropriation is the outcome of a pilot program implemented at certain state college institutions whereby they were allowed to retain and spend out - of - state tuitions. The offsetting estimated state savings was reduced from the institutions original General Appropriation Act allocation.

The following table identifies the interfund activity from budgeted sources and uses to reconcile forecasts prepared during the budget process to the results presented in these statements: (amounts in thousands)

	Revenues and Other Financing	Expenditures and Other
	Sources	Financing Uses
Actual as presented in the combined budget		
and actual statement - statutory basis	\$ 26,604,656	\$ 26,010,274
Adjustments to revenues and expenditures		
Transfer to the Intragovernmental Service Fund revenues	(185,859)	(185,859)
Adjustments to other financing sources and uses:		
Fringe benefit cost assessments	(52,019)	(52,019)
Year-end Stabilization Transfer	(85,959)	(85,959)
Transfer from the Intragovernmental Service Fund to the General Fund	(1,927)	(1,927)
RMV license plates	(3,513)	(3,513)
Transfer from the Federal Medicaid Assistance Percentage Escrow Fund to the General Fund	(270,000)	(270,000)
Stabilization transfers to the General Fund	(343,271)	(343,271)
Excess Permissable Tax Revenue Transfer from General Fund to Temporary Holding Fund	(135,991)	(135,991)
Year-End Excess Permissable Tax Revenue Transfer from Temporary Holding		
Fund to Stabilization Fund	(135,991)	(135,991)
Transfers to the Transitional Escrow Fund per Chapter 106 of the Acts of 2005	(304,838)	(304,838)
Transfers to the Stabilization Fund per Chapter 106 of the Acts of 2005	(691,000)	(691,000)
Other	(20,855)	(20,855)
Actual as presented on budgetary documents	\$ 24,373,433	\$ 23,779,051

The section divider for the budgeted funds contains a list of budgeted funds grouped by categories.

The Office of the Comptroller has the responsibility to ensure that budgetary control is maintained on an individual appropriation account basis. Budgetary control is exercised through the state accounting system, Massachusetts Management Accounting and Reporting System (MMARS). Encumbrances and expenditures are not allowed to exceed the appropriation account's spending authorization.

4. DEPOSITS AND INVESTMENTS

The Commonwealth maintains a cash and short-term investment pool that is available for use by all funds. Each fund type's net equity in this pool is displayed on the combined balance sheet as either "Cash and short-term investments" or "Deficiency in cash and short-term investments." The investments of the Pension Trust Funds are held in a separate trust.

The Treasury manages the Commonwealth's short-term investment pool. Statutes authorize investment in obligations of the U.S. Treasury, authorized bonds of all states, banker's acceptances, certificates of deposit, commercial paper rated within the three highest classifications established by two or more nationally recognized statistical rating organizations and repurchase agreements that any of these obligations secure. Such investments are carried at cost, which approximates fair value.

Pooled cash and short-term investments include the following (amounts in thousands):

Cash and short-term investments	\$ 6,952,051
Cash with fiscal agent	967,712
Cash on deposit with U. S. Treasury	414,998
Deficiency in cash and short-term investments	(1,841,923)
Total	\$ 6,492,838

Other investments, mainly in escrows, the Pension Trust Funds and the HST are reported at fair value in the financial statements. The investments of the Pension Trust Funds are held separately from those of other Commonwealth funds, with the exception of their investments in the Massachusetts Municipal Depository Trust (MMDT). The Pension Trust Funds and the HST are permitted to make investments in equity securities, fixed income securities, real estate and other alternative investments. In the following table these alternative investments, venture capital and futures pools are classified as other investments.

Interest Rate Risk - Non Pension Trust Funds

Interest rate risk is the extent that changes in interest rates of debt investments will adversely affect the fair value of an investment. The following table (in thousands of dollars) provides information about the interest rate risk associated with the Commonwealth's investments, exclusive of its Pension Trust Funds but inclusive of the Health Care Security Trust, which is managed by PRIT. These investments include certain short – term cash equivalents, various long-term items and restricted assets by maturity in years. The Treasury minimizes the risk of the market value of securities falling due to changes in interest rates by maintaining an effective duration of less than 90 days and holding all of the portfolio's total market value in securities with a maturity of six months or less. Because of the short – term nature of these investments, they are defined as cash equivalents. Therefore, they are not investments.

Credit Risk - Non - Pension Trust Funds

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Commonwealth, exclusive of Pension Trust Funds, minimizes concentration of credit risk, the risk attributed to the magnitude of the investment in a single issuer. The Commonwealth's investment policy prohibits the Treasury from investing more than 10% of the total investment portfolio into any single financial institution or issuer, excluding various public entity securities and repurchase agreements. There are no restrictions in the amount that can be invested in public entity securities; however, the portfolio may be invested in U.S. Treasury obligations and repurchase agreements. During FY05, the Commonwealth, exclusive of Pension Trust Funds, maintained an investment with Sovereign Bank, which was valued at 9.1% of the portfolio's total fair value as of June 30, 2005. This investment contains funds in a daily reset account with interest accruing at the London Inter- Bank Offered Rate (LIBOR).

The Treasury requires investments in commercial paper and bankers' acceptances have the highest letter and numerical ranking as rated by nationally recognized statistical ratings organizations as defined by the investment act of 1940. The Treasury does not have any additional policies regard credit ratings of investments. The following table (in thousands of dollars) provides information on the credit ratings associated with the Commonwealth's investments in debt securities:

	Quality Ratings				
Rated and Unrated Investments		Fair <u>Value</u>		<u>A1 / P1</u>	<u>Unrated</u>

Total Fixed Income Investments	\$	4,404,845	\$	3,087,282	\$1,317,563

Interest Rate Risk – Pension Trust Funds

As pension trust funds have a different investment horizon, the PRIM Board manages PRIT's exposure to fair value loss arising from movements in interest rates by establishing duration guidelines with its debt securities investment managers. The guidelines with each individual manager require that the duration of the domestic debt investment portfolio be within a specified percentage or number of years of the duration band of the appropriate benchmark index. For emerging markets fixed income investments, the portfolio must have a duration with a band ranging from three to eight years.

Effective duration is a measure of a fixed income investment's exposure to fair value changes arising from changes in interest rates. Effective duration makes assumptions regarding the most likely timing and amounts of variable cash flows. These assumptions take into consideration factors indicative of investments highly sensitive to interest rate changes, including callable options, prepayments and other factors. These factors are reflected in the effective durations numbers provided in the table on the following page.

The PRIM Board compares the effective duration of a manager's portfolio to the Lehman Brothers Aggregate Index for domestic core "fixed income" securities and the Merrill Lynch High Yield Master II Index for domestic high yield fixed income securities. At June 30, 2005, the following table shows the debt investments by investment type, fair value and effective weighted duration rate.

<u>Investment</u>	Fair <u>Value</u>	Effective Weighted Duration <u>Rate</u> (Years)
Asset backed securities	\$ 198,820	2.08
Commercial mortgage backed securities	142,051	3.66
Non-U. S. Government backed C.M.O.s	56,128	3.92
Commercial paper	62,960	0.11

Pooled money market fund	908,415	0.08
Other pooled funds	790,782	NA
Total fixed income and short-term investments	\$ 9,628,829	

Credit Risk - Pension Trust Funds

The PRIM Board establishes credit investment guidelines with each of its fixed income securities investment managers in establishing a diversified portfolio. These guidelines vary depending on the manager's strategy and the role of its portfolio to the overall diversification of the PRIT fund. The guidelines for the PRIT Fund's core fixed income portfolio establish the minimum credit rating for any security in the portfolio and the overall weighted average credit rating of the portfolio. The guidelines for the PRIT Fund's high yield, fixed income portfolio establish a market value range of securities to be held with a specific minimum credit rating and the overall weighted average credit rating of the portfolio.

The weighted quality average rating of the debt securities portfolio, excluding pooled investments, investments explicitly backed by the United States Government and other nonrated investments was A- at June 30, 2005.

The following presents the PRIT Fund's debt securities credit ratings at June 30, 2005:

Investment		Fair <u>Value</u>		<u>AAA</u>	<u>A</u> A	A+ to AA-	<u>A</u>	<u> </u>	BB	B+ to BBB-	<u>BB+</u>	to Unrated

Foreign Currency Risk - Pension Trust Funds

Foreign Currency risk is the risk that changes in exchange rates will adversely affect the fair value of investments. The Treasury does not have a policy regarding foreign currency risk. The PRIM Board manages PRIT's exposure to foreign currencies by holding a percentage of PRIT's non-U.S. dollar denominated investments to U.S. dollars through forward foreign currency contracts. The following table on the next page represents PRIT's foreign currency exposure at June 30, 2005:

Concentration of Credit Risk – Pension Trust Funds

The PRIM Board manages PRIT's exposure to conentration of credit risk by establishing guidelines with each investment manager, that limit the percent of investment in any single issue or issuer.

PRIT has no investments at fair value, that exceed 5% of PRIT's net assets held in trust for pool participants as of June 30, 2005.

A. Financial Instruments with Off- Balance Sheet Risk PRIT may invest in other off-balance sheet transactions. These investments of the Commonwealth may involve a degree of risk not accounted for on the respective financial statements. Descriptions of such "off-balance sheet risks" are as follows:

Forward Currency Contracts

The Pension Trust Funds enter into forward currency contracts to hedge the exposure to changes in foreign currency exchange rates on foreign portfolio holdings. The market value of the contract will fluctuate with changes in currency exchange rates. Risks may arise upon entering these contracts from the potential inability of counterparties to meet the terms of their contracts and from unanticipated movements in the value of a foreign currency relative to the U.S. dollar.

The contract is marked-to-market daily and the change in market value is recorded by the fund as an unrealized gain or loss by the Pension Trust Fund.

When the contract is closed, the Pension Trust Funds record a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed. Fluctuations in the value of forward currency contracts are recorded as unrealized gains or losses by the Pension Trust Funds.

As of June 30, 2005, PRIT had open foreign exchange contracts with combined net unrealized gains of \$17,768,000 with various delivery dates to November, 2005.

Futures Contracts

The Pension Trust Funds may purchase and sell financial futures contracts to hedge against changes in the values of securities the fund owns or expects to purchase. Upon entering such contracts, they must pledge to the broker an amount of cash or securities equal to a percentage of the contract amount.

The potential risk is that the change in the value of futures contracts primarily corresponds with the value of underlying instruments, which may correspond to the change in value of the hedged instruments. In addition, there is a risk that PRIT may not be able to close out its future positions due to a non-liquid secondary market. Risks may arise from the potential inability of a counterparty to meet the terms of a contract and from unanticipated movements in the value of a foreign currency relative to the U.S. dollar.

The Pension Trust Funds may also invest in financial futures contracts for non-hedging purposes.

Payments are made or received by the Pension Trust Funds each day, depending on the daily fluctuations in the value of the underlying security and are recorded as unrealized gains or losses. When the contracts are closed, the Pension Trust Funds recognize a realized gain or loss.

Options

PRIT is also engaged in selling or "writing" options. The Pension Trust Funds, as writers of options, may have no control over whether the underlying securities may be sold (call) or purchased (put) and, as a result, bear the market risk of an unfavorable change in the price of the security underlying the written option. As of June 30, 2005, there were no material options outstanding.

5. SHORT-TERM FINANCING AND CREDIT AGREEMENTS

Massachusetts General Laws authorize the Treasurer to issue temporary notes in anticipation of revenue or bond financing. When this short-term debt does not meet long-term financing criteria, it is classified as a fund liability. Short-term debt may be issued on either a stand-alone basis or through a commercial paper program maintained by the Commonwealth.

A. General Fund

The balance of revenue anticipation notes (RANs) outstanding may fluctuate during a fiscal year, but must be reduced to zero at June 30. During FY05, the Commonwealth issued RANs through its commercial paper program on a periodic basis to meet cash flow needs. A maximum of \$700,000,000 of RANs were outstanding at any time during the year. All RANs were retired before the end of June 2005.

B. Capital Project Funds

The Commonwealth may issue bond anticipation notes (BANs) to temporarily finance its capital projects. BANs may be issued either on a stand-alone basis or through the Commonwealth's commercial paper program.

Beginning in FY03 and continuing through FY05, the Commonwealth periodically issued BANs through the commercial paper program. BANs were rolled over and paid down at various times during the fiscal year. No more than \$375,100,000 of BANs were outstanding under the commercial paper program at any time during FY05. At June 30, 2005, BANs totaling \$140,100,000 remain outstanding.

On March 28, 2002, \$180,000,000 in General Obligation BANs were also issued to finance costs of the Central Artery / Tunnel Project, in advance of receiving certain contributions from the Massachusetts Port Authority (Massport). The majority of the BANs were retired previous to FY2005. During June 2003, Massport delivered to the Commonwealth \$104,900,000 pursuant to Section 12 of Chapter 81A of the General Laws and the Roadway Transfer Agreement dated as of March 23, 1999, as amended (the "Transfer Agreement") among Massport, the Commonwealth, acting by and through the Massachusetts Highway Department, and the Massachusetts Turnpike Authority. This payment of \$104,900,000 was applied to retire a portion of the commercial paper BANs. \$75,100,000 of such BANs remains outstanding as of June 30, 2005 and represent a component of the \$140,100,000 in BANs outstanding.

On December 31, 2003, Massport was expected to make an additional payment to the Commonwealth under the Transfer Agreement of \$50,000,000. This payment was received and applied in August of 2005, leaving a balance of BANs of \$25,100,000. A final payment of \$50,000,000 was due on December 31, 2004 under the Transfer Agreement only to the extent that Massport has received assets of commensurate value. Massport has informed the Commonwealth that such assets have not been received and that Massport therefore will withhold the final payment until such assets are transferred. Massport and the Commonwealth have not agreed on a scheduled date of payment.

C. Line-of-Credit Facilities

During FY05, the Commonwealth maintained line-of-credit facilities to provide liquidity support for commercial paper notes totaling \$1,000,000,000. The Commonwealth has a total of five line-of-credit facilities to provide such liquidity support, each in the amount of \$200,000,000. These facilities expire in periods from September 2005, through November 2015 at various times, with an optional termination at January 2010. The annual cost of these facilities ranges from 0.12% to 0.16%.

The following schedule details short – term financing and credit agreement activity, net, for all funds for the fiscal year (amounts in thousands):

	Beginning				Ending					
	Balance	Issued / Drawn		Redeemed / Repaid		Balance June 30, 2005		Credit Limit June 30, 2005		
<u>-</u>	July 1, 2004									
General Fund: Revenue anticipation notes	\$ -	\$	700,000	\$	(700,000)	\$	_	\$	1,000,000	
Line-of-credit agreements	•		-		-				-	
. Subtotal - General Fund activity	-		700,000		(700,000)		-		1,000,000	
Capital Projects Funds: Bond anticipation notes	75,100		365,000		(300,000)		140,100			
Subtotal - Capital Projects Funds activity	75,100		365,000		(300,000)		140,100			
Total short-term financing and credit agreement activity	\$ 75,100	\$	1,065,000	\$	(1,000,000)	\$	140,100	\$	1,000,000	

6. LONG-TERM DEBT

Under the Constitution of the Commonwealth of Massachusetts, the Commonwealth may borrow money (a) for defense, (b) in anticipation of receipts from taxes or other sources, any such loan to be paid out of the revenue of the year in which the loan is made, or (c) by a two-thirds vote of the members of each house of the Legislature present and voting thereon. The Constitution further provides that borrowed money shall not be expended for any other purpose than that for which it was borrowed or for the reduction or discharge of the principal of the loan. In addition, the Commonwealth may give, loan or pledge its credit to another entity by a two-thirds vote of the members of each house of the Legislature. The Legislature may not in any manner allow the Commonwealth credit to be given or loaned to or in aid of any individual, or of any private association, or of any corporation, which is privately owned or managed.

The Commonwealth has waived its sovereign immunity and consented to be sued on contractual obligations, including bonds and notes issued by it and all claims with respect thereto. However, the property of the Commonwealth is not subject to attachment or levy to pay a judgment, and the satisfaction of any judgment generally requires legislative appropriation. Enforcement of a claim for the payment of principal or interest on bonds and notes of the Commonwealth may also be subject to the provisions of federal or Commonwealth statutes, if any, enacted to extend the time for payment or impose other constraints upon enforcement.

As of June 30, 2005, the Commonwealth had three types of long-term debt outstanding, general obligation bonds, special obligation bonds and federal highway grant anticipation notes. The following is a summary of the Commonwealth's debt outstanding by type of debt (amounts in thousands):

	Amount
	Outstanding
General Obligation Debt:	
General Obligation Bonds:	
Fixed rate	\$ 11,841,879
Variable rate	2,199,795
Auction rate securities	401,500
College opportunity bonds	91,074
County debt assumed	600
Grant anticipation notes (inclusive of cross-over refunding notes)	1,907,340
Discount / (Premium) and issuance cost, general obligations	(33,762)
Subtotal - General Obligation Debt	16,408,426
Special Obligation Debt:	
Special Obligation Bonds (inclusive of cross-over refunding bonds):	
Special Obligation Bonds (inclusive of cross-over refunding bonds): Fixed rate	\$ 1,302,469
Fixed rate	183,080
Fixed rate Variable rate Subtotal - Special Obligation Debt	183,080 1,485,549
Fixed rate	183,080 1,485,549

A. General Obligation Bonds

General Obligation Bonds are authorized and issued primarily to provide funds for Commonwealth-owned capital projects and Commonwealth supported local government improvements. They are backed by the full faith and credit of the Commonwealth and paid from the Governmental Funds, from which debt service principal and interest payments are appropriated. Massachusetts General Laws provide for the allocation of bond proceeds to these authorizations in arrears, as expenditures are made, unless the proceeds are allocated at the time of issuance.

In FY2005, the Commonwealth sold \$500,000,000 in General Obligation Bonds to partially capitalize the Massachusetts School Modernization and Reconstruction Trust (SMART). The proceeds of the debt (half of the total authorization of \$1 billion,) were used to fund school construction projects throughout the Commonwealth pursuant to changes in the funding of school building assistance initiated during the fiscal year.

In addition, forms of general obligation bonds are issued for specific programs approved by the Legislature. These are as follows:

i. College Opportunity Bonds

Some Commonwealth general obligation debt is issued in the form of College Opportunity Bonds (COBs) as authorized by the Massachusetts General Laws. These bonds are sold to fund the Commonwealth's "U. Plan" which is part of a college savings program administered by the Massachusetts Educational Financing Authority. These bonds are privately placed and are structured to meet the needs of investors in this plan. Such bonds were initially issued in fiscal year 1996, and have been issued in each subsequent fiscal year, including FY05, during which approximately \$11,990,000, (including accretion), of such bonds were issued. Outstanding COBs have maturity dates ranging from 2006 through 2025. COBs have an accreting interest component payable at maturity. The annual accretion rate of each COB's maturity is a variable rate equal to the annual change in the Consumer Price Index (CPI) plus 2.0%. Assuming the CPI averages 3.5% during the life of the outstanding COBs the payments due at maturities of the COBs will total approximately \$169,548,000, including accretion. In addition, COBs pay current interest in the amount of 0.5% per year of the initial amount still outstanding. The full faith and credit of the Commonwealth back these bonds.

ii. County Debt Assumed

Chapter 38 of the Acts of 1997 and Chapter 300 of the Acts of 1998 abolished governments of several Massachusetts counties on various effective dates. As part of these provisions, the Commonwealth assumed the outstanding debt of Middlesex County on July 1, 1997, of Hampden and Worcester Counties on July 1, 1998, that of Essex County on July 1, 1999 and that of Berkshire County on July 1, 2000. The county debt assumed has become general obligation debt of the Commonwealth. As of June 30, 2005, \$600,000 of these obligations remain outstanding.

iii. Variable Rate Demand

Included in the long-term debt is \$2,199,795,000 of general obligation variable rate demand bonds (VRDBs) maturing from 2008 through 2030 in varying amounts, of which \$1,924,205,000 is swapped to fixed rates. The redemption schedule for these bonds is included in the bond redemption schedule contained herein. The interest rate on the VRDBs is determined either weekly or daily based on the activity of the Commonwealth's remarketing agents, and interest is paid monthly. On any reset date, holders of the VRDBs can require the Commonwealth (acting through its remarketing and tender agents) to repurchase the bonds (a "put"). The remarketing agent is authorized to use its best efforts to resell any repurchased bonds by adjusting the interest rates offered. The Commonwealth pays an annual fee to the remarketing agents equal to 0.05% of the outstanding par amount of the bonds.

Under the provisions of stand-by bond-purchase agreements entered into by the Commonwealth with certain commercial banks, the remarketing and tender agents are entitled to draw amounts sufficient to pay the purchase price of any bonds that cannot be resold. During any such period, the Commonwealth is required to pay the bank(s) at an interest rate based on their respective prime lending rates. If the remarketing agent is unable to resell any put bonds within six months of the put date, the stand-by bond-purchase agreements include provisions to convert any such bonds to installment loans payable over an extended period of time, with interest payable at a rate based on the bank(s) prime lending rate(s). The stand-by bond-purchase agreements expire on various dates between September of 2005 and December 2015. The Commonwealth is required to renew or replace these agreements as long as the VRDBs remain outstanding. The Commonwealth currently pays an annual fee to maintain these agreements, which range from 0.12% to 0.22% of the par amount of the bonds.

iv Other Variable Rate Bonds

As part of its refunding activities during FY03, the Commonwealth issued \$97,455,000 of refunding bonds which pay a variable rate interest that depends on changes in the Consumer Price Index (CPI). These bonds, which pay interest every six months, are not subject to periodic remarketing, nor do bondholders have the right to "put" such bonds back to the Commonwealth.

On June 29, 2004 as part of the Commonwealth's issuance of the Convention and Exhibition Center Special Obligation Bonds, \$86,590,000 of such bonds were issued paying a variable rate of interest also indexed to changes in the CPI. Similar to the 2003 Bonds, the Convention Center Bonds pay interest semiannually, but mature serially from FY15 to FY18.

As detailed in the variable rate debt schedule, these CPI based bonds all have been swapped to fixed rates ranging from 4.45% to 5.25%.

v Auction Rate Securities

Also included in the long-term debt is \$401,500,000 of General Obligation Auction Rate Securities (ARS) maturing in varying amounts from 2020 through 2030. The interest rate payable on the bonds changes weekly as determined pursuant to specified auction procedures. Interest on the bonds is payable weekly. In the case of a failed auction (i.e., insufficient bids to clear the market) existing buyers may be required to hold their bonds with interest payable at a rate equal to a percentage of an ARS industry index, up to a maximum rate of 12.0%.

B. Special Obligation Bonds

The Commonwealth also issues special obligation revenue bonds as authorized by Massachusetts General Laws. Such bonds may be secured by all or a portion of revenues credited to the Highway Fund and are not general obligations of the Commonwealth. At June 30, 2005, the Commonwealth had outstanding \$1,458,375,000 of such special obligation bonds, inclusive of unamortized premium, of which \$1,448,372,000 is allocated to debt not subject to the Commonwealth's statutory debt limit. These bonds are secured by a pledge of 6.86 cents of the 21 cent motor fuel excise tax imposed on gasoline.

In March of 2005, the Commonwealth sold \$216,765,000 of special obligation revenue bonds, Series 2005A. The bonds generated \$25,705,000 of premium. Of the proceeds, \$216,725,000 was issued to refund prior special obligation bonds, including \$73,495,000 of bonds pursuant to a crossover refunding. The remainder was used to fund capital spending in the Commonwealth. The escrow funded by the refunding bonds and related premium will be used only to secure the principal related to the crossover refunding portion (as well as exclusive of related call premiums.) These particular bonds will mature on June 1, 2008. The interest related to these maturities is not secured by this escrow. Rather, it will be paid from the existing stream of motor fuel excise taxes. Interest on a portion of the newly issued refunding bonds will be paid from the proceeds of the escrow until the aforementioned prior bonds are called for redemption. This crossover refunding results in economic savings to the Commonwealth similar to a normal refunding, but does not meet the accounting definition of defeasance of debt, in which case the defeased debt and the related escrow accounts would have been removed. Until such time as the escrow is used to repay the principal of the refunded bonds, such amounts will be reported in the Highway Capital Projects Fund. Additional special obligation refunding bonds that were the result of crossover refundings, were sold during FY2002. As of June 30, 2005, \$389,425,000 from both cross over refundings remained outstanding.

The remainder of unrefunded special obligation debt is attributable to the aforementioned gasoline tax bonds and other bonds that permanently financed the Commonwealth's convention and exhibition centers in Boston, Springfield and Worcester, which are secured by certain taxes collected related to those facilities.

C. Federal Highway Grant Anticipation Notes

The Commonwealth also issued Federal Highway GANs to finance current cash flow for the Central Artery/Tunnel Project in anticipation of future federal reimbursements. Section 9 through 10D of Chapter 11 of the Acts of 1997, as amended by Chapter 121 of the Acts of 1998, authorizes the Commonwealth to sell up to \$1,500,000,000 in GANs. Prior to FY2005, all GANs authorized were issued. All Federal Highway Construction reimbursements and reimbursements from the federal highway construction trust funds are pledged to the repayment of the GANs. These notes are secured by the pledge of Federal Highway Construction Reimbursements without a general obligation pledge. Under certain limited circumstances, a portion of the revenue from the Commonwealth's motor fuels excise tax may be used to pay debt service on the GANs.

In July of 2004, the Commonwealth sold \$408,015,000 of GANs refunding These notes are Special Obligations of the notes, Series 2003A. Commonwealth. The escrow funded by the notes will be used to secure the principal related to \$418,340,000 of GANs, including related call premiums, in previously issued series callable on December 15, 2008 and 2010. The interest related to these maturities is not secured by this escrow. Rather, it will be paid from Commonwealth appropriations or the existing stream of future federal grants. Interest on the newly issued refunding notes will be paid from the proceeds of the escrow until the aforementioned prior notes are called for redemption. For the purposes of the pledge but not for accounting purposes, at the time of call, the refunding notes will become GANs. This results in economic savings to the Commonwealth similar to a normal refunding, but does not meet the accounting definition of defeasance of debt, in which case the defeased debt and the related escrow accounts would have been removed. Until such time as the escrow is issued to repay the principal of the refunded notes, such amounts will be reported in the Grant Anticipation Note Trust Fund. Inclusive of the cross-over refunding notes, at June 30, 2004, the Commonwealth has \$1,907,340,000 of GANs outstanding, including accreted interest on capital appreciation bonds with maturity dates ranging from 2006 to 2015.

D. Interest Rate Swap Agreements

The Commonwealth enters into interest rate swap agreements to modify interest rates on outstanding debt. Other than the net interest expenditures resulting from these agreements, no amounts are recorded in the financial statements.

Objective of the Interest Rate Swap Agreements

In connection with the issuance of variable rate refunding bonds in 1997, 1998, 2001, 2003 and 2005, the Commonwealth entered into interest rate swap agreements with certain counterparties. Additional swap agreements were initiated as part of the Convention centers permanent financing in FY2004. The purpose of these agreements is to effectively fix the interest rate payable on the corresponding variable rate refunding bonds, and to achieve an all-in synthetic interest rate that is lower than the rate that could have been achieved on a natural fixed rate basis at the time the agreements were entered into.

Terms of the Interest Rate Swap Agreements

The bonds and related swap agreements have final maturities ranging from 2005 to 2028. The swaps' total notional value of \$2,107,285,000 matches the par amount of the related variable rate refunding bonds. Under the swap agreements, the Commonwealth pays the relevant counterparties' fixed rates ranging from 2.56% to 5.25% and receives variable rate payments equal to the amount of variable rate payments the Commonwealth pays on the related variable rate refunding bonds.

The following chart details the Commonwealth's outstanding swaps and related bond issuances:

Associated Bond Issue	Notional Amounts (thousands)	Effective Date	Fixed Rate Paid (Range)	Variable Rate Received	Va	Market alues usands)	Final Termination Date	Counterparty Credit Rating
General Obligation Series 1997B Series 1997B	\$ 162,768 108,512	8/12/1997 8/12/1997	4.659% 4.659%	Cost of Funds Cost of Funds		(15,634) (11,653)	August 1, 2015 August 1, 2015	AA+/Aaa AAA/Aaa

Fair Market Value of the Interest Rate Swap Agreements

Swap rates for the types and remaining terms of the Commonwealth's swap agreements are generally lower (as of June 30, 2005) than those that prevailed when the various swap contracts were entered into. This is the result of two factors: (1) lower interest rates in general; and (2) the shortening of the remaining terms of the swap contracts due to the passage of time and an upward sloping yield curve for such instruments. As a result, the Commonwealth's swap agreements have an estimated fair market value of negative \$149,520,000 as of June 30, 2005. If all the Commonwealth's swap agreements had been terminated as of the end of fiscal year 2005 the Commonwealth would have been required to make a payment of this magnitude. Although the Commonwealth has the option of terminating its swap agreements at any time (and either make or receive any termination payment due), the Commonwealth's counterparties do not have such an option. Therefore, the Commonwealth would only have to make a payment of the magnitude estimated if certain termination events occurred, as described below.

Credit Risk of the Interest Rate Swap Agreements

The swap contracts require that the Commonwealth's counterparties maintain certain ratings levels. If they fail to maintain such ratings, the Commonwealth could choose to terminate the related swap agreement and receive or pay a termination payment depending on the interest rates at the time. Similarly, the Commonwealth is required to maintain a certain credit rating under the agreements, generally in the "A" category. If the Commonwealth's rating fell below those levels, the Commonwealth's counterparties could choose to make variable rate payments based on a market index (instead of the actual bond rate) which would subject the Commonwealth to basis risk, as noted below.

Basis, Market and Rollover Risk of the Interest Rate Swap Agreements

Because the terms on the interest rate swap agreements require the Commonwealth's counterparties to make variable rate payments equal to those the Commonwealth makes on the related variable rate bonds, the Commonwealth is not generally subject to any basis or market risk as a result of these agreements. Under certain circumstances, such as a downgrade of the credit rating of the bonds or the enactment of tax-related legislation which causes the related bonds to trade differently, the swap agreements provide that the Commonwealth's counterparties, may, at their option, pay a variable rate that is based on one or more market indicies such as LIBOR or the BMA swap index. Under these circumstances, the Commonwealth would be subject to basis risk if these indicies varied significantly from the variable rates that were determined for the Commonwealth's variable rate demand bonds through the associated remarketing process.

The swap contracts have the same maturity dates and amortizations as the related bonds. Therefore, the Commonwealth is not subject to any rollover risk as a result of these agreements.

Termination Risk of the Interest Rate Swap Agreements

The swap contracts use the International Swap Dealers Association Master Agreement, which includes standard termination events, such as failure to pay and bankruptcy. The swap agreements are not otherwise subject to termination except at the Commonwealth's option. If one or more of the swap agreements were terminated, then related variable rate bonds would no longer be hedged and the Commonwealth would no longer be paying a synthetic fixed rate with respect to the bonds. In addition, if at the time of termination, the swap had a negative fair value, the Commonwealth would incur a loss and would be required to settle with the related counterparty or counterparties at the swaps' fair market values.

Interest Rate Swap Agreement Dispute

The Commonwealth is party to an interest rate swap agreement relating to the Commonwealth's General Obligation Bonds, 2001 Series B and 2001 Series C. The swap documentation provides that the method for determining the floating rate obligation of the counterparty may change upon an "Event of Taxability". The swap counterparty has asserted that an Event of Taxability has occurred and that, as a result, commencing May 3, 2004, the Commonwealth's monthly net payments to the counterparty must be increased. The Commonwealth disagrees with this assertion and, on April 23, 2004, filed a complaint in Suffolk County Superior Court. The swap payment made by the Commonwealth on May 3, 2004 and each monthly payment made thereafter have been calculated based on the pre-existing method. Had they been calculated as asserted by the swap counterparty, under marked conditions on each such payment date through June 1, 2005, the payments would have been approximately \$1.7 million greater in the aggregate. The termination value of this swap as of June 30, 2005 is believed to have been approximately \$61.4 million in favor of the swap counterparty and will vary from time to time. The Commonwealth has continued to make net swap payments based on its actual variable rate bond payments pending legal developments.

Debt service on the variable rate bonds is as follows (assuming a short term rate of 2.75% and a CPI rate of 3%) (amounts in thousands):

Fiscal Year		Variable-F	Rate :	Bonds	In	iterest Rate		
Ending June 30		Principal Principal		<u>Interest</u>	S	waps, Net		<u>Total</u>
2006	\$	3,245	\$	58.622	\$	30,231	\$	92.098
2007	Ψ	3,745	Ψ	58,528	Ψ	30,235	Ψ	92,508
2008		6,190		58,376		30,207		94,773
2009		12,030		58,135		30,145		100,310
2010		34,545		57,292		29,784		121,621
2011-2015		722,010		243,062		124,284		1,089,356
2016-2020		817,915		119,305		56,807		994,027
2021-2025		408,650		38,357		17,220		464,227
2026-2031		98,955		4,487		2,016		105,458
Total	\$	2,107,285	\$	696,164	\$	350,929	\$	3,154,378

E. Outstanding Debt

For financial reporting purposes, long-term debt is carried at its face value, which includes discount and any issuance costs. The outstanding amount represents the total principal to be repaid. For capital appreciation bonds, the outstanding amount represents total principal and accreted interest to be repaid. When short-term debt has been refinanced on a long-term basis, it is reported as outstanding at its face amount.

The amount of long-term debt authorized but unissued is measured in accordance with the statutory basis of accounting. Only the net proceeds (exclusive of discount and costs of issuance) are deducted from the total authorized by the Legislature.

Long-term debt outstanding (including unamortized discount and issuance cost) and debt authorized and unissued at June 30, 2005 is as follows (amounts in thousands):

	Bonds	Fiscal Year	Authorized and Unissued		
<u>Purpose</u>	Outstanding	Maturities			
GANs	\$ 1,907,340	2006-2015	\$ -		
Capital Projects:					
General	6,004,267	2005-2031	4,903,055		
Highway	8,837,377	2005-2034	3,907,063		
Local Aid	1,049,668	2005-2031	593,693		
Other	58,146	2005-2029	103,010		
	15,949,459		9,506,821		
Total	\$ 17,856,799		\$ 9,506,821		

Interest rates on the Commonwealth's debt outstanding at the end of FY05 ranged from 0.0% to 8.0%.

Changes in long-term debt outstanding (including discount and issuance cost) and bonds authorized - unissued for the year ended June 30, 2005 are as follows (amounts in thousands):

	Bonds	Authorized and
	Outstanding	Unissued
Balance July 1, 2004	\$ 17,382,172	\$ 6,827,993
General and special obligation bonds:		
Principal, less discount and issuance costs	1,354,226	(1,354,226)
Net premium and issuance costs	(86,945)	-
General and Special obligation refunding bonds:		
Principal on Refunding Bonds	1,296,532	-
Principal on Refunded Bonds	(1,230,673)	-
Retired premium on Refunded Bonds	23,753	-
Increase in bonds authorized	-	4,041,138
Decrease in bonds authorized		(8,084)
Bonds retired	(882,266)	-
Balance June 30, 2005	\$ 17,856,799	\$ 9,506,821

At June 30, 2005, debt service requirements to maturity for principal (including unamortized discount, capital appreciation and issuance costs) and interest including all variable rate interest not hedged by swap agreements (assumed interest rate is 5%) are as follows (amounts in thousands):

Fiscal Year Ended					
June 30,	Principal	Interest	Total		
2006	\$ 1,024,522	\$ 886,927	\$	1,911,449	
2007	1,072,597	840,831		1,913,428	
2008	1,097,010	785,623		1,882,633	
2009	1,105,235	729,723		1,834,958	
2010	1,051,320	673,298		1,724,618	
2011-2015	5,283,141	2,549,006		7,832,147	
2016-2020	3,404,067	1,393,035		4,797,102	
2021-2025	2,507,867	599,824		3,107,691	
2026-2030	916,560	240,054		1,156,614	
2031-2033	394,480	 31,617		426,097	
Total	\$ 17,856,799	\$ 8,729,938	\$	26,586,737	

The Commonwealth issued bonds and notes through both competitive and negotiated sales during FY05. The costs for legal counsel and underwriting fees for bond sales were \$470,000 and \$10,209,000 respectively. In addition, the Commonwealth paid \$176,000 for disclosure counsel services.

F. Bonds Defeased Through Refunding during FY05

As authorized by the Massachusetts General Laws, the Commonwealth advance refunded certain general and special obligation bonds through the issuance of \$1,395,377,000 of general and special obligation refunding bonds, inclusive of Net proceeds after issuance costs totaled premiums, during FY05. approximately \$1,377,083,000 were used to purchase U.S. Government and U.S. Government Agency securities, which were deposited in irrevocable trusts with an escrow agent to provide for all future debt service payments of the refunded bonds. As a result, with the exception of the aforementioned crossover refunding bonds, the refunded bonds are considered to be defeased, and the liabilities therefore have been removed from the General Long-term Obligations Account Group. As a result of these refundings, the Commonwealth decreased current year debt service payments and has taken advantage of lower interest rates, and it has decreased its aggregate debt service payments by approximately \$112,274,000 over the next 23 years and will experience an economic gain (the difference between the present values of the debt service payments of the refunded and refunding bonds) of approximately \$67,273,000. At June 30, 2005, approximately \$1,286,720,000 of the bonds defeased and refunded during FY2005 remain outstanding.

G. Prior Defeasance

In prior years, the Commonwealth defeased certain general and special obligation bonds by purchasing securities (from the proceeds of refunding bonds or from surplus operating funds) and placing them in irrevocable trusts to provide for all future debt service payments on the defeased bonds. Accordingly, exclusive of the aforementioned crossover refunding, the trust account assets and the liabilities for the defeased bonds are not included in the financial statements. At June 30, 2005, approximately \$5,264,035,000 of bonds outstanding from activities in prior fiscal years are considered defeased.

H. Statutory Debt Limit

The Massachusetts General Laws establish limits on the amount of direct debt outstanding. By statutorily limiting the Commonwealth's ability to issue direct debt, this limit provides a control on annual capital spending. The direct debt limit for FY05 was approximately \$13,463,535,000. Outstanding debt subject to the limit at June 30, 2005 was approximately \$12,185,286,000. The limit increases 5% per year.

For purposes of determining compliance with the limit, outstanding direct debt is defined by statute to include general obligation bonds at the amount of their original net proceeds. It excludes BANs, discount and issuance costs, if any, special obligation bonds, GANs, refunded bonds, certain refunding bonds, debt issued by counties, debt issued in conjunction with the MBTA Forward Funding, certain Central Artery / Tunnel debt and debt issued for the SMART program. The amounts excluded from the debt limit are as follows (amounts in thousands):

	Deb	t Outstanding
Balance June 30, 2005Less amounts excluded:	\$	17,856,799
Premium and issuance cost		70,937
Special Obligation principal		(1,485,548)
GANs principal		(1,908,015)
County Debt Assumed		(600)
MBTA Forward Funding		(511,546)
SMART bonds		(500,000)
Central Artery / Tunnel		(1,336,741)
Outstanding direct debt	\$	12,185,286

64

I. Subsequent Bond Issuances

In July of 2005, the Commonwealth sold \$527,635,000 in Special Obligation Revenue Refunding Bonds. The proceeds were used to refund the majority of the Convention and Exhibition Center Special Obligation Bonds sold during FY2004.

In August of 2005, the Commonwealth sold \$400,000,000 of General Obligation Bonds, 2005 Series B. The proceeds were used to fund capital spending.

Also in August of 2005, the Commonwealth issued an additional series of College Opportunity Bonds totaling \$11,581,000. This includes an initial amount of \$7,078,000 plus an expected \$4,503,000 in interest to be accreted through maturity.

In October of 2005, the Commonwealth sold \$701,895,000 of General Obligation Bonds, 2005 Series C and \$60,000,000 of 2005 Series D (Federally taxable bonds.) The proceeds were used to fund capital spending.

7. LEASES

In order to finance the acquisition of equipment, the Commonwealth has entered into various lease / purchase agreements, including tax-exempt lease purchase (TELP) agreements, which are accounted for as capital leases. Lease agreements are for various terms and contain clauses indicating that their continuation is subject to appropriation by the Legislature. For the fiscal year ended June 30, 2005, capital lease / purchase expenditures totaled approximately \$30,205,000.

At June 30, 2005, the Commonwealth's aggregate outstanding liability under capital leases, based on the present value of the net minimum lease payments, totaled approximately \$173,331,000. This liability is reported in the General Long-Term Obligations Account Group. Equipment acquired under capital leases and included in the General Fixed Assets Account Group totaled approximately \$95,713,000.

The Commonwealth has numerous operating lease agreements for real property and equipment with varying terms. These agreements contain provisions indicating that continuation is subject to appropriation by the Legislature.

Certain colleges have capital leases for energy projects with guaranteed energy savings. The result of these savings yields zero interest due from 2014 - 2022 on these leases.

Operating lease expenditures for the fiscal year ended June 30, 2005 were approximately \$192,683,000.

The following is a schedule of future minimum payments under non-cancelable leases as of June 30, 2005 (amounts in thousands):

	Capita	l Leases	Operating	
	Principal	<u>Interest</u>	Leases	<u>Total</u>
2006	\$ 40,794	\$ 7,207	\$ 159,127	\$ 207,128
2007	33,017	5,477	108,094	146,588

8. INDIVIDUAL FUND DEFICITS

In order to resolve the deficits in the budgeted funds, the Comptroller has recommended authorization of transfers from other budgeted funds with surplus balances or a plan of fund consolidation. For the Non-Budgeted Special Revenue Funds, the Comptroller has recommended similar budgeted transfers to subsidize and resolve the deficits or consolidation of such funds into budgeted funds. In both cases, such steps require legislative action.

The Capital Projects Fund deficit reported in the following table reflects the time lag between capital expenditures and the sale of related bonds. To arrive at the combined capital projects fund balance, this individual fund deficit of \$531,291,000 is offset by capital funds earmarked in the Central Artery Statewide Road and Bridge Infrastructure Fund of \$334,448,000 along with \$363,971,000 held in escrow for the two crossover refunding Special Obligation Bonds series' and \$26,218,000 in reserve for the other Capital Projects Funds.

The General Capital Projects Fund deficit is inclusive of SMART expenditures for school construction in the Commonwealth. \$500 million of expenditures occurred in FY2005 for school construction with the remainder of the \$1 billion authorization expected to occur in FY2006.

The following Budgeted, Non-Budgeted Special Revenue and Capital Projects Funds are included in the combined totals and have individual fund deficits at June 30, 2005, as follows (amounts in thousands):

Budgeted Funds:	
Highway Fund	\$ (824,236)
Children's and Seniors' Health Care Assistance Fund	 (245,914)
Total Budgeted Funds	 (1,070,150)
Non-Budgeted Special Revenue: Other:	
Government Land Bank Fund	(35,097)
Motor Vehicle Safety Inspection Trust Fund	 (21,311)
Total Non - Budgeted Funds	 (56,408)
Capital Projects:	
General Capital Projects Fund	(531,291)
Capital Investment Trust Fund	(757)
Capital Improvements and Investment Trust Fund	(12,524)
Capital Expenditure Reserve Fund	(98,829)
Government Land Bank Capital Project Fund	(10,000)
Local Capital Projects Fund	(16,345)
Total Capital Projects Funds	 (669,746)
Total	\$ (1,796,304)

9. MEDICAID COSTS

The Commonwealth provides medical care for low-income, elderly and other residents who qualify for such assistance under the federally-sponsored Medical Assistance Program (Medicaid). The Commonwealth pays the full cost of care and is reimbursed by the federal government for 50 percent of that cost. For the fiscal year ended June 30, 2005, the General Fund, and Children's and Seniors' Health Fund include \$5,977,221,000 in expenditures for Medicaid claims processed for payment. An additional \$291,623,000 of Medicaid expenditures were reported in the non-budgeted special revenue fund, the Health Care Quality Improvement Fund.

The combined financial statements – statutory basis include Medicaid claims processed but unpaid at June 30, 2005 of approximately \$127,929,000 as accounts payable. The Commonwealth estimates its total liability, as determined in accordance with GAAP, at \$693,100,000 including the amounts reported as accounts payable at June 30, 2005. This amount includes estimates of both the cost of care provided as of June 30, 2005, for which claims have not been processed and other costs. Of this amount, \$359,685,000 is expected to be reimbursed by the federal government and third party recoveries.

10. RETIREMENT SYSTEMS

A. Primary Government

The Commonwealth is statutorily responsible for the pension benefits for Commonwealth employees (members of the State Employees' Retirement System) and for teachers of the cities, towns, regional school districts throughout the Commonwealth and Quincy College (members of the Teachers' Retirement System, except for teachers in the Boston public schools, who are members of the State-Boston Retirement System but whose pensions are also the responsibility of the Commonwealth). The members of the retirement systems do not participate in the Social Security System.

The Commonwealth has assumed responsibility for payment of cost-of-living adjustments (COLA) for the separate (non-teacher) retirement systems of its cities, towns and counties, granted in fiscal year 1981 to 1996. The Commonwealth performs this valuation on an annual basis.

B. Plan Descriptions

The State Employees' Retirement System (SERS) is a single employer defined benefit public employee retirement system (PERS), covering substantially all employees of the Commonwealth and certain employees of the independent authorities and agencies, including the state police officers at the Massachusetts Port Authority and the Massachusetts Turnpike Authority. The SERS is administered by the Commonwealth and is part of the reporting entity and does not issue a stand alone financial report.

The *Teachers' Retirement System* (TRS) is an agent multiple employer defined benefit PERS. The Commonwealth is a non-employer contributor and is responsible for all contributions and future benefit requirements of the TRS. The TRS covers certified teachers in cities (except the City of Boston), towns, regional school districts and Quincy College. The TRS is administered by the Commonwealth and is part of the reporting entity and does not issue a standalone financial report.

The State – Boston Retirement System (SBRS) is a hybrid multiple employer defined benefit PERS. SBRS provides pension benefits to all full-time employees upon commencement of employment with any of the various government agencies covered by SBRS. The Commonwealth is a non-employer contributor and is only responsible for the actual cost of pension benefits for SBRS participants who serve in the City of Boston's School Department in a teaching capacity (BTRS). The cost of pension benefits of the other participants is the responsibility of the City of Boston. SBRS is not administered by the Commonwealth and is not part of the reporting entity and a stand-alone financial report is not available

Certain Commonwealth employees and current retirees employed prior to the establishment of the State Employees' Retirement System are covered on a "pay-as-you-go" basis. During the year ended June 30, 2005, the Commonwealth's pension expenditure included payments totaling \$11,631,000 to current retirees employed prior to the establishment of the current plans and the non-contributory plans.

The policy for post-retirement benefit increases for all retirees of the SERS, TRS, BTRS and COLA of local governments is subject to legislative approval.

Membership – Membership in SERS, TRS and BTRS as of January 1, 2005, the date of the most recent valuation, is as follows:

	<u>SERS</u>	<u>TRS</u>	BTRS
Retirees and beneficiaries currently receiving benefits Terminated employees entitled to	50,907	42,164	3,155
benefits but not yet receiving them	3,033	N/A	183
Subtotal	53,940	42,164	3,338

Non-vested*	40,250	44,006	2,562
Subtotal	81,682	88,027	5,780
Total	135,622	130,191	9,118

^{*} Estimated

C. Benefit Provisions

Massachusetts General Laws establish uniform benefit and contribution requirements for all contributory PERS. These requirements provide for retirement allowance benefits up to a maximum of 80% of a member's highest three-year average annual rate of regular compensation. Benefit payments are based upon a member's age, length of creditable service, and group creditable service, and group classification. The authority for amending these provisions is with the Legislature.

Members become vested after ten years of creditable service. A superannuation retirement allowance may be received upon the completion of twenty years of service or upon reaching the age of 55 with ten years of service. Normal retirement for most employees occurs at age 65; for certain hazardous duty and public safety positions, normal retirement is at age 55.

D. Funding Progress

During FY01, the Legislature passed Chapter 114 of the Acts of 2000, which modified Chapter 32 of the General Laws. This modification became effective on July 1, 2001. In Chapter 114, teachers who are members of the State Teachers Retirement System, or teachers who are members of the State - Boston Retirement System before 1975, who resigned or took an unpaid leave of absence because of maternity leave will be allowed to "buy back" into the fund up to a maximum of four years. The member must pay the amount determined by the Retirement Board by December 31, 2001 to qualify, as long as the member has worked longer than ten years. If the member completes ten years of service after December 31, 2001, payment can be made within 18 months of completion of ten years of service. In addition, the law creates a superannuation retirement benefit program for all teachers hired on or after July 1, 2001. This program has a contribution rate of 11 percent of regular compensation. To be eligible for the alternative benefit at retirement, the teacher must have completed thirty years of eligible service. All previous members may elect to participate in the program, as long as they participate with the equivalent of a minimum of five years of employee contributions at the new rate. If the member retires before five years, the teacher must pay into the system, the amount that would have been paid in one lump sum, or in installments as the Board may prescribe. The alternative benefit is calculated as the percentage of average compensation determined under the current formula increased by 2% of the average annual compensation for each full year of service in excess of 24 years. The election to participate is irrevocable.

The following table presents the schedule of funding progress as presented in the most recent actuarial valuations at the dates indicated (amounts in thousands):

Actuarial Valuation as of January 1		ctuarial Value Plan Assets	Act	uarial Accrued Liability	Unfunded parial Liability (UAL)	Funded Ratio %	Annual Covered Payroll *	UAL as a % of Covered Payroll

E. Pension Actuarial Valuation

The Commonwealth's pension actuarial valuation was performed as of January 1, 2005 pursuant to Chapter 32 of the General Laws of the Commonwealth of Massachusetts and based on the plan provisions at that time. The following are the most significant assumptions used in preparing the 2005 actuarial valuation:

Investment return	8.25% per year
Interest rate credited to annuity savings	3.5% per year
Cost of living increases	3% per year
Mortality	RP-2000 Health Annuitant table projected with scale
	AA (gender distinct). This is applicable to both pre- retirement and post-retirement benefits. Adjustments made for disabled members and certain other groups.
Salary Increases	Based on analysis of past experience - ranges from 4.75% to 8.5% for groups 1 and 2, 5.5% to 9.5% for group 3, 5.5% to 12% for group 4 and 4.75% to 9.5% for teachers

F. Contributions Required and Contributions Made

The total contributions required for SERS, TRS and SBRS are based on the entry age normal cost method using the same actuarial assumptions used to compute the net pension obligation.

The Commonwealth was financially responsible for the COLA granted to participants in various retirement systems of cities, towns and counties in fiscal year 1981 to 1996. Chapter 17 of the Acts of 1997 effective for fiscal year 1998 transferred the responsibility for funding COLAs for separate (non-teacher) retirement systems of cities and towns to the respective system. Any future COLA granted by the Legislature to employees of these plans will be the responsibility of the individual system. The individual employer governments are also responsible for the basic pension benefits. The retirement systems are not administered by the Commonwealth and are not part of the reporting entity. The actuarial accrued liability for COLA as of January 1, 2005 was \$475,000,000.

The retirement systems' funding policies have been established by Chapter 32 of the Massachusetts General Laws. The Legislature has the authority to amend these policies. The annuity portion of the SERS, TRS and BTRS retirement allowance is funded by employees, who contribute a percentage of their regular compensation. Costs of administering the plan are funded out of plan assets.

Member contributions vary depending on the most recent date of membership:

Hire Date

% of Compensation

Prior to 1975	5% of regular compensation 7% of regular compensation
1984 to 6/30/1996	8% of regular compensation
7/1/1996 to present	9% of regular compensation except for State Police
	which is 12% of regular compensation
7/1/2001 to present	11% of regular compensation (for teachers hired after
	7/1/01 and those accepting provisions of Chapter 114
	of the Acts of 2000)
1979 to present	An additional 2% of regular compensation in excess of
	\$30,000

The Commonwealth's contribution for the pension benefit portion of the retirement allowance of SERS and TRS and required payments to cover BTRS and COLA contributions were originally established on a "pay-as-you-go" basis. As a result, amounts were appropriated each year to pay current benefits, without a systematic provision to fully fund future liabilities already incurred. Beginning in fiscal year 1988, the Commonwealth enacted the Pension Reform Act of 1987 and addressed the unfunded liability of SERS, TRS and its participation in SBRS and its COLA obligation.

This legislation also directed the Secretary of Administration and Finance to prepare a funding schedule to meet these requirements, and to update this funding schedule every three years on the basis of new actuarial valuation reports prepared under the Secretary's direction. Any such schedule is subject to legislative approval. If a schedule is not so approved, payments are to be

made in accordance with the most recently approved schedule. Under the current schedule adopted in 2004, the amortization payments are designed to eliminate the unfunded liability by fiscal year 2023 on a 4.50% increasing basis. Contributions by the Commonwealth of \$1,216,936,000 were made during the fiscal year ended June 30, 2005. Of this amount \$59,520,000 represents payments for COLA granted to participants in retirement systems of cities, towns and counties. The Commonwealth schedule encompasses SERS, TRS and Boston Teachers.

GAAP requires that pension expenditures (costs) be based on the actuarially required contribution determined using an acceptable actuarial cost method and that they be not less than:

- Normal cost plus amortization of net pension obligation cost
- Interest and amortization on any unfunded prior service costs

The funding schedule discussed above follows an acceptable actuarial funding methodology to compute normal cost and the unfunded accrued actuarial liability.

The following table presents the schedule of employer contributions (amounts in thousands):

Actuarial Valuation as of January 1	Annual Required Contribution (ARC)	Interest on NPO	Amortization of NPO	Pension Cost	Actual Contribution Made	Net Pension (Obligation) / Asset (NPO)	% of ARC Contributed	% of Pension Cost Contributed

G. Post-retirement Health Care and Life Insurance Benefits

In addition to providing pension benefits, under Chapter 32A of the Massachusetts General Laws, the Commonwealth is required to provide certain health care and life insurance benefits for retired employees of the Commonwealth, housing authorities, redevelopment authorities, and certain other governmental agencies. Substantially all of the Commonwealth's employees may become eligible for these benefits if they reach retirement age while working for the Commonwealth. Eligible retirees are required to contribute a specified percentage of the health care benefit costs which is comparable to contributions required from employees. The Commonwealth is reimbursed for the cost of benefits to retirees of the eligible authorities and non-state agencies. The Commonwealth recognizes its share of the costs of providing these benefits when paid. These payments totaled approximately \$316,693,000 for the fiscal year ended June 30, 2005. There are approximately 53,334 participants eligible to receive benefits at June 30, 2005.

The Commonwealth has not performed an actuarial valuation of its post-retirement health care and life insurance benefit lability. Private industry typically sees an actuarial accrued liability of 10 to 20 times the current annual payments. For the Commonwealth, this would extrapolate to an actuarial accrued liability of \$2.5 billion to \$5 billion.

The FY04 General Appropriation Act changed the employee contribution rates for group health insurance, with the exception of current employees earning less than \$35,000 and retires. Current employees as of July 1, 2003 will contribute 20% to their health insurance costs if they earn over \$35,000. New employees will contribute 25%. In fiscal 2006, the contribution rates will return to 15% for all employees.

11. COMMITMENTS

A. MBTA and Other Authorities

The Commonwealth continues to guarantee certain Massachusetts Bay Transportation Authority (MBTA) debt outstanding at June 30, 2005, totaling \$1,791.835,000.

The MBTA's Forward Funding legislation of 1999 provides for the MBTA to issue general obligation, revenue or other debt secured by a pledge or conveyance of all or a portion of revenues, receipts or other assets or funds of the MBTA. Accordingly, all MBTA debt issued after this legislation is not backed by the full faith and credit of the Commonwealth.

In addition to the residual obligations of the MBTA, the Commonwealth guarantees debt of a number of Public Authorities. At June 30, 2005, the aggregate outstanding debt for which the Commonwealth is obligated to provide contract assistance support totaled approximately \$1,569,206,000 long-term, of which \$687,310,000 is for the Route 3 North Transportation Improvements Association and \$642,390,000 is for the University of Massachusetts Building Authority. No short-term regional transit authority debt is guaranteed.

B. Saltonstall Building

The Massachusetts Development Finance Agency (MDFA) was authorized in legislation to undertake redevelopment of the Saltonstall State Office Building (Building) and its surrounding area. Under the provisions of MDFA's bond authorization, the Building is to be leased by the MDFA for a lease term of up to 50 years with extension terms permitted for an aggregate 30 more years. The MDFA renovated the Building leased half of it back to the Commonwealth for office space and related parking for a comparable lease term. The remainder of the Building and surrounding area has been redeveloped as private office space, housing and retail establishments. The Commonwealth is obligated for future lease payments for space it rents. However, this obligation is not a general obligation or a pledge of credit of the Commonwealth. Though MDFA's bonds are revenue obligations, with pledges of the public and private lease payments, the Commonwealth's lease payments are due upon occupancy and are subject to annual appropriation. The Commonwealth has commenced occupancy of the Building.

C. Central Artery / Tunnel Project

The Central Artery / Tunnel Project is the largest single component of the Commonwealth's capital program according to the finance plan filed as of October 1, 2004. The current cost estimate is \$14.625 billion. The plan includes a maximum obligation of \$8.549 billion from the federal government. The finance plan is currently under review.

At June 30, 2005, the Commonwealth had commitments of approximately \$418,930,000 related to ongoing construction projects. The Central Artery/Tunnel Project continues to anticipate federal participation and payments from the Massachusetts Turnpike Authority (MTA) and the Massachusetts Port Authority (MassPort).

12. CONTINGENCIES

A number of lawsuits are pending or threatened against the Commonwealth, which arise from the ordinary course of operations. These include claims for property damage and personal injury, breaches of contract, condemnation proceedings and other alleged violations of law. For those cases in which it is probable that a loss will be incurred and the amount of the potential judgment can be reasonably estimated or a settlement or judgment has been reached but not paid, the Attorney General estimates the liability to be approximately \$30,000,000 to be paid during FY06. No accrual has been made for this amount in the combined financial statements – statutory basis.

Under the statutory basis of accounting, workers' compensation costs are recognized when claims are presented and paid. The Commonwealth's outstanding liability for such claims at June 30, 2005 is estimated to be \$312,600,000, of which approximately \$39,390,000 is expected to be paid during FY06. No accrual has been made for these amounts in the combined financial statements – statutory basis.

The Commonwealth receives significant financial assistance from the federal government. Entitlement to these resources is generally contingent upon compliance with terms and conditions of the grant or reimbursement agreements and with applicable federal regulations, including the expenditure of the resources for eligible purposes. Substantially all federal financial assistance is subject to financial and compliance audits. Any disallowances become liabilities of the fund, which received the assistance. At June 30, 2005, the Commonwealth estimated that liabilities, if any, which may result from such audits are not material.

Chapter 200A of the Massachusetts General Laws, the Commonwealth's Abandoned Property Law, requires deposit of certain unclaimed assets into a managed Fiduciary Fund. These unclaimed assets are to be remitted to the General Fund each June 30, where it is included as miscellaneous revenue. Amounts remitted during FY05 totaled approximately \$172,502,000. Since inception, approximately \$1,492,533,000 has been remitted. A portion of this amount represents a contingency, because claims for refunds can be made by the owners of the property.

A Master Settlement Agreement (MSA) was executed in November of 1998 between five tobacco companies and 46 states, including the Commonwealth. The MSA called for, among other things, annual payments to the states in perpetuity. These payments have been estimated to total more than \$200 billion over the first 25 years, subject to various offsets, reductions, and adjustments.

In FY05, the Commonwealth received approximately \$257,417,000 or 91% of the estimated amounts shown in the MSA. All received amounts were transferred to the General Fund.

In FY04, a Suffolk Superior Court jury rejected the claims of the Commonwealth's private tobacco attorneys that they should be paid a fee amounting to 25% of the Commonwealth's tobacco settlement money. The jury awarded the plaintiffs 10.5% of the amount the Commonwealth receives under the MSA through 2025. To date, however, the attorneys have received more than 10.5% of what the Commonwealth has received under the MSA. As of June 30, 2005, the Commonwealth owes nothing under the jury award. Whether the Commonwealth will in the future be required to pay any sum on private counsel's claim will depend on the actual payments received by the Commonwealth under the MSA through 2025, as well as on the amounts the attorneys receive through the arbitration payments.

During FY04, the Commonwealth received interest free loans from the federal government to fund the unemployment compensation operating deficit, the fund balance declined by \$368.2 million. All of these borrowings were paid back in May 2004. No additional revenues were needed to be collected from employers in order to pay accrued interest as the loans were interest free. The fund balance in the Unemployment Compensation Fund stands at approximately \$122.5 million as of June 30, 2004. On October 13, 2004, the Commissioner of the Division of Unemployment Assistance announced that further loans will be needed in FY05 to pay unemployment benefits.

A. Tobacco Settlement

B. Unemployment Compensation Fund

13. NON-TAX REVENUE INITIATIVES

Chapter 653, Acts of 1989, amended Chapter 29 of the Massachusetts General Laws by adding Sections 29D and 29E, which authorize certain non-tax revenue initiatives and require reporting thereon, as follows.

A. Debt Collection

Pursuant to Massachusetts General Laws Chapter 29, Section D, Chapter 7A Section 8, allows private debt collection agencies to engage in debt collection for the Commonwealth. The fees paid are contingency based from the proceeds collected. Collections and fees paid during FY05 were:

Department Collectors	Collections		Fees	
ACS State & Local Solutions	\$ 1,590	\$	425	
Allen Daniel Associates	436		79	
Collecto Inc	2,231		496

Windham Professionals, Inc	1,398	_	317	
Total	\$ 9,080	\$	1,974	

Under the same program, the following amounts were collected and fees paid for institutions of higher education: (These figures are a subset of the above).

Department Collectors	Col	lections	Fees		
Collecto Inc	\$	385	\$	69	
Delta Management Associates, Inc		1,481		338	
Glenn Associates, Inc		775		141	
NCO Financial Systems, Inc		1		-	
OSI Collection Services, Inc		518		109	
Windham Professionals		264		56	
Total	\$	3,424	\$	713	

B. Revenue Maximization

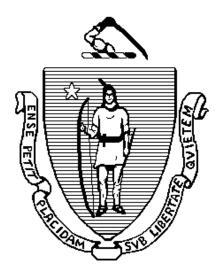

Pursuant to Massachusetts General Law Chapter 29 Section 29E, contractors were engaged on a contingent fee basis to assist several of the Commonwealth's departments in the identification and collection of federal and other non-tax revenues. During FY05, \$236,445,000 was generated through such efforts, of which \$109,303,000 was credited back to the federal government. After contractor payments of \$8,865,000, the Commonwealth received \$118,277,000.

C. Cost Avoidance

The Comptroller's appropriation authorizes contract arrangements engaged on a contingent fee basis for the purpose of identification and pursuit of cost saving/avoidance opportunities. During FY05, \$374,994,000 of state expenditures were avoided, of which \$142,344,000 would have been funded by the federal government. After contractor payments of \$25,169,000, the Commonwealth had a net cost saving / avoidance of approximately \$207,482,000.

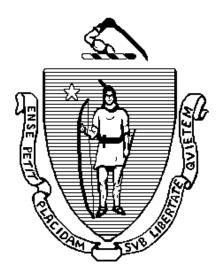

D. Intercept

Intercept is authorized by M.G.L. Chapter 7A Section 3 and 815 CMR 9:06. Intercept is an automated process that offsets Commonwealth payments to delinquent receivables that have been approved by the Office of the State Comptroller. In FY05, the Commonwealth intercepted \$3,692,000 of which \$1,710,000 was on behalf of institutions of higher education.

Individual Budgeted Funds

MAJOR BUDGETED FUNDS:

The General Fund - The General Fund is the Commonwealth's primary Governmental Fund. All governmental activities not specifically directed to another fund are accounted for in the General Fund. As a result, most budgeted expenditures of the Executive secretariats, the Legislature, constitutional offices, Judiciary, institutions of higher education and independent commissions are paid for from the General Fund. It similarly receives a significant portion of sales, individual income and corporate taxes, and the full amount of most other governmental taxes.

Highway Fund — to account for highway user taxes including the gas tax and fees; used to finance highway maintenance and safety services, and provide matching funds for federally sponsored highway projects as required.

Infrastructure Fund (Subfund of Highway Fund) - details specific components of revenue and expenditure related to the Highway Fund segregated per instructions in Section 2 O of Chapter 29 of the General Laws.

The Commonwealth Stabilization Fund – to account for amounts calculated in accordance with state finance law and maintain a reserve to enhance the Commonwealth's fiscal stability. Per the FY2005 General Appropriation Act tax revenues from certain lottery winners selling their stream of future winnings in exchange for current payments will be recorded in this fund. In FY2004, these functions were expanded to include cost recoveries from the Central Artery / Tunnel Project and the residual balance of the Temporary Holding Fund to the extent of expenditures from the Stabilization Fund.

Administrative Control Funds - account for the revenues generated by certain administrative functions of government, for which the Legislature has required that separate funds be established. These funds include:

Temporary Holding Fund – to account for cumulative tax revenues during the fiscal year in excess of permissible tax revenues as defined in Chapter 62F, Section 6A of the General Laws. The fund balance in the fund closes annually to the Stabilization Fund to the extent of revenues from that fund. Any remaining balance transfers to the General Fund.

Intragovernmental Service Fund – to account for the charges of any state agency for services provided by another state agency, for example, charges levied by the public employee retirement administration for workers compensation chargeback.

Transitional Escrow Fund - to account for the undesignated fund balances in budgetary funds from FY2005 before transfers pursuant to clause (b) of section 5c of Chapter 29 of the General Laws. This fund will expire on June 30, 2006, at which time the unexpended balance in the fund will transfer to the Stabilization Fund.

BUDGETED ENVIRONMENTAL FUNDS:

These funds account for a variety of revenues, which finance programs to preserve, protect and enhance the environment. These funds include:

Inland Fisheries and Game Fund - to account for revenues from license and permit fees for inland fishing, hunting, trapping, and sporting licenses and revenue producing stamps or the sales of land, rights and properties, gifts, interest, and federal grant reimbursements; used for developing, maintaining and operating the Division of Fisheries and Wildlife.

OTHER BUDGETED FUNDS:

These funds account for a variety of miscellaneous taxes, fees, fines and other revenues, which are restricted to the financing of specific Commonwealth programs.

Workforce Training Fund - to account for revenues from new unemployment surcharge of .075% of unemployment taxable wages on employers; to provide grants to employers and labor groups to provide education and training to new and existing employees.

Federal Medicaid Assistance Percentage Escrow Fundto account for the inflows associated with Commonwealth Medicaid reimbursements in accordance with the Federal Jobs Growth Reconciliation Act of 2003 during FY2004. The fund expired on June 30, 2005, with all remaining balances transferred to the General Fund.

Massachusetts Tourism Fund - to account for revenues received from hotel taxes; used to fund the Office of Travel and Tourism promotions and the Massachusetts Convention Center Authority.

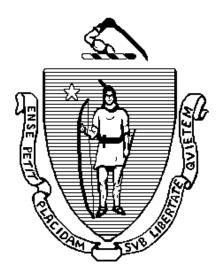

Children's and Seniors' Health Care Assistance Fund – to account for a portion of the cigarette and smokeless tobacco tax, inventory tax and related investment income; to be appropriated for the provision of medical benefits to expansion beneficiaries and a five year pilot program of pharmacy assistance.

The following funds have been enacted in legislation but are inactive:

Collective Bargaining Reserve Fund - to account for transfers from the general fund, which may be used to fund negotiated contracts for state employees.

Tax Reduction Fund – to account for the maintenance of a reserve, which shall be used only to reduce personal income taxes.

Division of Energy Resources Credit Trust Fund – to account for the receipt, retention, redemption sale or transfer of energy conservation credits, renewable energy certificates or credits, emission credits and similar allowances. The Division of Energy Resources may expend these funds, subject to appropriation for the implementation of programs for energy reliability, renewable energy, public procurement of energy and energy efficiency and climatic change. Any unexpended balance in the fund at the close of a fiscal year is retained in the fund and the fund may not carry a deficit at the end of the state fiscal year.

Non-Budgeted Funds

SPECIAL REVENUE FUNDS:

These funds account for the proceeds of specific revenue sources that are restricted to finance specific functions. Funds that are not subject to appropriation are considered Non-budgeted Special Revenue Funds.

Federal Grants Fund – to account for federal grants that are designated for specific programs, excluding federal highway construction grants, which are accounted for in the Federal Highway Construction Capital Projects Fund, and federal reimbursement programs, such as Medicaid, which are accounted for in the General Fund.

LOTTERY FUNDS:

The two lottery funds account for the operations of the State and Arts Lotteries.

State Lottery Fund – to account for revenue from sale of lottery tickets and for the payment of prizes, expenses of the State Lottery Commission and the distribution to municipalities and school districts. Transfers are made to the General Fund.

Arts Lottery Fund - to account for revenues from sale of lottery tickets, for payment of prizes and the expenses of the State Lottery Commission, and for the administration of the Arts Lottery Council. Transfers are made to the General Fund.

UNIVERSAL HEALTH CARE FUNDS:

The two Universal Healthcare Funds account for assessments and other revenues that are dedicated to making health care and health insurance accessible and affordable to all Citizens of the Commonwealth.

Uncompensated Care Fund – to account for funds received from hospitals, transfers from budgeted funds and federal reimbursements; used for the purposes of the Uncompensated Care Pool.

Medical Security Trust Fund – to account for premiums, fees, and contributions; used for health insurance for workers receiving unemployment insurance.

OTHER FUNDS:

The other minor special revenue funds account for a variety of miscellaneous taxes, assessments, fees, fines and other revenues, which are restricted to the financing of specific Commonwealth programs.

Department of Telecommunication and Energy Trust Fund – to account for expenditures by the Department of Telecommunications and Energy for activities of the department related to the regulation of electric companies.

Liability Management and Reduction Fund - to account for chargebacks assessed to departments as premiums for the provision of insurance coverage for state agencies to cover payment of judgements, settlements and litigation costs in tort claims.

Debt Defeasance Trust Fund – to account for transfers from General Fund and Highway Fund for purpose of defeasing debt pursuant to Chapter 55 of the Acts of 1999 section 6, 7 and 8, as amended, and Sections 13 and 17 of Chapter 87 of the Acts of 2000. The Fund was repealed as of June 30, 2005. Any remaining balances were transferred to the General Fund during FY2005.

Health Care Security Trust Fund — to account for revenues received from tobacco companies under the tobacco settlement, interest income fees and federal grants as well as expenditures to the Health Care Quality Improvement Fund for health related services and programs intended to control or reduce the use of tobacco in the Commonwealth.

Commonwealth of Massachusetts Civil Monetary Penalty (CMP) Fund – to account for civil monetary penalties paid by nursing homes participating in the medical program for the protection of health and property of residents in a nursing home if the facility is found deficient.

MBTA State and Local Contribution Fund – to account for the transfer of revenue and MBTA service area assessments from the Commonwealth to the MBTA as set forth in Massachusetts General Laws, Chapter 10, Section 35T.

Catastrophic Illness in Children Relief Fund – to account for receipts from a portion of an employer's unemployment health insurance contribution and certain Federal financial participation. The assistance is for medical expenses of childhood catastrophic illnesses not covered by any other State and Federal program and subject to certain family income limits.

MBTA Infrastructure Renovation Fund – to account for supplemental appropriations beyond the MBTA State and Local Contribution Fund for certain MBTA infrastructure improvements. Funds are to be used for, but not limited to, compliance with the American with Disabilities Act, elevator and escalator improvements, waterproofing, fare gates, signage, lighting and structural improvements only. No rolling stock is to be acquired through the fund.

Community Preservation Trust Fund – to account for revenues received from surcharges on real estate property taxes, public and private sources as gifts, grants and donations, from damages, penalties costs from litigation settlements and surcharge on municipal liens imposed by the cities and towns who accept funds from the trust, to further community open – space preservation programs.

Health Insurance Portability and Accountability Act Fund – to account for revenues received from Federal reimbursements under the Social Security Act, other Federal reimbursements, grants, gifts or other contributions to meet the costs of compliance with the Federal Health Insurance Portability and Accountability Act of 1996 (HIPPA).

State Racing Fund – to record activity described in Section 9, Chapter 139, Acts of 2001 for improvements to the horse and greyhound racing industry in the Commonwealth. Revenues are from taxes, assessments and expenditures are for related programs.

Division of Professional Licensure Trust Fund – to support programs and administrative costs of the Division of Professional Licensure. Revenues are from professional registration fees and expenditures are for regulatory purpose. The fund is not allowed to incur deficit. Any year end balance in excess of 20% of prior year's expenditures reverts to the General Fund.

Victims of Drunk Driving Trust Fund – to account for fines collected from convicted individuals of driving under the influence of various substances defined by the law. Expenditures are for grants to community based programs

to provide counseling and support services to victims of accidents.

Health Care Quality Improvement Trust Fund – to account for transferred fees and federal participation from the Health Care Security Trust fund paid by health care providers. Expenditures are to health care providers for Medicaid related services.

Department of Fire Services Hazardous Materials Emergency Mitigation Response Recovery Trust Fund—to account for monies received from fees, fines and investment income up to a maximum of \$250,000 per year. All revenues in excess of \$250,000 are transferred to the General Fund and may be made available for appropriation. Expenditures are for emergency hazardous materials response and mitigation costs up to a maximum of \$250,000 per year.

Registers Technological Fund – to account for funds received from deeds excise taxes for the benefit of abolished counties. Expenditures are for technological improvements at the registries of deeds in those counties.

County Registers Technological Fund – to account for monies received from deeds excise taxes for Barnstable, Bristol, Dukes, Norfolk, Plymouth and Nantucket Counties. Expenditures are for technical improvements at those counties.

State Election Campaign Fund – to account for the costs of quadrennial statewide elections provided for through tax contributions from citizens.

Distressed Provider Expendable Trust Fund – to account for the financial support to community health centers, community health center-based managed care organizations, and other essential community providers that serve populations in need of community-based care, clinical support, care coordination services, pharmacy management services or other special needs for continuing community care including, but not limited to, those populations that are chronically ill, elderly, or disabled. Chapter 241 of the Acts of 2004 renamed this fund from the Essential Community Provider Expendable Trust Fund.

Economic Stimulus Trust Fund - to account programs established in Chapter 141 of the Acts of 2003 including workforce development grants, international marketing and tourism promotion, new technology development, for 'brownfields' redevelopment and to the Massachusetts

Mathematics, Science, Technology and Engineering Grant Fund. The fund expired on June 30, 2005.

Springfield Fiscal Recovery Trust Fund - to account for interest free loans to the City of Springfield, the goal of which is to bring fiscal stability to the City.

Counsel for Indigent Salary Enhancement Trust Fund – to account for fees collected for private applications for criminal complaints for misdemeanors in Commonwealth courts and investment revenues. Expenditures are for rate enhancements for advocates for the indigent.

Special Projects Permitting and Oversight Fund - to account for environmental permitting fees. Expenditures are for permitting, technical assistance, compliance and other activities related to environmental oversight.

School Modernization and Reconstruction Trust Fund - to account for dedicated sales tax revenues in support of the School Building Assistance Program.

Civil Process Technology Improvement Fund – to account for 20% of civil process fees received by the Commonwealth gifts, grants and investment earnings to be used to improve the efficiency, accessibility and accountability of the service of civil process in the Commonwealth.

Roche Community Rink Fund – to account for revenues generated from fees, fines, leases, gifts, grants, interest or any other revenue sources at the Roche Community Rink, formerly the Bryant Rink, in the West Roxbury section of the city of Boston. Expenditures are for operational costs, capital improvements, equipment and maintenance of said rink, including the costs of personnel, but no expenditures shall be made from the fund that shall cause the fund to be in deficit at the close of a fiscal year.

Government Land Bank Fund – to account for proceeds from disposition, conversion and redevelopment of land used for payments of principal and interest on bonds and notes of the Massachusetts Development Finance Agency.

Natural Heritage and Endangered Species Fund - to account for revenues from public and private sources and/or the federal government as reimbursements, grants, donations or other receipts; used to acquire by purchase, lease, easement or license land critical to nongame wildlife and endangered species for purposes of protecting and enhancing nongame wildlife.

Massachusetts Mathematics, Science, Technology and Engineering Grant Fund – to account for the support provided to Massachusetts students who want to participate in programs that support careers in fields related to mathematics, science, technology, and engineering. The grants also support curriculum development in those fields.

Mosquito and Greenhead Fly Control Fund —to account for assessments to cities and towns of various mosquito control districts; appropriated to support activities designed to control mosquitoes and /or "greenhead" flies.

Oil Overcharge Fund – to account for the fines and penalties collected under federal litigation from certain oil companies; used to provide fuel assistance and home insulation for low-income residents.

Environmental Trust Fund – to account for fines, gifts and grants used for restoration, protection and improvement of the quality of Boston Harbor, Lynn Harbor, Massachusetts Bay, Buzzard's Bay and Cape Cod Bay.

Children's Trust Fund – to account for gifts, grants, interest, and donations to the Child Abuse Prevention Board and certain appropriations designated to be transferred to the fund; used for support programs to raise awareness of child abuse and prevention programs.

Child Support Enforcement Fund – to account for Federal grants used for activities associated with the collection of child support.

Department of Industrial Accidents Special Fund – to account for assessments to employers and cities and towns for workers' compensation insurance premiums and penalties assessed against employers who fail to insure for the workers' compensation; used to reimburse the General Fund for the operating account of the Department of Industrial Accidents and for administrative overhead.

County Correction Fund – to account for approximately 7.5% of the deeds excise tax distributed to counties for the operation of county correctional facilities.

Massachusetts AIDS Fund – to account for gifts, grants, and donations; used for research, treatment, and

education related to acquired immune deficiency syndrome.

Trust Fund for the Head Injury Treatment Services Fund

- to account for revenues from a surcharge on fines resulting from 'driving under the influence' convictions; funds the Massachusetts Rehabilitation Commission's statewide head injury program to develop and maintain non-residential rehabilitation services for head injured persons,

Board of Registration in Medicine Fund – to account for certain revenues and expenditures of the Board.

Water Pollution Abatement Projects Administration Fund – to account for transfers from the Water Pollution Abatement Trust and general obligation bond proceeds; used for the administration of the Department of Environmental Protection to fund water pollution abatement projects.

Commonwealth Sewer Rate Relief Fund – to account for transfers of amounts from the General Fund or other funds; used for the purpose of mitigating sewer rate increases and making sewer rate relief grants to municipalities.

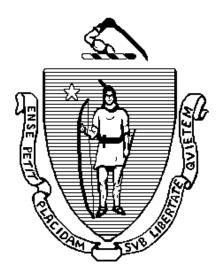

Motor Vehicle Safety Inspection Trust Fund – to account for vehicle inspection fees for administration and operation of safety inspection programs by the Registry of Motor Vehicles.

Child Care Quality Fund – to account for expenditures by the commissioner of the Office for Children for providing grants for not-for-profit childcare organizations for the purpose of improving childcare services.

Convention and Exhibition Center Fund – to account for surcharges imposed on tourist tickets, such as cruise and for any land-based sightseeing located in the Commonwealth to finance the construction of a new Boston Convention Center along with centers in Worcester and Springfield.

Firearms Fingerprint Identity Verification Trust Fund – to account for fees paid in firearms registrations for the purposes of financing fingerprint identification verifications with the fingerprint records maintained by the Federal Bureau of Investigations or any other federal agency for the verification of firearms license application identities.

Grant Anticipation Note Trust Fund - to account for proceeds to cover grant anticipation note expenditures and pay the related debt service of the proceeds.

Capital Projects Funds

The Capital Projects Funds are used to account for the financial resources used to acquire or construct major capital assets of the Commonwealth and to finance local governmental capital projects.

General Capital Projects Fund - to account for proceeds of bonds sold to fund the construction or acquisition of capital assets for general Commonwealth purposes, excluding highway construction and projects targeted for specific localities or purposes.

Capital Investment Trust Fund – to account for a transfer from the General Fund to finance appropriated items of a capital nature pursuant to sections 2E and 107 of Chapter 88 of the Acts of 1997.

Convention and Exhibition Center Capital Fund -to account for proceeds of bonds to finance the construction of a convention center in Boston.

Capital Improvements and Investment Trust Fund - to account for the Commonwealth's reimbursement to cities and towns for expenses incurred for projects for construction and reconstruction of town and county ways.

Capital Expenditure Reserve Fund - to account for amounts paid by the Massachusetts Turnpike Authority as payment toward the acquisition cost of the Third Harbor Tunnel and Federal financial participation money related to expenditure amounts paid by the Massachusetts Port Authority as determined by a feasibility study; used to pay principal and interest on certain bonds, related notes or direct capital expenditures.

Highway Capital Projects Fund – to account for the proceeds of bonds sold to finance construction of state highways and to fund the Commonwealth's share of Federally sponsored highway construction.

Federal Highway Construction Program Capital Projects Fund - to account for federal highway construction grants which, with the Commonwealth's required share of matching funds, finance interstate

highways and similar projects within Massachusetts to promote a nationwide highway system.

Central Artery Statewide Road and Bridge Infrastructure Fund - to account for bond proceeds, certain revenues from Registry of Motor Vehicle fees, (net of debt service expenditures) and payments from authorities. The purpose of expenditures of the fund is to meet the estimated additional costs associated with the Central Artery/Ted Williams Tunnel Project and for costs of the statewide road and bridge program.

OTHER FUNDS:

These funds account for the proceeds of bonds used to to finance land and transportation equipment for economic development.

Government Land Bank Capital Projects Fund - to account for proceeds of bonds used to finance the acquisition, holding, protection, maintenance, repair or use of lands and for personnel and the administrative costs of the Massachusetts Development Finance Agency.

LOCAL AID FUNDS:

Local Capital Projects Fund - to account for the proceeds of bonds sold to finance the construction of correctional facilities, water pollution abatement projects and other local projects in specific localities of the Commonwealth. The fund accounts for the proceeds of bonds to finance improvements to lockup facilities, state police lockup facilities and to finance improvements to County Correctional Facilities, and other monies received by the Department of Environmental Management pertaining to state parks, reservations and recreation areas outside the metropolitan parks district; used for purposes of state parks, reservations and recreation areas outside the metropolitan parks district.

Fiduciary Fund Types

The Fiduciary Funds are used to account for assets held by the Commonwealth in a trustee capacity or as an agent for individuals, private organizations or other governments. The funds include Expendable and Non – Expendable Trust Funds, Pension Funds, as well as Agency Funds.

EXPENDABLE TRUST FUNDS:

Expendable Trust Fund – to account for various gifts, bequests or contributions held by the Commonwealth of which both principal and interest may be expended for purposes designated by the donor.

Revolving Loan Fund – to account for Federal grants, investment and interest income to be expended for loans to non-profit private entities to establish housing for individuals recovering from alcohol or drug abuse and for loans to local housing authorities.

Expendable Trust Fund - Internal – to account for various gifts, bequests or contributions held by the Commonwealth, solely for the benefit of Commonwealth entities, of which both principal and interest may be expended for purposes designated by the donor.

Unemployment Compensation Fund – to account for unemployment taxes collected from employers, held by the United States Treasury in the Federal Unemployment Trust Fund, from which funds are drawn for the payment of benefits to the unemployed.

NONEXPENDABLE TRUST FUNDS:

Nonexpendable Trust Fund – to account for various gifts and bequests held by the Commonwealth, of which only the income may be expended for purposes specified by the donor.

PENSION TRUST FUNDS:

Pension Trust Funds – to account for the assets, liabilities and fund balances held in trust by the State Employees', State Teachers' Retirement Systems and the State – Boston Retirement System for the payment of retirement, disability and death benefits to members of these retirement systems.

AGENCY FUNDS:

Agency Funds – to account for cash, investments held or managed by the Commonwealth on behalf of others. These include the investments made by cities, towns and local authorities in the Municipal Depository Trust, employees' contributions to the deferred compensation plan, annuity contracts held for lottery prize winners, local option taxes collected but not yet remitted, assets held in escrow accounts by the Commonwealth's court system and human service departments, child support payments collected or receivable and not yet remitted to custodial parents, and deposits required from insurance companies and similar organizations.

Supplemental Information

Calculation of Transfers - Stabilization and Tax Reduction Funds

Calculation of Transfers: Stabilization Fund

June 30, 2005 (Amounts in thousands)

This statement is prepared on the statutory basis of accounting pursuant to General Laws Chapter 29, Section 5c, as amended most recently by Chapter 106 of the Acts of 2005 which superceded certain parts of the Section 5c. It presents information contained in the official books and accounting records of the Commonwealth. Financial statements supporting this calculation are presented in the Financial Section of this report.

Part 1:	Undesignated fund balance / (deficit) in the operating Funds, unless specifically exempted by General Laws:	
	General Fund Highway Fund Workforce Training Fund Division of Energy Resources Credit Trust Fund	\$ 2,258,719 (850,568) (4,936)
	Massachusetts Tourism Fund	 10,455 (245,914)
	Consolidated undesignated fund balance / (deficit) in the operating Funds	\$ 1,167,756
	Less: Amount carried forward to fiscal year 2006 - 0.5% of FY2005 total tax revenue per Schedule A Less: Amount to be deposited in the Stabilization Fund -0.5% of FY2005 total tax revenue per Schedule A	85,959 85,959
	Net consolidated net surplus / (deficit) to be deposited into the Stabilization Fund per Chapter 26 of the Acts of 2003, Section 164	\$ 995,838
Part 2:	Transfers to the Stabilization Fund per Section 18 of Chapter 106 of the Acts of 2005:	
	From the General Fund	\$ 680,545 - -
	From the Federal Medicaid Assistance Percentage Escrow Fund From the Division of Energy Resources Credit Trust Fund From the Massachusetts Tourism Fund From the Children's and Seniors' Health Care Assistance Fund	10,455
	Total transfers to the Stabilization Fund	\$ 691,000
Part 3:	Status of consolidated net surplus after Stabilization Fund transfers - Undesignated Fund Balance / (deficit):	
	General Fund Highway Fund Workforce Training Fund Federal Medicaid Assistance Percentage Escrow Fund Division of Energy Resources Credit Trust Fund Massachusetts Tourism Fund Children's and Seniors' Health Care Assistance Fund	\$ 1,406,256 (850,568) (4,936)
	Consolidated net surplus after the annual transfer	\$ (245,914) 304,838
Part 4:	Transfer to Transitional Escrow Fund:	
	Excess to be transferred from the reamaining consolidated net surplus	\$ 304,838
Part 5:	Fiscal 2005 Stabilization Fund activity:	
	Reserved for Stabilization - Balance as of June 30, 2004 Consolidated net surplus pursuant to Part 2, above. Plus: Interest income, certain tax revenues and recoveries Plus: 0.5% of FY2005 total tax revenue per Part 1, above Subtotal	\$ 1,137,320 691,000 21,356 85,959 1,935,635
	Add: Temporary Holding Fund transfer	, ,,,,,,,
	Subtotal, transfers and appropriations from the Stabilization Fund	
	Net transfers and appropriations from the Stabilization Fund during FY 2005	 (207,280)
	Reserved for Stabilization Fund - balance as of June 30, 2005	\$ 1,728,355

Calculation Of Transfers: Tax Reduction Fund

June 30, 2005 (Amounts in thousands)

This statement is prepared pursuant to Chapters 29 of the Massachusetts General Laws, as amended. It is prepared on the statutory basis of accounting and presents information contained in the official books and accounting records of the Commonwealth. Supporting information is presented in individual schedules, as indicated, and in the Financial Section of this report.

The computation is as follows:

Part 1:	Comparison of Stabilization Fund, after current fiscal year transfers, to 15% of budgeted revenues and other financial resources:	
	Undesignated fund balance in the Stabilization Fund	\$ 1,728,355
	Allowable Stabilization Fund balance (per Schedule B)	 3,656,015
	Stabilization Fund excess, if any, transferable to Tax Reduction Fund	\$ _
Part 2:	Status of Stabilization Fund after transfers:	
	Stabilization Fund balance	\$ 1,728,355
	Stabilization Fund balance after transfer to Tax Reduction Fund	\$ 1,728,355
Part 3:	Status of Tax Reduction Fund after transfers:	
	Tax Reduction Fund balance	\$ - -
	Tax Reduction Fund balance after transfers	\$

HIGHER EDUCATION NONAPPROPRIATED ACTIVITY

The Commonwealth's Public Institutions of Higher Education are allowed, by their enabling statutes, to collect, retain, and expend certain fees, rents, donations and other types of revenue. These financial resources are important elements to the overall financial operations of the respective institutions, and are in addition to amounts made available from appropriations. The Public Institutions of Higher Education include:

University of Massachusetts System — The University system includes the campuses at Amherst, Worcester, Boston, Lowell, Dartmouth and certain institutes and programs operated by the Office of the University President.

State College System – The State College System includes the nine state colleges, which provide four-year post-secondary education programs. These colleges include:

Bridgewater State College
Framingham State College
Fitchburg State College
Massachusetts College of Art
Massachusetts Maritime Academy
Massachusetts College of Liberal Arts
Salem State College
Worcester State College
Westfield State College

Community College System - The Community College System includes the fifteen community colleges, which provide two-year post secondary education programs.

Berkshire Community College
Bunker Hill Community College
Bristol Community College
Cape Cod Community College
Greenfield Community College
Holyoke Community College
Massasoit Community College
Massachusetts Bay Community College
Middlesex Community College
Mount Wachusett Community College
Northern Essex Community College
North Shore Community College
Quinsigamond Community College
Roxbury Community College
Springfield Technical Community College
